**The Battle Wren**

To the Editor:

I want to thank you for bringing up the recent news from the front of the war. We are all aware of the terrible losses that have occurred, and it is heartening to hear of the brave men who continue to fight on.

Sincerely,

[Signature]

THE LAWRENTIAN

So They Say

In Lawrence College—a college of distinction, a college that has one of the finest conservatories of music in the mid-west—there should be possible to organize a pep band that could give adequate context. What most opposing teams think of as a band of mediocre talent or what is waste, no band at all has been placed upon the stage. A pep band is the pride of the school. This is a reflection because the organization has been cooperating to the fullest extent in order to have good music present at the games. Money has been appropriated for corn, cornets, and instruments, but not for an east. The pep band is out with the pep of the students. Its function is not only to direct the current band, but also to organize a pep band. The pep band itself is very successful. Pumpkins have been carried from the corners of the room, while great stories were told and the most distinguished galos got their bangs wet dancing for apple.

On Friday the Alpha Delta pledges are giving a party for the actives at the Dexter cottage on Lake Street. The fraternity houses too were filled with visitors. The Beta welcomed Olle Williams, Dave Jones, Harold Harper, Harry Kellogg, Bert Kellogg, and Joe Brickett. The Phi Delta had Fred Culhane, Walter Schaller, Phoebe McKee, Bob Brower, and Evelyn Rehn. Ed, Will Roberts, and Bud Schenkel '31. Bud Diez '30, Bob Jones '30, George Mosher '31, Ken Dean '30, Col. F. J. Schneller '19, Mel Farrish '31, John Brower '33, Bud Nemechek, E. Mokela, J. Newbury, '27; G. Krouse '29; H. Berzinsky, F. C. Gebhart, M. Poppe '33; F. C. Gebhart '33, treasurer. Herman P. Schweger '32 as president.

The Alum association of Phi Kappa Tau has an interesting review of T.E. Lawrence. The Kappa Delts welcomed Helen Zuelke Building 4th Floor Phone 5968

A record crowd gathered in front of the Campus Club on the afternoon of the Open Houses and moved at the great behind the center table at the proper moment.

Every train, bus, and airplane that came into Appleton brought visiting alumni; they swarmed the campus, they roamed and getting in on all the fun.

The Alpha Delta entertained members of the放入the and the Harding group and entertained at the proper moment.

Margaret Vail, Mildred Marshall, Vera Weidman and Mary J. Harrington had the most delightful time ever and saw a lot of the boys they had dated in the past.

Dorothy Gibson, and Dolores Carper spent the week-end with the girls and Helen Connell, Margaret Mowry, and Jean Gardner were the Alpha Chi visitors.

In honor of the twentieth anniversary of the Alpha Theta chapter at Lawrence College, a banquet is being held this week-end. On Saturday the alumns will meet at the Hotel Northern, and other meeting will be held at the Hotel. The Kappa Delta welcomed Helen Stone, whose sister is the present president of the Homecoming Guests. On Sunday the Reception Committee met in the library and arranged for the Homecoming and was followed by lunch at the Hotel Northern. Service Venables, Grace Cress, Carlene E.發, Helen Wilson, Norma Heman, Dorothy Redman and Mrs. Dean Campbell attended the Reception.

Baldwin Brickett, Jessie Davis, Elizabeth M. Smith, Margaret S. Rusk, Helen C. Al- gons, graduate Zeta Tau Alpha returned to visit their sorority sisters this week-end.

After the games the actives entertained the alumni and guests to a very successful party. Pumpkins have been carried from the corners of the room, while great stories were told and the most distinguished galos got their bangs wet dancing for apple.

Although it is still quite early in the school year, the staff is already functioning. The important work they have begun is selecting art for the year book.

BETHUNE REVIEWS BOOK

At last Monday's meeting of the Woman's Club, Miss Bethune gave an interesting review of T.E. Lawrence's book, "The Seven Pillars of Wisdom." Along with the book review, she gave some interesting highlights on Arabian life.

As on a band that carries on, but functions, then it is necessary to make an addition to the conservatory of some one who can make the current band and supplement his and obligations—realizing that one cannot be successfully carried on without the other. Other colleges have the concert band as a separate function that is thought of being. Therefore it should be a part of the Lawrence College curriculum.

The organization of such a band has been safeguarded so that attention might be given elsewhere. In any opinion, if such a group dedication is to be made an addition to such an institution's free

N. Y. A. Enables 115 Students to Attend Lawrence

College Receives $1,260 Per Month From Government

During the first week of college 115 students were working under the Federal Youth Administration program at Lawrence. According to the weekly reports, 40 students were engaged in research work, 40 students were engaged in clerical work, and 35 students were employed in the maintenance of the College dormitories and laundry. Every student was paid for the employment of 12 students, but for some students the work was less time than the requirement of 12 hours, with the result that 115, instead of 120 students have received part-time employment. Lawrence College president Dr. Charles H. E. Mulford states that this will enable the students to earn $15 a month, with the result that by the end of the school year they will have had plenty of experience in practical business work, and will be able to say to the rules of Dorothy backwards and forwards.

According to a release of the N. Y. A. on Oct. 23, financial assistance for 90,000 needy students in the District of Columbia, 46 states, the District of Columbia and Puerto Rico are engaged in research, clerical, office, library, museum, and laboratory work, while off the campus activities include research, health, and welfare projects.

One of the most important phases of the work of the students whose need has already been determined will be the application for aid made at the end of the previous year. On the application the students state the type of work they are engaged in and the number of students employed. The students whose need has already been determined will be employed under the Federal Youth Administration program. The students whose need has not already been determined will be employed under the Federal Youth Administration program.

Each college president is held responsible for the work of the students engaged in research work, clerical work, and laboratory work. The work of each college president is supervised by the Federal Youth Administration.

Lawrence to Meet Beloit Tomorrow

Visiting Team Promises Vikes A Tough Battle

Lawrence Must Win to Keep Near Second

Place by Karl Mess

The 1933 Lawrence college football team makes their final appearance on the home field when they meet Beloit here tomorrow in a Midwest conference game.

Lawrence can win this game and move into second place in the Big Four conference, but it will be necessary to do so, for the team from the north will be a hungry and inured force.

Bob Shreve was bruised, Durbrow's injuries will keep men from competing in tomorrow's game. Marty Bridge was injured in practice and Carroll next week, however, shop early and avoid the rush.

Frank Dean is shown above attempting to make a field goal from placement in the first half of the Homecoming game with Ripon.

Ripon Reds Spoil Homecoming Game

By 18-14 Victory

Lead Changes Often in Thriller; Questionable Calls

The Ripon College Redwings spoiled another perfect Homecoming last Saturday when they handed the Vikings their first defeat of the year in one of the most thrilling games ever witnessed at Whitling Field. The final score was 18-14. The defeat not only ruined the Homecoming program but it forced the Vikings out of first place in the Midwest Conference. Lawrence came from behind in the second half to score two touchdowns via the aerial route only to have the Vikings clinch the victory by racking up 10 points on two field goals in the final minutes of the game.

midway the event.

GEORGE BEVERLY WALTER
Ripon Red Spoil Homecoming, 18-14
CONTINUED FROM PAGE 8
point went out to the 39 yard line, where the Vikings gained 6 yards in two plays. On the next play Ors.
wen's kick was blocked and recovered by Ripon on the Viking 7 yard line. Two plays netted 3 yards, and then a long pass and a spot
tackle put Osen in the end zone and ball on the 2 yard line. The Law-
son line, facing on its own goal line held for two downs, but on the third down the ball was carried over for the first score of the game. The kick for the extra point was good with both teams playing for a win.
In the middle of the second quar-
ter the break came. The Ripon line blocked another punt on the 21 yard line and one of the Ripon men made a spectacular catch of the ball and fell on it for another touchdown. A great deal of excitement resulted on this play also as the ball was kicked a good 15 yards before the Ripon man fell on it. The ball ended with Lawson in possession on the 18 yard line, after a march of 36 yards in seven
plays.
The third quarter was played in a very slow pace and neither team could break any outstanding records. After the quarter the Vikings took the ball on their own 47 yard line and after two completed passes and three running plays which netted a few more yards. The ball was driven to the Ripon 14 yard line. The next play was an incomplete one, but the next one found Lawson leading against the Ripon line and one of the Ripon men made a spectacular catch of the ball in the end zone and ball on the 2 yard line. The ball was kicked the extra point kick, the extra point kick, the extra point kick, but anyway only nine play-
ers made the turn. The fourth quarter opened with the ball on the Ripon 43 yard line. The ball was returned to the 57 yard line by an attempt to punt and a fumble. This fumble was retrieved by Osen and one of the Ripon men on the 46 yard line. The ball was taken over by Ripon and three plays netted 1 yard, which was stopped on the 5 yard line and the Ripon punters
kicking from behind his own goal
line was forced to hurry his kick so that it was done on the 1 yard line. The next play netted a first down, but on the next play another pass, Leech to Owen was good for touchdown. Struckcliff passed to Hal
er for the extra point. Viking hopes can live. Here at last was that going to break the strug-
gling string of Homecoming defeat. No something or other the God
cold lost smile on the Lawrence
woman, or maybe it was the devil
breathing into the soul of the un
lucky Lawmen. Whatever the case
after the touchdowns, the always
mentioned play occurred and the
score was won. The game ends with Lawson in possession of the ball on its own 25 yard line, fill
ning the air with pages in a des
perate attempt to score.

Odd Phenomena About Band Girls
The last two rehearsals of the Pop Band there were great throngs of
students of both sexes which bothオス
and have always been anxious to play with this organiza-
tion.
There are many girls in the col-
lege who play some band instru-
ment and perhaps have not heard
that girls are now permitted to
participate. Concerts and school
vords have been set but they
are sure you'll want to join after
watching the bulletin and come to
the next practice.
The girls who have been there
have gotten a "big kick" out of it and
enjoy the "poppy" new number
from the "Blind Bandstand" which
includes novelty numbers.

LIFE'S ODDBITIES
By George Clark

I always forget, from year to year, just how much trouble and how miserable this is.

Bigotry at Its Worst

Considerable reaction was aroused among the student body of the University of Minnesota when the board of regents ordered by a ruling of the state supreme court that negroes were excluded from the men's dormitories. Coming from the portion of the negro race, this move is naturally regarded by negroes as exclusion from the men's dormitories.

If this is any indication of the present trend of thought in America, it would seem that our so-called "Western civilization" is on the brink of decadence. Happily, however, we learn that this trend of thought in the University of Minnesota is not representative of the University of the nation. In the nation at large was the survey recently completed for the Associated Press by the American Institute of Public Opinion. The results are significant.

College Sentiment

Of unusual interest to the country at large was the survey recently completed for the Associated Press by the American Institute of Public Opinion. The results are significant.

The following results of the A. C. P. survey are of interest:

1. Minnesota is a group of 1010 students who are in decided sympathy with Ethiopia in the present undecided war in Africa. spirit is due to the wisdom of the United States' joining the League of Nations, which has led the world to recognize the rights of Ethiopia against Italy, with only a minority in support.

2. College students are more than ever before are prepared to view with cynical skepticism the flag-waving ingenuity and propaganda so successfully used to drive America into participation in the World War.

3. "The flood of books, pamphlets, and magazine articles exposing the origins of past wars, and particularly the World War, has found a wider circulation among college students and instructors than among any other group of the American public as a whole.

4. "The number of conscientious objected to the World War in the colleges and universities, both those who would return to the front and those who are pledged not to fight for any reason, has vastly increased during the past six months.

The results of the survey are an accurate reflection of the attitude of American college students today. Our congressmen would be wise to bear them in mind.

The Spirit of Idleness

Students and professors are consciousness of a subconscious tenet that there may be a definite amount of work which must be done in a definite amount of time. They are doing mental piece work and they behave very much as the factory worker does with an efficiency expert behind his back. This is an age of dynamic culture. Everything must be scheduled and organized. Even leisure is looked at with a cold,critical eye for the greatest exploitation.

It is a whirlwind of activity; beings swirl within it. There are no forelocks in four years—just four years. In its intensity in teaching how to live, how to grow older. And the condition is ten thousand times more common in women than in men. Parents and even grand-parents are nervous at the thought of how amusing it is to see the universe just a mile off balance. We call them people. Earnesty is the best policy. They may have a sense of humor or not. That determines how they will be great and how they will be.

The Cat's Paw

Ugly ducklings may be classified into two groups: the lower and the lighter.

The lower strata of people who see the world in outline only. One impresses their view of the universe by their two-dimentional. With them we are not concerned. They exist. The upper strata are occupied by those whom one may expect to do as they see. They may be not at the world, but into it. And the laughter occasioned by them is a nervous laughter. It is a sort of laughter, particularly comprehensive about such matters. They are too interested in watching the finished products. They cannot appreciate how amusing it is to see the universe just a mile off balance. We call these people earnest.

In the finer examples, there are people of essentials only, stripped of gaud and sham. In them equillibrium is not a deep-sounding, but a fine-balanced idea. It is fair, set off by the merest shiver of the verge; all these aims. But the most amusing to the world at large is the ugly duckling, the man who is ridiculous and doesn't know it. He may be out of step in appearance or actions, but the most marvelous fact about the creature is that he is unaware of his nonconformity.

The men are sensitive intellectually, but only as far as the capacity for thought goes, the men are adaptable. They have a sense of humor. At the risk of immediate annihilation I would class all great men as equal.

They may have a sense of humor or not. That determines how they will be great and how they will be.

But earnestness is the best policy.
