

THE LAWRENTIAN

VOL. XLIII. No. 17.

LAWRENCE COLLEGE, APPLETON, WIS.

Thursday, February 2, 1926

32 Coeds Will
Play in State
Bowling Meet1,000 Women From Wisconsin Will
Congregate in Appleton Thurs-
day for Bowling Tourney

Thirty two Lawrence girls will be among the one thousand women who will bowl in the Wisconsin championship tournament which will be held at the Arcade alleys on Thursday, Friday and Saturday. Lawrence bowlers will form six booster teams of five each, and two girls will serve as substitutes. The games in which they bowl will take place Friday evening.

Medals are being offered as rewards to the winning teams of the regular league, and cups will be given to the winners of the booster league contest.

Lawrence teams which will enter the tourney are: George Walsh Co.; Violet Christensen, captain; Virginia Geddes, Genevieve Reiss, Marion Noyes, and Florine Peables.

Voigt's Drug Store: Sylvia Zillman, captain; Kathleen Stanley, Mildred Leyda, Monica Jones, Mabel Rimey.

Sehabe and Son: Dorothy Viel, captain; Marjorie Lockard, Marie Buritz, Eleanor Stolper, and Hazel Herpst.

Frazer Lumber Company: Bernice Case, captain; Marian Thwing, Mildred Feller, Edith Lees, and Janet Miller.

Redner Auto Company: Thelma Kroll, captain; Doris Gates, Mary Morton, Irene Eapeneth, Lyda Gebert. Graef Manufacturing Company: Frances Gates, captain; Bernice Johnson, Mildred McEathron, Paivi Elonen, Winifred Newberry.

Florence Valentine and Margaret Duxberry will act as substitutes.

The firms whose names the teams bear are sponsoring the teams and paying their expenses, for the sake of the advertising resulting.

Advanced Class In
Public School Methods

That there are still many things in the field of Music Education that remain to be discovered is being demonstrated by a class of third year Public School Methods students at Lawrence Conservatory of Music under the direction of Professor Earl L. Baker. The class has worked out methods whereby the eye and ear span of music can be further developed and has discovered that rhythm is something to be seen as well as felt and heard. A series of musical tests similar to the Thorndyke-McCall reading test is being produced at the present time as well as proper score cards for music contests. These score cards will be used at the chapel during the next annual Public School Music demonstration. A project in music appreciation and efforts in teaching so-called monotonies how to sing has held a prominent place in the curriculum of this department.

Professor Baker's students are in close touch with the University of Columbia and have received many valuable suggestions from the Music Education department there.

WE BEG YOUR PARDON

By mistake, the names of Alice Diederich, Appleton, and Paivi Elonen, of Franklin Mine, Michigan, were omitted from the list of senior elections to Phi Beta Kappa, which was printed in the Friday Jan. 29 issue of the Lawrentian.

Mrs. G. L. Richards, matron of Russell Sage, on Sunday morning received the news of the death of her son, Olin Richards, at Sante Fe, New Mexico. He had been ill for some time with tuberculosis.

Discuss Petting,
Smoking and Drinking

The subject of girls' moral relations with men was treated in an informal fashion at Y.W.C.A., Sunday, January 31. Helen Norris had charge of the meeting and Mary Reeve lead in the discussion.

The problem was stated in the following manner: "Shall we, or shall we not in the application of our moral standards make compromises in our relations with men,—that is, what shall our conduct be?" The compromises of Lawrence girls were listed somewhat in this order: petting, smoking, drinking, coming in after hours, entertainment at questionable places, cheating, and conversation with men on matters in bad taste.

The girls discussed these compromises freely, deciding that they result from: the desire to gain popularity with men, the desire to be free from conventionality, the desire to have fun on a spree, the wish to keep up with the reputedly fast college boys, the attempt to be good sports, the wish to have something to brag about. All of these tendencies were designated as signs of imperfection in a girl.

Then, the next problem was the effect that these compromises have on the individual. The conclusions reached on this were: that the compromisers are classed with fast people as the crowd is judged by conspicuous persons rather than by each individual, that the girl's powers of resistance are lowered, that the girl loses her sense of judgment of right and wrong, that she can not know true love, and that she also loses her feeling of self-satisfaction. With these factors forming a background, it was decided that compromises are bad and that they should be completely and consistently avoided.

As a result of this resolution and discussion, the group concluded that the remedy for the situation is to have each girl maintain the strength of her convictions; to stick to her ideals; to talk the matter over with more people regardless of their beliefs; and to seek association with those who have the right ideals.

Standards of Ripon
College Are Raised

A more stringent entrance requirement for students has been adopted by Ripon college, according to an announcement by Dr. Silas Evans, president of the institution.

Letters will soon be sent to high schools notifying prospective students that they must effect a high standing in high school work if they wish to enter Ripon. Only students graduating from the upper three-fourths of a high school class will be admitted. However, if deficient applicants pass an entrance and intelligence examination, they will be allowed to register.

Lectures Made More
Interesting by Projector

To make accounting lectures more efficient, the commercial department has installed a new Bosch and Lomb projector in the lecture room of the accounting department. One of the advantages of the machine is that it presents a clear, correct copy of the problem that is to be lectured upon. In the past, it has been necessary to spend from 10 to 15 minutes in writing the problem on the blackboard. The screen is unusual, in that it has a silver worked, non-porous surface that will not absorb any of the light thrown upon it. The slides to be used are prepared by the commercial department and will be used in all accounting lectures. The machine cost \$140.

Exams At Con This Week

"Con" students are not so fortunate as to have even a day's vacation between semesters. This week first semester examinations are being held at the Conservatory and registration will take place on Friday, February 5. The new semester will be in full swing on Monday morning, February 8.

Sage Cottage One of First
Houses Wired for Electricity

If you are ever embarrassed because the lighting in Russell Sage Cottage isn't altogether stable or annoyed because the Appleton street car system isn't all that it might be, stop to consider that the Cottage was one of the first houses in the United States to be wired and that Appleton proudly displayed the first trolley car to the world in 1888.

Not more than ten days elapsed between the wiring of the first house, in 1882, and the wiring of Russell Sage Cottage. The building was then owned by Mr. H. D. Smith of Appleton and was situated on the present site of Russell Sage Hall. It was a picturesque old home, known to Appleton people as a center of hospitality. The hand-carved woodwork, inlaid

floors, and quaint fireplaces remain, although the building has been altered considerably since it was converted into a dormitory.

It is also of interest to note that the familiar old bridge, which is now used as a shortcut between Smith House and Russell Sage Hall, was originally built to bring the H. D. Smiths into closer contact with another branch of the same family, living in what is today known as Smith House.

The first street car was a small affair, about fifteen feet long, and was run by means of a double trolley. Inasmuch as the machine could be operated at only one end, a turntable was used to reverse the car for the return trip.

Phi Kaps and Sigmas
Still Lead Greeks

The Phi Kaps and Sigmas still repose peacefully on the top rung of the Interfraternity basketball ladder after another week-end of games in which lopsided scores abounded. All of the known kinds of the court game were dished up for the onlookers by the Greek men.

In the first game, the Psi Chis were only able to ring up four points to match the eight of the Sigmas. This was a close score, but there was plenty room for improvement in the shooting. This win left the Sigmas in a tie for first place. Bent played a pretty game for the losers.

With Jones and LaBorde dropping nearly all of their baskets, the Betas had no trouble in snowing under the Phi Taus for a 26 to 6 win. The Delta Sigs were easy meat for the D.L.'s, scoring only 7 points to the 24 of the winners.

The Phi Kaps romped all over the Thetas in the last game, scoring 31 points while the Thetas were collecting seven. This win kept the Phi Kaps in the lead.

The following are the standings of the Interfraternity league at present:

	W.	L.	Pct.
Phi Kappa Alpha	3	0	1.000
Sigma Phi Epsilon	3	0	1.000
Beta Sigma Phi	2	1	.666
Delta Tota	2	1	.666
Psi Chi Omega	1	2	.333
Delta Sigma Tau	1	2	.333
Phi Kappa Tau	0	0	.000
Theta Phi	0	3	.000

What the Clubs Are Doing

RESEARCH PROVES
INTERESTING

Two and a half months in the interior of South America during a revolution, following the assassination of a governor of Venezuela was only one of the interesting experiences of Dr. A. D. Power while doing research work for the Carnegie Institute. Dr. Power, who spent several months in South America, entertained the Spanish Club on Tuesday, January 28, with stories of his experiences in that country. More than once the hospitality of the Spanish-American people proved delightful, said Dr. Power, and the several river trips into the interior of the continent were interesting. One of these trips was accomplished in record time, six weeks being spent in actual travel. Dr. Powers believes that when one is cast on one's own resources in a country, the best way to learn that language is from conversation with children. This, he thinks, is due to the fact that children use simpler forms of speech than do adults, and that they are more willing to talk with foreigners.

MARY WHITING READS

"Allegheny," by John Tainter Foote, and "The Scent of Roses," by Mary E. Wilkins Freeman, were two

short stories read by Mary Whiting, '26, at the regular meeting of the Athena Literary Society, Friday, January 29th.

POSTERS INTERNATIONAL
FRIENDSHIP

One of the most interesting clubs on the campus, and yet one of the least prominent, is the Cosmopolitan Club. The organization, which was founded in 1923, exists for the purpose of promoting international friendship, and of acquainting students with peoples of other lands through contact with foreign students at Lawrence. The club was inactive during the first quarter of this year, but has recently reorganized and will meet regularly hereafter. Frederick Fung, '28, is the president, Bernice Johnson, '27, is secretary-treasurer. Present members of the club are: Eunice Davis, '27, of Richland Center, Helena Koletzke, '27, Appleton, Bernice Johnson, '27, Fond du Lac, Jun Atarashi, '28, Osaka, Japan, Nabuyuki Otani, '29, of Kyoto, Japan, Fredrick Fung, '28, Canton, China, Miss Twila Lytton, dean of women, who has spent several years in the Orient, and Miss Sophie Bachofen, whose home is in Switzerland.

Three Seniors Are
Elected to Mace

Lowell Huelster, Oshkosh, John Taras, Baraboo, and Chester Seftenberg, Oshkosh, are the senior men newly elected to Mace, as announced by Dr. D. O. Kinsman in chapel Monday.

Mace is an honorary fraternity, which has a high standard intellectually, morally, physically, and socially, and which elects each year from the senior class, men who come up to these standards.

Present members of the fraternity are: John Barnett, Neenah, president; Reed Havens, Appleton, secretary-treasurer; Willard Henoch, Milwaukee; John Zussman, Appleton; George Christensen, Oshkosh; and Dan Hardt, Neenah.

Measles Scare Is
Largely False Alarm

Hopes for another vacation are shattered! Although rumors concerning the wide-spread attacks of measles both at the college and at Appleton High School are very persistent, there seems to be no basis of fact to the reports. In fact, according to Theodore Sanders, city health officer, cases of the child's malady have decreased in the city since January, when forty cases were reported. Only three cases have been reported to him from the college.

Miss Hazel Taylor, Lawrence nurse, has four collegians under her care for measles at the present time—Miss Jessie Pate, instructor in French, Gerda Bank, '29, Victorin Johanson, '27, James Hill, '29. Three other students with possible symptoms of the disease have been isolated for forty-eight hours until accurate diagnosis is possible.

Rumors that Appleton High was closed yesterday because of the spread of measles, were denied last night by Miss Mary Orbison, school nurse.

Brokaw Boys Walk
Home From Ripon

Forty miles on foot, twelve hours continuous walking on icy roads—all to see Coach A. C. Denny's Lawrence varsity squad in action against the old rivals, Ripon!

The two frosh got down to the game all right, but they found themselves in the hostile town without any way of getting back to good old Lawrence and their beds in Brokaw. But it was only forty miles, and, depending on their youthful strength, they set out from the Redmen's town about 11 o'clock Friday night.

They rested half an hour in a canning factory in Pickets, counted the signposts to Oshkosh, where they stopped to eat, and then on again to Appleton. They dragged in town twelve hours after the time of their departure from Ripon.

Dean Ingler Will Speak
at Boys' Conference

"Knighthood of Man" will be the subject upon which Prof. F. M. Ingler will talk at the Boys' Conference of the Upper Peninsula of Michigan at Marquette, on Saturday evening, Feb. 20. Other speakers at the three day conference are Dad Elliott and "Hurry Up Yost," of the University of Michigan. Between 600 and 800 boys will attend.

Waterman Sings in Chapel

Dean Carl Waterman presented a beautiful and varied group of songs in chapel Monday, consisting of the following:

Night and the Curtains
Drawn - - - - - Ferratta
Until - - - - - Sanderson
The Ringers - - - - - Lohr
As an encore, Dean Waterman sang "Sunrise and You," by Genn.

Reserve books may be taken out at 9:00 on Fridays and Saturdays only.

Hilltop Team
To Play Here
Thursday EveMarquette Men Out To Humble Den-
nymen and Avenge Last
Year's Defeat

In what is to be regarded as one of the battles de-luxe of the season, Marquette University of Milwaukee invades Appleton Thursday night to engage the Dennyemen in a game in which they hope to avenge the one-sided defeats of last year. Smarting under last year's apparently easy Lawrence victories, the Hilltoppers come here Thursday set for one of the crucial games of their season, and incidentally, in fact, quite so,—"believe they pack the punch to humble the Dennyemen, even on their own floor."

Coach Murray's Milwaukeeans come here led by Captain Bob Demolting, running guard, Heimsch, Algeo and Herte—all veterans of one or more years' experience. With the above as a nucleus and Razner, E. Herte and Dunn to complete the roster, they are fully prepared to wage a battle royal.

Demolting with his flashy dribbling
is the main cog in the visitors' court
game. He led the Hilltop sharpshoot-
ers in baskets accounted for last year
and consequently is a threat in both
departments of the game. As a side
issue, it might be interesting to watch
the contest, "Demolting vs. Briesse."

Both are team captains, running guards, and excellent and effective dribblers. Bringing up the van in importance are Connie Dunn, rangy center, F. Razner, forward and this year's scoring ace, E. Herte, another forward who has displayed brilliant form in previous encounters, and J. Heimsch last year's center, now switched to a guard berth opposite demolting.

First Hockey Practice
Held Saturday Morning

A small but determined group of pucksters turned out for the first hockey practice at Whiting Field rink Saturday morning. Two teams were chosen and a practice game was played. Although there was quite a bit of fumbling in the passing and carrying of the puck, occasional flashes of brilliant play showed that there must be quite a bit of potential hockey in the systems of some of the players.

It is planned to organize four complete teams which will play each other several times in order to determine the champion. Probably a team of the best players will meet one of the city teams of the Fox River Valley later on in the season. Regular practices will be held Tuesday afternoons and Saturday mornings. Hockey sticks and pucks will be furnished by the athletic department; all players need is their skates.

Hutton, a former Canadian hockey star, is coaching the pucksters in the fine points of the game. Others who were out Saturday were: Aderhold, Hall, Mueller, Moore, Schini, and Stair.

Glenn Peart, ex-'27, visited fraternity brothers at the Psi Chi house over the week-end.

THAT STUDENT CONFERENCE

In an editorial headed "Down With Everything" the Daily Kansan discusses the Interdenominational Student Conference at Evanston during the holidays.

"Seemingly there was nothing slow about the conference," says the Kansan, "for after four days, nine hours to the day, the conference succeeded in turning out the following proposals:

"That the church excommunicate war, oppose military training in schools and favor internationalism through a World Court, league or disarmament; that it act as a finder in industrial relations; that it disseminate knowledge of birth control; that it continue missions but divorce them from propaganda for sects, powers, and specific civilizations.

"The Kansan" editor, however, is willing to assure us that "even though the students did not stop to consider the means to their end, they did emphatically establish their rights to free thought and speech; and, what is even more important, the trend of the mind of the modern youth has been indicated with clarity."

Less charitable, in his big brotherly attitude, is the editorial writer of the Marquette Tribune. His editorial, "We Moderns," though "not questioning the dignity of purpose behind the Interdenominational conference," plays up "the many choking chuckles by experienced papas and mammas since the dope was let out," and suggests that "Student Conference might possibly get farther and carry more weight if they concerned themselves with student matters."

We would like to know what the writer considers to be student problems. If the issues of war, military training, internationalism, industrial relations, birth control, and missions are not to be studied and discussed by students, then—why is a student? And just when would the writer consider that such matters came within

107 W. College Ave.

Since Friday night, "The Blues" seems to us to be the most appropriate name for our athletic teams.

And speaking of Ripon, we noticed this in the "Ripon College Days": "Anybody would think from listening to the Lawrence prexy talk, that they loved us up there."

Just at present, we should hate to have anyone hear our sentiments regarding our friends and neighbors at Ripon.

This name proposition is peculiar, to come back to our original subject. We think the simplest way would be to change the school colors. Now red and white, for instance—"The Flaming Youths"—how suggestive that would be. Or orange, so that we could refer to our women athletes as "Sun-kists." But since that seems to be impossible, we'll have to get along as best we can. We have one more suggestion:

"The Cannibals — we eat 'em alive."

WHAT SAY, MAX?

"How dear to my heart are the scenes of my childhood." Oh, to be a freshman once again! When I stayed at Brokaw, we didn't have such attractive residents as they apparently have now.

Filbert.

And a town fresh told us that if he'd known that there were such attractive maids at Brokaw, he'd have stayed there, too.

We understand that our debaters were stuck in a snow-drift on their way to debate in Cumberland. It seems impossible to us that anyone with such a hot line, or who shovel it so fast, should be stuck in any snow-drift for any length of time.

Reverie of An Unclaimed Blessing
Darkness falls around us
As leisurely we stroll
Along a quiet lane that winds
Toward a grassy knoll.

He tells me he loves me,
His eyes say he is true
His lips say that he will be mine—
If I'll allow him to.

the province of a young man or woman's rightful interests? On the day that the young person receives a scroll of paper engraved in Latin!

And as for getting further and carrying more weight—the aim of the conference was discussion. And when nine hundred students representing 176 colleges and 20 denominations show so plainly a tendency labelled by the "Kansan" writer as "Down with everything!" does not this tendency carry some weight with people who are watching the beginnings of public thought movements?

Fresh Team to Play Waupaca Thursday

"Dutch" Sylvester's freshman five, in conjunction with the Waupaca High School quintet, are going to furnish another curtain-raiser on Thursday night, before Lawrence's big game with Marquette.

The freshmen trimmed the Waupaca bunch on their own floor ten days ago and expect to repeat the performance on Thursday. Milton Portz has recently been placed with the few freshmen who are now on the varsity.

Negotiations for a freshman game with a team at Algoma, which would have been played there during the latter part of this week, failed to materialize.

Psi Chi Omega chartered a bus and attended the Lawrence-Ripon game in a group. Twenty members of the fraternity were present at the game.

Ripon Trims Dennyemen In Close Game

Blue and White Team Defeated By Ripon for First Time in Three Years — Score 24-20

Last Friday night Lawrence suffered her first defeat from Ripon in three years. It was a close score, 24-20, but the game was even closer. The score was tied twice, and until the final gun sounded it was nobody's game.

Davey Jones, the Ripon phantom, was the wonder of the game. As a team, Lawrence surpassed the Ripon aggregation in speed, passing, floor-work and even in shooting. Yet Lawrence was defeated, unable to cope with the uncanny Jones.

The entire Doehling defense was centered around this ace. Almost every pass was to or from him. If he couldn't get near the basket he could shoot accurately from any part of the floor. Jones himself made fifteen of the twenty-four Ripon points, and played the game without committing a foul.

Lawrence's shooting ace, Ashman, was watched so closely that he had scarcely a try at the basket. The game played by the Blues was a good demonstration of teamwork. No one man starred, but rather, all worked together.

First Half

Starting with the combination which trimmed Beloit the week before, Lawrence went down for the first score of the game, which was a free throw completed by Groves. In turn, Hauser of Ripon missed a free throw, and Jones bounced it into the basket on the rebound, making it two points. From then until about five minutes before the end of the half, Ripon held the lead. Snooky arched a long one through the hoop and tied the score at eight. Again, just as the whistle for the half sounded, Zussman sent one through the hoop from right under the basket. This tied the score, but Jones got a free-throw which made the score 12-11.

Second Half

Right at the beginning of the half, Ripon started off with two long baskets, from almost the center of the floor. After a few minutes of play, Lahr got down under the basket and received a long pass from Jones and slipped it through. A few minutes later, after he had made a free throw, he was disqualified on fouls for charging Jake. A little later Ashman was withdrawn and Sund sent in. Lawrence began long shots. Pete sank one and Zussman two, but the last one of Jake's came right after the referee's whistle and did not count.

That was Lawrence's last score. Time was called immediately after Ure missed a free throw.

Lawrence	F.G.	F.T.	P.
Zussman	2	1	3
Heideman	2	0	1
Ashman	1	2	4
Sund	0	0	0
Briese	1	1	0
Grove	1	2	2
Ripon	F.G.	F.T.	P.
Jones	6	3	0
Reed	0	0	3
Lahr	1	1	4
Hamley	1	0	0
Houser	1	2	0
Ure	0	0	3

No Final Dope In Midwest Champ Race

The Mid-West championship race is still as undecided after the week-end games as it was before. Lawrence dropped its encounter with Ripon by the score of 24 to 20. Carroll won its game with Loyola Saturday night by the score of 32 to 29, but lost to Lombard Friday night to the tune of 20 to 16. Beloit trimmed Knox in a rough and tumble fracas to the score of 32 to 29.

RESERVED SEAT TICKETS FOR THE MARQUETTE-LAWRENCE BASKETBALL GAME ARE NOW ON SALE AT THE GYM. PRICE 25c.

Ormond Capener and Harold Weidenkopf spent the week-end at their homes in Baraboo.

Professor Carl McKee, who has been ill with a severe attack of influenza for the past week and a half was able to resume his duties at the Conservatory Saturday morning.

Leslie Palmer, '29, left Saturday for his home in Iron Mountain, Michigan. Early in fall, Mr. Palmer's right arm was seriously injured, and since that time he has been under the care of a physician. He plans to re-enter Lawrence next fall.

Campus Sports

BROOKAWITES

The heretofore undefeated South Section bowed to the rejuvenated town team by a 10-6 score last Tuesday. The same night the North Section forfeited to the Centers. On Thursday the South was the gainer by another forfeiture on the part of the Northerners. The Towns again romped off with a victory over the Center gang by a 27-15 score.

So far they stand thus:

	Won	Lost	Pct.
South	5	1	.833
Town	3	3	.500
Center	2	4	.333
North	2	4	.333

GENERAL SPORTS

That the organization of the hockey league is entirely up to the interest displayed by the students is the verdict of Gebhardt, director of intramurals. The first practice on Saturday found ten fellows on the ice at Whiting field. In order to form a league there must be at least twenty-four men reporting regularly. Practice is scheduled for Tuesday at 4:30.

The New Bijou
The Theatre That Made It Possible.

p.m. if weather conditions are favorable.

SWIMMING

Those interested in the swimming team are requested to report for practice every Wednesday night at 7:30 in the Y.M.C.A. pool. Among the most promising of the men reporting are Rich, MacInnis, Colvin, Zuehlke, Cinkosky, Greenwood, and Weber. Fond du Lac 'Y' has asked for a meet and there are others interested in securing dates.

MORE INTERFRATERNITY SPORTS

An attempt is being made to organize a league of second teams among the Greeks. If the idea goes through, a greater number of men will then be included in the program. Games will be played on Saturday mornings from 8 to 12. No one man can play in both leagues, however.

CLOTHES
are a part of the picture

Tuxedos are much more commonly worn than formerly. It is practical for a great many men to own them, because the men and women you play around with—dancing, at cards, in clubs and restaurants—pay attention to clothes and find that this adds to their own satisfaction, to the pleasure of their womenkind and to the respect of the people you meet.

Men used to think that they must pay a fancy price for formal wear. In Styleplus Tuxedos you get for a very modest price a garment that for style, fabric appearance, wearing quality, fit and finish, answers every purpose.

Styleplus Tuxedos
\$40--\$45--\$50
Price Includes Silk Vest

Thiede Good Clothes

This giant hydro-electric unit weighs 750 tons and consists of a vertical shaft hydraulic turbine attached to an electric generator delivering 52,000 kilowatts at 12,000 volts.

**Bigger Generators—
Cheaper Electricity**

A 70,000 horsepower hydro-electric unit recently installed at Niagara Falls utilizes the same amount of water as seven former 5,000-horsepower units, yet does the work of fourteen such units. And it saves 700,000 tons of coal yearly for the nation.

As more and still more uses are found for electricity, larger and more economical generators are installed. At the power plant, as well as at the consumer's end, important changes and startling developments have steadily reduced the cost of electricity for light, power, and heat.

And wherever electricity has blazed its trail—in towns, cities, industrial centers, and rural communities—comfort and progress have come to stay.

Generating and distributing electricity concern the technical student. But electricity's application in the betterment of industry, the professions, and home life concerns every educated person. Cheap electricity means many startling achievements today, but countless and unbelievable possibilities tomorrow.

The General Electric Company, as of December 31, 1924, had 37,716 stockholders, of whom 45 per cent were women. The average number of common shares held by stockholders was 55. In ownership, policies, past and present activities, G-E is unselfishly dedicated to the cause of electrical progress.

A new series of G-E advertisements showing what electricity is doing in many fields will be sent on request. Ask for booklet GEE-1.

On The Screen

D. W. Griffith's spectacular jazz epic, "That Royle Girl," started Monday at Fischer's Appleton. It is a melodramatic screen version of Edwin Balmer's novel which created such a furor when it was first published serially in the Cosmopolitan Magazine.

That Mr. Griffith was not stingy of talent when assembling his cast is evidenced by the presence in the film of such players as Carol Dempster, W. C. Fields, James Kirkwood and Harrison Ford.

It was inevitable that "That Royle Girl" should find its way to the silver sheet, for its dramatic plot of a flippant, beautiful, pleasure-craving flapper's adventures in the jazz-belt and
