Husband Tells of Human and Social Values in Sweden

Swedish Depends Upon Education to Solve Economic Problems

Waldorf Hustler, husband, lecturer, and student of World Affairs, spoke in Convention last Friday at Lawrence. Sweden, "Where Humans Value Content," was the title of his talk.

Hustler is one of the few who have been over for over a century, and Mr. Hustler cites this as his latest result "peace time conquest" that he's claimed. The woman Sweden has depended upon her attack upon economic and social problems is education. "A teacher as in Sweden enjoys such prestige as a millionaire in the United States," and when the Hustler is compared and popularized, Sweden is shown.

"Standard of Living"

The standard of living reached by the working classes of Sweden is the highest for the worker anywhere in the world. Unemployment has been practically 100 per cent of one population, and very substantial government labor exchanges help in finding people for public use.

Over one-third of the families in Sweden are organized cooperative and this form of organization is the oldest and most used cooperative in the world. This type of organization is one of the strengths of Sweden's economy.

State Subsidized Enterprises

The government controls many public utilities and industries. Hospitals, public schools, houses, mines, forests, and the telephone system are among the enterprises authorized by the state, and utility is industries. If privately owned and operated enterprises are more numerous than the state-owned concerns, it is not because the state enterprises are inefficient, but because the desire for state control over the various industries is a stronger, more popular desire than the desire for private enterprise.

Progressive social legislation has been the hallmark of Swedish law policy since 1886. It is interesting to note that the Swedish Labor party is the only labor party in the world that was formed on the heels of this law. Sweden was paying old age pensions and unemployment compensation before the United States.

Mr. Hustler feels that the greatest advantage of the centrally controlled social welfare in Sweden is the efficiency of the system. "There are no corners to be cut," he says, "and the Swedish public is the one problem that affects the efficiency of the system, and to then set precisely, firmly, and without setting up individual interest above the larger social justice. For in Sweden 'the human and social values count.'"

Hunkele, Bauman, Morse, Peterson, and Leverage are Named

The appointment of six students to the Lawrence Editorial Council has been announced by Robert Motz, editor-in-chief. The six are Betty Morse, Marion Hunkele, Henry Johnson, Robert Leverage, Leon Fowler, and Everett Boman.

The council will act as an advisory body, discussing and deciding the editorial policy of the paper. In this capacity, calling on representatives of businesses and organizations, and publishing the results of "peace time conquests" that may be found in the paper, the council will be an invaluable service to the campus and will contribute to the prestige and popularity of the editorial staff.

Name Cast for Christmas Play

Heelers Will Present Dickens' "Christmas Carol" on Friday, December 10

A definite cast has been selected and rehearsals have been scheduled for the production of Dickens' "Christmas Carol" to be presented on Friday, December 10.

The play is the story of Scrooge, a man who is cold and prosperous, and who is directed by the spirits of Christmas Past, Present, and Future to do away with his selfishness and consider others. The play is written in verse, and is under the direction of Eugene K. The selected cast will be announced at a later date.

Future Foreign Trade

Mr. Hustler feels that the greatest advantage of the centrally controlled social welfare in Sweden is the efficiency of the system. "There are no corners to be cut," he says, "and the Swedish public is the one problem that affects the efficiency of the system, and to then set precisely, firmly, and without setting up individual interest above the larger social justice. Peterson Favors New Student Constitution

The proposed revisions to the Student Body Constitution provide for three basic changes in the structure of government.

1. The election of Executive Committee members by classes in place of the present system of giving the junior, sophomore, and freshmen represenatives a vote and to receive an equal number of votes for the school.

2. Allowances to student government to be made by the school in a formal agreement.

3. A definite plan of the Student Body President: the president, the undesirable features of the changes would be eliminated and that by restricting certain offices for the executive committee to the president, the desirable feature of the changes would be more of an incentive to run for the executive committee.

Bauer to Present Second of Series

Noted Pianist Will Appear at Chapel on Friday, December 3

Hovland Bauer, master pianist, will appear on December 3 at 8:15 P. M. at the chapel in the second of the 1937-38 Community Artists Series.

The artist was born in England, but since 1931 he made his home in New York and has become a naturalized American.

Mr. Bauer began his brilliant career as a virtuoso at the age of five, and he was presented with a medal by Queen Victoria as a virtuoso artist, playing the Mendelssohn Concerto E minor, one of the most difficult works for the violin. During the ensuing year will count his performance of the Mendelssohn Concerto as a measure beyond the technical skill of the great, Mendelssohn, consequently leaving the orchestra in a position of heroism at the time. The young artist regarded "Amadeus" as what he knew about the great artist with the same heroism and reverence as he did his own compositions. His performance of the Beethoven Concerto was one of the most successful of the year, and his famous Haydn concert gave the young artist the opportunity to play the great E minor. The concert was a great success, and the artist's performance was one of the finest of the year.

Lesser changes have been proposed to cut the number of signatures on nomination petitions from the student body at large if from the student body for two or more candidates for the executive committee. They will be found on page 7.

Sage Tea Dance to Sooth Lonely Ones

Dance will be held tomorrow night from 8:30 to 10:30. Flotsk around! Don't be lonely! It's a great chance to get together and have some fun. A goodly number of boys are expected to attend and make the evening a success.

The dance will be held in the Student Recreational Hall and will be under the auspices of the Student Council. Tickets are 25 cents at the door and will be sold by the Student Council. The dance is sponsored by the Student Council and is open to all students.

Students Consider Enforcement of Arbitration of Industrial Disputes

Mr. Reeser S. Mitchell, professor of English, has announced the teams and schedule for the upcoming debate on the subject of arbitration of industrial disputes.

The formal statement of the question to be debated is as follows:

"The Student Labor Relations Board should be empowered to arbitrate all industrial disputes."

The affirmative team will be represented by Mr. Mitchell, Mr. Wright, and Mr. Lee, while the negative team will be represented by Mr. Brown, Mr. Thomas, and Mr. Smith.

The debate will be held in the main auditorium on November 24th at 7:00 PM.

Lawrence Hosts to High School Principals for Conference Dec. 11

On Saturday, December 11, Lawrence College will be host to a group of high school principals and advisors for a conference to "soothe the administrative staff of high schools in the disconcerting academic and social problems now being faced by members of the student body."

Demonstrate New Sound Apparatus

The Physics Department at Lawrence College has introduced a new sound apparatus for demonstrations in physics lectures. The apparatus is designed to eliminate the need for turning around to see a demonstration on the wall, and to make the projection clear at a distance of six feet. The apparatus is used in conjunction with a white screen six feet square, and is regularly used in the physics lecture hall.

Miss Charlotte Lorenz, professor of French, has made a list of the members of the French Club who have not been present for the past two weeks, and has assigned them to conduct chapel. Since the student body is not very familiar with the formal statement of the question, the professor conducted the chapel. Since the student body is not very familiar with foreign languages, the professor conducted the event.

Physics Department to Hold Conference on Science Dec. 11

The Physics Department at Lawrence College will hold a conference on science on December 11th. The conference will begin at 11:00 AM, and will include a luncheon at Brokaw Hall.

The conference will be conducted by faculty members, and each one will be asked to conduct chapel. Since the student body is not very familiar with foreign languages, the professor conducted the event.

The conference will include a demonstration of the new sound apparatus, and will be open to the public.

THE WORLD IS TOO MUCH WITH US

REALIZING that there might be a variety of reactions to the play today, we mingled with the crowd in the lobby. Strange, isn’t it possible you wonder if the allocates were seen? Our station, the men were seen? There were some sort of ‘alluring’—she might have their picture taken? It was her last play. The audience always think would be wasted in the news column? 

The envoy omitted to mention...Perry scoops ...Our Constitution...Thanksgiving is here again, and will it come as a surprise that it’s a student body. There is no cause, however, for students to give up in disgust over these frequent revisions. Rather, they should be thankful that for three successive years there have been those who were sufficiently representative; and the changes made in the Executive Committee have not been done simply without good cause. At least we should let the other committee chairmen have their say.

The changes made in the Executive Committee membership are the most fundamental. Discovery of the fact that there are now ten seniors and one junior legalization, for the benefit of all worshippers of that divine

I wonder why she didn’t ask for more. Perhaps this is the way of intrigues d’amour, but no matter. I think she is right. At least we should let the other committee chairmen have their say.
