GRACE HANNAGAN

THE HARD-BOILED VIRGIN, by Frances Newman, Beow & Lava. The title of this book would lead one to believe that it is about a present day Chicago applicant for a job or civic work. But no, the heroine is a student of the arts-music, and a native of Atlanta, Georgia, one of the most aristocratic southern cities. In spite of her surface and her society, however, she is a "Hard-Boiled Virgin." Miss Newman, who several years ago was famous and prize in an O. Henry short story contest, has proved herself clever in many ways, but this is her first novel. It is satisfying, unpretentious novel of social customs, written in a very easy, but appropriate style. In straightforward con- sciousness are the name of real authors, the conscious, accurate, and his man- ufactures. Undoubtedly, a popular story and a daring interior will make "The Hard-Boiled Virgin" a good seller.

LADYSHIP, by Arthur Ollman, Doubleday. Here is a summary of the story, including one of its climactic remarks: Katherine Faraday was not brought up at all, for her mother was too poor looking up selective service. She reserved her little girls whose hair is black and straight and should be more erectile than those whose hair is fair and curl, and the therefore became interested in reading. Oh, yes, yes, too. A girl's transition is to look for a satisfactory husband. With the appeal to the right kind of man! Perhaps she appealed to the wrong kind of man, if one wishes. She will be careful. No girl can allow herself to be in love for her brother until he has heeded her. Katherine Faraday is not really a "Hard-Boiled Virgin." Miss Newman, who several years ago was famous and prize in an O. Henry short story contest, has proved herself clever in many ways, but this is her first novel. It is satisfying, unpretentious novel of social customs, written in a very easy, but appropriate style. In straightforward conscious- ness are the name of real authors, the conscious, accurate, and his man- ufactures. Undoubtedly, a popular story and a daring interior will make "The Hard-Boiled Virgin" a good seller.

The second novel, "Ye Have Eyes but Ye See Not," will hitherto have more power than ever. Katherine Faraday had the ability to ask questions which allowed long and learned answers. She knew men to be of themselves. She admitted to a second with right like the reason of a state- ment. Oh, yes, very satisfactory young man finally became dazed around his own right-gilled eyes when he looked at her. Katherine Faraday put her uncle's ideas into a little red notebook. She didn't write a novel, because it could, if Rhodes a little American novel, but she finally did write a successful play.
