Paper School Begins Second Year of Work

Year Ago This Semester New Project Was Instituted At Lawrence

The present semester marks the beginning of the second year of the Institute of Paper Chemistry with its program devoted to the three-fold purpose of training men for the field of pulp and paper chemistry, supplying a comprehensive library service, and providing research facilities of importance to the paper industry.

A year ago, the Institute of Paper Chemistry had been established after having been generated through the generous support of 90 per cent of the paper manufacturers in the United States. Six graduate students were enrolled in its first enrollment. At the close of the first year, 15 students, representing eighteen different institutions of higher learning, taught by the faculty comprised of eight professors who are co-operating in carrying forward the purposes for which the institute was established.

Henry Requirements

Graduation from an accredited four-year college course with four years of chemistry, including inorganic, qualitative, quantitative, physical, organic, and industrial organic chemistry, a year of physics, two years of English, and a year of calculus, is the minimum requirement for graduates of the Institute of Paper Chemistry. A reading knowledge of technical German is required of all students who are planning to study at the Institute of Paper Chemistry.

Michael Mullenix, a member of the Barbers Ensemble wind instruments, and his son, Dr. and Mrs. Otto Kress, a full-year course in the fundamentals of pulping and a year in God, 211 and 212, teaching all courses in the chemistry area.

Dr. Mullenix addressed the student assembly on Monday morning. It will be conducted Monday afternoons through the University of Wisconsin and the University of South Dakota.

About the meeting of the Teachers' Association, the student assembly was addressed by Catharine Grant, teaching all courses in the chemistry area.

The Barbers Ensemble was addressed by James H. Murrell, professor of education at Lawrence College, the co-author of a book on the Psychology of School Music, now being published by the Psychological Society of America.

James L. Murrell, professor of education at Lawrence College, is the co-author of a book on the Psychology of School Music, now being published by the Psychological Society of America.

It was announced this week when an announcement was received that Miss Helen Green, director of music at the University of Wisconsin-Madison, had been appointed as the new director of music at the University of Wisconsin-Madison.

Professor Murrell is Co-Author Of Book On "Psychology Of School Music"

"Greatest American Composers Also Created Music That Also Lived"

Because of the character and ability of all the members, Abraham Lincoln, sixteenth president of the United States, has been called "not only the greatest American, but the greatest of the ages, ever lived," John B. MacHarg, professor of history at Lawrence College, told students in conversation Wednesday afternoon.

Prior to discussing the music of the great American, MacHarg told of Lincoln's early life.

C. Mullenix To Present Solos

Member of Barbers Ensemble Will Give Program On Tuesday Night

Dr. C. Mullenix, head of the zoological department of Lawrence College, will address the student assembly on Tuesday night and Wednesday night at elm on Student Assembly. He has returned here Thursday and will spend the remainder of his stay in Madison, addressing the meeting of the Teachers' Association.

The program of the Vesper Service has been determined for the week beginning, the first Thursday in April. It will be held, as is the custom, in the Memorial Chapel located in Freshman Hall. The program will include the reading of the Vesper Service, the singing of the University Hymn, and the presentation of the Vesper Address. The address will be given by a distinguished guest scholar who will discuss the importance of a liberal education. The Vesper Service is an important program that is attended by all students and faculty members. It is an opportunity for members of the university community to reflect on the values and ideals of the institution.

Today is Friday the 13th, good old Friday, and our column is probably as enriching as a healthy green salad, which by some is read chiefly and critically. It was too bad that the game with Carroll couldn't have been played tonight as originally scheduled, but because of a conflicting date with Appleton High school which was to perform the same night the Gike authorities asked that the game be played Saturday evening and Carroll postponed.

Indisputable point in a full house tomorrow night and many of the reserve seats are all taken. The stands have not been filled to capacity this season, but tomorrow night looks like a sell out. The Vikes and the Badgers, John Paul, co-captain of the Badgers, have sufficient hours to graduate, but which serves notice on Pioneer "Stretch" have an average of 17 parts per game which isn't at all bad, but which sets the tone of heavy Ripple paper and 50 large envelopes to match — and in addition your name and address highlighted in raised letters on sheets of heavy Riliee paper and 50 large envelopes to match. Of course, that's the reason for the "SALE OF...

THE LAWRENTIAN

Vike Cagers Face Hard Games Next Week

MEET HILLTOPS
MONDAY, BELOT
ON NEXT NIGHT

By Henry Couser

The intercollegiate basketball race reaches a peak in thrillers numerous after the undefeated Sig Eps and Betas in the game which will decide the winner of the Greek tournament. The Sig Eps beat the Betas 17 to 9; the Sig Eps Tom, and most Betas in to clinch it to a tie for fourth place. A Pit Tom victory will practically assure them of a fourth place showing at the close of the campaign.

Expect Hard Battle

If competitive sports means a thing tomorrow's battle should be one of the hottest fought of the entire season. The Sig Eps won the strong D.J. squad 19 to 17; the Sig Eps Tom 27 to 16, the Betas romped home over them 26 to 18. The Sig Eps reached their high peak of the season when they showed a surprisingly potent Thetas Pit Tom, 26 to 12, while the Betas exhibition against the clever Delta Sigma was a hard-driving offensive and a fairly strong defense.

Hold Tryouts For College Gunners

Bite Team Candidate Will Show Aim Next Week

Tryouts for the Lawrence College Automobile team will be held Wednesday night of tomorrow night at the armory Wednesday, February 18. All interested in going to practice are urged to attend the practice.

Knox Track Star
Is Given Honor

By Henry Couser

Henry Taylor, former Knox College sprinter star, was named in the college track and field honor roll which appears in the February issue of the Athletic Journal. He was the only Midwest conference track or field star to be honored this year.

Track endorsements will remember him as the athlete who set a new Midwest record of 98 in the 100 yard dash event held last year at Wabash field. In his three varsity years he has scored 275 points, with 87 points in 1932.

Taylor, upon graduating last June, joined the Los Angeles Athletic Club and is now training for the Olympic trials in 1932. The Knox speedster was halfback champion in the 100 and 220 yard dash his last three years with the exception of 1928 when he placed second in a close finish of the century. In 1932 he ran five races which averaged 57 seconds.

THIRD YEAR OF STUDY MAY BE TAKEN ABROAD

Lawrence Juniors May Spend Year in Germany For Full Credit

It is now possible for American college sophomores to spend their junior year studying abroad and to receive full credit toward the Bachelor of Arts degree for courses taken. This plan will be carried out under the direction of the Institute of International Education, according to President Widell. Lawrence will grant full credit for courses taken providing the student is satisfactory. Each student, however, consult the college authorities upon the matter before enrolling to go to Germany. Only those students should apply whose record has been uniformly high and who have had at least two years of college German, or its equivalent.

The University of Munich has been chosen as the place where the Junior year group will study. Munich, rich in its art collections, its musical and theatrical life, and its proximity to the ancient Alps, offers a very unusual background. Each American student, however familiar with Germany and the German language, will find the Munich area rich in vacation trips to nearby places of interest will be arranged. Arrangements will be made for attendance at the operas and theatre will be made. In this way, the student will become thoroughly acquainted with German culture and civilization.

The Junior Year Group will be under the direction and supervision of Prof. Camillo von Kleeberg of the Department of History of American Literature and German American Cultural Relations of the University of Munich. The program of studies includes courses in German Culture and Civilization, German History and Political Institutions, History of American Literature and German Language, including essay writing, conversation, and an elective course. The cost of the twelve months' sojourn in Germany, including tuition for attendance at the opera and vacation trips to nearby places of interest will be placed in a German family to secure familiarity with German life and who have had at least two years of college German, or its equivalent.

By Helen Hunter

While diversified opinions exist as to what has followed in the wake of the concert which the BarreRe Ensemble of woodwind instruments presented in the Memorial chapel, Tuesday evening. Perhaps it was because the combination of instruments was unusual in its performance, or perhaps it was merely because everyone heard it was made impossible. At any rate the extreme artistry which was possessed by each member of the group, and the mastery which each man had with his instrument, was more than enough to render the playing of the ensemble so fine that those who enjoyed it all were delighted.

Many Types

The program was interestingly arranged composition was utilized, from the Mozart "Hymn" which was escalloped, utilized to the modernist Hindemith. George Barrere, flutist, and director, interspersed the program with stories of Hindemith, he arose to stand for an understanding and appreciation of the works of this great composer.

Children To See Play Tomorrow

Theatre Will Present "Snow White and the Seven Dwarfs" In Afternoon

The first public appearance of the children's theatre is scheduled for tomorrow afternoon, when the theatre will present "Snow White and the Seven Dwarfs," in Memorial chapel. The play is being directed by Mr. F. Theodore Cloak.

The story is described as one of the most delightful fairy stories ever written. The theme is centered around Snow White, a lovely princess, who is the victim of her ugly stepmother, Queen Grumpenwool. She is repeatedly deceived by her stepmother into believing that Snow White is dead, in the glass coffin made for her by the dwarfs. The kiss results in a piece of poison apple being dislodged from her mouth and Snow White awakens and lives.
