Grant Chapter of Blue Key to Lawrence

Last Westberg, '29, will head New National Fraternity

By Jack Redlich

Blue Key, a national fraternity, was established on the campus this week at a meeting of a group of men held Wednesday. When offices for next year were elected, Blue Key will assume the University service club, modified along the lines of a Rotary or Kiwanis club, and will be composed of fraternity presidents and men interested in campus activities who have been prominent in at least two activities.

The officers elected for next year at the Wednesday meeting were last Westberg, '29, president; Burton Bevling, '29, vice-president; and John Walter, '29, secretary-treasurer. Another meeting will be held next Wednesday for the purpose of having members compile to the charter chapter.

At a meeting held several weeks ago, when plans for petitioning for a charter were formed, three men were in attendance. These were Roy Redlich, May 12, 1262; Otto Weiskind, Gordon Clapp, Robert Hayne, Walter Heideman, Bruce Mclnnis, Aaron Fischl, '28, and Warren Foster, all '29.

After a month during the next school year, admittance at the end of their second charter and future chapters will be Grove, Otis Weinkauf, Gordon Clapp, Robert Hipke, Walter Heideman, William Babcock, all '29.

activities who have been prominent.

admitted. The faculty members of the Women's Athletic Board will judge the merit, arrange the matches and umpire the baseball game.

sides, 28, and Football, '29, are expected to carry off the honors in high jump. However, there is no question that the four free sources in the broad jump, rings, discus, hammer, and Decathlon, will be scored. While the distance is expected to outstrip the record set in last year's meet, Mr. Westberg will take for his participation in the 200 yards dash.

Each class will compete at least four contests in each track event. The faculty members of the Women's Athletic Board will judge the meet, arrange the matches and umpire the baseball game.

sides, '28, and Football, '29, are expected to carry off the honors in high jump. However, there is no question that the four free sources in the broad jump, rings, discus, hammer, and Decathlon, will be scored. morning will be released on May Day 1928, one of the most widely known dance bands in the state of Wisconsin, has been screened to furnish the bands for the dance. This is a splendid orchestra and has established its remarkable reputation as the best blending of entertainers and musicians in this vicinity.

A novel program has been arranged, and all the proceedings at the grand "P" dance. Followed by the entertainment of the night, when all the announcements are carried out, the evening will be just as much as the group, and the reasons why. For the purpose of the final presentation of the program, the following numbers by Buxtenude, Rebi-}

"Starlight," a two-act farce written by H. E. Slocum, and directed by Miss Fournier, '28, will have been released of the students. Mrs. Henry Merritt Wriston heads the list of patronesses for the fete. Mrs. Henry Merritt Wriston heads the list of patronesses for the fete.

The meeting was held at the University of Pennsylvania, and was attended by the president of the joint committee of the University of Pennsylvania and the Lawrence University, which are making plans for the fete.

"TUT" TO LAWRENCE

The long and procedures applauded which prompted the announcement yesterday morning that Ellen Tutton, personnel director of the college, is to be the Lawrence to study in Europe was approved with the approval with which the student body accepted the choice of the committee making the selection, and of the.viewable position which Ellen Tutton holds in the hearts of all Lawrence students.

Although no longer enrolled as an undergraduate, "Tut" is still a Lawrence student, and her contacts are primarily student-to-student, rather than administrative. Perhaps the most outstanding thing is the permanency and continuity of the plan, which is guaranteed, we feel, by the selection of one who will get so much out of her ahead, and who, upon her return, will turn over to the student government the position which is valuable. In the words of the committee, "the permanency and continuity of the plan depend largely upon its initial success, and its initial success demands a candidate of exceptional caliber and capability".

INTELLIGENT ASSIGNMENTS

Most of us have our noses in the grindstone on which we lose the ability to conceive and synthesize. This theory was postulated by one of our professors yesterday in commenting on the humdrum character of our papers.

He is quite right. The answer can be found only when we discover who turns the grindstone and why. Instructors make the assignments. In four years at the University we have had many instructors who made assignments that were a pleasure to work on. These assignments either had definite values in the course by introducing interesting material, or they were just specific enough to guide our budding genius in the formulation of a new idea.

Unfortunately, many instructors whose regular assignments are inherently mechanical. We are exposed to one of them thin quarter. Avoiding any specific assignments that were a pleasure to work on. These assignments either had definite values in the course by introducing interesting material, or they were just specific enough to guide our budding genius in the formulation of a new idea.

Glee Club Banquet

The Glee Club will hold its first annual banquet at the Hotel North in the Old Town at six o'clock Friday evening. This will be the last gathering of the group this year, and all members are expected to attend.

Ellen Tutton Chosen To Study In Europe

(Continued from Page 1)

The plan of the student exchange project is to have four students, two men and two women, spend a year in Munich, Austria, and Germany and the other half of the year in Athens, Greece, and Italy. It was decided that the joint committee, consisting of four students, two men and two women, would be best qualified to understand and appreciate foreign cultures, and that the joint committee, consisting of four students, two men and two women, would be best qualified to understand and appreciate foreign cultures.

That Lawrence has been active as an undergraduate, as evidenced by her selection as one of the best girls, for her election to the honor of the International Student Federation, and by her election to Phi Beta Kappa and her honorary election to Phi Beta Kappa. Her selection in all the more appropriate in that she saw evidence of having contact with more students than any other person on the campus and since she is a better position to understand and appreciate student problems. The success of this International Student Exchange is all the more assured by the fact that she will receive her education in the same college after her return.

It is, therefore, with the greatest pride that the Glee Club, through the plan of having contact with more students than any other person on the campus and since she is a better position to understand and appreciate student problems. The success of this International Student Exchange is all the more assured by the fact that she will receive her education in the same college after her return.
