WHEN BIKE SUNDAYS...

It has been well said by some of our
instructors that the United States
is a nation abstracted from the
place of our origin. It is said that
we have been too long exposed to
the campus weather. It really is
instructive and good to try to
balance to a pack of kids
with one kid, but what of
summer's end? Isn't it true
that the world is being
and duties of a little and
can. If not, why not?

Professor Albert Franzke, head of
the public speaking department, noted
as the single expert judge in the Ol-
mond-Massey debate held at Carroll
College on Thursday evening. Carroll
was successful in its contest.

Professor Franzke also judged a de-
bate between DePere and Tomah High
Schools at DePere on Tuesday evening.
DePere was the debate by a
vote of two to one.

Klaasen opens a debate at Platteville.

"Chips Of The Old Block" was the
name of the debate by which Dr. 0.
Klausem, professor of economics,
attended at the Methodist Church as
DePere for the faith-
or and was held annually
by the church.

closing hours for the dormitory. Does
this situation, then, mean that
the week-end is to be used solely for
recreation?

We involved a lot's a thought of the
week-end as a vacation. He should
be a Sunday on purpose or on
Monday. If he's to do this, he is in-
directly taking Tuesday, Saturday
off and Thursday. Sunday should
be the character of man's work. It may mean
the one day in the week
when the weary
recreants get their beds
cleaning, clothes get pressed and mended,
and shopping done.

But it should not mean long hours
in the library or long hours of sleep.

During the days, there should not
mean hours wasted on "senate stories" or
"gym" parties.

Week-end hours are for guides
as others to the week-end. When you
use these rightly, they take part of
the burden off your shoulders and
give it a meaning. And the rest of the
week-end and the week will take care of itself.

How They Stand

As a result of O'Beirne's showing. Out 31 to 19, Lawrence was made to share the top rank of the Mid-West Conference with Cornell. Radio Completed By Physics Department

Contradiction of a 'wobble' superluminary radio receiver, capable of resolving wavelengths increased over two thousand miles away, has been completed by standard Physics department under the direction of Dr. W. O. Clark.

The set is a 314 Navy Type a Super-luminary radio receiver, used by Coast Guard battalions, destroyers and submarine on the 1000 and 2000-foot sound notes, being able to tune out and solve the problem of noise and broadcast casting on wave lengths only a few million parts of a million.
