Blackness is:

Agnew Coming to L.U.
Soccer Team Scalps Redmen

by Curt Cohen

After a 1-0 opening day victory through the first half, The Lawrence University soccer team (U.L.U.T.S.) scored three straight goals and held on to the lead to beat Ripon College, 3-1.

The Redmen have continually covered up on both teams and felt the pressure of having three years unbroken record of clean sheets broken at the hands of the Oes. After Lawrence scored a goal with a 5-2 victory over the Carls, it would be a safe bet that a little revenge might be in order, one year later.

Lawrence scored its final goal in a one-on-one situation deep in the final minutes of play. Raphy Harrison pushed a smooth pass from the right wing to Ken Kosidlo, streaking in from the left. Kosidlo, alone with an open net, scored from two yards out, opening the score to 3-0.

In the second half, Lawrence managed to score on Lawrence late in the second half when they played an extra man. Coach Ternes was detected in interfering with a Ripon forward and an indirect kick was awarded from outside the free kick line. U.L.U.T. set up a wall on half of their own goal line next to goalie Hall "Hunt" Taylor. The perfectly aimed shot found the upper corner of the goal, well over the heads of the Lawrence "Freaky" sigh.

Vikings Lose Again

Well, it happened again. Lawrence University's football team, for the fourth time this season, failed to obtain any of the glory that is displayed in the victory over Grinnell. This week's turnovers and triumphant were given the Redman from Ripon, who soundly defeated the Vikings 24-0.

Ripon, normally quite weak on defense, put it together for an outstanding homecoming performance. Entering the game as the second poorest defensive team in the conference, they held the Vikings to a paltry total of 7 yards, well below their average of 16 yards per game. As for the Viking offense, the rushing game was particularly weak. Only a net of 2 yards were gained on the ground, although this statistic includes the 102 minutes yards the quarterbacks lost by kicking 8 field goals.

The passing game too, was well below average. "We didn't play well," said Roberts, "We couldn't get our passing game going because they blitzed a lot." Only 8 of 25 passes found their marks, 1 of which was intercepted by a Ripon defender.

The Viking offense, to say the least, seemed pitiful. Their goalie was pitiful...he seemed content to play out the game, perfect aimed shot found the upper corner of the goal, well over the heads of the Lawrence "Freaky" sigh.

A donation of 25c will be paid worldwide travel. Excellent summer job or career. Experience required. For more information regarding paid and non-paid practices please contact:

SKAFW Dept. 11 P.O. Box 2049, Port Angeles, Washington 98362

Vikings' Success: Strengths: Strengths: Weaknesses: Weaknesses:

Overall: Not reported to be very strong this year, but have prived a few teams; picked in to win this game. N. C. Coach Roberts: remarks: A few very strong teams have taken it hard this year. If Lawrence can keep defense honest. They run their backs straight up middle. In order to do well on Saturday, we're going to have to stop their passing threat. We need a big and consistent pass rush. We also have to stop their ground game.

Covert's comments: "It's going to take a super effort to beat this team from Northfield, Minnesota. Lawrence is going to have to reach deep down and find out what they're really made of. Up to now, the Vikings just have not been able to produce...and they had better start doing so... if this defense is able to continue, the Vikings are going to get beat this week. Their passing attack is too strong. We have a hard time to handle, so Lawrence is going to have to stop their passing game by shutting down the field to keep the ball out of Carleton's hands. Perhaps when Lawrence has the ball, change at QB to make the defense feel what matters even now, there is very little leadership and threat from the key position. Maybe playing before the home folks, students, parents, and alumni will help in pushing Lawrence to a monumental effort. I certainly hope so or it will be another long day. It's about time for a change. Prediction: I feel Lawrence will give Carleton a strong game, but will fall short.

Jock Shorts

ICE HOCKEY

The Lawrence University Ice Hockey Team is in the organizational stage in preparation for its upcoming season. This weekend, the interested freshmen and returning veterans are expected to participate. The season will be under the direction of Captain Curt Cohen and Alternates Cote and Treanor. The schedule is as follows:

SEASON: -Women: Please see "Women, Men and Experience required. Excellent summer job or career. Summer travel. Perfect summer job or career. Information for the following students" section.

SEASON: -Men: Perfect summer job or career. Experience required. Summer travel.

The First Annual Ladies' 1-Mile Run

THE FIRST ANNUAL ladies' 1-mile run got off with a (ugh) bang, 6 minutes and 51 seconds before Lynne LaJone (third from right) crossed the finish line in first place.

Soccer Team Scalps Redmen

by Curt Cohen

After a 1-0 opening day victory through the first half, The Lawrence University soccer team (U.L.U.T.S.) scored three straight goals and held on to the lead to beat Ripon College, 3-1, last Saturday.

Ripon managed to stay nearly even with the Vikes early in the game due to the slips in the Lawson Falk backfield. Coach Bill Denis however kept the Vikes defense on their toes and continually covering up on both teams.

Midway through the first half U.L.U.T. decided to go into action and instructed them to work on both ends of the field path Besides being a mile long, it was one of the hardest matches this weekend giving the Redmen an edge.

The teams have been known to be one of the biggest rivals in the Midwest. The two teams have been battling for the last 40 years and have never been able to come out of the game unscathed. This year's fierce battle. The DG's and the Pi Phis are expected to provide a good show down.

Delta-G Phi Rivalry

To Blaze on Field

Tuesday afternoon at 1:30 p.m., at the bottom of Union Hill, the girls of Pi Beta Phi and Delta Gamma meet in the oldest football rivalry since Ripon versus Lawrence. The teams have been practicing several times a week, preparing for this monumental game.

Under the direction of coaches Bob Cardine, coach of the Pi Phi and Eddie Edwards, coach of the DG, the girls have been transformed from individual pictures of femininity and style to a star-level, finely tuned football machine. The tone of the game is expected to be brutal; neither side will go or give mercy.

Both teams have numerous letterwomen returning from last year's fierce battle. The DG's tight defense is led by defensive captain Stanwell Stateman, along with standout Pus TimTim Ross and Eddy Edmiston. On the other hand, the Pi Phi's defense is well protected thanks to Lou Lou Myers, a surefire pick.

When the ball changes hands, the DG's quarterback, Bob Benjamin, will try to find Captain Marshall and the offensive captain O. J. Nixon down the field. Trying to stop the DG's offensive attack will be the Pi Phi's tough defense back Aggie Anson.

Marquette's outstanding distance runner Jim Hiner is slated to give the freshman Vike a battle for first place. The Marquette team is known to be one of the strongest in the area and Coach Davis is relying primarily on a good showing from Janie Jay Lake, who has been running well throughout. With the addition of Shim Jones, Beres, Coach John Chandler and Senior Brian Farmer. The meet is scheduled to take place on Saturday morning. At 11 the annual Lawrence University Cross Country alumni meet will take place on the course.

Some of the outstanding Lawrence graduates this year are Chuck Merri (L.U.T., 46), Bob Smizwick (L.U.T., 47), and Doug Gilbert (L.U.T., 71).

448 (third from right) crossed the finish line in first place.

THE FIRST ANNUAL ladies' 1-mile run got off with a (ugh) bang, 6 minutes and 51 seconds before Lynne LaJone (third from right) crossed the finish line in first place.

Black X newspaper in Chicago.

LUNA—Dr. Harold M. Agnew, director of the Los Alamos Scientific Laboratory, Los Alamos, New Mexico, will be at Lawrence University Nov. 30 as a Woodrow Wilson Foundation senior fellow. Agnew is one of a number of representatives of business, industry, and the professions to participate in the senior fellowship program administered by the Woodrow Wilson National Fellowship Foundation. Provision, N.J., and sponsored by the Lilly Endowment of Indianapolis, Ind. The Lilly Endowment has provided a three-year grant totaling $9,000 to Dr. Agnew for his work on campus are still tentative, it is hoped there will be an opportunity for Dr. Agnew to appear before a general campus and a Fox Valley audience.

Dr. Agnew has been closely associated with the nuclear energy program since 1942, when he joined the Metallurgical Laboratory of the U.S. Army's Chicago division and was one of the group which worked with Enrico Fermi on the first nuclear fission chain reaction at the University of Chicago. In 1943, he joined the staff of the Los Alamos Laboratory, where he made significant contributions in the work of developing the first atomic bomb. Dr. Agnew is presently working with the 509th Bombardment Group as a member of the scientific team on the first nuclear weapon strike against Hiroshima, Japan.

A graduate of the University of Denver with a degree in chemistry, physics and mathematics as minors, Agnew attended the University of Chicago after World War II on a National Academy of Science Fellowship, receiving an M.S. in physics. He received his Ph.D. in physics from the University of Chicago, where he studied under Fermi, in 1949.

He returned to Los Alamos in 1949 as a staff member in the physics division, and has been with the laboratory since then, except for a period of absence in 1961 to serve as scientific adviser to the Supreme Allied Command in Europe at NATO headquarters. In 1962, Dr. Agnew returned to Los Alamos, he was named head of the Weapons Division. In this capacity he directed specific research in development of nuclear weapons and nuclear fuel cycles.

On Sept. 1, 1973, he became director of the Los Alamos Scientific Laboratory and is responsible to his technical achievements, he has served two terms as a member of the New Mexico State Senate.

document provided a three-year grant totaling $9,000 designed for "promote greater contact, understanding and sharing of ideas and experiences between the academic community and the outer world."

At Lawrence, Agnew will participate in seminars and meet with students both in formal classroom sessions and informal gatherings. Although plans for

Ecologist To Discuss Predators

(LUNA)—A discussion of animal behavior in terms of environment will be presented Tuesday, Nov. 6, in an open Science Colloquium-Biology Seminar by Dr. Warren P. Porter, behavioral ecologist in the department of zoology at the University of Wisconsin-Madison, will speak on "Environmental Constraints of Predators" at 4 p.m. in 191 Wasendorf Hall.

Porter and his students have developed biological models which help predict how animal behavior will be altered by physical and biological changes. He will emphasize how physical changes to the environment can affect the activity of predators and yield insights into behavioral evolution and the potential for natural selection. Precise information on the characteristics of different forms of life may increase understanding of why certain animals are found where they are and may improve the probability of survival in the event of a major environmental change such as a new Ice Age.

AAA Sponsors Brunch

The Association of African Americans of Lawrence University will sponsor an Invitational Brunch. The "AAA Invitational Brunch" will feature and discuss the African American experience in the U.S. among faculty members, students, and others interested in the topic. The brunch will be held in the Hillel Center of the Lawrence Union from 11:00 a.m. to 12:30 p.m. The cost is $5.00 per person, and reservations are required.

Dr. Harold M. Agnew

We wish to acknowledge the faculty of the Wasendorf Center for their contributions to this event.

Dr. Warren P. Porter
Halt the Intrusion

To the Editors:

I live in a dorm. It is my home, and I come home. Sometimes, I like to sit in all my belongings and be comfortable. However, when I am in a dorm, I feel like I am trapped. I do not have many options for entertainment, and I feel like I am spending most of my time in my room.

But how many times do I feel like I am home, and with my mouth open and active, scurried out of my dorm room? I feel like I am in a chair, my chair, in my dorm, and I feel like I am in control. I feel like I am in my own space.

To the W e e k.

This probably isn't the proper thing to say, but I think kids are friendship this year than in the past few years. They've gotten a lot loner.

President Smith, address to parents in Stansbury Theater on October 27, 1973.

Actions Speak Louder

By Emily Miller

Last week, during Nixon's press conference, the question of our President's situation was discussed thoroughly. However, this last week showed that national consciousness by a very aggressive and receptive reporter. The assessment involved is twofold. First, Nixon's integrity has been shaken, and then the question of the political system, which is so important, was discussed.

This probably isn't the proper thing to say, but I think kids are friendship this year than in the past few years. They've gotten a lot loner.

President Smith, address to parents in Stansbury Theater on October 27, 1973.
Hamlet Collage Examines Character in New Light

by Connie Spheeris

Almost every student of Shakespeare's works has studied Hamlet as a tragedy, and attributed to the protagonist the qualities of a tragic hero. One might sympathize with the man in terms of his tragic flaw—his inability to avenge the death of his father in a respectful manner which would befit him to the throne. Hamlet usually emerges as a pitiably weak character who is unable to act upon his desires.

Kevin Laiing, cast as Hamlet, must portray a man who is torn between his desire to avenge his father and his respect for the King. His portrayal of Hamlet should be reflective of the majesty of the text of the original play. Hamlet, to fully grasp the meaning of this rendition, the audience must be familiar with the text of the original play.

Lawrence's director for the production, Mark Malinauskus, has interpreted the character of Hamlet. A collage as the symbolic representation of the apperceptions of Claudius, because Hamlet cannot face the king directly. He is represented as a parallel to today's "mocking-cadamy," who are vervece but not active.

Malinauskus's belief that there is a beginning to the end of the idea of Hamlet is the idea of the audience to rearrange the verses of Hamlet and to perceive it in a more modern audience, while retaining the essential in Hamlet. To fully grasp the meaning of this rendition, the audience must be familiar with the character of the original. Malinauskus has merely taken the main outline of the classic play; to scrutinize him as a person noted by the majesty of the drama itself.

Marowitz believes his "Presidency In Crisis" will be explored by Kevin Laiing. The character Malinauskus' ending strongly suggests so that one might better appreciate the character of Hamlet. To fully grasp the meaning of this rendition, the audience must be familiar with the text of the original play.

Homecoming Extravaganza

O.J. NIXON spraints in unscathed for the only touchdown of the game.

DG’s Dump Pi Phis: Defense Dominates

by Pat Kuetzger

Despite the onslaught of typical cold, wet Appleton weather, spirits went undampened for the annual DG-Pi Phi Powder Puff football game last Sunday afternoon. Those brave enough to risk the rain were rewarded with a football game last Sunday afternoon. Those brave enough to

President Smith as court members Andy Kalnow and John Sterba look on.

GARY BELLACK accepts his title of Homecoming King from President Smith as court members Andy Kalnow and John Sterba look on.

The two teams had been practicing for weeks and after an extensive warm-up session consisting of “Vitamin-enriched” refreshments, calisthenics, and ferocious cheers, the two teams descended on Union Hill and commenced their battle. The Pi Phi’s in orange, elected to receive and DG “Destroyer” Dorris booted the ball into play.

In the first half, the two teams discovered how well matched they were. While there were a number of completed passes and some fine running on both sides, Halftime activities started with a display in intricate cheers and acrobatics by cheerleaders Carl Cherney, Jerry Porecak, and Jim Fortush. Carl’s pink plaid skirt and cheer of “We want blood” added color throughout the game. At this time the Homecoming Court was announced as Matt Sigler, Andy Kalnow and John Sterba.

President Smith did the honors of announcing as Matt Sigler, Andy Kalnow and John Sterba. President Smith did the honors of announcing as Matt Sigler, Andy Kalnow and John Sterba. President Smith did the honors of announcing as Matt Sigler, Andy Kalnow and John Sterba.

The same close fighting continued in the second half until the first, and only score of the game was scored in a “Bomber” Benjamin hand-off to O.J. Nixon (DG). Swinging to the right, he tore almost twenty yards for the touchdown. The Pi Phi defense fought back though and frustrated the conversion at attempt. Despite interceptions and determined efforts on both sides, the game ended Dig 6, Pi Phi’s 8. Limping their way up Union Hill, both teams congratulated each other on a game well played. Coaches Bob Garbe and John Hainer for the Pi Phi’s were just as proud as DG coaches Eddie Edwards III and Mike Nowak. Dave Barkley and Steve Lemons were to be commended for their impartiality and enthusiasm. The Pi Phi’s promise revenge next fall. Time will tell.

JIM FORBUSI, Jerry Porecak and Carl Cherney (horizontal) form the "T" in "Delta Gamma" as they provide cheers and acrobatics for the game.

The general depression of Friday night was greatly added to by the famous Lawrence press escape-bash of Saturday night. It was quite a display for any parents up that late. There’s not much to say about Sunday. Any parents left were taken in Dewar’s fabulous Sununchaf. At BIU a head. They probably won’t be back next year.

How to sum up? The football and class reunion, the pep talks and all that try, I suppose, to recapapture (or perhaps capture) the old spirit. But as we know, in the fifth year of the Nixon watch, it is all just so much damp and moribund organizations though they may be, for the beer and dancing the Saturday night. It was quite a display for any parents up that late. There’s not much to say about Sunday. Any parents left were taken in Dewar’s fabulous Sununchaf. At BIU a head. Homecoming Weekend

The big holiday weekend opened with President Nixon’s press conference (not to be confused with news conference), which, even without the rainy weather, would have put a damper on the general happiness of the thinking Lawrence I, for one, would not be able to take any more of those fantastic, hysterical attacks on the press, and since I can only be angry at myself in respect (mine for the President being long past), I write on. All of which places my subject of the homecoming parents’ weekend in its proper perspective.

Vista To Visit LIJ Campus

ACTION'S Peace Corps and VISTA will be on campus Tuesday and Wednesday, November 6 and 7, to assist potential applicants to the two full-time volunteer programs. Helen Kott, former Peace Corps volunteer in India, will conduct personal interviews during the two days in the Placement Office. General information will be available on a table in the Student Union, and a 30 minute film will be shown Tuesday afternoon at 4:30 in the Riverview Lounge.

Goblins Revel In the Quad

by Carol Steinman

A noisy invasion of pint-sized ghosts, witches, hobos, gypsies, and assorted goblins trooped into the basement of the Delta Tau Delta fraternity house last Tuesday afternoon for the annual Halloween Party for faculty children. The children ate their way through astonishing quantities of treats between bouts of bobbing (and diving) for apples, passing a hot potato, and musical chairs — carrying some all they could manage.

The challenge of the sponsors, the Delta Gamma's and the Delts, was to match their professors with the children. Given the proliferation of masks and make-up, many associations became clear after the maskwearer's confidence was gained. To say whether the big kids or the little kids had a better time would be impossible, judging from the sticky fingers and parting comments, the faculty progeny had plenty to tell their parents and friends. Their level of conversation exceeded that of most kids their age — as well as their timely remarks. One seven-year-old who lost out on musical chairs was overheard uttering a very collegiate "Oh, shit!"

As for the big kids, they entertained and were entertained tremendously by the next generation of academia's elite.

Kott explains, "Many people believe that filling out an application obligates the applicant to join Peace Corps or VISTA. This is not true! It merely gives Peace Corps and VISTA the chance to match the applicant's abilities and talents with the requests from host communities here and overseas. An applicant makes his or her decision after receiving an invitation based on the matching process which takes about three months. "This means that one has to plan ahead even if he is just thinking about it now."

Applicants from practically every field of study are needed for the training cycles that start in January, February and March. This includes liberal arts and social science as well as specific studies.

Peace Corps service is overseas for two years, and that of VISTA is here in the U.S. for one year. All travel, health, and living expenses are paid while the volunteer serves the community that requested him on a full-time basis.

Photo Meeting

There will be a meeting Thursday, November 8 at 7:30 p.m. in Riverview for access with anyone with any interest in the art of photography. All are invited — beginners through advanced. Possible aspects for discussion include: rudiments of developing and printing; photo aesthetics; photo history; the great photographers; a seminar group designed to critique each other's work; better photo facilities at LU, and photojournalism.

The meeting is designed to get a solid overview of the range and degree of local interest in photography, as well as to get people together whose ideas are similar.

We hope that one or more serious groups will result from this meeting. For further information call Elliot Berlin in Trever at ext. 311 or Steve Hirby, ext. 227.

LOWELL, the son of Morty Schwartz, has his cake and eats it too.

Committee Plans Renovation of Main Hall

by Lisa Weiss

Dedicated to the social science and humanities students may be, it is often difficult to concentrate when they are huddled in their chairs for warmth. The Committee on the Restoration of Main Hall, headed by Dr. Waring, recognizes the need for a total re-vamping of the interior of the building. Problems besides the heating system plague faculty and students. Many faculty offices in the building are tiny, making it virtually impossible for more than two people to be in the room at a time. The interior and classroom furniture are also inadequate. The slight inconvenience of having half the classrooms on only the fourth floor and basement seems slight until the actual need arises. The committee spent last year discussing and formalizing ideas for the renovation and Dr. Waring feels these plans are 70 per cent sure.

According to Dr. Waring, the building will be totally evacuated during the renovation. Originally work was to have begun June 15 and continue through the fall, but renovation has been postponed until the money can be raised. The cost is estimated from $600,000 to $1,000,000.

The alumni have taken the renovation as a special fund raising project, in addition to their regular contributions to the annual Fund. Funds $110,000 have been collected or pledged. The trustees will probably wait at least three quarters of the amount on hand before starting construction, according to Mr. Headrick, vice-president of the alumni fund. Right now, $114,000 may now shift to raising money for the administration, attention must be shifted for Main Hall. Private contributions are being sought as well as foundation grants. Mr. Headrick pointed out that Lawrence University cannot take on the government loan, as it did when renovating Sage and Dorr오s.

The government will loan money for work on dormitories but not for Main Hall because students pay only in the form of a room loan. Although planners are unsure when renovation will begin, they felt that the library will be finished before starting to work on Main Hall.

The Heritage room is perhaps the most interesting innovation planned for Main Hall. Decorated as an 1850's drawing room with authentic furniture of the period, the room will be the only major space not used for classrooms and faculty offices. According to the planners it will be used for literary functions and receptions.

State health laws make it necessary for a few major changes. Staircases are to be constructed at two ends of the building rather than in the middle. The building will also have an elevator to provide transport for the handicapped. Otherwise the building is a landmark and Dr. Waring plannered that the outside will stay the same.

Most of the classrooms and seminar rooms are planned for the basement and first floors. A few will be on the second and fourth floors, but the three upper floors will be reserved mostly for faculty offices. The plans show future bathrooms in the basement and on second and third floors.

Members of the committee realize it will be difficult for the faculty and students to hold classes when there are no classrooms. Although when work does begin, it will probably be in the summer, there is at least a one year gap between Main Hall and the new library. The only solution for the University will be to "make-do" with what is available. Hopefully the library will be completed so seminar rooms can be used for classes there. Vintage classrooms in the Conservatory and Seniorhens Youngchild halls will be put to use as well as in other parks in campus buildings.

After being subjected to the down-spurring of later years. The historic sites were equally exciting finds. These three were further south and consisted of ceramic burial grounds. One, dating from about 190 BC, was extremely rich in tomb l 材, including intricately painted and sculptured figures. The archeologists had to dig through twelve feet of "cultural debris" before uncovering the village which was comprised of 15 dwellings. They also recovered an old thousand ceramic dishes, and pots, which were all of high quality made with a fine paste and fired at a high temp."erature. They also uncovered the various stages of the simple fish design on the pottery shreds through the years - culminating in highly complex and intricate abstract and geometric designs of later years.

Carls, Oles Beat Vikes

by Curt Cohen

The Lawrence University Soccer Team (1-2-1) had a long Homecoming Weekend as it dropped two close games to Carleton College. Friday, 2-1; and to St. Olaf College, Saturday, 2-0.

Friday's loss to the Carls came quite unexpectedly as the Vikes had completely blanketed the Carleton defense from the opening kick off. Lawrence forwards John "Pete" McGee and co-captain Robby Bearman bombarded the Carleton goal seemingly throughout the first half, yet failed to dent the net. McGee was foiled twice early in the game by the Carleton defense and drew two penalty kicks, but both opportunities were blown as McGee shot wide, the net and halfback Dave "Wild Man" Wray. Standing for McGee, was beaten by the Carls' goaler from 13 yards. Both the Vikes and the Carls came to play Friday but the game degenerated into an extremely physical contest which saw at least two Vikes, fullback Wally Kitchener and halfback Jeff Petrock taken from the game.

After a scoreless first half, Lawrence managed to draw first blood as inside-left McGee took a long feed from halfback Kyrann Dowling and headed the ball past the charging goaler. Carleton managed to tie the score minutes later, however, as co-captain Bill Denis, the only stopper on the Vikes' fullback line, was taken out of the play, leaving goalie Hall "Hunt" Taylor all alone. Carls forward Peter Van Wyk deked Hunt and barely managed to beat the prostrate Vike goaler.

Lawrence Coach Hans Ternes commented on the Vikes' lack of "physical contest which saw at least two Vikes, fullback — other than Denis, Kletzker and halfback Jeff Petrock taken from the game. But also," added Hans, "we can't get shots off from the front line".

The injured Ole managed to stagger around until his brother Glenn Slocum confronted Hunt with threats of blood. "Policeman" Denis, 6' 1", 160 lbs., immediately came to the rescue and escorted the enraged Ole from the Vike goal. St. Olaf put the game out of reach with its second goal of the game. A swarm of St. Olaf's forwards around the Vike goal after a corner kick, had goalie Taylor and the Vike defense scrambling around the goal crease. An Ole shot was saved by Hunt and Hall again saved on the rebound. St. Olaf's fullback Andy Dunn came up with the rebound, however, and beat the Vike Gaulette on a slow, lazy shot into the lower corner.

Lawrence was forced to play catch-up soccer for the remaining time, and it was obvious that the Viking forward line felt the pressure. The St. Olaf Oles were content to run out the clock and when the whistle had ended the game, Coach Ternes could only nod his head exclaiming that the game was an "honorable loss".

Tomorrow the Vikes take on University of Wisconsin-Stevens Point. This is the first meeting several years for the two clubs and it appears that if Lawrence regains its pre-season form, the Vikes may be able to even up their record at 1-3-1.

Vikings Clip Carls: 24-7

by Jon Cowett

Coach Ron Roberts remarked, "Defensively we played real well, offensively we were able to control the game. The thing about this team is they want to play football. We talked about some things early in the week after getting beat by Ripon and they really responded." Beyond that, they did as the Lawrence University Vikings, before a small homecoming crowd on a miserable, rainy and cold Saturday afternoon, stomped the Carleton Carls 24-7. The name of the game for the Vikings was defense, as Lawrence's "stirring angry man" forced eight turnovers (five interceptions and three fumbles) which in turn led to 17 of Lawrence's 24 points. Leading the charge were freshman quarterback Ken Moyser and tackle Ron Pruell.

Leading the charge was defense, as Lawrence's "stirring angry man" forced eight turnovers (five interceptions and three fumbles) which in turn led to 17 of Lawrence's 24 points. Leading the charge were freshman quarterback Ken Moyser and tackle Ron Pruell. These two men came up with a key fumble recovery or a pass interception to give Lawrence an added dimension to its offense. Enemy defenses can no longer rely solely on watching for a drop back pass. Moyser can run the option real well and the defense doesn't know when to come up for the run or drop back for the pass."

The game commenced as if the contest would be a typical "yardage" game. The first quarter was scoreless and it consisted of a game tempo of 3 running plays and a punt with a fumble recovered. Lawrence's fortunes changed in a hurry in the second quarter, however. The Vikings opened up with a key defensive stand on third down and got Lawrence into a third and long situation. Moyser hooked up with wide receiver Tim Pruell for 23 yards on the play. It was a tremendous catch by the sophomore end to make the play a reality. Moyser overthrew the pass, but he leaped high, stretched out, and clutched the ball. Ebers' kick was good to make it 7-0. This was to be the last score before halftime, although Lawrence would penetrate deep into Carleton's territory 3 times, only to be stopped by 3 missed field goals and a fumble. Carleton received the second half kickoff, but McCready's defense was solid on its own. Two plays later, Lawrence scored its second TD on a 41-yard TD run from Steve Ehren. Ebers' kick made it 14-0. Three plays later, Carleton scored on a 12-yard TD pass from Moyser to McCready. The game was a real satisfying victory for the young Vikings. For the players, it meant the restoring of a little confidence in their own ability and faith that they could go out and do a job against a good football team. Ed Engelsdaal might have stated the feelings of all his teammates when he said, "It was a matter of pride. We're just getting tried of being laughed at or written off. We knew we had to work hard and do everybody one job." For the coaches, the game was seen as a sign of progress in the team's and their own development. Coach Roberts made this point by remarking, "I guess I take a while to get grated all the way around. This is a young, new team and we are a young staff." At this point, Lawrence had to worry about complacency like the second quarter. Lawrence scored a final and decisive touchdown, putting the game out of reach, on a 12-yard pass from Moyser to McCready.

Roberts discusses strategy

"Scheduling is very important," Roberts commented. "We had the importance of getting off on a winning note. Then we had to show up to win but that wasn't the case anymore. That's the way Lawrence University football coach Ron Roberts looks at the 1:30 p.m. Saturday, Nov. 3, meeting with Beloit College in the Lawrence Lawmen Center."

"I was talking with a sportswriter about rivalries and obviously he and I weren't communicating," Roberts said. "I was saying every game is important to us. It doesn't matter who we're playing. It's always the upcoming game that is most important to us." Roberts said the Vikings are not used to losing, and he feels they are always the upcoming game that is most important to us.

The veteran Midwest Conference coach, now in his ninth season, added: "We're trying to establish something positive this season. Once we're back on the winning track we can look at certain games as big rivals. Until that time, we must treat each opponent with the utmost respect." Roberts started "I think Beloit is on the way back. For a while they were an easy victim. That's not the case any more. At one time Knox, Beloit and Carleton were almost certain wins, but the league is a lot stronger now."

Lawrence, 2-4 beat Carleton 24-7 last weekend, while Beloit, 1-5 lost to Coe 61-14. Coe beat Knox, 38-14, to remain at 1-5.

Last year Beloit and Lawrence tied 14-14. "The Vikings fired a final and decisive touchdown in the fourth quarter, putting the game out of reach, on a 12-yard pass from Moyser to McCready. The game was a real satisfying victory for the young Vikings."

Beloit Strengths: Strong defensively against the run, two excellent halfback runners, a good passing attack.

Weakness: Almost nonexistent passing attack, can be beaten by fast running teams.

Outstanding Talent: Linbacker Kurt Oeflein, Jim Forbush and Terry Kent.

The Vikings held a 38-14 advantage in the series with Beloit and Roberts owns a 4-1 record.

"We must get our program untracked," Roberts said. "We played well against Knox and lost a game we should have won. We'll try again the last time. Then we run into Coe and Monmouth who look like the wind of our sails." The rain last Saturday morning seemed to be a note of foreboding for the Lawrence University Cross Country Team. With it came the Marquette Warriors and a Lawrence defeat. The Marquette team, led by the ex-continental distance runner Jim Heras, managed to amass an 18-39 victory over the L. U. runners. As was expected, it was a race full of excitement. Hans Bruenne was again the top contender for Lawrence as he finished in 27:24. He was followed by Viking runners in 7th, 8th, 9th and 10th. The Vikings have a strong showing in the un- derclassmen. Delia runners Jane Hansen and Amy Merriman finished 1st and 2nd respectively in a strong showing for the un- derclassmen. Freshman girls Lisa Stohl, Paula Trever, Martha Bryan, and Senie Victoria Bims rounded out the finishers.

Intrafras

The I.P.C. won the Intrafras Two Mile Cross Country race, taking the first 3 places. The Vikings placed second on the efforts of stalwarts Dave Rafter (1st), Jon Groarty (2nd), Todd Traudt (11), and Marty Schabb (12). Third place went to the I.P.C., paced by George Steed (5th), Kevin Shadan (8th), and John Senier (17). Other participants included Joel Marty (4th), Gene Wright (7th), Don Elms (8th), and Mike McGraw (13th)."
