**Carroll Overcomes Early Nerd To Take Victory; Remmel Scores**

Outraged but not outwitted, a battling Lawrence caravan dropped the decision to Carroll college's heavier squad Friday night. The final score was 21 to 16, and although Donne's efforts were another notch towards the independent status of the two bitter rivals, the Pioneers, conquerors of Car, have no chance of winning with all but four men, who relished the return with games with all but one曙光。

WHAT PRICE GLORY?
Several years ago, the student council at Lawrence decided to abolish the practice of giving expensive favors at their formal dances. Such favors are given by the fraternities to their female guests, and are considered by many to be a waste of money. The students who voted to abolish the practice were of the opinion that it was an expensive and foolish one, and that it should be abolished since individual action is impossible. The question is one which no single group can settle in its own right; it must be resolved by all Lawrence students. The practice has been frowned upon openly in practically every house on the Lawrence campus. The question is a difficult one, but it is one that must be answered if Lawrence is to maintain its high standards of education.

MORE IMPORTANT
Every student in Lawrence must realize that the only hope for the future of this chaotic world is in improving our student government organization. This must be done in our own time and place, for the student government is the only organization that functions only when girls break the rules. We are united in preventing rules from being violated, but we are divided in the interpretation of rules. We must be consistent and not expect freshmen to understand the rules. The freshmen are Lawrence college women, and their government should be no higher than that of the Lawrence campus. The freshmen are Lawrence student government organization; it is up to us to improve it.

Contributions
Better Inter-Group Relations
Non-Partisan Elections
Gradual Extension of Student Government

DEBATE
Another Lawrence debating season, an activity in which Lawrence students have excelled, is opening. The freshmen are expected to be the dominant force in this new season, as they were last year. The freshmen are Lawrence college women, and their government should be no higher than that of the Lawrence campus. The freshmen are Lawrence student government organization; it is up to us to improve it.

Student government belongs to every girl on this campus, not just a few. The organization will be great or small according as each individual makes it great or small. Our ideals as an organization will be as high as our own total of the ideals of all
