Hold Speaking Meet Today
High School Speakers Meet Here For Prelims and Finals

This afternoon at 3:10 the preliminary contests in the annual high school oratorical meet will be held in the auditorium. The prelims will be conducted under the auspices of the Public Speaking Department. There will be two contests, one in the morning, and one in the afternoon. The second contest will be held at 2:30 on Monday afternoon in the auditorium.

Increase Awards

The committee in charge of the contest announced that an increase of $200 in gold medals will be given this year. The $200 gold medal will be given to the first place in both contests. The amount will be increased to $300 in 1925.

Graduation Plans Finished
The 1924 seniors have just finished their plans for their commencement exercises to be held on May 22 in the armory. They will make use of the new auditorium, which will be finished in time for the commencement.

Farley Writes on Kant's Philosophy of Religion

Fred F. B. Farley, with an article on "Kant's Philosophy of Religion" in the May 22 number of the LaVerneian, adds another contributor to the Kant Committee. The article, which appears on page 10 of the magazine, is a rejoinder to a philosophical journal. The April number contains a number of different contributions to the Kant Committee, and the May number will contain a full review of Kant's philosophy of religion.

Pick Debates To Greek Conventions
Four of the campus Greek letter organizations are sending degenerate to national conventions this season. Phi Nu Sigma will send Helen Nosch '27, and Dorothy Field '26, to official debates and Mortie Hammond '27, as vice chairman, to Clear Lake, in the upper peninsula of Michigan, from June 29 to July 3.

The Lawrence chapter of Kappa Delta, in one of the Boston chapters, will be represented by eight active members and several alumni at its convention at Muskegon Island from June 29 to July 4. Delta Sigma Theta '26, will be the official delegate; and others who will go are: Helen Chase '26, Elizabeth Mullen '27, Lois Lindley '27, Dorothy Loge '27, and Margaret Bateman '27.

The T.A.B. of Kappa Sigma '27, will also send an official delegate to the convention. Between the two, the T.A.B. will go to the meeting on the 28th of June. The convention will be the opportune time for this purpose an intensive membership campaign. The Beta chapter has a special club, to be held open for a limited time, those that are interested are to be selected by religious doubts and talk over various phases of the organization. The Beta chapter will have the privilege of having his willingness to lead such a club.

The Greek Conventions are coming to Lawrence some time next year and the officers are pooling the plans for the Lake Geneva Convention.

Griffiths Device Tests For Deceit
Are you revealing anything untruthful in your conversations or admissions yet? Then it's too late to avoid Dr. J. R. Griffith's psychology laboratory with its ingenious device for detecting lies and for revealing concealed meanings.

Most intriguing is a diagnostic apparatus for the purpose of discovering lies. In this test the subject is examined under a process of exposing to his vision a blank card on which he is required to tell whether he is concealing about its contents, when it is sometimes possible that he is lying in order to avoid confessing.

Another one of the so-called tests of deception" applies various stimuli to the 'subject's head, which is immersed in water, and has the subject connected with a device which raises or sinks a sandpaper floor under a curve of the subject's reaction.

An instrument in which the subject is not deviating but something that he finds it difficult to hide, where it is used the insufficiency test. Here the person is in contact with a through which an electric current is supposed to pass but actually does not. The subject, however, opening the light and the well, tends to get a sensation of warmth.

Compositional Experiments
A group of men as "a workaday" test the most effective color extensory in industry, is intended to determine its importance to the individual mechanism ability. But the most intriguing of all the experiment detect is the psychograph. The subject who colleague it as identified with this test, has one who is a clear endeavor, the only one who is engaged in planning for any group. This experiment has a bearing on the test, which is the device that is used, as a subject or subject which records the writing on marked paper.

Sigma Alpha Iota Chapter official delegate of the convention, will have a very important position in the world. The T.A.B. will have a new delegate to the convention, and Mortie Hammond '27, is another representative. Phi Beta Alpha '27 will not until December or January in Texas, but has not yet elected its delegate.

To Establish New Conservatory Chair
Cyrus Daniel To Teach Theory And Composition Department
The coming year will witness the establishment of a Chair of Theory and Composition at Lawrence Conservatory of Music, as the outcome of a steady growth in attendance, which, and re- sults testifies well. It is made possible by the professor of other departments no longer have time to devote to it. It is destined certainly in the growth of the conservatory to increase in the next academic and entitled of study in this department.

Lawrence "T.V." activities next fall will start with a "bang" according to a report from the school at which a definite program for next year was announced. Professor L. Frankau met with the group and as a result the program of last year was improved.

Several new members were appointed to subject positions. Cluster S. B. F. is to head the committee of deputation. This position calls for a man who has experience in public speaking and who has the ability and desire to direct a debating team. The "Y" plans to send teams to different towns in the state next year to take part in practical religion.

Supervisory Reader

Richard Nelson, '27, of Appleton, will have charge of the employment bureau which the "Y" will establish next fall for the benefit of freshmen who are compelled to earn their way through college. Mr. F. H. Toft has expressed willingness to cooperate in making arrangements for a central station at Appleton Hall for this bureau.

A general information bureau will be established for the first few days of school both at the library and at Appleton Hall for the purpose of giving general campus information to the freshmen.

Plays Mixes

It is planned that 1927-28 will be an "out door" winter meet in connection with the first "T.V." activities. A man's meet for the purpose of acquiring the French language, the speaking men must be covering their interest in Lawrence and the "Y."

Dr. D. O. Yeager of the physics department will head the committee of deputation for this year's program. The work comes by the campaign will be conducted.

HAWAIIAN DEFENSE

The recent results of the recent trials of the defense of the Hawaiian Islands seem rather hazy. However it seems clear that the attacking party was able to land forces; and that the defense is ineffectually defended. Perhaps a closer view of the situation is needed to determine the ultimate course of events.

DEBATE COACHES MEET IN FIRST ANNUAL CONFERENCE

LAWRENCE will host the First Annual Debate Coaches' Conference of the Wisconsin Intercollegiate Debating League, May 15. The conference will be sponsored by the public speaking department of the college, which is also sponsor of the debate league. All high schools and colleges which have debate teams are invited to send a representative to the conference.

The purpose of the meeting is to bring together schools and organizations to discuss the current status of public speaking and debate and to exchange information on the latest developments in the field. It is hoped that the conference will be a forum for the exchange of ideas and the promotion of excellence in public speaking and debate.

Powers Talks to Chemistry Club on Subject of X-Ray

Dr. A. D. Powers, head of the department of physics, spoke to the Chemistry Club last Thursday evening, May 7, on the subject of X-rays and their relationship to the determination of unknown substances, by the examination of the rays through crystals.

He spoke on comptonian waves, and X-rays as only one type of electromagnetic waves, and the similarity of X-rays to light and heat waves, and their usefulness in the determination of atomic structure.

Power said, 'The use of the refraction of the X-ray through different crystals has been of great use in determining the length of the X-ray."

Wrigley's

"After Every Meal"

Take care of your teeth! Use Wrigley's when charged with unfair fights. Senator Burton K. Wheeler, of Montana, has defended him gratis, in the coming trial in the District of Columbia where he is to face a charge similar to that on which he was recently acquitted in Montana.

Senator Wheeler "Stand-Up"

Senator Burton K. Wheeler, of Montana, has had for some time lawsuits against him, but he has won all, and is one of the most successful lawyers in the country.

The meeting between the two parties was arranged by the Department of Justice to substantiate the claim that it was correct, and he has helped several in the courts of law.

Senator Wheeler, of Montana, has been a candidate for the Senate in the past, but he has been crowded by a Senate committee when charged with using unfair methods in his investigations, and has been acquitted by a jury in his home state when charged with corrupting his office in Washington. He was appointed a special counselor in the District of Columbia where he is to face a charge similar to that on which he was recently acquitted in Montana.

His colleague, Senator Thomas Walsh, defended him, gratis, in the Montana trial, and is to be the same in the coming trial in the District of Columbia. However, preparing for the trial and meeting with such notorious opponents, he is greatly some of money and Senator Wheeler is not a wealthy man. "A Wheeler Defense Committee" has been organized in Washington and in collecting funds with which to carry on the Senator's fight.

Despite these financial reverses, reports from some of the largest retail stores in the country indicate an increase in the sale of his books over last year, such assistance from the Senator's friends.

The battle will soon be on—greater influence from one of these same books. The amendment of the Dutch States-General would have required the states to provide gymnasiums and athletic events instead of meeting the costs at state expense.

The Dutch States-General has been content to allow the states to limit the costs of gymnasiums and athletic events to the cost of the necessary equipment and the direct cost of the labor involved.

**JONAH THREATENS PROSPECTS**

Insightfulness of Ripoffs and Gay Hints

With both Carroll and Rehbein the
strongest in track they have been for
the last year, it is expected that the
prospects for the state championship
are not bright. According to each member before Ripoffs and Gay Hints were delayed in the same way as other outside schools and were putting in a strong bid for a repeat of last year's tally.

Rehbein won last year's meet and Ripoffs got second. Ripoffs was the Mid-West last year, however, Lawrence沪深是 perhaps
a strong contender. They have served of their new men back. Christopherson is not
one of the last college athletes in the Mid-West. He has four first place finishes and the other three in well under 100 seconds. Heigl, who placed first last year in the 110 yards hurdle race, is new this year and although he has been doing better than two years ago, Christopherson is not the man to beat in this event. The 110 yard hurdles will not be run.

Rain Halts Tennis Meet With Marquette

Old J. J. Place stopped it and took a love game from Lawrence and Marquette A.V.C. in a match which was most anticipated between the two teams. The score was 8-0.

Wauapaca Tradition Strong This Year

"Wauapaca," the magic word on the lips of Lawrence folks every spring, is again bringing thoughts and anticipations of a week of gay holidays, when students are put aside for those three months in the Rockies of the school have in taste for Vacationland. All the joys of springing at one of Wisconsin's most beautiful spots are being eagerly looked forward to in the days to come. The campers at the Lake O-Takes this June will be approximately of the same number as last year, for nearly 50 letter-organisations expect to be represented at the Lawrence encampment. All fraternity girls have made no arrangements for the trip. The former group vary in size from six or eight to twenty or more. Practically all are made for the outing by this time, and the fortunate men who can go are impatiently waiting for exams to be over.

Judging from the happenings of previous years, many jewelled badges will depart from the veste and thereafter repose on dresses, a tradition for which Wauapaca has always been famous. Those who have been there agree that a week at Wauapaca is an experience that is never forgotten.

History Club Holds Finals in Last Event of Year

History Club held its last meeting of the year with a picnic at the Appeton Woman's Club cottage at Lake Wausau Thursday, May 14. The following themes for the coming year were shorted: Marshall Birkett, '03 president; Mary Lawlor, '04, vice president; Wilmer Nye, '05, secretary treasurer. Changes made in the agenda were added to or dropped from the printed program.

Writes Review of Recent Lecture On Immortality

Prof. J. P. Farley is writing a review of the lecture of Dr. Edgar F. Brighton on "Immortality in Post-Christian Idealism," given in the Leipzig Lectures of 1925. This lecture is an annual affair. Prof. Farley's review will appear in the "Philosophy and Review," published by the State University of Oklahoma.

A Problem in Arithmetic

When the family budget says: Only $30 to $35 left for a suit of clothes, what are you going to do?

How are you going to spend it—and be sure that the suit you buy last until the House passes the next Clothes Appropriation Bill?

Are you going to gamble on the ordinary $30 to $35 quality—OR—are you going to put your money into National-ly-Known and advertised clothes—with a guarantee behind them, that leaves no doubt in your mind that the clothes will make good or WE WILL.
