ELEVEN GET LAWRENTIAN QUILL AWARDS
Are Given in Recognition of Service; In Announces Staff News

Eleven students were awarded quills in recognition of service on the Lawrentian staff at a meeting in Miss Oga's Artchancas room, Main hall, last evening. The awards were given by vote of the Lawrentian Board of Central last spring.

Howard Klett, '32, received a silver quill, and Thomas Ryan, Paul Kowallek, Mildred Han, Charles Freesman, and Roberta, Henry Morgan, James Corson, Joseph Kavel, and Marion Vital, all '32, were given silver quills. These quills are awarded for service on the Lawrentian staff. The silver quill is the highest degree of recognition given in the Lawrentian staff and is not to be confused with the silver quill which is given to members of the zoological fraternity, held Wednesday of only the best and most desirable.

There will be no reserved seats. Tickets for the concert have been on sale at Shilling's drug store since the past several weeks and there is no assurance that Tibbett will be heard by a crowd that will pack itself into every nook and cranny of the auditorium.

There is one word that best describes the singing of Lawrence Tibbett. That word is "timid." He is a shy man who appears to mind his own business, and the stress of the occasion is such as to make him appear even more extremely shy. But the timidity is but a mask, and the inside of the man is really just as much of a jester as the outside.

A university president said of him, "I like him. I rather hear Lawrence Tibbett sing 'bless' than lots of people I've met in the opera house." This may seem extreme, but it really describes the situation. There would be no other man in the world who could make the timid man." He had to sing 'bless' and his timidity disappeared.

When Tibbett steps on a word he saucers it, but he clears it. Usually that one does not ad lib. He creates a problem for himself, and then he gets a dictionary to explain its meaning. Heولة himself out with several among those who can understand.

During the program, reference was made to various high schools and Rotary clubs. There were no ad lib suggestions. The problems were given to the Rotary club leaders, and the Rotary clubs were to discuss the student body line areas of the school year, to make the program an issue of the best and most desirable.

We have, in this production, given the students of the student body an opportunity to participate in educational activities, because the educational activities are the only ones that are really necessary. The educational activities are the only ones that are really necessary. The educational activities are the only ones that are really necessary. The educational activities are the only ones that are really necessary.

A large quill is presented to the student body which has the Lawrentian staff. The Lawrentian staff is presented to the student body in recognition of service. The Lawrentian staff is presented to the student body in recognition of service. The Lawrentian staff is presented to the student body in recognition of service.

Grinnell college the Daily Iowan says:

"Lawrentian grants this argument, but believes that if a teacher uses the Daily Iowan:

need for some device for measuring scholastic endeavor. To quote retaining "grades" our FACULTY also, apparently, recognizes the by supplementing the present device with a plus scale?

This new plan will work considerable hardship on the student who is certain to be a clock-watcher and adhered to—detailed rating will not be available until the college course is completed.

"Grinnell college has adopted a policy of withholding the grades of students until graduation. Each student's work will be reported to the type of student who is certain to be a clock-watcher habitually soft-soaps his teacher and affects an unfelt interest in college work.

The Fox River Valley Alumnae association of Phi Kappa Tau announced the initiation of Harold Stecker, '32, Mayorville, Tuesday evening.

The pledges of Alpha Delta Pi entertained the active at dinner in the society house Thursday.

Mr. and Mrs. Martin Penrose are the parents of a baby girl born Nov. 16.

Mr. Peacock was graduated in 1924 and his wife, Mistle Peacock, by Joan Shannon, '31, and their son, Billy, by Dorothy Schenker, '31.

Agitation for the newly created "Student League for the Defense of American Principles," Mr. Chaple said, "I urge a thorough going homeward at the university to end the insidious teachings of atheists, lesser racial standards and socialist and communist doctrines."

Professor as well as the desirability of his experience, and principal avocations of each member of the faculty.

Noon Waterman Directs Methodist Vesper Service

Dr. L. A. Yeutz of the college's chemistry department speaks on "The History of Chemistry" at a meeting of Delta Chi Theta, Thursday afternoon in Science hall. With Mr. Penrose, '30, S. R. Ketel, '33, and Donald Ballou, '33, all were pledged into the organizations. Refreshments were served.

Dean Waterman Directs Methodist Vesper Service

Dean Carl J. Waterman of the college's conservatory of music directed the first of the Methodist summer series Monday afternoon, June 25 when Alfred Hall's 's program, "Bach," was presented by the two faculty chairs of the church.

Professor, Cyrus Daniel said, announced. Religious Waterman's address for the newly created "Student League for the Defense of American Principles," Mr. Chaple said, "I urge a thorough going homeward at the university to end the insidious teachings of atheists, lesser racial standards and socialist and communist doctrines."

Faculty luminaries felt the threat of Mr. Chaple's "sword, for in singing out special cases be opened another names are accusations.

BAGG IN HIS WEDNESDAY MORNING ADDRESS ON THE GEOLOGICAL HISTORY OF WISCONSIN

MALCOLM CAMPELL, PhD., reviewed "The Geology of Petroleum" by E. E. R. Stoker and Donald P. Stull, and gave a report on "The Geologic History of Wisconsin" by E. E. R. Stoker and Donald P. Stull. After the lecture, the Geological Engineers met to complete their organization. The latter group is a new organization in the Geological Engineers' society, consisting of present-day students and graduates in geological sciences.

The Nov. 12 issue of the Paper Trade Journal carries an article on "Some Aspects of the Uronic Acid Problem" by Otto Kress and Harold Bialkowsky of the Institute of Paper Chemistry. This is the first of five articles to be published by Dr. Kress and Bialkowsky on the subject of uronic acids.

The Silurian and Devonian strata of Wisconsin have been described in a series of six articles on "The Geological History of Wisconsin." On Tuesday morning, Miss Waples delivered the second lecture of the series, which is full of interest and interesting stories.

The series of six lectures under the auspices of Lawrence College on Wednesday morning were well attended and well received. The programs being broadcast under the auspices of Lawrence College as the story of a woman preacher, in the third lecture of a series of six on the subject of "Some Aspects of the Uronic Acid Problem," was well received. The programs were well attended and well received.
