THE THIRD PLANK

After a break of one week in its program for the presentation of its platform for the college year, the Lawrentian presents the third and one of the most important planks in its constructive program. This plank, briefly stated as "a fair and impartial presentation of news and opinions relating to campus problems and activities," in the pursuance of this rule the Lawrentian hopes to be a vital contributing force in the constructive development of the college and student body. That is the purpose of the plank and the purposes of the plank.

THE CHEERING SECTION

The student senate is to be congratulated upon its initiative in planning and putting into the preliminary stages of operation the newly announced plan for a special block of rooters for athletic contests. While the project is in the early stages of development and has yet to prove itself a success, it is a commendable move, and merits the wholehearted support of the student body. Indeed, unless the French system gets behind the plan and push it to a successful conclusion the section will fall by the wayside.

Several reasons contribute to the necessity of some such organized work to take the place of the old time "rub-a-back" that seems to have fallen into the disuse before the blase attitude of modern students, and to tend to include a means for cheering at football and basketball games, the familiar yells of the old time "rub-a-back" that seems to have fallen into the disuse before the blase attitude of modern students, and to tend to include a means for cheering at football and basketball games.
