NEW SEMESTER ENROLLMENT INCREASE INCREASE HERE

College Records Show Fewer Students Are Forced To Leave School

The new students who entered a Lawrence college for the second semes-
ter according to reports compiled by college authorities. The record
show that the number of students who have left school this semester is
significantly lower than in previous years. The exact number is not yet
available, but preliminary figures indicate that the decrease is due to an
increase in the number of students enrolling.

Roll of Honor

Chancellor H. A. Ehrensperger, of Garrett Biblical Institute, and formerly
head of the Pennsylvania Conference of the American Bible Society, was
in attendance at the commencement exercises.

Faculty Group Photo

The new faculty is shown in a group photo taken on the campus.

The Lawrence college expanded its offerings with the addition of a new
major in history. The new program is designed to provide students with
a comprehensive understanding of the historical development of the
world, focusing on the major events and figures that have shaped our
current world.

Dr. Raney Outlines Rhodes Standards

Explains Oxford System of Edu-
cation in Convocation Address

W. F. Raney, professor of English,
his authority on the subject of Rhodes
education, outlined the standards that
are expected of the students at the Oxford
Institute in a convocation address.

The new Oxford System

The Oxford System is a new, innovative approach to education, focusing
on student-led learning and critical thinking. The system is designed
to provide students with the skills and knowledge they need to succeed in
a rapidly changing world.

THE "HELL WEEK" PACT

Fraternities on the campus will soon begin "hell week" activities for their neophytes. Much has been said and written recently in regard to old initiation tactics; the modern trend of thought and action is definitely against rough house methods and physical torture periods. One of the greater strides forward that has taken place on this fraternity campus was the consideration given to this problem last year, and a renewal of the pact to abolish initiation methods that are likely to result in injury or death. There should be no new group that will facilitate such activities.

The fraternity representatives decided last fall that hell week as hell week must go, but that a week of probation for neophytes would be valuable if tests of character were substituted for tests of physical endurance. The idea of a trial week of prostration and lack of sleep for those under orders has been relegated to the junk pile by thinking brothers in the country over.

Last year a general understanding was reached by the fraternity representatives. There was not incorporated into the rules of the college but was made known to the college administration. The idea was then advanced that if tests of character were substituted for tests of physical endurance, the time for initiation would be prolonged. The idea was advanced that if there aren't new methods of enjoyment and culture here that we haven't found, why not see the routine of classes and preparation again. In the meantime, why not see the world we live in. Let's make the most of them now.

YOURS FOR THE ASKING

Now that the big grind of semester exams is over we can settle down to the routine of classes and preparation again. In the meantime, why not see if there aren't new methods of enjoyment and culture here that we haven't found?

The Artist's Series is excellent, of course; however, it's part of the regular program now. But have you ever gone up to the college museum in Science hall? There Dr. Baggs has assembled some of the most interesting and unique specimens from every corner of the globe. There are rarities that will delight anyone, no matter what his interest may be. And on the fourth floor of Main hall is the American History museum, with a most unusual collection of the elements of our national civilization. On Thursday nights it is possible to look through the big telescope at the Observatory, and a truly magnificent spectacle it is. In the college Library are displayed famous paintings, etchings, and other works of art. Here in Appleton are some of the world's famous paper mills, which are your to visit if you care to.

Let's not wait until we leave Lawrence to realize the worthlessness of all these interesting Shield's that can give to a wider appreciation of the world we live in. Let's make the most of them now.
The Columbia club of Green Bay arrived at and left the new gymnastic pool Saturday evening with another scalp at their belt. Lawrence confident of a good show in the distribution of points after the Green Bay "V" victory of the previous week, was set back with a 42-0 decision. The heat that the Viking tankmen could manage were two second places and three thirds.

Lawrence went way out of its class to compete with these professionals who are ranked in state circles as second only to the "U" and, the showing that the Blue tankmakers made was fairly generous.

Before the meet, Thomas Ryan '39, was elected varsity captain for the rest of the season.

Sport Spasms

All that remains to be said about the Carleton game is that they mine baskelball alumni in Minnesota. It's too bad that they have to some feeling around here to make a Saturday evening as democratic, but there is still time to arrange all defeats by winning the rest of them. At any rate, it's no disgrace to lose to them that have hung up wins over the viscosity as far as the season can still be made a success.

Carleton stepped out of their cloister at a rake Wisconsin the other night, but they stood right where they belonged down there. After seeing Carleton play up here, there would be no logical conclu- sion that Wisconsin has quite an out- fit. The two famous Pioneer stars, Hinckley and Vanderwhatsis (it's too bad this isn't a name), won ten of the fifteen games the Betas had lost thus far, with a side shot. Crawford soon added another goal giving the Carleton- Sig Eps a 4 point jump on the blue and white. They received a 11 to 9 victory from the Sig Eps.

Carleton Grabs Lead

The defeated Lawrence from any chance at the Midwest crown and established Carleton as favorites to repeat last season's performance.

After four or five minutes of ragged play in which both teams were struggling to find themselves, Carleton's Coach Kenney used an opportunity from any chance at the Midwest crown and established Carleton as favorites to repeat last season's performance.

Four of the frosh.

The starting lineup consisted of Eddie Kotal's "A" frosh bas­ ketball team, and the Beta Sigma Phi crew, and the Beta Sigma Phi aggregation broke into the win column with a 13 to 11 victory over the Theta Phi. The scheduled game between the Phi Tau and the Phi Chi was postponed due to农资 reasons. The 0.11 had an open date. Main reason three of the Beta starters, Campbell, Clay and Parker, the Sig Eps were forced to the limit to turn back the sturdily of the hard working Theta Phi. Delarue and Shiley's three point shot and the Phi Chi's hail from the free throw line.

Carleton Chapter Lead

The defeat of Lawrence was fairly presentable. The DePere had played a few shows in the week and BIGS isbed in for a shot to which he immediately contributed one point on Nichol- son's left. Scholten sent three goals spinning through the net reducing the Lawrence total to 14. The score was to 39 to 14, it looked as though the blue and white would take their taller opponents and the event became a foregone conclusion. "B" team left for DePere where they will be held. The DePere alumni will meet Tuesday evening, at 7 o'clock, at Hamar Hall. It will be held.

The starting line up consisted of

Eddie Kotal's "A" frosh bask­ etball team, easily managed the Menominee High School five by a score of 30 to 18 in the Saturday evening. The score at the end of the first half was 18 to 2 in favor of the frosh.

The "A" team exhibited a very fast offense in the first half to pile up 18 points while their opponents were able to pierce the Viking defense for one long basket. In the last half the Lawrence team coasted along while Kotal experimented with new combin­ations of players. In this period the Menominee players returned to long shots and connected with the hoop consistently.

The starting line up consisted of

Bonny Ralston, center, Hall and Bowker, forwards, Goebelmann and Mas- den guards. Ralston had the scoring with a single goal on one free throw. Rock dropped four field goals and 11 points in addition to playing a beautiful floor game, added three points to the win column.

**Students of Four Studios Present Joint Recital**

A general student recital by representatives of four studios of the conservation was given at Peabody hall, Thursday, February 6. Elmer Brundamar and Arletic Virtue from the studio of John Ross Frantzen; Ruth Durand and Wilfred Bille, students of Gerritse Farrell; Donald McKaon and Frances Braumont, from the studio of Helen Mueller; and Edward Diekert and Barbara Simmons, students of Gladys Joss Brindall, appeared on the program.

**Rifle Club Organized; To Arrange Matches**

With the withdrawal of the women's unit from the Lawrence College Rifle Association, re-organization of the group was made necessary before the year's activities of the body could get underway.

As a result of this re-organization of the club, the following officers were elected for the present school year: president, Walter Piper, '31; secretary-treasurer, Ben Marisdale, '32; range master, Carleton Root, '33; instructor, Frank Schmeiler, '31. Officers of the club at present are negotiating for a shooting match with a team of the Texas Technical school in rich velvet and bears the title, "Die Anbekante neue Welt oder Beschreibung des Welt-teils Amerika und de Sud-Landes."

"Die Anbekante neue Welt" or "Beschreibung des Welt-teils Amerika und de Sud-Landes." It was first published in 1544. The edition on view bears the date 1673. This is a fascinating story of what people of that year imagined the future. A match between the two or three, which will probably become definite after those two sports are over, the competition for cups is foolish, although it seems like a slow process for outside, when once books are broken in on the schedule. When those two sports are over, the competition for the supremacy cup will probably become definite between two or three, which always makes it more interesting.

**1930 Model Printed Frocks $16.75**

In the longer lengths with lingerie details and unusual sleeve treatment in small-pattern prints.

Prints are smart now and prints are going to be smart this spring, so it's both chintzy and far-sounding to buy one or two to wear right now and straight through the spring. There are small dots in a myriad of colors on black grounds, trailing vine and leaf patterns and holder designs that make mid-winter days as happy as springtime.
