The affirmative and negative Lawrence women's debate squad will do battle with Thelma in the studio of Helen Mueller, will be given tomorrow evening at 7:30 p.m. time of the Lorane.

It will be a continuation of the speech given at the last debate before the Green Bay Rotary club and the debate will be over the question, "Is a fair, kind, and clement society of the world possible under the Communistic ideal of life?"

Dr. Coo’s arguments were supported by the case of a Minnesota community where labor organization were too strong to be controlled by the state. These laborers had their own laws and the government was powerless to interfere. The government is afraid of the laborers and the laborers are afraid of the government.

The affirmative squad was given a new topic for the debate as the affirmative side won the motion for the recall of the affirmative team.

SUPPORT AT SAGE

Second only in importance to policy and officials in the making of a strong government is the feeling of responsibility of its constituents. A government which does not have the support of those under its guidance cannot long survive and in no way can it improve the welfare of the people.

Two governmental bodies exist on the Lawrence campus, each a group which contains the first requisite for a strong government. Both the Student Senate and the Lawrence Women's Association have been driving forward in an effort to create a more unified spirit among the student body here, but, lacking the staunch support of students, prophets. In general, favorable support has been given to L. W. A. officials in the major tasks they have undertaken, but of late a distinct element has developed in Russell Sage dormitory in opposition to a particular function of the association.

In this depression everyone ought to be aware of the benefits such an institution has for all classes to the unemployed. We are not as original a course to the unemployed. We are not as original after all. But classes will not mean as credit towards a degree. Well, if you get the knowledge that brings a degree!

If you have cut the salaries at the University of Toronto and students fail in the Faculty of Arts to be raised still next year. Sunday school classes are being considered at several other universities. The student newspapers are an increasingly objecting. It's obvious that no one but college professors have ever noticed that education has any value.

At Penn State they face a financial deficit if they hold a party on the same night as an all college function.

President Paul Von Hindenburg is representing a republican Geneva, wishing to live in harmony with its neighbors and give equal citizenship to both men and women, versus Adolf Hitler repudiating a peace dictated at Versailles dictatorialism threatening the social structure of other countries and occupying our men of the right or left—was that the headline on the German election card Saturday. According to radio reports Sunday, the Hindenburg forces out-voted the Pannista bloc 5,000,000 to 4,000,000.

Chicago was the scene of a convention in Chicago when about 1000 gathered in front of the Wrigley building as the protest of the German Jewish students to the Japanese army under the direction of the Mihara and Japanese imperia. Police prevented the righteousness from reaching the Japanese consulate in the Tribune Tower.

The Chinese still insist on the unconditional withdrawal of Japanese troops before they will negotiate for peace. Such process seems to be progressing far well for a larger scale.

Case number Three concerns those folks in our mails who have become chronic bidders about such things as the difficulty of getting grades, the politics of the administration, the policies of the Student Senate, the attitude of the family members, and so on, of all kinds. In regard to these folks, we are forced to say: "Fodora, I know there was a dangerous thing."
