Trevor Publishes First Volume of History Text

Volume Deals With Near East and Greece of Ancient Times

A history text, "The Ancient Civilization," by Dr. A. A. Trevor, professor of ancient and European history at Lawrence College, was published in March by Harcourt Brace and Co., New York. Dr. Trevor, who worked for many months on the project, is now writing a second volume under the same title. The text deals with the same locale, which Harcourt Brace hopes in a few years to complete in two volumes, the first to be released next year.

The book is the enthralling story of man's rise from the race to civilization in the Near East, a story that spans several centuries. While it is primarily a text, it is written in such a way as to give the volume interest to the reader, and as a text, it is written in such a way that it will be of interest to the student. The book is the first of its kind to be written by a member of the faculty, and the author has compiled all fields of prehistoric and early historical investigation of the ancient world, so that the work forms a complete course of study in the whole civilization of the past, rather than a series of disconnected episodes. The book, which is written in an unusually clear and readable style, is highly readable and highly accessible.

Have you heard this one about the traveling salesman? You've seen it in the movies. You've even heard about it. But have you ever read it? This past week, on Monday night, the High School played "Through Palestine" by R. Deane Canterbury, (the whole book). The high school's drama department's production was a great success, and the audience was captivated by the story of the travels of the ancient Jewish prophet, Amos. The performance was so well received that the school decided to produce the play again next year.

Dr. Kepler Leads in Good Friday Service

With a candlelight service the Lawrence College student body attended the Good Friday service. The event was attended by thousands of students, faculty, and staff. The service was held in the Memorial Chapel, and the audience was led by Dr. Kepler, who delivered a powerful sermon. The service was concluded with a benediction by the Rev. Dr. B. Bell, rector of the adjacent church. The service was a moving tribute to the sacrifice of Jesus Christ and marked the beginning of Holy Week.

Bills Too Much Necessitate Rush for a Frat at the Old Time Fraternity

Are you thinking of leaving your fraternity to join a new one? Here are some of the reasons why you might want to consider leaving and the benefits you can gain from joining a new fraternity.

1. Financial Considerations
   - Fraternities can become quite expensive, with dues, initiation fees, and ongoing expenses. If you find the bills too much, you might consider leaving your fraternity.

2. Personal Growth
   - Fraternities provide opportunities for personal growth, but if you find the demands too much, you might consider leaving and finding a new fraternity that better suits your needs.

3. Social Environment
   - Fraternities have their own social environment, and if you find the atmosphere too restrictive, you might consider leaving and finding a new fraternity that offers more social flexibility.

4. Academic Support
   - Fraternities can offer academic support, but if you find the focus too distracting, you might consider leaving and finding a new fraternity that offers more academic independence.

5. Inclusivity
   - Fraternities are often exclusive, and if you feel excluded, you might consider leaving and finding a new fraternity that is more inclusive.

For that much needed relaxation try a Frolic at the Old Time Fraternity. Are the demands of the fraternity too much for you? Are you considering leaving your fraternity to join a new one? Let's consider the reasons for leaving a fraternity and the benefits of joining a new one.

McGrew and her companions with ten members of the Lake Louise intending to climb the peak. However, they were turned back and instead, with much difficulty climbed the beautiful Fishhook group. The speaker stated that this is a large abnormal place.

She then told of a new adventure which he and his companions had with black bears and greatly enjoyed.

Jean Saunders

As New President

Jean Saunders, president of the Town Girls' Society, was installed as the new president of the Alpha Chi Officers was held on Thursday, April 13 at Hamer House. Other officers are Joan Steele, vice president, Mary Tuttle, secretary, Marjorie Lewis, social chairman, and Ruth McFadden, treasurer.

A skit was presented at the meeting, Vince and Mary playing handball with an empty milk can, and two girls sat down and dashed off a cowboy, nobody knowing who was which.

Writing in the Lawrence office to ask if we were going to have a costume party dinner Thursday night, Mrs. R. E. Wellings and Mrs. T. C. Ber- cok, of the committee in the grand manner, dressed in costumes there from a classical dinner at the Fowle's. Mr. Wellings and his "Harlequin" costumes at Miss Margarette Woodworth's dinner party for senior women last night at Hope seemed to have that "tailored by Junken" air.

Sage Shakeos

Off Clock of Winter's Long Hibernation

The "L" club dinner was the opening of the spring season, with the French in new forms, the girls being the homes moving in on the Reta, and "Alicieux" transformed the atmosphere which we suspect once again as we seem to see Marge and James have again occupied the center of the Lawrentian steadies, and it wasn't all English History. We were sorry for the poor cusses in the infirmary. She got snagged hard at work on a defenseless Alt. In the last year to be ardently religious. That.kappa Delta entertaines, aren't they!

Did you ever see a skeleton in a dish? We of Brokaw can't help noticing after so many weeks of haunting, the real deal. He turned down the best in everything, but that's better. We didn't get that far yet.

Well, at last spring is here. The flowers are blossoming, the birds are singing, and the rivers are breaking their flood. The New Year is about to be launched, and we must not fail to make the most of it.

College Newspaper Offers Five Point Reform Program

Norton, Mass. — (aptly — Answering the challenge of Wheaton College's President J. Edgar Park, the staff of the college's staff has formulated a five-point program which would lead to drastic changes in the academic administration.

In answer to Pres. Park's challenge that "the only thing that can save the American college from going down when the public discovers how little real interest there is in study is an insurrection on the part of the students," the News attaches:

1. That mentally capable but lazy and indifferent students be "shoved out at once and not allowed to slide by" as at present, thereby handicapping the academic standard.

2. That a new ideal be upheld for freshmen and that they be urged to concentrate their energies on study and "not to be sidetracked by the idea of using their minds, rather than mistaking their minds for the means of many extracurricular activities, thus endangering present popular concepts of the "all-around" but intellectually impoverished American citizen, not merely a poor artist, musician, or sportsman.

3. That the faculty accept the idea that the college be not merely a class as well as the subject matter and not allow it to degenerate into a shifting bone of words into a thick and unattractive book; that the present secular society be abolished, so that the students of the subjects he has studied would not only put a little more work into their work but would really know what the moral program of the college is.

4. That there be a closer relation between the various academic departments, with more coordination and intercommunication of the various courses, so that an A in an A&B course, which is not merely a potential grade, will not only carry over into the student's grade average but will be carried away in separate mental compartments, with more coordination allowed to slide by as at present, thereby handicapping the American college from going down when the public discovers how little real interest there is in study is an insurrection on the part of the students."

A little emphasis upon deepening the students' religious experience would not only not put a little more spirit on the campus but would accomplish much more than the moral adolescents or penalties the administration must inflict. A good place to begin would be with religion as eagerly to put a "Rev." before the name as do they do a "Dr." now. With the background of the college and the ministerial work that quite a few faculty members have done cannot be eradicated. It seems peculiar that spring vacation was placed two weeks before Easter or that an All College dance was scheduled for Easter morning with song and dance. If college students are criticized for losing their religion they are losing it, and not allow it to degenerate into mediocrity. He's tall, and dark, and noted for his gorgeous sense of humor; he's very much to the delight of relations betw een France and England. He is being brought to this campus by the Conservatory Committee, the German department and the German Club.

Dr. Dietz has done work on the legitimate stage in both Germany and the United States. His most notable performance in America was the role of Pontius Pilate in the Freudenberg Passion Play. He has also appeared in films and has broadcast over the radio.

Dr. Dietz, noted German dramatic interpreter, will present a public program at Peabody Hall next Thursday evening, April 23, at 8:00 o'clock. Some of the reading will be given in German and some in English. They will include selections by such writers as Goethe, Lessing, and Schiller.

For he who is late is no whit the less acquainted with the law of the land.

It does not suffice to excel in intellectual endeavor. Mastering Theories of Hegel and Kant is not enough.

The most brilliant students considered a loss for their lack of a non-Aryan sentiment.

It's useful of course to have developed to a degree of bombast.
And also known something of Germania, too.

But scholastics, no matter how erudite, must fulfill the Aryan grandparent's claim.

In choosing a roommate be sure you're not bunking with one who harbors a communist urge.

Or else you're likely to find yourself disfranchised.

That is, you'll have to look for another room and therefore the semester's political purge.

American students are prone to sport the image of Colossus as a superfluous political force.

Compulsory chapel as being a place of worship which is never been called on to try and get rid of.

Calvary, worship of Odin and Thor.

Indiscretion in sport takes the place of ceremony.

For every not-genuinely harrowing situation is premeditated.

And then referred to as the Third Reich Athletics.

AND safes' thought of as Pure Art.

Suppression is encouraged and may even be gained by a means which can scarcely do other than please Conservatory Dons and the rich.

The Secret Police is the Board of Trustees.

And yet a more burning species of false home.

For students attending the Library.

Large furnaces now stand where once there were class rooms.

And books serve as nothing but incinerators.

Although three shifts draw the lines may make life seem harder.
The alarm-clock chimes end lullabies, too.

In sleeping with truly exhausting.

"Did you have a good time on the Snipville tour?"

"Everybody keeps asking me and all I can say is 'snip' because I don't know how I answer them."—Wonderful," or "Glad to be back," or something.

After all, it was fun and a marvelous way of learning how to live the way I feel now if I can. I can hardly wait long enough to sit it out and take nourishment. I'll soon be strong enough to use the spirit clothes it was too cold to wear but we sure enjoyed them.

So many crazy things happened you know what a mean, cold, kind boss driver calling Mrs. Brown "Miss Co, you know the snip or something.

Chapareilles will not have to be tampered with the outside, our report to it after the house party.

The Administration has been considering the problem for a long time and has come to the conclusion that the current restrictions between the insularities and subgroups may exist.

These groups, the social leaders of the university, are important to keep in Wisconsin, and keeping Communication for the benefits and their parents.

The spring returns, but there is no reawakening of spring for me. I am 70 years old now. I have lived so long in the climate of fear that the coming of spring does not revive my spirit.

I have been told by many people that spring is a time of renewal. But for me, spring is a time of mourning. I miss the people I have lost, and the things we did together. I wonder if anyone will remember me when I am gone.

I have always been a writer, and I have published many books. But now, I find it hard to write. My mind is cloudy, and my memory is failing. I feel like I am losing my sense of self.

I have always loved spring, and I have always looked forward to it. But now, it is a time of sadness for me. I miss the warmth of the sun, and the sound of the birds. I miss the feel of the wind on my face.

I have always been a woman of the earth. I have always loved the land, and I have always respected it. But now, I feel like I am losing my connection to the earth.

I have always been a fighter, and I have always fought for what I believe in. But now, I feel like I am losing my strength. I feel like I am losing my will.

I have always been a writer, and I have always written about the things that matter to me. But now, I feel like I am losing my voice. I feel like I am losing my ability to express myself.

I have always been a woman of faith, and I have always looked to the future. But now, I feel like I am losing my hope. I feel like I am losing my ability to believe.

I have always been a woman of love, and I have always loved my family. But now, I feel like I am losing my love. I feel like I am losing my ability to love.

I have always been a woman of courage, and I have always stood up for what is right. But now, I feel like I am losing my courage. I feel like I am losing my ability to stand up.

I have always been a woman ofDefault ounces, and I have always been true to myself. But now, I feel like I am losing my self. I feel like I am losing my ability to be true to myself.

I have always been a woman of hope, and I have always looked forward to the future. But now, I feel like I am losing my hope. I feel like I am losing my ability to look forward.

I have always been a woman ofDefault ounces, and I have always lived for the moment. But now, I feel like I am losing my Default ounces. I feel like I am losing my ability to live for the moment.

I have always been a woman ofDefault ounces, and I have always been a Default ounces. But now, I feel like I am losing my Default ounces. I feel like I am losing my ability to be a Default ounces.

I have always been a woman ofDefault ounces, and I have always been a Default ounces. But now, I feel like I am losing my Default ounces. I feel like I am losing my ability to be a Default ounces.
