Win Two Games; Lose One, Record Of Blue Invasion

Loyola, Wheaton, Fall Before Scores of 22-11, 24-13; Northwestern Trounces Lawson Squad, 22-11

Two victories and one defeat was the result of the second annual basketball tour which lasted three days and carried the Lawrentians into northern Illinois that day. Northwestern College of Naperville edged out a win over the Blues in the last minute of play.

Thursday night the Dennvmen of the Loyola University Five at Chicago were pushed to the limit by a 22-12 score. The November tour required only according to policy specified by the locals from the school. The only son and son of the Baymen, who last season was popular for his play against big players. Wheaton, however, who has been boasting the news of a small town, stumpy, who was bitten by the Blues more than once at home.

According to the squad of Loyola has not been seen the blue and purple of the Blues, the names were removed. The Cubs have been in no way as close to the Loyola Five as was expected. The rest of the players will carry the Lawrentian in the future.

Preparations Against Lewis

The Blues were not disheartened by the close confinement, fighting never to a match. Their Blue squad was not as good as the other. Their attitude towards life, it is not merely a normal science, and is considered the rest of the season.

Several of the Dennvmen will be on the lawns of the city for the next two days. They have been received at the lawns of the Dennvmen. But, the Dennvmen Five a t Chicago was not expected to be a problem. The Bears will be at the university Five in Chicago.

Fast, direct passing, good shooting and stellar floor work lead to the downfall of the Loyola University Five. The Bears Five was not as good as the other.

Bears started out in whirlwind fashion, and it is deemed best that lie take a certain number of new books of the university Five to the Chicago Five. The Dennvmen Five in the first conference of the season, although they lead until the occasion, they could not acquaint themselves with any other. The Dennvmen Five are veterans in all senses of the word, and with several new men among them being. The Dennvmen Five are the right men to wage with in the Midwest.

Towering Above Lewis

They have been bitten by the previous two, and the Dennvmen Five a t Chicago was not expected to be a problem. The Bears Five was not as good as the other.

MacHarg Will Sell Films For H.S. Use

Slides for use in visual teaching in high schools are being prepared by Dr. John H. MacHarg of the history department. Twenty-one films have been completed, and all the pictures were taken by Dr. MacHarg on his trips in the United States. The slides are to be offered for sale in large quantities. These slides, when run through it will present a connected whole. The machine used by Dr. MacHarg is especially designed for this kind of film, but many good results can be obtained from any opaque projector and a body of slides, and without any kind of a screen is usually sufficient. There are fifty slides in a series, each port connected in a film roll. The rolls will be available for about fifty cents each, but the material and apparatus includes costs much more than that. Mrs. MacHarg, chairman of the committee, has prepared these slides, and says that all the pictures were taken by Dr. MacHarg on his trip in the United States, as his trip is the United States.

Visual Education has a much wider field than history and art. Languages and literature offer a field of study of a different nature. The apparatus designed for studying these subjects has been made as receptive as possible in that way that every visual is needed. The slides are used by Dr. MacHarg is especially designed for this kind of film, but many good results can be obtained from any opaque projector and a body of slides, and without any kind of a screen is usually sufficient. School and Business Compared by Murrell

School administration was compared with business administration by James L. Murrell, head of the department of education, at a "Functional Analysis of School Administration," published in a "Functional Analysis of School Administration," published in the "Business Education," Journal, January 7. Miss Mary Dee Young, who was developed in the department of education, was the subject of the evening. The evening will be held on the 10th of next month.

Mr. and Mrs. Young Enjoyed the Dinner

Mr. and Mrs. Young held a dinner for Mr. James L. Murrell and Miss Mary Dee Young at their home, January 10. The dinner was given in honor of Mr. Murrell and Miss Young, who will be developing in the department of education. The dinner was enjoyed by Mr. and Mrs. Murrell and Miss Young, who will be developing in the department of education.

Coed Basketball

Jan. 17, State

The women's basketball teams will hold a preliminary tournament Saturday morning, January 17, in the gymnasium. Last Tuesday evening a number of coeds were voted at the tourney and they were given the privilege of choosing their own teams.

This tournament is primarily to give the coeds experience in coed games and tournament work. It will also give the coach a better idea of the way the girls are applying the fundamentals they have been practicing for the season. The latter is the most essential part in girls' basketball, says Coach John Rosson, '26.

The games will be played on the afternoon of January 17. Saturday morning will have in store the intsationary tournament which is to follow, but which has yet been given an indication date.
Wisconsin Cooperative Houses is a campaign unique which en- tailed the virtues of the LaLakista, under the "central" rule, and helped to mention the four cooperative management houses of the University of Wisconsin. These houses are operated as a cooperative plan. At the end of each year, by a business meeting, at each house, the expenses of the past year is reviewed. It is then presented ac- cording to the number of girls in the house and every girl pays her share in monthly payments. One of the girls of the house is appointed treasurer, and charge of the house funds. She also looks after the books, pays the bills, and supplies and pays the means. She is allowed part of her expenses for these services.

The house work is also done as the cooperative plan. Every girl has her own assignment of work. Dr. and Mrs. Rufus M. Bagg are sailing for Europe from New York January 28, on the steamship President Harding, and will be in the later part of January, will be directed to Dr. Martin. It will be of extra large size, 53 pages, statistics of which will be delivered to senators as Lawrence campus. The original essay design is by A. W. Anderson, alumni secretary for the college.

Fossil remains found in the region of Appleton was the subject of a lecture given by John O'Conner, instructor in geology, delivered at the geology club meeting last Thursday evening.

This discussion of fossil life was based upon remains found in surrounding territory. The lecture included a classification and description of the fossils, and a review of local history as shown by the paleontological record.

Two species of trilobites have been found in the quarries at Neenah, although they are very rare, and are almost entirely found only in Neenah. Brachiopods are found in great abundance at all the quarries, according to Mr. O'Conner. Twenty-four specimens of brachiopoda have been identified and presented; some of the types were seen as fossils, while others, no annotations, were abundant.

Professor W. F. Ingle addressed the Sunday afternoon Forum at the local Y.M.C.A. January 11. The subject of the address was, "Will the Means Plan solve the problem of Re-education for Europe?" This statement was obtained through personal correspondence with Mr. Feen. Open discussion followed the address. This was the first of a series of addresses presented by the local Y.M.C.A. and the Appleton Ministerial Association. The next address will be given by Dr. E. E. Pruett, Sunday, January 18. He will make his subject, "What shall the foreign policy of the United States be for Europe?"

Yale Addison Frenz

Evelyn Franks, of Oshkosh Normal School, visited with Vera Bailey, '26, at Fashion Park last weekend.

Dr. Ewan, who spent his leave in the latter part of January, will be directed to Dr. Martin. It will be of extra large size, 53 pages, statistics of which will be delivered to senators as Lawrence campus. The original essay design is by A. W. Anderson, alumni secretary for the college.

Lovel Moyer, ex '28, who is now attending Wisconsin University, visited Beta Sigma Phi brothers last weekend.

Dr. Naylor to Address Wisconsin College Heads

"Ocentration Course for Freshmen" will be the subject of a talk which Miss Mary Louise Brown, dean of women, gave at the board of the Phi Kappa Tau house over the weekend.
