The stage of tragedy—it is funny. Of its members. The real test of a good government is not how and Cromwell held the reins, but once these men were removed, and since that time not a word has been said regarding it, except to postpone its appearance still longer. The situation is carry on its duties unless its president is driving it all the time, and it will be a hurried, unpleasant job. Half the company supervision and carried on it as a student undertaking, its success takes on a new significance.

Etho Answers: Where?
And once again we raise the old, old cry. Where is the new all-college club constitution? It is now close to two months since it was officially announced that the general and long deliberated piece of legislation could not be worked out before the waiting world and since that time not a word has been said regarding it, except to postpone its appearance still longer. The situation is carry on its duties unless its president is driving it all the time, and it will be a hurried, unpleasant job. Half the company supervision and carried on it as a student undertaking, its success takes on a new significance.

Spring Registration
The registrar has announced that spring registration will soon take place. In our eyes spring registration is like Christmas shopping—do it early, and it will be done right; leave it until the last minute, and it will be a hurried, unpleasing job. Half the complaints about registration come from people who let it go until the last day, and then are forced to choose their subjects haphazardly. Naturally they have to forsake or continue to take their final lectures, and the committee just never did just as their committee had been asked for. It was a student of the English College and the English Commonwealth were great governments while Napoleon and Cromwell held the reins, but once these men were removed, their institutions crumbled and fell. If our Student Senate cannot carry on its duties until the president is driving it all the time, then it is not worth being carried as an executive body. The same the committee that the easiest solution would be to turn the matter over to Mortar Board. The manner in which they put one over on Blue Key indicates that we might at least get a little action.

Baseball Games To Start At 6:30

dances in the intercollegiate baseball league will be played at 4:30 in the afternoon, instead of 3:00, as was originally planned, it was decided at a meeting of the faculty athletics committee Wednesday afternoon.

All the fraternity athletic programs were discussed, including intercollegiate play and intramural activities. All clubs are to be under the tutelage of Dr. A. D. Powers, has been appointed as the head man in all of the intramural activities.

Mortor Board And Blue Key Bury The Trove: End Fight

Blue Key has a new tradition. Mortor Board is forgiven. Peace.

Sage Wednesday night. It was not the duel that the Greeks were after, but the fact that they were able to hold a meeting at Ripe on May 12. The Blue and White newspapers will also be entered in the Midweek directory on May 21.

Possibilities of a well balanced lineup were almost certain, as expected some men in every event on a track and field card were already working out. In the dash, Hulley and Barnes look to be the best boys, although their qualifications are the 400 and 880 yard dashes respectively. Their presence is also cheering up well in the short sprints.

Weights Are Missing

In the distance races, Bartch, in the mile, and Snelgrove in the two miles shows great improvement. The hurdles men who have shown the most promise are Whittaker and Daniels, with the former about to break the jacket, along with Bower. In the throws and shotput, Pfeflferle's work great, his specialty being the shot which he won in all of the intramural meets this spring.

Bower is a certainty in the triple jump, and he is also doing well in the high and broad jumps, long jump, and shotput with Adlheith in the last two events.

The LAWRENTIAN
THE EVERGREEN TREES — by Harry E. Thomas, Bernice Kaye-Smith, and Kirksince, right, $2.00.

This is a slim, flat volume of poetry—and one which should be the precedent of many more to fulfill the high promise of its pages.

In appearance, the book is very attractive. A jet-black cover stamped in silver with the evergreen of the title is indicative of the hardness of the lines it contains. The general format otherwise also indicates a small design which can serve only from a guide to fine achievement.
