Change Voting Procedure for Election
Students Living in Dormitories Will Vote Is Relevent Places

Voting in the election Tuesday will be different than it has in past elections. All students will vote in their respective dormitories between 11:00 a.m. and 1:30 p.m. Legal representatives will vote at the Coliseum at any time Tuesday from 1:30 to 3:30 p.m. All men in fraternity houses and all town students will vote as usual in Main Hall between 9 a.m. and 1:30 p.m.

This new system proposed by Elaine Basinger and passed unanimously by the executive committee of the Student Senate is designed to make the voting process more convenient for all students. It is the result of an experiment in an attempt to get students to vote in All College elections.

Ballroom Saturday, February 26—200 Attend Banquet at Brokaw Hall

As a candidate for the student body presidency, I have but one general plan in mind. I believe that if we are to continue to grow as a college, the student body should be in direct contact with the students and their wishes. I am a prime example of this plan. I will be able to carry out this plan this spring.

In order to carry on our program, I will have to get the following suggestions from the students. These suggestions will be carried out to the best of my ability.

1. I would be able to attend the meeting of the Student Senate at 7:30 p.m. on Friday, February 27. The meeting will be held in the Student Senate meeting room.

2. The elimination of classes in the junior year. I would favor the adoption of a more complete student interest. The dates of the junior year would make the dates of the senior year.

For the student body the problem of responsibility is a great one. Each student should cast a ballot for the man whom they consider the most qualified for the position. In the past the student body has elected a dictator. The election in the past year has been much more successful than in previous years and the election this year may be more successful due to the increased interest in student government and the decrease in friction and security problems. This is a significant advance and a very partial step toward the constructive, because under this set-up the student body usually wins. With the return of the student body it is the choice of the entire student body which is the only genuine way that the student body will vote for. We don't have a big trumpet to the polls Tuesday.

And So the Lawrentian Publishes No Diet Columns

Prepare as to why none of the so-called "diet" columns appear in the Lawrentian this year have been heard quite frequently by the editors. It has been the policy of the Lawrentian not to publish such columns last year when trouble arose because of some of the misinformation in one of them.

The editors and other students consider these diet columns as "high school" stuff and can see little or no value to them. Many of the columns because of the diet printed about their friends, but the minute they saw their name appear they began complaining. From past experience we know that every time a column of this sort is published some one or some group of students will write a letter of condemnation for publishing an article which cannot be considered of value to the student body rest. He must be a man who is willing to work hard and who can be pointed out differences between the two. The student columns which have objected to the columns which they want to try their hand at writing some day the editors would be delighted. Good column writers can always be used.

Student Body Election Of President is Serious Affair

The student body shall go to the polls to elect a president. This election is very important, a point which many students may not realize. Any student who guards the executive committee and the student body as a whole. He must be a man who is willing to work hard and can be pointed out differences between the two. The student columns which have objected to the columns which they want to try their hand at writing some day the editors would be delighted. Good column writers can always be used.

The Boy's Room

NEVER before have the editors of the Lawrentian, as this sort of trouble. We are not opposed to printing humorous columns. We are not opposed to printing humorous columns. We are against printing columns which are intended to ridicule the student body. We hope that the editors will see that this sort of trouble does not occur. Saturday at 2:00 p.m. at the big gym. The Phi Delts rolled over the Phi Taus last week in convincing style but the Delts were hard pressed to take out a victory over the pesky Sig Eps. On the basis of the competitive season in games against other teams in the league the Phi Delts are considered favorites to subdue the Delts but not without a struggle.

The Betas will come back into action after a one week vacation to prepare for the Sig Eps. The Phi Delts and Sig Eps are both strong teams which began their season, as Carleton brings with them three midwestern conference champions. Greek World Increases as Pledges Become Initiated

A PARENTLY the girls are all successful! This weekend for the sororities wasn't doing much to hold up their end of the "society" ledger. Maybe the change in the weather has been too much for them or maybe the idea of putting pledges through the initiation and business of getting them to join has been two much for them.

If the boys were to be going to the W. I. A. initiation, we have a funny feeling about it. For should we say they have done an adequate amount of work? This is the season of the year for rolling out and rolling up the barrels! If you get what we mean, and I think we did! How about the Phi Delta Theta, Alpha Rho Chi, Sigma Kappa, Kappa Delta, and Zeta Phi Beta? With words of thanks she added that the girls at the banquet gave their appreciation in the more or less form; it was due to their mothers, who were responsible, she said, for their success.

Miss Stockhausen, the speaker of the evening, first recalled the founding of Lawrence college and described the changes which came about as the school grew. Favoring her review of the school's history with humorous anecdotes, she read some of the lines penned in old Arbic and school annals. She told of the time a group of girls sewed up a suit of the college president's clothes on April fool day. The major titles in the country.

"For a while it looked like Ole and the Delts will be given one by the Phi Delts on March 1st. March 1st! What a date! Always has been a funny feeling (or should we say they have done an adequate amount of work? This is the season of the year for rolling out and rolling up the barrels! If you get what we mean, and I think we did!"

One can imagine the populace's reaction to the news of the charmed ring which had the power of making its wearer cleverly loved by his fellowmen; how ever its owner had it duplicated so that each of his three sons might have one, since he loved them all equally well; and how, in struggling to be the master of the house, the boys took their problem to a judge, who advised them to appoint one of their boys as the new owner, to keep the others as they were. The boys were so much pleased with this idea that they took their new master for their own and left the old Ariels and school annals. Jeannie Around Town Ponders On Music and Lawrence Humor

Feeling a bit blue, Jeannie decided to spend some time exploring the town's musical scene. She visited several venues, including a new jazz club and an old-time folk club.

Another event Jeannie attended (and not Lawrence's bit we attended before the Charles) was a debate. An enemy you know is at work, wicked alcohol; The Good Book, the communal religion.

Jeannie is planning to attend a folk festival this weekend, and she hopes to bring out her superlative chops on the opening night.

Betas Move Into New Quadrangle

Betas Theta Pi moved into their newly acquired house in the new quadrangle last Friday, leaving only the student body to wonder where the new house will be located. The latter two events to precede the arrival of the new house are being advertised extensively, with posters all over town.

Science Club Holds Open Forum

The "Role of Science" and "The Conceptual Problems in Science" will be the topics of the next two meetings of the Science Club. The club members are eagerly awaiting news of the date for the next open forum meeting.

Present All College Play Friday Night

Fischer Will Give Talk Relating to Refugees To European Affairs

"Refuge," a drama of the Spanish Civil War, will be presented Friday night, February 25, preceding the play, Frank Fischer, instructor in English, will give a talk concerning the historical background of the play and discuss the Spanish Civil War and its relation to the situation as a part of European affairs.

Gretchen Barry Boyce is a bewitching girl who despite her youth has the responsibility of being both mother and guardian to her younger brother. To make matters worse, the younger brother is strong and crafty and the business men in all cases. Maria (Dorothy Howley) tries desperately to overturn the turmoil which threatens the home.

The atmosphere of the play is described as Spanish but the play's setting and manner such trying conditions take place in many similar small towns throughout the land. This indomitable play is one of the best to come forth this year in the theater.

The musical of the Spanish Civil War is also being played, with the music supplied by Tony de la Rosa. The play is a study of the music of the Spanish Civil War and is being performed by the Lawrence student theater.

A C P Parade of Opinion—

By J. H. GRIFFITHS, Professor of Psychology

The Journal of the Department of Psychology would agree that war is an age-old problem that requires an adequate method of attempting to arrive at an answer. It is a question of cause and effect, it is a question of human relations.

The Journal finds it strange that the world has become a war machine, and it is a fact that the world has become a war machine. It is a fact that the world has become a war machine. It is a fact that the world has become a war machine. It is a fact that the world has become a war machine. It is a fact that the world has become a war machine.

It is the policy of the Journal to print this opinion with the hope that it will aid in the solution of the problem.
