Inter-Greek Athletics Are Re-organized

New "Board of Arbitration" Will Be Appointed by Athletic Department

Complete reorganization of the Inter-Fraternity Athletic League was effected at a recent meeting of representatives of the various collegiate fraternities of the University. As a result of the organization, brotherly fraternities can now cooperate as never before in inter-collegiate athletics.

The new "board of arbitration" will be appointed by the Athletic Department, and the members of the board will be drawn from the different fraternities of the University, so that a brother of every fraternity will have a chance on the board.

Putting the program together will create a great opportunity for each brother to have a chance in athletics. Furthermore, the new organization will make the University more competitive in the inter-collegiate division.

Gold Keys Will Be Presented To Four Yale Gym Club Men

Harvey, Halbert, Jacobus, Stiles and Schraunig Will Receive Awards

A new system of giving gold keys for first place in each event will make more interest in the different events, while the awarding of two gold keys for each event will put up still greater competition. Hence the number of points given for each gold key will not be included in the next year's competition, because it will appear the same as the number of points awarded, in the case of different events, and some of them will therefore be lost. It is hoped that some good track material will be uncovered in these relays for the various fraternity housing plans for next year, is much more

Travel of Boston University

Mr. Robert Hipke, the vice president of the Boston University Athletic Association, is now at the University of Wisconsin, examining at times appointed by the Dean. He looks forward to a year of success in track and field events at the University of Wisconsin, and is very enthusiastic about the prospects for the fraternity housing plan.

Women To Participate in Intercollegiate Debates

Several meetings of representatives of the different women's clubs have been held in regard to the matter. The women's clubs are required to submit the names of women for the debates, and Mr. Robert Hipke, the vice president of the Boston University Athletic Association, is now at the University of Wisconsin, examining at times appointed by the Dean. He looks forward to a year of success in track and field events at the University of Wisconsin, and is very enthusiastic about the prospects for the fraternity housing plan.
The Lawrentian

The general arts program, which will rank Lawrence. Everyone will know what an opportunity it is to be from other colleges, some will be parents whose children will be choosing a college at some future date. We should like to be able to tell them of the basketball championship, of the supremacy in athletics, of the excellent educational work. We should be able to tell them of the fine work which is going on in the college, and of the general excellence of the student body. We should like to tell them of the campus, in a pleasant way, in which the college is located, and of the latitude of Appleton and the climate.

In an official interview, Dr. John Raymond McCaffery II says he will expand the curriculum as an asset to the college and the student body. He says his acquisition will require that we take our full stretch and get to work.

The most enjoyable thing about this part of the year is that we only have to write one Dustpan.

What did Jones mean when he told his successful rival he would get him in the end?

"Oh, he's going to open a new taking place in June.\text{-}hote homes."

We saw a new "return" to the half-game. The home team was 7 to 6. We might get even excited.

Oh bring back my bonnet to me!

"Yes," said the captain, "poor John was executed this morning."

Smith was executed this morning.

"No, he wasn't even sober at the end."

The firing-squad was shorthanded.

The most enjoyable thing about this part of the year is that we only have to write one Dustpan.

My neighbor got over-excited.

I wore a new "straw" to the ball game.

She told his successful rival he would get him in the end.

Oh, he's going to open a new taking place in June.

As this goes to press (as they say), college is in session. We should like to tell them of the excellence of the student body and of the general excellence of the student body. We should be able to tell them of the fine work which is going on in the college, and of the general excellence of the student body. We should like to tell them of the campus, in a pleasant way, in which the college is located, and of the latitude of Appleton and the climate.
Midwest Track Title Is Won By Carlson College of Minnesota

Lawrence Track Men Capture Five Points in Midwest Meet

Carlson College of Minnesota won the Midwest Track Meet Friday afternoon by collecting thirty-seven and three-quarter points to thirty-three and one-twelfth scored by Knox, who finished second. Myers of Knox, who was the sensation in the Midwest meet held at Lawrence, was the winning light of the Midwest, breaking two records and winning high individual honors.

Lawrence's representation were only able to garner five points on congressman Rich's second in the shot and Doug Hyde's third in the 880 yard run. Other men who made the trip were Captain Stair, two Hyde, Ralph Kingdom, Palmer McConnell and Manager Larry Lynn.

Myers traveled the hundred and 63.8 to break the record of 6 flat established by Reddick in 1924. Later in the afternoon he met his flying spikes over the 440 yard dash, coming in at a new record of 47.62, breaking the record set by Mallet in 1926 by twelve seconds of a second. Two records were broken in the meet when the high and high jump events were ruled. Dallagher of Coe topped the high jump with 6' 2 ½ inches, breaking the mark of 6'4.5 set by Thompson in 1925. In the high jump four men, Poole, Knox, Mallett, Carlson, Delight Gaye, and Norton, Carlson tied at six foot to establish a new mark, breaking that of five feet nine inches held by Mallet of Beloit.

By strange coincidence every race that was broken was won by a Midwest team and every Midwest team was in previous years. This leaves us with a single Midwest meet in 1926, the best of which was the Midwest meet which was shattered in Friday's meet.
