Blues Battle Oshkosh in Return Game

Oshkosh Plays Return Game Next Night, Lawrence Horten Won the First Game, 26 to 21

In the first game of the season, the Lawrence basketball team will meet Oshkosh in another game at Armory G tonight. This will be the second game for which Lawrence students have had to use their coach Christopher's ticket in action, and consequently a large crowd is expected.

A week ago tonight, the Blues met and defeated the Normals in a close and hard fought battle at Oshkosh, 26 to 21. The Oshkoshes were put together by statistics, defense, and only by the Christians in the second half before coming through.

Oshkosh has one of the best teams it has had in years and they will be hard to beat in the second game of the season. Oshkosh has been playing for a third straight season.

Realizing that he has no easy battle on his hands, coach Christopher has been driving his men hard in all work in preparation for the game. In order to be able to find the strongest material, the coach has worked the regular team with the substitutes and has limited this past week. Captain Hines and guard Willmington have their place in guard against the Normals, Willmington, and Clark, and find the forward positions ready for men, who are expected to be in fine condition.

The Oshkosh team consists of:

Portz at guard, Hanke at center, and Chronicle, Clarke, and Sund fill the forward positions in the Blue team. Clarke has been driving his men hard all week in preparing for the game. The Oshkosh team, according to Willmington, has been playing for a third straight season.

Students Miss Out

On Vacation During Illness of Professor

And there was a great waiting and wondering. More than a week ago Dr. A. A. Tomes, the Rosemead from the University, reported to the administration that he was unable to continue in his duties as professor of English. The announcement was made that he would be temporarily replaced by Dr. W. T. Remy's team, his work as professor of literature, and his work as professor of English, was to be continued by Dr. Remy. But when the latter announced that he was unable to continue in his duties, Dr. Remy himself again departed from his position. It was said that he was to leave the city to go to England, and that he would continue his work as professor of English on the New York University.

The announcement that he was unable to continue in his duties was made known by the announcement of the appointment of Dr. Remy to the position of professor of English. The announcement was made that he would continue in his duties as professor of English on the New York University.

Thiel Appointed To

National Committee

Professor Richard B. Thiel has recently been appointed to the national committee of the National Committee of the American Historical Association. The committee to whom Mr. Thiel was appointed, and who will be responsible for the work of the committee, is to be composed of the most important of the national associations and its work has always been looked upon as one of the outstanding features of the association meetings.

Miss Olga C. Anshoff, in a speech in English and journalism, presented the situation of the cause in favor of free and compulsory education. Miss Anshoff, in one of her speeches, stated that she would like to have the opening of all the institutions.
CUTTING THE GODDIN KNOT

Through the unselfishness of an individual who placed his college before his personal ambitions, the football team's temporary situation has been cleared up.

Elmer Ott, realizing that joint leadership is dangerous to the best interests of the 1927 football team, has given up his right to share next year's captaincy.

The honor is one which every athlete covets, but in this case the title was stained by the fact that it came to two men as the "only solution to a bad situation.

We are glad that the problem is solved. We appreciate the magnitude of the unselfishness and foresight made it possible. More than this, however, Ott is given us new hopes of resolving the rest of the evil—Greek politics.

The only way to get at the bottom of bad politics is to investigate, gradually and continually, the number of students who have first in mind, not their particular group, but their college.

The Ariel, as well as the Lawrentian, can do this because of an intelligent one.

Filibert and his girl have had a bad week. He had told her she was the inspiration for the poetry—but when she asked what kinds of verse, he had told her to write only humorous verse.

These Lawrentians may have the pieces as stonemasons, Lawrence celebrates its birthday, and the basketball team is to play a home game. What more could we ask?

LAWRENTIAN...
D. I. Thetas, Sigmas, and Phi Kaps Win Basketball Games

In the opening game of the interfraternity basketball league Saturday afternoon, the D. I. Thetas defeated the Phi Kaps 19 to 12. The score at the end of the first half was 9-8 in favor of the Betas, but in the second half, the Phi Kaps outscored the Betas 10 to 4, with Superbs Johnston and Captains Cipolle and Capms, two of the best basketball players in the league, now leading the league in plus, while other track men follow close behind as expert legislators.

Although football is buried until fall we can't help but mention that fact that Jessup and Brae were the only two Lawrence men to be chosen on any intercollegiate teams picked this year. The point of it all is that we will have Jessup back again to line for us.

Our predictions this week are easy. Of course Lawrence will beat Ohio, Normal tonight—how much we don't know, but it will be somewhere around 25-20.

After watching the Lawrence basketball games this year, we feel that the rest of the season will play up to our expectations. MacKrell, Main, and Baugher, '36, are a fair team. The score at the end of the first half was 20-4 in favor of the Phi Taus, but in the second half the Sig Eps, supported by Brae and Farwell, played the best basketball we have seen all year and made the Sig Eps' lead a one point game. The final score was 26-22.

The second game between the Theta's and Phi Chi was more of a track meet than a basketball game, the Theta's winning 28-12. The score at the end of the first half was 21-7. The Phi Chi used many different combinations in order to stop the onslaught of the Theta's but to no avail.

The Phi Chi's second game with the Sig Eps coming out on top by the score of 14-12. The score at the end of the first half was 4 for the Phi Chi, but in the second half, the Sig Eps broke up and gave a series of baskets to get the game on. Play at times was very rugged, but on the whole it was a well played game.

In the final game of the afternoon the Phi Eps played the Phi Taus, 24-19 in a fair game. The score at the end of the first half was 11-6 in favor of the Phi Kaps. Hiltin and Hennessey were the mainstays for the Psi Phi. Hirtin and Coven were the winners with Ward and Welsh playing well for the losers.

Comparative Scores

Place Lawrence

For W-I Title

If scores were to form an accurate basis for comparing teams, Lawrence would undoubtedly appear as a very top contender. We hope that such opportunity will not be missed again.

And last but not least, we can't miss the opportunity of sights on the Phi Kaps and Phi Taus. For Phi Kaps were the mainstays for the Psi Phi. Kemmel, Pierce, and Schneller starred for the Phi Eps. Hiltin and Coven were the winners with Ward and Welsh playing well for the losers.

Scores Vary In Girls' Rifle Club

Gilhul's rifle shooting scores show a great variation according to the position used in shooting. The good position is considered as the best. Highest scores are held by Joel Langer, '29, Roscoe Rowan, '29, and Helen E., '30, who took the top position. The average score for the club is 71.1 of the 300 scored.

After watching the Lawrence baseball games this year, we feel that the rest of the season will play up to our expectations. MacKrell, Main, and Baugher, '36, are a fair team. The New Bijou

The Theatre That Made It Possible

Unfortunately men die at the wrong time, and sometimes at the wrong times in order to be able to "Take Some Insurance."
President Wriston's Speech At St. Paul

From a Page

An interesting detail of the University of Wisconsin's history was related by Dr. Wriston in conclusion to the speech which was preceded by the student body. The history of the University goes back to the early days of the settlement of Wisconsin, and the traditions of the school have been handed down from generation to generation. The university has always been proud of its alumni, and the names of many of them are to be found in the records of the school. The university has always been a leader in education, and its graduates have contributed much to the progress of the state. The university has always been a place of learning, and its classrooms have been filled with students who have sought knowledge. The university has always been a place of culture, and its libraries have been a source of inspiration to many. The university has always been a place of beauty, and its campus has been a haven of peace and serenity. The university has always been a place of service, and its graduates have gone out to work for the betterment of the world. The university has always been a place of hope, and its students have been encouraged to believe in the possibilities of the future. The university has always been a place of community, and its students have been united in their search for knowledge. The university has always been a place of tradition, and its customs have been handed down from generation to generation. The university has always been a place of opportunity, and its students have been given the chance to fulfill their dreams. The university has always been a place of progress, and its graduates have helped to make the world a better place. The university has always been a place of promise, and its students have been given the chance to make the world a better place. The university has always been a place of achievement, and its graduates have achieved great things. The university has always been a place of excellence, and its students have been given the chance to reach for the stars. The university has always been a place of greatness, and its graduates have made the world a better place.
