Fourty Parties Are Held at Home This Year

A total of forty parties and meet­ings held at home during the past two months and several others to come, notes that the home is coming closer to its norm in the life of the modern campus. This total does not include individual parties of the English club, French club dinner, the French open debate at the club meetings, three Spanish club meetings, and regular meetings of the French English club. These club meetings, too, had many Sumptuous affairs, were held for the student body and are held on a regular basis in this college.

An interesting feature of this year’s is the diversity of the home scene. The party was held in the Living Room, the French club club dinner, the French open debate at the club meetings, three Spanish club meetings, and regular meetings of the French English club. These club meetings, too, had many Sumptuous affairs, were held for the student body and are held on a regular basis in this college.

A new era is already set for the bicentennial, including the bicentennial, and the bicentennial is held annually for the student body and is held on a regular basis in this college.

Get out of the silence. By Eric Cave, Bruce Beadle, Inc., N.Y.
Twenty-seven million years ago four men lived in a cave in what is now the Tuareg desert of Algeria. This is what the scientist Emami tells us in the accompanying article. The article is called "Out of Silence". The book is beginning to be known, and is beginning to be well received. The author has done a good job of explaining situations and contrivances, but he is still an unknown. Theories are propounded by some, but he depicts without the former civilization. Two other human beings were placed in this same condition by the author. He went and found Jessie Bell "Jezebel" on Lynn's birthday, too. He had forsaken her, he learned from her lips the innermost secrets of a large part of the world. He is essentially domestic, and above all "a mother to her own two daughters". Lawrentian Picks All-Conference Team

Four Vikings Are Honored

Martin, Ripon, Captain of First Grid Eleven

By John Martin

Four Lawrentians, three Pinznerer, Richland, and one other outstanding lineman, Banks of Ripon and Bizzier of Carroll are given the posts on the all-conference first team. These names, and those of seven others who do not appear on the all conference games were considered as well as those showing in the conference games. In a conference where but three games are played, outstanding players are often left out for a couple of the longer tilts and inferior men cop places on all-conference teams by their work in perhaps one or two games. To escape this an all-season comparison was made.

A choice of all-stars for the conference has been unusually difficult this year because of the large amount of good material to pick from. Several men who do not appear on the Lawrentian team have done fine work, but for various reasons and all around ability the writer believes that the following choices are the most representative of the conference first team.

Among the ball carriers of the conference, the writer has given the choice to Ambrose of Carroll and Kuick, the full back. Ambrose is a brand of football.

Haed-Denney

All Viking Opponents Seem To Be Formidable

By Robert Beag

With only one week of practice behind him Coach A. C. Denney has already begun to worry about the credits and debits of his highly tainted cage squad. And all these worries are not without their cause.

"Many people have the idea that we have a squad of world beaters," Denney says. "I'll admit that there are a lot of boys on the squad who could make a lot of baskets—if the ball was smaller and the loop was larger." This choice of condition which the coach talks about his state is not a part of a coach's personnel slump strategists, so often espoused, but is based on actual observation of what the boys have done against foes.

Although it is still a little early in the season to make any comment on the outcomes of the schedule, Denney was not at all surprised when he said that in that this year's schedule the completed Viking squad has won all.

"Eve is the days to come," said Denney. "When Lawrence played some of the big golf schools we did have some Aloha first. The cakes seemed to be getting a little too ripe.
