PROGRAM FOR COMMENCEMENT WEEK ANNOUNCED

BEGINS JUNE 44, GRADUATION IS MONDAY, JUNE 8

Alumni College To Be Advertised Here This Year For First Time

Announcement was made this week through the office of Dr. Henry Mer- ritt Wriston, president, of the plans for commencement week. The program opens June 4 and closes with the commencement dinner to be held at Russell Sage dormitory, June 8. Commencement week will be inaugurated June 4 with sessions of the alumni college Thursday, June 4. The alumni college is being advertised here for the first time this year after hav- ing been accepted in many of the large colleges and universities throughout the country.

June 1 will mark the second day of the alumni college as well as the beginning of daily sessions relative to commencement activities. The sessions of the alumni college and trustees and visitors are scheduled for the morning and afternoon of June 1 and 2. On June 1 dinner, noon, the alumni college will again be in session, while at 10:30 the annual business meeting of Phi Beta Kappa will be held in Mr. Wriston’s office. The conference was attended by the members of the chapter, with Dr. Griffiths giving an address on Vocational Guidance and the importance of making a good choice. This was followed by a question and answer period in which the members were given an opportunity to express their thoughts on the subject. The meeting adjourned at 12:00 noon, dinner and discussions will be held at a later date.

The commencement activities will be held on Monday, June 8, beginning at 11 a.m., on the main campus. Between 11 a.m. and noon the alumni college will be in session, after which the university will hold its annual graduation exercises in the New Alfalfa Field. The meeting will be held on the south campus at noon. At 1:00 p.m., the alumni college will continue with its sessions, while the commencement dinner will be held in Mr. Wriston’s home. At 6 p.m., the commencement exercises will be held in Memorial Chapel.

College commencement exercises will be held on Monday, June 8, beginning at 11 a.m., on the main campus. Big Four College Presidents Meet

President Erving Maurer, W. A. Robinson, Silas Evans and R. M. Griffiths of the four prominent Lawrence colleges were entertained at luncheon Monday by the Lawrence College Alumni Association. The occasion was the opening of the college year and the first meeting of the Alumni Association. The luncheon was held in the Alumni Clubhouse and was attended by a large number of alumni from the different colleges.

Hazel Glee Pleases In Junior Recital

A program which was attractive and well performed was given in the Junior Recital by Hazel Glee. The vocal and piano recital was presented by Hazel Glee. The program consisted of songs by various composers, including material by American and European composers. The recital was well received by the audience and was followed by a reception in the Alumni Clubhouse.

Balloons Take A Bow

A new and popular activity which has been introduced at Lawrence College is the Balloon Recital. This program consists of a series of balloon competitions and is held on the campus. The activity is open to all students and has proved to be a great success. Students are encouraged to participate and it has become a popular attraction on campus.

Graduate Students Named New Deans

The Department of English has announced the appointment of three new deans. The new deans are Dr. John Smith, Dr. Jane Doe, and Dr. Richard Brown. These appointments are in recognition of their outstanding contributions to the department and their dedication to the education of graduate students.

Appointment of new deans marks a significant milestone in the development of the English Department. The new deans bring a wealth of experience and expertise to their roles, and are committed to advancing the goals of the department and the university.

The new deans will play a crucial role in shaping the future of the English Department and in fostering the growth and development of the graduate students. They will work closely with the academic staff and students to ensure a high-quality educational experience and to promote a vibrant and stimulating academic environment.

The appointment of new deans is a testament to the university’s commitment to excellence in education and to the dedication of its faculty and staff. It is a significant achievement that reflects the university’s ongoing efforts to provide the best possible education and training for its students.

The new deans’ appointments are effective immediately, and they will be working with the existing faculty and staff to ensure a smooth transition. The university looks forward to the new deans’ contributions and is confident that they will help to advance the department and the university to new heights of achievement.

Hernandez Gives Convocation Talk

Late in the afternoon of Wednesday, May 21, the Lawrence College Convocation was held in Memorial Chapel.

The main event of the convocation was the Convocation Talk by Dr. Hernandez. Dr. Hernandez, a well-known scholar, delivered an inspiring speech on the importance of education and the role of the university in society.

After the Convocation Talk, the convocation concluded with the presentation of awards to the students who had achieved exceptional academic success. The awards were presented by the president of the university, who praised the students for their hard work and dedication.

The convocation was attended by a large number of students, faculty, and guests. The event was a great success and provided a fitting end to the academic year.

Lawsuit Filed Over Parking Lot Dispute

A lawsuit has been filed by a local resident over a parking lot dispute. The resident, who lives near the parking lot, contends that the university has not properly maintained the lot and has caused damage to his property.

The resident has been attempting to resolve the issue with the university for several months, but has been unsuccessful. He has now decided to take legal action to ensure that his concerns are addressed.

The university has disputed the resident’s claims and has stated that it is committed to maintaining the parking lot in a safe and functional condition.

The lawsuit is expected to generate significant interest and may lead to further discussions on the university’s parking policies and procedures.
PASSING COMMENT

THE ATHLETIC SITUATION

Three times Big Four track champions—Defending Big Four Champions—both titles acquired in the years 1913 and 1914, have come face to face with one another in Whiting field. Perhaps it is the fault of the outside press that it has not published the results of matches created in the minds of the student body. Repeatedly stories have appeared in the Milwaukee press that Mr. Denney is handling his teams in a lack of preparation to win, and this for the third time. No coach can be expected to produce results in a short time, and the hard work of developing Big Four teams of the past is not to be expected in two months. It is a well-known fact that Mr. Denney has conducted his team in this way of surprise, and has let the University know that he is going to give Wisconsin its four consecutive Big Four titles.

It is not our purpose to disillusion the students who are not familiar with the situation, but the prospects of retaining the Big Four titles are very slim, and the fact is that perhaps the University will be even second, in having to fight it out with Beloit for third place. These coulds for no criticism of Mr. Denney, but commendation. He realizes better than anyone else that Lawrence is due to be humiliated and enslaved, and to the sports observers the results of the meet Saturday night may be a surprise, but in comparison with the marks made by Carroll in a duel with Mr. Hemenway, the Lawrence athletic director is spending every moment of their time in the fresh material, which happens to be unusually promising, in a move to build for next season's campaign. Perhaps our student bodies will be interested in the results of their efforts in every line of endeavor, and in the coaching game it is a necessity.

Minor Sports

Program on the Rise Here

Coach goes to Mr. Denney again for building up a minor sport program. Regular meets with the University of Wisconsin and a full schedule for both the tennis and golf teams are adequate proof of the well-rounded minor sport program. True, Wisconsin defeated the golfers by an overwhelming score, and the Badgers treated Lawrence in tennis by a more convincing margin, but take into account the sulphide mineral exhibit of the French government; instructor in the University of Wisconsin; and receiving for it a medal at the Paris exposition in 1900 for the mineralogy and curator of the Lawrence faculty. Dr. MacHarg taught Greek and his native historical works at the University of Upsala. He is especially noted for his extensive research and publications in connection with the life of Abraham Lincoln and in the field of visual education.

RUFUS M. BAGG

Rufus Mather Bagg, Ph. D., Nathan C. Coffin professor of geology and curator of the Lawrence geological collection, was selected a school of science, received a B.A. degree from Amherst College in 1891 and in 1894 received his doctorate (Ph.D.) from Johns Hopkins University.

Professor Bagg was principal of the Labor high school (Baltimore) upon graduation from college and was instructor in mathematics at the Worcester summer school for boys at Lake Quinsigamond.

Positions filled by Dr. Bagg include the following: assistant in geological education, Johns Hopkins University, 1891-92; professor in New York state universities, 1893-94; engaged in underground water development in the republic of Chile, S.A., but this work was limited by the revolution in that country; professor of physical science, Colorado College, 1897-98; served in the Panama exdidation in 1906 for the U.S. government, participating in the investigation of the sulfide mineral exhibit of the United States at the Panama exposition; engaged in teaching in Colorado Springs, 1896-98, and in the French government's research on the added to the Lawrence geological collection, was selected a school of science, received a B.A. degree from Amherst College in 1891 and in 1894 received his doctorate (Ph.D.) from Johns Hopkins University.

DENNY’S 1931 TRACK SQUAD RUNS AWAY FROM APPLETON HIGH TEAM AND VIKE FROSH

Varsity Scores 52, High School 25, and Freshmen 22; Mentor Plans Hard Drills In Preparation For Intercollegiate Meet Saturday

ORE than doubling the points of their next closest rivals, the Appleton High school track team, thirty six points, gave them good reason to feel confident about the outcome of their meet with the Vikings this five week-old Saturday at Whiting field.

The final scores were 52, 25, and 22 for Appleton High, the Vikings, and the Freshmen respectively.

Cold weather and a strong wind prevented any fine looking performances on the part of the competing athletes and times and marks were slow. At least the Vikings and freshmen were not in a state of the little white ball around familiar white shirt at Madison Friday. The goalies took their turn at dodging the little white ball toward the badge corner, with the result that they scored several down at the end of the afternoon’s work.

Saturday afternoon, the Coe stars headed the Vikings tennis team away in the rain. The Vikings failed to break through to much good if any as a result of the hard rain or the wet court. However, the score was well taken into account as a play of brown against the white. The Vikings, however, forced to content itself with two points and the score for the meet was 1-0 in favor of the Vikings who lost.
SOCIETY

Dinner Dance

Delta Gamma and Zeta Tau Alpha held a dinner dance at Ormsby Friday night.

Friday night. Mr. and Mrs. L. A. S. Kloehn, LaVahn Minnesota, were guests. Music was furnished by Tommy Temple's orchestra.

Holds Formal Dinner Dance

Dr. and Mrs. S. Kloehn, LaVahn Minnesota, were guests. Music was furnished by Tommy Temple's orchestra.

Feature Writers Enjoy

Home Comforts At Class

(Continued from Page 9)

The feature writing class is an excellent place to speak of the joy habits. The young man who was long and thin, and the young woman who was short and thick, were both famous for their social habits. If you rewrite that a couple times maybe some editors will let you get it to them!

The feature writing class is an excellent place to speak of the joy habits. The young man who was long and thin, and the young woman who was short and thick, were both famous for their social habits. If you rewrite that a couple times maybe some editors will let you get it to them!

In the feature writing class, the writer must carefully plan his story. He must first decide on what idea he wishes to express. Then he must gather the material needed to support his idea. Finally, he must write the story in such a way that it will be interesting and informative to the reader.

A man and a motor cycle are not the same thing. Too much knocking indicates that something is wrong.
