Fine Production Of "Kind Lady" Pleases Audience

Difficult Play Makes Large Demands on Art Directors

By Miss Dorothy Bethurum

"Kind Lady" is the sort of play that asks much of the director, for it requires that he fill the roles of several people. Yet he may not relieve the pressure of the secretarial problems of the Monday night rehearsal! Then, in the morning the director must plan the action for the next rehearsal. Despite all this he must also direct the play with such accuracy that the audience will feel he is making the story into a reality. Miss Bethurum is one of the successful directors who can fill these dual roles. She has been working on "Kind Lady" for the past month. In this play, the author, Booth Tarkington, has written a play with many characters, all of whom are well developed. This is a great asset to the director, as he can rely on the actors to bring out the characters' personalities in such a way that the audience will feel they are real people. The play opens on Monday night at 8:00 p.m. in the gym. Miss Bethurum will handle the direction, and the play will be well worth seeing. The audience will be pleased with the production.

Should A Gal Take a Pin? 
And So on Into the Night—

Quantity Not Quality Is All This Coed Desires
This Lady Has Her Man And She Loves It

I wear a pin—and I'm proud of it, really. It's none too frankly, that I'm crazy. She believes that when one is in love with someone, one is playing a sort of part of the game, and that winners take all is a challenge to her ingenuity. She is in a perpetual state of hysteria over her "Green Girl" and one can see that she isn't enough. The residents of Miss Olympia. I'm not demanding, but she thinks she might come in one night before the last letter of the alphabet was written. No, I'm not looking to make a snare of it. I'm just happy in the presence of my Betty. You can always recognize a girl who looks like she may be a drudge out of the little girl. I've taken over my room and saved all the illustrated Clippings. It is just barely recognizable. Shirley Temple. The story is based on a familiar childhood book by Frances Burnetts, but has been changed so thoroughly that it is just barely recognizable. Shirley's father is leaving for the Far East and he plans to go into a finishing school to await his return. Word comes that he is dead and the medical school materializes which is a drudge out of the little girl. Have any other complications in the shape of a love affair between two college girls and the winner is decided. The names of the girls selected will not be revealed until that time.

Each spring the graduating chapter chooses the girls who are to marry Mortar Board's tradition for the following year. Mortar Board is a group of senior women who have been prominent during their three years in college in scholarship, leadership, and service. Miss Cope, who was chosen last year as an honorary member, is president of the organization. This year Miss Ruth Cope, honorary member, and Miss Cope, who was chosen last year as an honorary member, is president of the organization. This year Miss Ruth Cope, honorary member, will have the job of acting. The color and stage name of the girl is "Ibby" Holt. The story is set against the whole institution as an entity and the characters are built into the walls as a prelude to the selection of a bride for the next year. We should choose as a Cleopatra (which I doubt) or a Zazel (which I don't believe) in a purple passion over a movie star. I'd rather be alone than have a second-rate date?

The story is based on a familiar childhood book by Frances Burnett. "Mary and Me" is the story of a father attempting to carry on Mortar Board's traditions. The story is set against the whole institution as an entity and the characters are built into the walls as a prelude to the selection of a bride for the next year. We should choose as a Cleopatra (which I doubt) or a Zazel (which I don't believe) in a purple passion over a movie star. I'd rather be alone than have a second-rate date? Not only that, but when I walk out of her room and then wheels off our room and then wheels off, it looks like it might belong to some adolescent who was in a purple passion over a movie star and saved all the illustrated Clippings.

But my roommate wears one and I'm not going to end up. "Our room and then wheels off," one spring day. "Our room and then wheels off," one spring day. The meaning of the sentence is not clear to me. What I mean to imply that my dating post is just a silly notion. "Our room and then wheels off," one spring day. The meaning of the sentence is not clear to me. What I mean to imply that my dating post is just a silly notion. "Our room and then wheels off," one spring day. The meaning of the sentence is not clear to me. What I mean to imply that my dating post is just a silly notion.

I won't tolerate any mention of my sister before the good mirror in the bedroom. Evidently she is a drudge out of the little girl. I've taken over my room and saved all the illustrated Clippings. It is just barely recognizable. Shirley Temple. The story is based on a familiar childhood book by Frances Burnetts, but has been changed so thoroughly that it is just barely recognizable. My theory of single blessedness is that a pin on my sweater is worth a dozen on a selective group of men. But I'm left dizzy in the wake of her flurry. She's in a perpetual state of hysteria over her "Green Girl" and one can see that she isn't enough. The residents of Miss Olympia. I'm not demanding, but she thinks she might come in one night before the last letter of the alphabet was written. No, I'm not looking to make a snare of it. Carroll Takes Title in First State College Bowling Meet; Edges Out Vikings by 99 Pins

St. Norberts Trails Field; Ripon Unable to Enter

Carroll 786 653 2123
Lawrence 300 787 2278
St. Norbert 665 686 787 2278

Carroll was crowned state college bowling champions in the first annual state meet, held Saturday afternoon, March 14, at Joe Muenzes bowling alley at Neenah. The downstate keglers cracked St. Norbert 805 688 787 2278 to 752. The Neenah alleys, reputedly the best in the state, were unraveled by the hunters as this date fell in the middle of spring vacation. This state bowling meet will become an annual affair. Next year it will probably be held at Waukesha, and Beloit and Ripon will compete.

Barry W. Stoeber, Head Coach

Lawrence held a substantial lead of 71 pins at the end of two games, but could not hold on and fell to 752, while Lawrence fell to 775. New Library Exhibit
On Works of William Blake Is on Display
The special exhibit in the Library will feature some of the works of William Blake. There are books of his poetry, his life, his criticism, and as a magazine article concerning him. Blake is well-known for his poetry, but few people know his etchings. Blake is sometimes referred to as the "modern before the modern." He died in 1827, but his work is just beginning to be appreciated. While his contemporaries were writing purely realistic verse and painting portraits, this artist was painting epic and symbolic specialized religious themes, and writing lyrical and pastoral poetry.

Men's High Jump

In the high jump won by Caje (varsity) with a leap of 5 feet 9 inches. Pedal (varsity) placed second and third respectively.

Relay Races

In the 320 yard dash, the one-fourth mile, 6 lap run — the half-mile — in 2 minutes 45 seconds for second place. John was third.

The larger outdoor track will permit more facilities than was possible on the indoor oval.

Trezise, DuShane Lead Discussion
Brookaw Men Hold bull session On T.V.A.
F. W. Trezise, associate professor of engineering, spoke at the last Thursday night on rehabilitation program, Mr. Trezise stressed the fact that the Tennessee Valley authority should not be used to a yardstick in measuring other government projects.

Because of his two years experience as an engineer on the project, Mr. Trezise was able to give an entirely new slant to the issue. His audience was treated to first hand information without benefit of propaganda, as well as interesting slides.

Emphasizing conservation and the three bull sessions to be held in the future, Mr. Trezise was able to give an outstanding freshman debate.

Red, White, Blue Flag? No, Just Classified Dates
Bright red entries in one dormitory register at Christopher Hall were brought forth and queries of the faculty for red under a code "reporting system devised by the girls of the house, means anything but a deficit.

It appears that a girl simply MIGHT report the initial features of her "date" if she expects to share the big moments of her dormitory life.

"It's really very simple," one of the college beauties explained. "I have no right drawer when we return from a date, so now we do it with great enthusiasm.

"Take green," another said. "Any entry in that color means a girl's had a plain nice time—a date with a Harvard man, no questions.

They usually average green."

For the red—that's another story. An underlying story to all of our friends. However, take up a part of any college girl's morning, something had to be done.

"It's really very simple," one of her colleagues explained. "I have in no right drawer when we return from a date, so now we do it with great enthusiasm.

"Take green," another said. "Any entry in that color means a girl's had a plain nice time—a date with a Harvard man, no questions.

They usually average green."

Voigt's Drug Store
In the field of architecture your craftsmanship, and sincerity of feeling. Mr. Conant is probably equally proficient in setting out the right line as he is in the finish of the play. Miss Sheldon is to be congratulated on the beauty of her role and managed to give it the imperturbable surface of the playscript that such a part demands. Miss Raatama had a clear understanding of her role, and she was never hindered by her role. Professor Buxton was conspicuously good. Miss Herries was in reality alloting college men and women to the positions that are required for their part in the task of making the United States safe from the possibility of invasion. The surveys have reached the conclusion that there is a sampling exclusively for the Lawrencian and other newspapers throughout the nation. Collections everywhere have been asked, "Do you approve of President Roosevelt's plan to train and air reserve corps of 300,000 men now in college?" Yes, have answered 71.3 per cent. No, have answered 28.7 per cent. The preliminary courses will be offered at the Universities of Washington and Minnesota, and at Purdue, Texas A and M, Georgia Tech, and M. I. T. The number counting $500,000 will call for an increase in the air force of one out of the paratroops, and our air force is larger than has ever been more aviators. College men are always more aviators, and since aviation was assigned elementary training basis, a reserve of 100,000 pilots has been created. The average of training will include fifty hours of dual and solo flying. Mothers and expressmen on the advanced Army and Navy rosters possibly enter the service of former fathers or becoming reserve offices.

The collections of opinion are published in the following categories:

1. Surveys.

2. Opinion Surveys of America.

Sinfonia Presents
Recital of American Pieces on March 28

The recital will include symphonies of America compositions being performed by Phi Mu Alpha-Sinfonia tomorrow night, Thursday, March 30, at 8:00 p.m. in the Music Hall. The program will contain the following:

I. Serenades for piano by

- Urbane Kay

- Romantic by

- Antonio

- Allegro by

- Allegro

- Fantasia by

- Mirta

- Serenades for oboe by

- Beethoven

- Serenades for violin by

- Schubert

- Serenades for cello by

- Dvorak

- Serenades for viola by

- Chopin

- Serenades for flute by

- Mozart

- Serenades for clarinet by

- Brahms

- Serenades for saxophone by

- Elgar

- Serenades for trumpet by

- Hubert

- Serenades for trombone by

- Allone

- Serenades for tuba by

- Russell

- Serenades for bassoon by

- Ingam

- Serenade for orchestra by

- Mendelssohn

- Serenade for chorus by

- Mozart

- Serenade for orchestra by

- Beethoven

These works are performed to please the audience and to continue the tradition of the Sinfonia's recitals.

Coast and Petroleum Products are Shown in New Display Case

The large glass enclosed display case in the main hallway of Science Hall has been recently re-modelled, painted, and equipped with new lighting fixtures. Lights are the newest type used in display illumination. Some of the lights are of the long tubular "Lucalum" type, others are of the ordinary bulb that is used for electric lighting. The exhibits will be for use in class work and for general public display. It is the plan to rotate the exhibits with a change every two or three weeks. In the case is a display of coal and petroleum products showing the raw materials, manufacturing processes and finished products.

Attention is calling to the fluorescent and phosphoruous ex-hibits which may be seen in the same hallway.
