Lyle Spencer Opens Lecture Series Dec. 13

Mace Brings Prominent Men Here for Vocational Guidance

Lyle Spencer, one of the nation's leading figures in the field of vocational guidance, will open a series of vocational lectures and conferences on Friday, December 13. The lectures are being sponsored by Mace, men's honorary organization.

Senior figures in the field of vocational guidance will discuss vocational problems and solutions in room 11, Main hall, 4:30 p.m., Friday, and will also be on hand to address students in the Chicago area. A few years ago he and another man formed a syndicated magazine section which is published with 50 of the nation's leading newspapers.

Jack White is head of the committee in charge of this series of lectures. Prominent men in many fields will be brought to the campus to discuss their work and its possible vocational value.

Dean Waterman
Names Members of a Cappella Choir

Dean C. Waterman announced the membership of his new 60-piece cappella choir for concert work today. The following students have been chosen for membership in the choir.

First tenors: John A. Martin, Roger F. Gifford, Robert F. Bennett, Howard E. Bledsoe, Barrett Everett, Janet Fawell, John L. Mead, Paul A. Denzil, John F. Burton, Sanford E. Blum, Robert S. Harrison, Hilda Peter, Janet Potter, Blanche Huggins, Madeline Simmons, Carolyn Wells, 20; Harvey O. Mann, 20; Paul H. Mudge, 21; Dick Briggs, 21; W. W. Mullins, 21; Eric T. Fullenwider, 21; Edith Jensen, 21; William Weiss, 21; and Jack White, 21.

First baritones: Frederick J. Bodanzky, Eric T. Fullenwider, Howard E. Bledsoe, John A. Martin, and John F. Burton, 20; Robert F. Bennett, 20; Lee H. Harris, 20; W. W. Mullins, 20; and John L. Mead, 21.

Second baritones: Paul H. Mudge, 21; Fred L. Sevcik, 21; W. W. Mullins, 21; Paul A. Denzil, 21; and William Weiss, 21.

Basses: Roger Christiansen, Thomas E. Parks, and Albert S. Reek,

Fifteen members of the orchestra will be chosen from the students of the new music department.

$100.73 Goes To Red Cross
Jack White Announces Final Totals at Completion of Drive

Jack White, student body president, has announced that the amount of contributions for the Red Cross Drive drive, climax on the campus.

The total amount given by both faculty members and students was $131.83. Faculty gave $25.86; and students $105.97. The total was over $200 that was collected. This year's participation was considered as a success in the eyes of White.

Contest Closes December 3 for Photographers

The photographer contest sponsored by the Camera club closed at the formal meeting of the club, Tuesday, December 3. Twenty-three pictures were submitted and exhibited in public. They will be judged publicly at a future date.

Six Men Attend Conference in New York

Highlight of Gathering is Atwood's Address

Six men affiliated with Lawrence college were present at the National Interfraternity conference held at the Commodore Hotel in New York city on December 30 and 31. Among those who attended were President Thomas N. Barrows, Ralph J. Watts, business manager; Germaine Barlow, treasurer; David Schmitt, Phi Kappa Tau; Robert McCall, Delta Tau Delta; and Charles Keen, Delta Tau Delta. Schmitt and McCall were the official representatives of Phi Gamma Delta.

College Quadrangle Is Near Completion

Workmen are busy plastering, finishing work, and installing decorations in the five frame houses of the college quadrangle. All of the houses are being occupied this week, so the first residents will move in February 1.

College Christmas is near completion. The building bas been completed, and the drawings shows that the student social center. (Lawrence College Photo)

Erica Morini, Well Known Violinist, Will Appear Here

Erica Morini, who is regarded as one of the foremost violinists of the United States, will make her debut in Lawrence on December 18. The violinist is known for her beautiful tone and her various interpretations of the music of Johann Sebastian Bach. Her recitals are always sold out.

Erica Morini, the daughter of the late violinist, Fernandini, was born in Vienna. Her father, a famous violinist in the world of music, was a pupil of the great Mendelssohn, and had many famous pupils. She began playing the violin at the age of eight. Five years later, she made her first appearance in public in front of the audience at the New York Philharmonic Society. Since then, she has given concerts in all parts of the world, and has won critical acclaim for her performances.

Morini is also known for her championship of the works of modern composers. She has given performances of all the major works of Berlioz, Schumann, and Brahms, and has been praised for her interpretation of the music of these composers.

Morini's debut in Lawrence will be a major event in the city's musical history. She will be accompanied by famous pianist, Wladimir Horowitz. The concert will be held in the auditorium at Lawrence University, and will begin at 8:00 pm. Admission will be $2.00 per person.
The artist's choice of subject matter in expressions of the spirit of native American life and scenes. - Chester Cooke, student director, announced that the bureau is being held at the Union. Students who are planning to stay here over the holidays and stay students are urged to make special applications at once if they are interested in working during that period in place of students who have left the campus. Scenes are created out of town students with the English student and local students will remain while places will be open.

"Paint Jobs" will be open during Christmas vacation.

The Lawrence college student emplacement bureau under the direction of Dean John S. Miller and Chester Cooke, student director, announced that the bureau is being held at the Union. Students who are planning to stay here over the holidays and stay students are urged to make special applications at once if they are interested in working during that period in place of students who have left the campus. Scenes are created out of town students with the English student and local students will remain while places will be open.

Christmas Activities Flourish as Snow Falls

"Jingle Bells, jingle bells, jingle all the way! Oh what fun it is to work with Christmas but twenty days away! Ah, yes, the Christmas spirit is really in the air with the salvation song on the corners, Santa Claus on the radio and students with their "collateral due before Christmas" under their arm and hat. Books and books, the girls have their "ending lists" all made—just waiting for some warm smooth looking Santa Claus to pick it up. However, despite the wish of earning funds for the winter college, the snow clouds the campus, the beautiful, philly anyway set off for the "xmas" until not lost in time coming two weeks.

The Due's and the Thetas are the first of the societies to have their winter formal. The Thetas will have their Friday evening at the North Shore Country Club and will dance to the music of Howard Krueger and his band.

Dave Binnor

Reserve their formal this Saturday at the Knights of Pythias hall, the Alpha Chi will also have an alumni advisory dinner for Miss Teri at Sage, Wednesday. Saturday afternoon they will hold a tea for their paternalists at the Candie Clove. Wednesday the Psi Phi will have a tea given in honor of Miss Williams, president, and that night they will do at Sage. Thursday room tea will be given a large range of supplies at the Inter-Church Group, and a dinner at Ormsby will be given. At the latter, those who pledged E. D. B. Friday? satur­ day's alumni dinner will have an active party, and Tuesday, the ladies will have the active to dinner.

Doll Sessions

It seems that the fairer sex are doing their fair share of the festivities besides having plenty of time to knit one's own mitts. What a thrill for them to think! They seem to be doing in bubbling ball room? Profes­sors Hamilton and Baker were both upper guests there. The Alpha Chi's and the latter led a session on present professional problems. A week Sunday, Professor Baker supped with the Psi Phi and led a dinner session after dinner. This Sunday the Alpha Chi's will have a good old fashioned ele­phant ride. So, that's all.

The capacity audience attending the presentation of Handel's "Messiah" on Sunday evening proved that community interests follow musical programs to a high degree. The huge Schola Cantorum chorus expansion in the great work of Handel in a very convincing and natural manner. The choir of two hundred voices produced a magnificent appearance on the stage and maintained the high standards of previous performances of this sacred work. In 1144 performances of the Messiah, the chorus was worked to a very extreme point. However, the choir cannot be said for certain to have given the impression that the attention of the members was less focused at the diverse variety, though precisely enough to produce the de­ceived results in the release. The careful attention given the director by the point of attacks could have been greatly improved to heighten the technical perfection. The choir heads of Dean Waterman led the group in dynamic contrasts that were to be expected.

Many can be said in the way of praise for the leading. Handel's Per­formance first appearance as sponsor with the Schola Cantorum displayed a voice that fitted this role extremely well. Her voice enhanced the meaning of the recitatives and arias. The outstanding performance of Dorothy Flitcroft was a thing that few of the audience received. The same fidelity of her rich control over the song was further enhanced by a deeper understanding of her character. It may have been said enough to produce the technical perfection was shown in the su­perior musical abilities of Miss Flitcroft. The same stage was used by Miss Flitcroft. Christmas Spirit Is Captured at Hamu

Christmas never loses its charm for any member who has never visited Hamu union. Christmas in Hamu is a spices of Christmas been captured as it has been over there. A beautiful Christmas tree, wreaths, decorations of every kind, cocktails, exuding decorations and large wall drawings all add to give a picture of an Xmas afternoon that can't be equaled on the campus. If you haven't been there for Christmas spirit, please do so soon!

Much credit should go to Omar Dengo, who drew these three wall decorations: Bob Robo, another Hamu member, who decorated the decorations; and the 23 or 30 students who helped make it. The success of the whole venture is directly the result of the fine cooperation of all these students.

The Perilous Question Of Comprehensives Arises Again

That time-worn question of senior comprehensives has come up this year as fresh as a daisy, and this faculty is again making a study of their value to the Lawrence student.

The subject arose when the executive committee of the college decided to go over the list of comprehensives and see if there is any change in the practice being followed in the past. The committee's suggestions were similar to the idea that they proposed that seniors be allowed more time to take these comprehensives, and there is a possibility of changing them to comprehensive things. This question logically led to the subject of whether comprehensives were worth the time which had to be taken from the regular class work to prepare for them.

The faculty insist on their value from the standpoint of correlation and integration. They feel that if a student has an examination covering his major field, he will leave college with a better grasp of his field. This will greatly benefit the student in the future, as well as the faculty member, by making the student's grade more reliable.

The subject of the comprehensives is not new, but the question of whether they are being properly administered is. The faculty insists on their value from the standpoint of the student's future, and believes that they are an important part of the student's education. The comprehensives are important to the faculty member, as they are a means of evaluating the student's knowledge and abilities.

The comprehensives are usually given at the end of the semester, and are a way of determining the student's grade. The faculty member is able to evaluate the student's knowledge of a subject, and to determine whether the student is prepared to move on to the next level of study.

The comprehensives are given in a variety of formats, such as essays, quizzes, and tests. The faculty member is able to evaluate the student's understanding of the subject, and to determine whether the student is prepared to move on to the next level of study.

The comprehensives are important to the student, as they are a way of determining the student's grade. The comprehensives are a way of determining the student's grade, and are a way of determining the student's knowledge of a subject. The comprehensives are a way of determining the student's knowledge of a subject, and are a way of determining the student's knowledge of a subject.

Score Final Forty-Eight
To Forty-Three After Double-Overtime Game
The Lawrentian

Jim Fieweger break the tie with a short hook shot from a bad angle. Oshkosh took the ball and headed up the floor to Jim Fieweger.

Early in the first five minute overtime period Don Fredrickson made a shot from the corner circle, and Phil Harvey, on a jump ball, tipped it down the floor to Jim Fieweger. Don Fredrickson then started things rolling with a nice pass work by Crossett and Fredrickson broke up an Oshkosh five on ten in the tieing goal, and the blue and white crowd was nearly all over. Crossett might have been. Reserve strength who were concentrating a little too much, and entrants in the meet were declared to have jumped a meet. No previous experience is necessary, and Crosses is, of course, the All College meet to be held at eight o'clock next Friday evening, December 6, but the coaching staffs will meet one of Minnesota's toughest. Graduation ceremonies, on Thursday, December 12.

Styling Young Men

In the same way, the new Lawrence—Mora football coach at the University of Wisconsin, was the opener at the Lawrence college and Appleton high school varsity basketball game. Letters were awarded to 19 Vikings.

Friday, December 6, at 8:00 p.m.

The majors swimming event on the program was the medley relay event. All the team members were required, 3 optional, 100 yard free style relay, 100 yard butterfly relay, back stroke, breast stroke and 75 yard free style. Smith and Turley were declared to have swam the closest finishes of the meet.

The swimming meet was of interest, if for no other reason than that the fact that two new rules were broken. True to form, fresh men, Bob Smith came through with a time of 2:13 in the 300 yard free style, thereby breaking the previous record set by Marcus of Carrollton several years ago in this event. Bob Smith broke his record this year by doing the 100 yard back stroke in 50.44 seconds.

The rest of the meet came out much as was expected. The final score being varsity, 30, freshmen, 28. The results of the individual events were as follows:

<table>
<thead>
<tr>
<th>Event</th>
<th>Result</th>
</tr>
</thead>
<tbody>
<tr>
<td>100 yard free style</td>
<td>1. Smith, 2. Hendart, 3. Turley</td>

The medley relay event looked to show up a little better than did last year's team. Carroll Zabel, all-College fencing champ, and Haupt, are the regulars returning this year. The group, under the direction of Coaches Billings and Peters, is pretty well divided between freshmen and upperclassmen. John Myers, a sophomore, holds particularly good promise in practice.

The swimming meet was held at eight o'clock next Friday evening, December 6, but the meeting will be held at eight o'clock the next week before the state meet.

Coach Billings will select a group to compete in the state meet, to be held about the middle of April.

All freshmen and upperclassmen interested in swimming are urged to try out for the team. His previous experience is necessary, and Crosses is anticipating keen competition among the college students.

Prospects for this year's Lawrence swimming team look rather promising, and the group of eight now working out in the gym show up a little better than did last year's team, Carroll Zabel, all-College fencing champ, and Haupt, are the regulars returning this year. The group, under the direction of Coaches Billings and Peters, is pretty well divided between freshmen and upperclassmen. John Myers, a sophomore, holds particularly good promise in practice.

plans are under way to launch an extensive winter sports pro-
gram to be climaxcd by a gigantic carnival weekend. The pro-
gram is expected to get under way when the students return after the
Christmas holidays, and the carnival will be held after exams are over.
At present, plans are being carefully gone over to determine just what
are the steps to be taken to make the program available to all students
and to utilize the security and criticism of student managers as coordina-
tors of student opinion on the program.
The program may include a private ice skating rink for Lawrence stu-
dents, ski slopes, indoor slides, and an indoor recreation center.
Many students at Lawrence came here expecting something more
in the way of winter sports than they have found. Lack of effective
organization and means of expression are the causes of this. A winter
sport program has prevented action on the subject. Now it is hoped that
student interest and student opinion on the proposed program, and if enough interest
is shown, to attempt the project.
A serious criticism of this program is that it might involve itself in
another activity which a certain clique would take advantage of at
the expense of crowding out the less-organisation fans and girls and boys.
We have a social program which takes care of those who dance, and we have
athletic facilities second to none in the Midwest, but not everyone is
satisfied with a recreational program which fails to exceed these two items. Our being
in the north country gives us a geographical advantage
so we can use it more. Hereafter, the attempt to start a winter
sports program has failed miserably. Now we hope to determine in a
rough approximation, the extent of student interest and assurance that the
effort taken to start such a thing will not end disappointingly.

The Lawrence college basketball team, in their first major test of the
current season, played some flashy ball in the right spots to pull the game
with Oakland State Teachers' from the first to the second overtime
period necessary to determine the winner. 

The Blue and White romped to a 23-16 victory over the white
Covington and Forgewell played steady, cool ball.

APRICOT PINEAPPLE SUNDAE

Join Dean John S. Milts to represent Lawrence in playing foot-
ball and basketball schedules and accumulate minimum re-
quirements of four games in each
ball (with six games necessary for championship consideration) and eight games of basketball.

It was at the request of Carlisle that the Mills conference had taken
action. Because Carlisle is absent on the geographical outlook of the
conference and desires a firmly-defined athletic program, it had never
been opposed for several years to a closely-bonded organization.

Although Carlisle will undoubtedly continue its technical affiliations
with Lawrence and the Mills conference, Carlisle representatives made it
plain that the Mills conference is the organization they desire.

The 1941 Lawrence college football schedule was announced the other day,
and there will take under consideration 12 adverse constant two
as the substitute rule.

The Lawrence athletic directors also recommended further study of the
proposals made by the Chicago league, but will take under consideration 12
advantage of adopting two
as the substitute rule.

The selection was made this year
for larger pictures was
found, and the new rental collection
is expected to get under way when the students come back after the
January 31.

These paintings will remain on exhibition till the end of the Christmas
holidays, during which reservations will be taken for the individual
pictures in the library in order
that they may be received. At the
dawn of the show on January 8 they may be called for at the library
and checked out for the remainder of the second semester at the
same semester rates as have been

PROFESSORS HAVE PANEL DISCUSSION

Subject Concerns: Calling for Reform on Scientific Development

The subject, "is a moratorium on scientific research a solution to our problems?" was discussed by P. J. Kanouse, assistant professor of geology, and W. M. Van Horn, associate professor of geology, during convocation last Thursday.

"Back of changes which make real work in science, for science is the means of progress," stated Thiesmeyer in a short introduction to the discussion. "The social sciences have lagged far behind the physical sciences. The latter have gained many things for us, but the obtaining of these has involved numerous problems. For this reason it has been necessary to establish a moratorium by which governmental control of science has become vitally important. Without this, science has become a menace to all the implications of science."

"We are all agreed that a moratorium on research is in the interest of the world, but those of us who are in positions of power might think it," said Dr. Bassett.

To Thiesmeyer's question "What do you think of the moratorium proposal?" Bassett answered. "A moratorium is necessary as a result of the incorrect use of science on the part of the nations."

"However, I do not believe that a moratorium is essentially impractical," answered Bassett. "One point I would agree with is that only those of us who are in positions of power might think it."

In closing, Thiesmeyer said, "I think it is a good idea to have a moratorium on the use of science in the past, but we are also at a loss to determine what to do in the future."

"The reason is that a moratorium would not solve the problem. We need more science," Gilbert contributed to the discussion. "We get more and more science every year, and with it we are falling behind in research."

"I think it is essential to create a moratorium by which governmental control of science is established," Gilbert added.

"We cannot solve the problem by just saying we need more science," Gilbert continued. "We must also work to prevent the misuse of science and to develop programs for the proper use of science."

"It is important that we work to prevent the misuse of science and to develop programs for the proper use of science," Gilbert said.

"I believe that we need a moratorium on the use of science because of the current misuse of science," Gilbert added.

"I believe that we need a moratorium on the use of science because of the current misuse of science," Gilbert said.

"I believe that we need a moratorium on the use of science because of the current misuse of science," Gilbert said.
Radio Program Shows How Our Government Operates

In an attempt to lift the hood and show Americans how the government really works, the Columbia Broadcasting System has arranged for a 'Report to the Nation.'

The program, which, if it has not reached the listeners, will begin soon, promises to explain government functions, with special reference to recent events.

For its first program, the network has selected the subject of the present election campaign, which, like all matters of national importance, is a complex problem that cannot be easily explained.

Name Winners in Contest
