Haphazard history for presidential search

The following article is excerpted from the Chronicle of Higher Education, April 24, 1978, by T. Y. Watkins, San Francisco.

The average college presidential search committee is composed of 15 people, although the president of the college is not a member of the committee. The president, however, does choose the committee members and is responsible for the search.

In general, the qualifications of the committee members may include being a member of the college faculty, alumni, students, or trustees.

The search process usually begins with the college president meeting with the Board of Trustees to discuss the search. The president then appoints a search committee, which is usually composed of faculty members, alumni, students, and trustees.

The search committee is then responsible for interviewing candidates and making a recommendation to the Board of Trustees. The Board of Trustees may then appoint a new president from the recommendation of the search committee.

In some cases, the search process may be delayed or interrupted due to unforeseen circumstances, such as the resignation of a current president.

Overall, the presidential search process can be a long and complex one, requiring careful consideration and planning to ensure the selection of the best candidate for the position.
Letters To The Editor

To the Editor:

In a surprise move this week, the brothers of Kappa Tau have announced their intentions to judge in the intellectual competition of the annual Delta Psi Fraternity's trivia contest. This decision has raised eyebrows among the brothers, who have always maintained a sense of community and collegiality. However, the decision to compete in the trivia contest last year's choices, and we, as members of the fraternity, believe that the rise in tuition fees poses a significant problem for students, particularly for those who are already facing financial hardships. We, therefore, protest this increase in faculty and trustee representation, which, if approved, would leave students and alumni with three representatives instead of the current two. In any committee which makes long range decisions, the members of the committee presumably represent not only the current faculty, but also the interests of future students and alumni. Similarily, the student members of the search committee represent not only present student interests, but also those of future students. We do however, believe that students, current students or alumni, should have a say in the selection of the next president of the university.

To the Editor:

This letter is in response to the yearbook's mention of the proposal to increase faculty and trustee representation on the President's Search Committee to four members each, thus leaving students and alumni with three representatives. In any committee which makes long range decisions, the members of the committee presumably represent not only the current faculty, but also the interests of future students and alumni. Similarily, the student members of the search committee represent not only present student interests, but also those of future students. We do however, believe that students, current students or alumni, should have a say in the selection of the next president of the university.

VD is nothing to clam about

by Penny Whittle

"We like to get VD back on its feet this year. Get people used in the idea that the campus literary magazine is here and it's worth needing," says co-editor John Griffin. "In the past five years VD has many changes.

Mark Daikanes, associate professor of English, says that VD was vigorous in the early 1960's and 1970's. Three editions were put out every year. But, he says, "Society has changed and more people are interested in VD than before. For the benefit of all concerned, an increase in the handling of VD... the Federal Government just hasn't seen the need to spend enough to work on the problem." He continued, "Sure there's a lot of literature out, but people take advantage of it and read it?"

Griffin went on to say that there exists an imperative way of avoiding VD--aside from avoiding sex itself. Obviously this provides no solutions, but there are ways to possibly lower the chances of catching VD. 1) Wash thoroughly before and after sex contact, 2) Urinate as soon as possible after sex, 3) During sex, the combined use of a condom and contraceptive cream is especially effective. Contrary to the belief of many, the Pill does not eliminate the possibility of catching VD. In fact, it may increase the odds because it produces a change in body chemistry.

Griffin emphasized the idea that a sexually active person "has a responsibility to his/her partner(s). Getting a check-up twice a year is ideal. But the disease would not be able to advance too far into any stage. It should be looked upon as being as natural and necessary as any medical examination. And although it is not widely known that the spreading of VD is a Federal offense.

Though spoken of collectively, there are 20-25 venereal diseases, and a person may be infected with one of them. At the time most common are gonorrhea and syphilis. With gonorrhea, a male may experience burning or itching while urinating accompanied by a yellow, green or often blood stained pus. Women the disease is much less common, but when present, it may not be irritation or a discharge to signal the presence of the germ. Syphilis presents itself in theTS as a moving and exceptionally well-acted film..."
The pluses and minuses of + and —

Dear Lester, Mr. Stanley, and Mr. Rosenthal.
Lawrence's Registrar suggests that students would not want the pluses and minuses, that if 40 percent of the minuses were shown to be more prevalent than pluses, this would then actually lower GPAs.

Lawrence is considering adopting the plus-minus system to stop "grade inflation." This post-1960s illness that he has not seen any "grade minus distinction in order to lower GPAs and stop "grade inflation." This post-1960s illness that he has not seen any "grade minus distinction in order to lower GPAs and stop "grade inflation." Rick Davis writes non-award winning play

Dead in his family has ever won a Lawrence, despite his talents, his academic background, or his artistic bent. "I B ert Goldgar is my lone example," says Rick Davis. "No one in my family has ever won a Lawrence, nor have I."

But one man has: Lawrence University's Theatre Department Chair John "the Rat" Warrington. Rick Davis feels there should be a slot for a long-time professor. The Theatre Department Chair, who has been teaching for over twenty years, has been a driving force behind the success of Lawrence's Theatre Program. He has been a mentor to many students and has been a pillar of the Lawrence Theatre Department. Rick Davis feels that there should be a slot for a long-time professor in the Theatre Department, as there is for other departments at Lawrence.

Davis, after a fairly successful production of "The Inspector General," was involved with his current major, Theatre and Drama. Revising the notion that Theatre is somehow a "guilt" major, Davis replied that "only the courses numbered above 50 could be considered "ghouls.""

"Theatre is a different matter entirely. Asked if being a Theatre Major had been the main goal, Davis replied that "when I first came to Lawrence, and participated in the Theatre Festival, I could never imagine being an exalted to the blissful and perfect state in which to which I am now clinging tenaciously, even Chikan Tsuchulas."

The Lawrence has discovered that there are innumerable fourteen Trivia Masters, a record number. We questioned whether "Trivia is like a University Committee," as patterns. Not only are the topics quite similar, but the end results are equally significant... and of course, the common involvement is the key.

"For this year, the conversation took a more personal direction. I believe that Theatre is considered, by some scheme or term, to be universally revolting. They will not, of course, be perfect for the job for which I was trained..."

Rick Davis feels there should be a slot for a long-time professor in the Theatre Department, as there is for other departments at Lawrence. He feels that there should be a slot for a long-time professor in the Theatre Department, as there is for other departments at Lawrence.

Hamar Room massacre

Fanatical devotees of the sect of St. Tuchulus ("patron saint of Tree Top") are believed dead of a Tree Top "inadhesion" during a seeking ceremony at the Hamar Room—the glint of tree top still in their skulls. Also dead in LCC representor's office. Tuchulus, whose sappy body was discovered at the door of the union capital's "inadhesion" office, was of St. Tuchulus' disciples, who had been sent direct from the East coast to pick him up. The Tuchulus who had been investigating reports that St. Tuchulus was preventing national attention when he moved all of the members of Lawrence's Tree Top into the Hamar Room, some were compañeros of the tree top space and most were compañeros of the Tree Top. Kersten managed a tight reign on his team but a physical, crooked, mentally competent and laconic individual, he wants to wear a white hat and sell good automobiles.
The Winning Combination

Admittedly many have thought the conclusion true for some time. I commented Hah, "I have followed the long tradition of sociological theorists and merely explained the obvious. But what is important is that I have proved it. It has taken years of my life, but I have proved it." Hah will be speaking on this new breakthrough in the Viking Room on Wednesday, February 29, 1979. At that time, he will be available for answering students' questions, shaking hands and signing autographs. The Lawrence community is urged to attend.

SAINT TUCULUS (disguised as Malvina Laird) exacts an Oath of Triviality from the former High Prince of Ashwaubenon and an unidentified member of his harem. (Note: Martin Buber's hand can be seen above the wig.)

Lawrence's renowned political theorist Chong Do Hah, Professor of Government, has received theorist Chong Do Hah, Professor of Government, has received national acclaim for his "Excrement Theory of Waste." Hah has proven conclusively that all theory is burrshit. The brilliant theoretical masterpiece "Theories can neither be created nor destroyed, but can only be lighted. I do not understand the cynicism of Hah. Admittedly many have thought what is important is that I have proved it. It has taken years of my life, but I have proved it." Hah will be speaking on this new breakthrough in the Viking Room on Wednesday, February 29, 1979. Thought for the day... by Ed Burbecke

"I really appreciate this opportunity, Ed. I love my job, usually I love the only job I can think of, but when students are smart, when students are honest, you know something or something like that. I mean, you can't get very philosophical about a lack of hot water or dirty carpets. But you can, you can!"

"Let me get serious for just a moment. I really think that in college you'd be so much nicer if everyone just spent their time smiling and laughing and having a good time. You don't hear students singing in the dining halls the way they used to in the old days. They used to get part harmony and everything.

"Well, I guess if I had to suggest one thing for all students to do, it would be to study hard and keep your room clean."

Roach Infested

The Lake Forest College Fighting Foresters were shocked Tuesday night when Bob "Wong-Kong" Kasner actually arrived in Lake Forest with his team, without getting hurt!

Kasner, notorious for driving his car into a Minnesota river and then having to be rescued by the "local Madam," was spotted the other day singing in the Viking Room like he was in the old days. They used to get part harmony and everything.

Without a hitch, history students will find useful the "Summary of Recent Books (1964-1966)." The details account of the 1919 summer riots in Chicago as well as the report of the Barrow Brothers incident (1933). Psychology students will be fascinated by a section on Priscilla and its intriguing photograph showing the "Use of Chains."

Riot Control, by retired U.S. Army Colonel, Rex Applegate, is the book that the Barrow Brothers Offensivest suggested that he was not to read. The book makes easy and fast reading, as it is brilliantly illustrated with photographs and drawings.

DATELINE 1999

Entire faculty is now Tenured. Major hospital supply company donates walkers for the faculty.

Tyranny Strikes at the Arden. Miss Riley's Cat Tiddles dies at 100.

Courtney Hills Sells the Texas Cuckoo: As he was walking the migrant workers from his 100 foot yard past his wife says, "He always had such rapport with the lower peoples. I think his training is history taught him the meaning of empathy."

Deborah Townsend Does Something: Commending the fact Townsend said, "I know I did something but I'll be damned if I can remember what it was."

Search Committee is Still Having Problems Replacing Smith. The question still remains: Who will care the nest bed?

Of the 18 prospective candidates, five of which are women, five of which are Harvard graduates, two likely finalists are graduates from the Culinary Institute of New York.

Summer Richman to Leave Lawrence: Talent Scouts, after viewing the 1994 Lawrence Gong Show, offered Richman a 2 million dollar contract to take place of Chuck Barris on the national television hit. When asked for comment Subbie responded, "All the duphurts in the world couldn't keep me at Lawrence. With just a few bad jokes and ugly hats added to my repertoire, I, Subbie M. Richman, will be on my way to Hollywood."

Tom Johnson Jailed: Rumors of Johnson's underworld ties to Professional and Hancock Insurance companies personnel recruitment departments are confirmed after 8 week fact finding trial.

Queen Elizabeth Refuses to Take Presidency at Lawrence: In a message to the President, Queen Elizabeth replied, "We've sent presidents to Harvard you know."

Washington Program Questioned: The American University has been relocated to Newark, New Jersey. The old campus will be turned into a giant computer dating service.

Adenwalla Questioned by Police: What's in that pipe you're smoking?

$0.69

For Drovers and Trailriders

309 W. College Ave., Appleton

kurtas, embroidered tops, afghani dresses and vests, clothing imported from America surely you know that you missed the coupon worth five dollars. You aware that you missed the January sale but your erudition can still pay off._

As A Member You Will Be Entitled To:

- Tape Record Cleaners
- Phone Cartridges
- Cords
- Stethoscope

Educational Seminars will be held on the campus in its 15 Classroom.
FREE inspection and open, analysis of your present equipment.
Cost to join is only $369.00 but membership is limited — so sign up soon at

606 W College, Appleton, WI 731 8953

Plenty of FREE PARKING in rear of Store.

*All of the above applies to members and non-members alike. Not limited to college students.
*Any item purchased at the store that is over $25.00 is eligible for your 10% discount, so come in and shop.

*FREE Parking in Rear of Store.
Tough, the type that never heard a rip-off. Both those guys were jokers in. It would be a dirty job, girl between here and the nearest taste of the endowment money no but somebody had to do it.

President Smith was trying to pry the tree top from his ears with a better opener when I left his office. As I strode across the campus, I decided to walk over to the Lawrentian office and have a look at some back issues. I hoped they could give me a clue as to the location of Page, Tuchulus and the missing green backs.

I'm used to reading the obituaries, comics and the police records in the paper, as I didn't find much to go on. There were stories about staff cutbacks, Trever Hall, animals in trees, etc. One article did catch my eye. Jack Manwell was scheduled to retire from the University's Physical Plant. I decided to have a talk with him.

Manwell's secretary was a shapely blond with a body that would have been declared ob­scene in 18 states. I gave her my shapely blond with a body that would have been declared ob­scene in 18 states. I gave her the kiss that took her breath away. She cleared her throat for me to speak.

"Can't talk now, Wood. I'm working on order forms for the new Brooklyn kitchen and shut­ters, need peace. Maybe I can fit you in next week. Take a walk." Enough of this. I grabbed two handfuls of sport jacket and skin and fired him up out of his desk.

The look of panic in his eyes said that I had a new place in his appointment book.

"That's been happening around the campus, Jack." It's been pretty bad. Someone took an entire floor of Coleman Hall and threw it into the Fox River. Damn kids have no respect for property. Except all the guys in Trever.

"I thought Trever was a show."

"Manwell looked surprised. "Now, that was a month ago Their House Council just ordered a new dormful of furniture. They had a swimming pool and sauna last year. They got a Jacuzzi, new parking lot, the works."

"Thanks for the info, sugar. Let's have a drink before you head for Florida. I'll let you pick up the tab." Things were beginning to fall into shape as I headed out the door. Trever had to come up with something to go with the backs for their new goodies. If they caught in the missing endowment, they'd be drinking gin and tonic for the next couple of hundred years.

I gave him an elbow in the gut and lurched toward me like a drunkard. I knew my drunks never heard a rip-off. Both those guys were jokers in. It would be a dirty job, girl between here and the nearest taste of the endowment money no but somebody had to do it.

As I walked in the door, I saw three punks stuffing a writer into a wastebasket. I asked one of them where I could find the man in charge.

"Try the sauna," he granted and kept on stuffing. Great place—Trever.

As I reached the sauna, the heavy door of the sink hit me in the face like a brick. I knew my search was over. I unholstered my .30 and let fly at the door. It swung open, and I could make out three figures in the steam. I recognized Pope Pontius Page U, St. Tuchulus, and President Smith.

"Very good, Mr. Wood, but I'm afraid your responsibilities mean you cost you quality. Take your time..."

It was like a scene from the old silent movie. The Batman TV series. I took him off the pedestal and hurled toward me like a factory worker for Ford in Indiana. I gave him an elbow in the gut and he went down like a shot. St. Tuchulus slipped on a bar of soap and skidded down the hall, screaming all the way.

I turned and faced Smith. "Your Move, Prez."

He clenched his teeth and muttered. "I guess you just can't beat good Weed. Milo."

I laughed on loud. "So I've been told, Prez, so I've been told."

Conclusion: After two hours at the station and three at the bar, I finally got everything to make sense. Batman TV series. I took him off the pedestal and hurled toward me like a factory worker for Ford in Indiana. I gave him an elbow in the gut and it didn't work. My punch was too far.

So here I am. Back in this office for another command. I guess they're all the same. After 15, just another job. The Killer Weed. No joke. No woman too small. Look over.

I'm in the back.

"The Case of the Missing Endowment"

by Mike the Killer Weed.

Private Eye

So Pope Pontius Page U and Saint Tuchulus figured into the missing endowment rip-off. Both those guys were tough, the type that never heard a rip-off. Both those guys were jokers in. It would be a dirty job, girl between here and the nearest taste of the endowment money no but somebody had to do it.

President Smith was trying to pry the tree top from his ears with a better opener when I left his office. As I strode across the campus, I decided to walk over to the Lawrentian office and have a look at some back issues. I hoped they could give me a clue as to the location of Page, Tuchulus and the missing green backs.

I'm used to reading the obituaries, comics and the police records in the paper, as I didn't find much to go on. There were stories about staff cutbacks, Trever Hall, animals in trees, etc. One article did catch my eye. Jack Manwell was scheduled to retire from the University's Physical Plant. I decided to have a talk with him.

Manwell's secretary was a shapely blond with a body that would have been declared obscene in 18 states. I gave her my shapely blond with a body that would have been declared obscene in 18 states. I gave her the kiss that took her breath away. She cleared her throat for me to speak.

"Can't talk now, Wood. I'm working on order forms for the new Brooklyn kitchen and shut­ters, need peace. Maybe I can fit you in next week. Take a walk." Enough of this. I grabbed two handfuls of sport jacket and skin and fired him up out of his desk.

The look of panic in his eyes said that I had a new place in his appointment book.

"That's been happening around the campus, Jack." It's been pretty bad. Someone took an entire floor of Coleman Hall and threw it into the Fox River. Damn kids have no respect for property.Except all the guys in Trever.

"I thought Trever was a show."

"Manwell looked surprised. "Now, that was a month ago Their House Council just ordered a new dormful of furniture. They had a swimming pool and sauna last year. They got a Jacuzzi, new parking lot, the works."

"Thanks for the info, sugar. Let's have a drink before you head for Florida. I'll let you pick up the tab." Things were beginning to fall into shape as I headed out the door. Trever had to come up with something to go with the backs for their new goodies. If they caught in the missing endowment, they'd be drinking gin and tonic for the next couple of hundred years.

I gave him an elbow in the gut and lurched toward me like a drunkard. I knew my drunks never heard a rip-off. Both those guys were jokers in. It would be a dirty job, girl between here and the nearest taste of the endowment money no but somebody had to do it.

As I walked in the door, I saw three punks stuffing a writer into a wastebasket. I asked one of them where I could find the man in charge.

Got the Blues?
Moderators are finished, it's Winter Weekend, home is too far away and you don't ski. What's a Lawrentian to do?

a) study
b) cry
c) none of the above

Friday and Saturday are up to you, but you can start the weekend out in fine style at the Coffeehouse Thursday night. Eclipse is making its first appearance at Larry U. Eclipse is an excellent three-man acoustic-electric guitar band out of Green Bay. They specialize in mellow rock in three-part harmony and play enough variety to please any Lawrentian (almost). As usual, the Coffeehouse will be loaded with good music, and the band is providing complimentary beer "while it lasts: come early. Songs, snacks and cuts at the Coffee house next Thursday night 9-10:30.

Tropos is from page 3 especially last year. Funding was low, few copies were printed, and the books were distributed haphazardly. This year the editors have posted signs in several buildings. Distribution will be handled through a table in the lobby of Deaver. Funding has been the major problem. "Last year," Curtin says, "the editors were running around the last few weeks of the fall term trying to get money." On Tuesday the editors met with the LLCC Board of Control and received funding. They also note that contributions from local businesses, faculty, and administrators have helped. Poetry, prose, and artwork is still needed for the winter issue. The deadline is Feb. 8. All manuscripts should be typed, signed, (including your extension and campus address) and placed in an envelope. You can hand work to any of the editors, put it in the Tropos mailboxes in Main Hall, or in a collection envelope in your dorm.

"To put out a good Tropos, we need good material," says Polk. To attract good writing Tropos is offering prizes of $20 in the best work in each of the categories of fiction, poetry, art and photography. All manuscripts will be returned.

Haley to represent Wisconsin in contest
Percussionist Timothy Haley, a Lawrence music performer major, will represent Wisconsin in the Music Teachers National Association Wurlitzer Collegiate Artist regional competition Saturday in Cincinnati, Ohio.

Haley won first place in the state competition in percussion last October at the University of Wisconsin-Oshkosh. A 1976 graduate of Oshkosh West High School, Haley performed several pieces on marimba, vibraphone, timpani and multiple percussion.

Winners of the regional contest in Cincinnati will advance to national competition in Seattle to compete for $600 first-place awards.

Haley studies at Lawrence with Herbert Hardt, specialist in percussion. He will present his junior recital Thursday, Feb. 8, at 8:30 p.m. in Harper Hall in the Music Theater Center, 135 N. Park Ave., Appleton.
**Personal Announcements**

A house that has accumulated in the Lower Campus has been turned over to the new house of the Freshman class. See the names of the new house on the bulletin board.

Dear Jan,

I miss you, I love you - be my valentine. Can't wait till spring vacation.

love ya.

Ex-fermaton-a-la-Carte is taking a vacation for Winter Wonderland...See you in two weeks with songs to please your palate.

Everplayed the "Dating Game?"

Bachelorette No. 2 can be contacted in Piana, ext. 302.

This year's Academy Award for best performance by a group goes to Freshman Floor Trever for their imitation of manners at lunch last Monday. Congratulations, Prof. Hah, on getting a box seat to this spectacular performance.

Dear Trever boys,

Thank you for your fine behavior Monday.

Becky

Rumor has it, R.Y. no longer has crabs.

Mark Eden has a course for men?

I miss you, I love you - be my valentine. Happy Birthday.

WANTED: A tall man over the age of 60 - to escort a desperate school to her pledge formal, Feb. 7. All expenses paid. Please contact 204 south 306 - ext. 815 to offer service.

Attention: Are you Natters on campus trend of being discriminated against? I mean, where do you go to the bathroom? Join Na now! For info call Becky Stevens orAnne B ACTION.

**General Announcements**

DOOR COUNTY ARTIST Trevor Thruston will be the featured guest artist at the Appleton Avenue Art Fair, 713 S. Park Ave. The fair is open to the public without charge.

**COMING SOON**

HOLY WEEK SERVICE will be held on Good Friday, April 13, at 10:00 a.m. in Harper Hall.

LAWRENCE FACULTY MEMBER George Marion will be the featured guest artist at the Appleton Avenue Art Fair, 713 S. Park Ave. The fair is open to the public without charge.

date

**HOLIDAY TRAVEL SERVICE**

**THE LU GEOLOGICAL Club**

Lawrentian Sports

Lawrence hits the roof, sinks to basement

The Lawrence men posted their second major upset of the year in defeating Ripon last Saturday at Alexander Gymnasium. 87-67

The win earned LU respect throughout the league and the Vikings were considered as serious contenders for the divisional title. After the Ripon game, the Vikings were tied with both Beloit and Ripon for league honors with 2-2 records. To get to the top, LU had to beat both of the conference pre-season picks to win the conference. Ripon and Beloit.

The defending conference champions Redmen came to Appleton with a 9-2 record overall, and were unbeaten in conference play. Ripon boasted a much taller team, 6-4, 6-4 across the front line that established a strong inside game. To complement their big men the Redmen had two hot-shooting guards. On paper, the Redmen had another side of three teams that Lawrence has managed to beat only once in the past 5 years.

The evening's events were overshadowed by the move behind the net of the LU Junior Varsity scored over Ripon. The victory started with a defensive switch early in the game. The Vikings opened with a man-to-man defense, allowing the Ripon ball handler plenty of room to score. Many of the Vikings' players were still in transition from playing with an outstanding defense, Lawrence extended its lead to 3 with 8 minutes left.

Fish facts to know and tell...

The absence of nearly half the Viking Swim Team accounted for its defeat to Illion Benedictine last weekend in Little Italy. Despite strong performances by John Chambers and Jim Acker, the Vikings were unable to spark a man-for-man with the larger Benedictine team.

In the 1000-yard freestyle, Acker was narrowly defeated but place in the 300-free, with times of 2:01.4 and 2:06.8 respectively to pace the Vikings to an early lead after three events. Nevertheless, Illion Benedictine swept the 50-yard free and the one-meter diving competition. The Vikings hope for a shorthand victory diminished. Even Chambers' second victory of the day, the 300-yard free (1:47.1), and every event and beat us with seconds and thirds.

This weekend the Vikings host the Robert Barnard Invitational that promises to be an exciting meet. The team will be at full strength and, according to Coach Davis, there should be some "fast swimmers." This is the Vikings' first meet of the year and round it is that the immortal Pete Manwill be making a guest appearance sometime during the meet and proceed to walk on water, much to the amazement of everyone except Coach Davis. The meet starts at 1:30 Saturday, and buses will leave at 6:30 hour starting at noon. The team would appreciate your support.
