**Frosh Team to Play**
**Paper Mill Quintet**

At seven o'clock tonight the frosh basketball team, already having won three games in successful encounters with several strong teams during the past two weeks, engages the Riverside Paper Mill quintet in a preliminary to the varsity game. The big aggrega-
tion is composed of former Apples-
ton High stars, who have played to
gather for years, and they should be
able to exhibit a good brand of bas-
et ball.

The frosh have shown a world of
draft in their workouts against their
equivalent teams, and that character-
istic pep and fight should carry them
to victory over their opponents in
ight. The daily practice workouts under Coach Sylvester's direction show that the young fellows have just be-
gin to kill their stride and that they
will continue to improve in the near
future.

The starting lineup for tonight will probably be as follows: Brian, Tegnigo and Venable at forward positions; Draper at center; and Barrell and Pratt at guard positions. Meeting Florida, Ernestine, Pink Packard, Schubert, and Reissel will undoubtedly get a chance to show their wares.

**How They Stand**

Three teams are tied for the Mid-
west lead at this writing. Cornell
has scored more than a small amount of strength against seven opponents to date. Cornell is also striving to be the forerunner with two win-
ers and no defeats checked on the
board. And Lawrence has scored her
east lead at this writing. The coming week will undoubtedly find the positions of the teams changed a bit, or the balance of all will not be very strong.

They stand as follows:

**To Organize Athletic**
**League This Afternoon**

In spite of the opportunity for playing interfraternity basketball games and Riverside Hall and Base

League organization, there are still a
great number of men who take part in no form of games.

It is for the men that Coach Perry
and the organization are planning an
activity that will include participation in sports.

The meeting of the men will be a meeting of all men interested in the league organized and details announced and arranged.

To Kill or Not to Kill

Telling the truth of the morally dis- tinct is morally justifiable, since life without truth has no validity, and as such it is not meant and cannot fulfill the greater values.

This was the conclusion of the debate between the members of the Philosophy Club, held at the home of Mr. and Mrs. E. K. Hall on Thursday, January 11. The affirmative side was represented by Dr. Henry Randall, ’28, and Virgil Hohn, ’28, while the negative was represented by Mrs. Laut, ’27, and Marshal Hulme, ’28.

The problem of declaring on the campus was also discussed, and there was much interest in the question of whether the present system of punishment is too severe. The club was divided in opinion in regard to the justification of complete expulsion of students from school of upper-classmen who are found cheating.

**Observation Club**

Because of the unenlightened situation of Appleton High School due to the general administration taking place, it was thought wise to continue the observation club. In observation services given by Dr. J. L. Morrell, professor of education. However, some students are be- ing accommodated for this week at the Benoist High School. Dr. Morrell expects that the club will be continued at the high school before long.

Dr. L. A. Yates, professor of chemistry, was invited to his home Thursday evening with a warm reception. Dr. Florence Hurler, laboratory instructor, taught the chemistry class during the absence of Dr. Yates.
