Fourteen Are
New Members
Of Blue Key

Arthur Mueller Elected President of Campus Service Organization

Seven seniors, six juniors and one sophomore were elected to membership in Blue Key, national honor fraternity, at a meeting of the organization held at the Delta House house Wednesday evening. At the same time Arthur Mueller, '29, was elected president of Blue Key.

The new senior members include Lytle Douglass, Donald Hyde, Harold Beattie, James Ford, and Howard Belknap. The junior members elected were Evans Maguire, Harry Moreing, Robert Hill, Robert Gollinger, Myron Killick, and Carl Moe. Ross Cavan was the only sophomore elected.

Initiates Wednesday

Initiation of new members will be conducted next Wednesday evening at 7:30 o'clock, at the Sigma Phi Epsilon house. Attendance of all members will be required. Old Blues will hold the initiation meeting, and initiate the new members.

New Cabinet

The membership of the fraternity is based upon a point system, approved by the national Committee which provides that two points must be earned before one can be initiated. Fraternity presidents are elected solely to that last honor.

For spring activities were approved by the new cabinet members, and several projects to be handled by the group before the spring vacation were outlined.

German Club Will Give
Two Plays On April 11

Members of German club will present two plays at 8:15 p.m. April 11, at the Methodist church auditorium.

The cast of "Springe Vorsicht" ("Time to Get Out"") includes Max Neuen, Wally Fey, Fritz Kreisler A Man Of Many Unusual Interests

Ruth Maudman of Green Bay was appointed by Hunter for the new season, and will continue his point counting and directing.

Wausau Trustee Speaks
To Students Tuesday

"Cash is more than King," said a student loan representative to a group of students gathered in the auditorium Tuesday afternoon.

Addition To Scholarship Fund Is Made

Western State Teacher's college has just made a gift of $1000 to the endowment fund. This is a further example of the wisdom of the Lawrence board of trustees in the conception of wealth questions. The gift is to be held in trust by New York Life insurance company, and Lawrence students who may be interested are invited to become members. The stock will be sold for $2 per share, and the proceeds will be used for the purchase of stock.

Debate Team Meets Cornell At Green Bay

Debate Team Meets Cornell at Green Bay

The Lawrence college affirmative team won its first victory over Cornell last Thursday night when they engaged in a debate with a negative team representing Cornell college.

The debate was held in the new Green Bay YMCA building, before an appreciative audience. It proved to be a contest of exceptional interest since both teams were reared by very strong teams. The Lawrence affirmative team was able to dominate the debate and to refute them with a large mass of evidence.

Mr. Muir was asked to define the term "real genius" as applied to the opposing side. The constant theme throughout the debate was the importance of freedom in the running of affairs. The affirmative team, which had been trained in the art of leadership for the past two years, was able to hold its own in the debate and to show the world what qualities of leadership are.

Lawrence Fellows

Mr. Muir made a recommendation to the affirmative team and gave them their homework. He particularly illustrated how the affirmative side was able to split into football and basketball games.

It is expected that the affirmative team will meet Cornell again in the near future and that this debate will be of great deal more enjoyment from life.

Fritz Kreisler A Man Of Many Unusual Interests

Fritz Kreisler, famous violinist who is to appear in concert at Lawrence Memorial Hall at 8:20 this evening, has many and unusual interests. In his youth he played the violin and the piano. He studied the violin with Ysaye and the piano with Yehudi Menuhin.

After leaving school he played concerts in Europe and America. In 1924 he made his first appearance in America. Since then he has been on tour all over the world. In 1930 he received the Lenin Peace Prize. In 1932 he was appointed to the New York Philharmonic Orchestra.

He has made many recordings and concerts with the New York Philharmonic Orchestra. He has also made many recordings with the Boston Symphony Orchestra. He has appeared in many films as a violinist and as a conductor.

Fritz Kreisler's most famous work is the "Erl King" by Schubert. He is also the composer of the "Fritz Kreisler Institute of Music".

In 1934 he was appointed President of the Fritz Kreisler School of Music in New York City. He is also the author of "Music and Imagination".

A CHALLENGE

During the past week nearly every fraternity on the campus and a few of the sororities have had their “orders.” Now that this week has ended in most cases, the Lawrentian would like to raise a question upon which we have been pondering for a little while. The Lawrentian does not want to become a conscientious objector to anything. Now that that week has ended in most cases, the Lawrentian would like to raise a question upon which we have been pondering for a little while.

“Orders” have been an instituted part of fraternity initiations in the past week we have made an effort to sound the depth of the feeling in regard to “orders,” and while our survey has covered only a small part of the campus, the feeling as far as we have gone is overwhelmingly against it. The Lawrentian is not prepared to say that this tradition should be absolutely abolished, but if the fraternity men themselves do not believe in it, and if it is not only a small part of the campus, the feeling as far as we have gone is overwhelmingly against it. The Lawrentian is not prepared to say that this tradition should be absolutely abolished, but if the fraternity men themselves do not believe in it, and if it is not established run of things.

Galley Slaves

Chained to their seats, crouching under the lash, the galley slaves slowly propelled the heavy hull of a Roman warship.

Today, the electric motors of an American battlefield have the energy of a million men, and drive thousands of tons of steel through the water at amazing speed.

Man is more than a source of power in civilized coun-

tries. Electricity has made him master of power. In coming years, the measure of your success will depend largely on your ability to make electricity work for you. Competition everywhere grows keener, and electricity cuts costs and does work better wherever it is applied.

In industry, transportation, the professions, the arts, and in the home, you will find General Electric equipment helping men and women towards health, economies and greater accomplishments.
