First Gift to Gym

Quesette Journal and Editorial Writer on Mr. L. A. Keating, editor of 

and Lowell Hibbler, '26, Lawrentian has been honored with the

First hour of session. Her subject will be

print the program in negative.
Rule Forbids Good Addiction to Cigarettes

The question of smoking by women in the college has recently been brought before the students of Lawrence College. The college has in the past not had a definite rule on the subject. Since a recent meeting, however, smoking by women has been more closely watched. The reasons for this are many, but the most important is the need for public education. The college feels that it is their responsibility to set an example for the community.

Miss Williams, the dean of women, has been working closely with the students to educate them on the dangers of smoking. She feels that it is important to have a clear understanding of the effects of smoking on health.

Athletic Association

The Athletic Association is in favor of smoking by women, as long as it is not disruptive to their studies. They believe that if a student is smoking, it is important to educate them on the dangers of smoking and provide them with resources to help them quit if they choose to do so.

The Lawrentian

Will the freshmen who wrote, ask ing for an editorial upon a particular subject, please be patient? We were unable to give the lowly the information necessary to answer his query. We should have done so as our next issue, if possible.

In every perfect moment on the campus are the prefects, seniors, juniors, and the freshmen. There is a lot to talk about. The question is, "What's the latest news?"

We understand that one student was given permission to ride in automobiles, and then upon returning to the dormitory, he was found in his room with a baseball bat and a knife. In addition, the fire alarm was pulled at 3 a.m.

The faculty at the banquet were family members, a fact familiar to those who read the Lawrentian. At last week's meeting, the student body elected President Oscar Wilde and Edward Ballew (not to mention Irene, Whitney, W. C. Braasch, Burchard, and other freshmen on both sides of the Atlantic.)

At present the topic in fiction is what to minister religion in pink granite, as in the case of Robert Kraft, or in the case of the student at Roman #3. This is a difficult problem to solve. The straight answer is that Robert Kraft is a difficult problem, as is Robert Summerlin's unfortunate preference.

Robert Kraft is an inscrutable mixture of faults and virtues. He has an undeniable flair for characterization, but no almost total lack of property and balance. As a result, they simply cannot control his feelings on this. In the story, the straight answer is difficult to solve. The straight answer is that Robert Kraft is a difficult problem, as is Robert Summerlin's unfortunate preference.

The latest popular song-hit, we are reading, is "The Song of the Sailor," written by a puzzlehead. The war is no obstacle to the sailor, a fact familiar to those who read the Lawrentian. At last week's meeting, the student body elected President Oscar Wilde and Edward Ballew (not to mention Irene, Whitney, W. C. Braasch, Burchard, and other freshmen on both sides of the Atlantic.)

THE LAWRENTIAN

Miss Lawrence Says

"Well, folks, I've reached the forty-year milestone, and the money and the car and the house and the lute and the piano and the garden and the cat and the dog, and the television and the radio and the telephone, and the car and the house and the lute and the piano and the garden and the cat and the dog, and the television and the radio and the telephone."

Scholarship Cup

After a meeting of the business staff last Thursday evening, the Ariel now has been launched as a student theater. The Ariel, a production of the class of '23, under the supervision of Dr. Youtz, is as interesting a story of a sea voyage and shipwreck as can be found in literature.

On the Ariel business staff, which is to be given to the one who makes the largest number of points, are Miss Emmett Proctor, Mrs. H. H. Nicholson has left for California, Arizona where she will spend several months with her daughter. Mrs. Frank S. Williams first to the east as Mrs. Y. W. and has sold the two houses, the two houses, the two houses, and the two houses. She told of her many interesting experiences, and in the course of her talk recommended first-rate men of social service work as possible. She is going to make things hunt better for me because at the end of her work she had a great faith and when she was in the world, Professor Youtz urged the necessity of the same leadership in our own lives as that which took Paul through his trials.

Ariel Launches

Advertising Campaign

"Finally, ladies and gentlemen, it is my pleasure to announce the Ariel, a production of the class of '23, under the supervision of Dr. Youtz. The Ariel is as interesting a story of a sea voyage and shipwreck as can be found in literature."

One Year Rule 
Adopted At Midwest Meet

New Stand Taken On Professional
Sports For Athletes

Adoption of the one-year freshman residence rule to go into effect in the fall of 1927, one of the most far-reaching
changes in intercollegiate athletic policies, was the subject of discussion at the recent meeting of the Little
Five Conference, held at Macalester College in St. Paul. The new rule was adopted by all the
schools except Beloit, which will continue to require two years of residence for eligibility.

25 Men Out For Troush Basketball

About twenty-five men are expected for the first floor basketball practice of the season on Thursday afternoon. In addition to these five or seven men that are practicing with the varsity at the moment. More men are expected before the end of the week.

Betas and D. L.'s Lead in Frat Race

Competitions between Greek letter college hall teams were better today than yesterday. The Betas and D. L.'s remain undefeated, while the Phi Tau and Phi Kappas are close on their heels. It is remarkable how many of the younger fellows have the spirit of fresh. Pressure to be held twice a week, on Tuesday and Thursday.

Add New College To Little Five Conference

Lawrence Awarded Track Championship 1925; Circuit Gets Football Title

Lake Forest College of Lake Forest, Illinois, petitioned for membership in the Little Five Conference at the meeting held at the V.M.C.A. in Melrose last week, and was admitted to take the place of Beloit who dropped out last year. The name of the conference was changed to the Wisconsin-Illinois College Conference, which will be the first step in a new program for the new conference, which may mean that more Illinois Colleges of high rank will be admitted to the newly formed conference.

Cross Country Team Ends Season

By George Steiner

Do you know that Lawrence has one of the best cross country teams in this part of the country? Do you know that this team has completed a very successful season and that it will be back in full force next year?

In the longer article on the past football season and on the basketball season for the coming year, the student body has forgotten the full significance of a cross-country team such as has been developed. Coach Demarest tried to secure meets with some of the larger schools in this section of the country. The one big difficulty that stood in the way was the lack of the one-year rule. This is not to interfere next fall we may expect some important meets with higher teams as the reward.

The intercollegiate meet on the morning of the Oakhurst Normal team was run by a fresh team that was not proven to be one of the best distance races in the nation. Warren turned out enough to show the nation's best cross-country team and was able to win the title. A schedule of about seven cross-country meets in the fall will be held.

The former Little Five Conference was so distinctly sectional, and the new conference promises to be one of the strongest collegiate conferences in the nation.
Margaret Russell played on the football team, and the only Lawrencean was to be played on the outside of the all-conference team.
What Our Profs Will Do During The Holidays

The Christmas vacation of professors will be spent in a variety of ways, ranging from staying at home to trips to different sections of the country. Among those who will spend their holiday in Appleton are Professors E. A. Yerke, W. B. Bogun, John C. Lyons, R. M. Begg, all of the college department of science. Miss Breden, assistant in chemistry, will attend the Symposium of Organic Chemistry, to be held at Berkeley, New York, from December 29 to 31. From Rochester, she will go to Boston, and from Boston to Washington, D. C., where her Christmas will be spent.

Miss Twilla Lyttle, dean of women, will spend her Christmas at her home in Coshocton, Ohio. She will also attend the Interinstitutional Student Conference at Boston, D. C., a sole in on the executive board of the conference.

Prof. Fred Turner will spend part of the time in Norway as superintendent of the construction of the new Norwegian Temple there, part of the time in Chicago as a business trip, and the remainder of Christmas vacation in Inwood, Mich.

Prof. L. P. Dower will attend the joint meeting of the American Physical Society and the American Association for the Advancement of Science, at Chicago, from December 29 to 31. The rest of the holiday period will be spent at home.

Dr. R. M. Begg, head of the geology department, will be visited by his daughter and son-in-law, Prof. Frank Tubbs, formerly professor of Many Improvements Made in Chapel

"It isn't the cost of the improvement that makes a building valuable, but the utility after the improvement is made," said Dr. Franklin M. Harper while discussing the recent chapel improvements.

During the past few weeks, extensive improvements have been made in both the basement and first floor of the Chapel. The center of decoration on the first floor was made on the stage, by the installation of new lights that properly illuminate the whole stage. A new plush curtain has also been hung in the room, thus covering all obstructions on the rear wall, and furnishing a background for all stage performances.

In order that dramatic societies on the campus may have a better place to rehearse their productions, the platform in the basement has been enlarged to such an advantage that it has all the effects of a stage. Attention was also given to the stage, so that they were given a new set of paint, and the lower portion wainscoted to overcome the dampness in the walls.

Besides being used for general dramatic work, Dr. Parkey will hold his Wednesday evening philosophy class in the auditorium here, and the Allenian Literary Society will make this room its headquarters.

To accommodate those groups who wish to hold parties in this room, a new room at the Lawrence Creamery, with accommodations for the American Physical Society will make this room its headquarters.

A department for the sale of old, rare books, manuscripts and prints is to be opened in the Westaya book store at Westaya University. A great number of literary societies have already been purchased; those interested in the charge of the movement announce, and another large accomplishment in the way from Europe where most of the purchasing is done. George Hard-
