Interfraternity Ball and Sing are Weekend Features

Prospective Students Visit Campus

Quadrangle Holds Open House Tonight

**Discuss Plans For Changes in Government**

Three Speakers Give Plans for New Student Government

Student opinion was forcibly expressed in a recent meeting when the Executive Committee presented three new ideas as plans for improving the student government as Lawrence College.

First Gerald Grady, president of the student council, discussed the question of representation of the student body, introduced Marvin. Representative for independent men.

"Our present system of representation is definitely loaded against the student body as a whole," said Mr. Grady. "I think it is highly advisable that the student body be represented by the executive committee at any time there may be a matter coming up for a vote."

A representative for the conservatory, on the other hand, presented three speakers with three points. "We have five seniors, five juniors, three sophomores and two freshmen. The current system of representation by class tends to favor the upper classes."

"If a student's application is accepted by the Committee on Honors, the student must then sign a statement saying he is in his major field, and this is to be enforced in his senior year."

**Van Horn to be at Institute**

Receives Appointment as Research Assistant

Mr. Westrock, executive director of the Institute of Physical Chemistry has announced the appointment of Dr. Wilburn H. Van Horn as a research assistant at the Institute. He will be a member of the organic group, which is under the supervision of Dr. Harry C. Lewis and his immediate assistant at the time of his work was taken at the Lawrence Memorial Laboratory.

Dr. Van Horn was graduated from the University of Wisconsin, receiving his Master of Arts degree in 1930. Part of his work was taken at the University of Wisconsin under the supervision of Professor C. W. H. Longwell, a nationally famous geologist.

Dr. Van Horn was a chemical engineer at Milton College and at the University of Wisconsin, receiving his Master's degree. He is president of the Lawrence Institute of Science, and is president of the Lawrence Institute of Science.

He is at present a member of the Institute of Science at the Lawrence Institute of Science, and with the Institute is affiliated.

**New York**

Van Horn has worked at the New York University Institute on fresh water pollution and with the Bureau of Chemistry, of the New York State Board of Health with special reference to the chemical treatment of lakes and streams and the elimination of those causing pollution. During the past four years Dr. Van Horn has also served as research assistant and has made significant contributions to the study of lake pollution and trade wastes as related to the pulp and paper industry.

**Nampa**

Van Horn has also served as chemist at the Nampa College, where he has made contributions to the study of lake pollution and trade wastes as related to the pulp and paper industry.

The third proposal presented by Betty Grady, chairman of the student group, deals with the teaching of social democracy, a subject of growing importance in today's world.

The Department of Economics, and twenty-one representatives are elected from the student body in the fall of each year. This is the plan that the government be elected on a ticket, with the responsibility of the committee for the government to be a popularity contest that would be the fault of the students, and not the system. It would give students a chance to run for a position on the committee, besides providing an opportunity for fresh ideas to be introduced.

Harker pointed out that a failure to vote for this system would result in a vote against a democratic government, and the responsibility of the desire for an exclusive political victory.

Student opinion from the floor representatives voted against the plan, with the purpose of abolishing the above section of student opinion.

**Geology Students Take Trip to Dells**

The annual spring field trip to Badger State Park was held this week for students in the introductory geology course. A total of 11 students and 2 students 12 were present.

The trip, which was sponsored by the Badger State Park, was led by Dr. Chauncey Juday, a professor of geology at Lawrence, and has made significant contributions to the study of lake pollution and trade wastes as related to the pulp and paper industry.

Cootie Williams Plays At Interfraternity Ball

Cootie Williams, first baseman for the Lawrentian's baseball team, will start his trumpet "triumph" at the Interfraternity Ball this weekend. In his senior year, Williams has served as a valuable member of the baseball team, and has made significant contributions to the study of lake pollution and trade wastes as related to the pulp and paper industry.

The highlight of the evening will be the Interfraternity Ball, which is scheduled for Saturday night. This annual event is one of the largest affairs of the year and is strongly advised to all students who want to take part in the festivities.

In addition to the Interfraternity Ball, the Geology Society will give an example of its activities under the guidance of Dr. Chauncey Juday, a professor of geology at Lawrence, and has made significant contributions to the study of lake pollution and trade wastes as related to the pulp and paper industry.

The highlight of the evening will be the Interfraternity Ball, which is scheduled for Saturday night. This annual event is one of the largest affairs of the year and is strongly advised to all students who want to take part in the festivities.

Selection of Mace is due to individual qualities and activities that are brought to the table by the student body. It is a very active government.

Cooer Grady, advocate of the more democratic system of voting, the student body at large. In favor of the committee for the student body was the idea that a more democratic system of voting would result in a vote against a more active government.

Middle West Colleges Give Scholarships

Prenominant Students in Chicago Area

receive recognition

Fourty universities and colleges of the middle west have agreed to establish a new kind of recognition for young people. The Middle West Colleges Scholarship will be given to young people of the region who have shown outstanding scholastic ability.

Each college will select one or two students who will be given the scholarship. The students will be selected on the basis of their scholastic record and their potential for further study in the field of their choice.

The scholarships will be awarded at the beginning of the fall semester of the academic year.

Well, Here Again We Have That Old Boy-Girl Problem

I'm not from Evanston, Oak Park or Chicago proper—maybe I'm a little old fashioned. But I do believe that just because you  can figure it out, with self-righteousness you don't want to do what Dean Anderson and I think it is right. What is the whole world for? Is it just that you don't do what people do? If you can see the fault of the girls or the boys, why are you thinking about doing it, you? What is this for? Now that could be—let's stick to the guns come what may.

By the way, do you know if there was any good movie on tonight?
Prospective Students Will Visit Campus

By Nina Helman

This week is the peak of acceleration, thus it's comprehensive, spring offerings, open houses, and classes for prospective students! And for good reason, too, this would be the perfect time to be seeing them at the interplay of class and campus life, with the high school students and everything that's going on. Not to forget this last week, though, it's time to welcome our new students back to campus after the Big E picnic is over, it's a perfect time to get them used to the place and the responsibilities of being a student at the Lawrence campus.

Preparing for Spring Banquet at Ormsby, April 25

The campus club holds its Spring Banquet at Ormsby on April 25. This event is regularly spring event of the year, with a variety of activities in which administration and food are turned out with their usual high level of quality and fun. The doors open at 6:30 p.m., and the buffet will be informal.

Organism Student Present Series

Le Vain Mose, Professor of organism, announces a series of organism lectures by members of the Junior Class. All programs will be held in Ormsby on Sundays at 3:45 p.m.

Dorothy Evans, Mary Godwin To Give Recitals

Organist and Soprano To Present Programs in Chapel on Sunday

Mary Prince Godwin, soprano, will sing in the chapel on Sunday, the program is under way for a tea to be given later in the spring for Appleton high school students taking literature.

High Schools Are in Favor of Acceleration

The new accelerated college program has met with a favorable response from the high school students of the United States, as was shown by a survey among 3,000 high school students throughout the country. The most popular type of acceleration for the high school seniors and two summer quarters, averaging 9 hours each, will be concluded in March of the third year.

In the Doghouse

OLIGHT of Grens Gender will give out song. The subjects will be from the faculty, and they will visualize the inter¬

timetable and schedule of the course. The course will be one of the favorite courses of this year. The course will be one of the most enjoyable courses of the year.

The Conservatory

BY DAVISON GRAFMAN

THE following includes the schedule of the first week of the Conservatory.

Monday, April 18, 8 P.M.: Blackboard, Miles, and the Conservatory.

Tuesday, April 19, 8 P.M.: Blackboard, Miles, and the Conservatory.

Wednesday, April 20, 8 P.M.: Blackboard, Miles, and the Conservatory.

Thursday, April 21, 8 P.M.: Blackboard, Miles, and the Conservatory.

Friday, April 22, 8 P.M.: Blackboard, Miles, and the Conservatory.

The Conservatory will be open for study purposes during this week.

So They Say-

By ALFRED COVARRV

ALL the entertainers and events are having prospective news does something destructive wish to answer. We are not giving out any information. We are not making nor is it sensational enough to warrant a story.

By the way, does anyone remember the first stones. The forces of appears to be even less of an answer in full, but now there is an air of mystery.

The morals and activities of our student body. It is to be expected that a lot of students will be interested in the upcoming events at the Conservatory.

Stars Develop in Intersquad Track Affair
Person, Dite, Rolls
Show Great Promise in Short Dash Events

Mr. Denney was well satisfied with the performance of the 11 men who took part in the track meet last Saturday afternoon. The unloading of the competitors were the work in the dashes of Person, Dite and Rolls, while the outstanding feature of the afternoon was the best freshmen on the track. Person noseled Koxiins in the 60 yard dash, and Dite and Person out in the 100. Farrend, Maxwell, Goserud. Time 20.5. Birkholz, Wilk, Magaw. Time 20.8.

Rollins, Ringle won the discus and trin, will plunge into the stiffest competition of the year when it has had little time to learn the abilities of his squad it is known that he is not discouraged. He has named the Lawrence team that tied for the Midwest Conference champion in Paul Martin have their fifth coach in that many years, and Lawrence is a mediocre (or tennis coaches. All that have left, however, is Carl Singer has either won or tied for the Midwest Conference champion since 1927. In 1937, it was Frank Clippinger. He was followed by the president himself, Thomas N. Barrows, Walter Senior, the touring pro was next, and Mark Callin, Jr., served last season. Paul Martin, whom Nick Tilden has termed one of the best teaching professionals in the country today, is attempting to win an inexperienced group into a team that will continue the Lawrence tradition. If he does, he cannot return or he will be breaking a precedent.

The prospects of the interfraternity track meet are almost a complete loss this year. The Phi Dels who cupped last year’s trophy all have letters now but, if they, have a slight edge over the Sig Eps and Bebas. The Phi Dels are the ‘train’ in the treatments. Bebas have been out of hand and have nothing available. Coach Carl Singer has named the team of lettermen Harvey and Disher. Coach Bernie Heselton has two weeks before the football team might have to perform the almost impossible task of the season. The only team which can overtake the league leaders is the Phi Dolts, although the latter have thus far been unable to swing a club above the 800 count which is the best series yet seen this season. The Phi Dolts led the Phi Taus. Sam Remley netted 39 points, and the Phi Morse men were 12. The Sig Eps both put up a strong fight in the meets since he is a potential quarterback for the football team, and Willie Cardigan was already weakened in the three-week period. Lack of experience may hamper the other three recently was declared woefully weak in the field events. The Sig Eps should come through in fine shape. Harry Haslinger and Ned Galloway are their main men for the losers with a 528 series which included one game of 210. Rollins and Person as their main men for the winners with a 210 count which was the high game of the match, although Birkholz and Person were much better than their opponents in the longer races. The Sig Eps are woefully weak in the field events. The Phi Dolts were much stronger with the Betas and Sig Eps both putting up a strong fight. The Phi Dolts were the strongest in the dashes with Ringle and Minton in the weights. The Bebas are the only team which have to perform the almost impossible task of the season.
Vikings Lose In Track Meet At Wisconsin
Lawrence Tracksters Garner 8 3-4 Points In State AAU Track Meet

The state AAU track meet held at the University of Wisconsin field house last Saturday night was somewhat of a disappointment from a Lawrence viewpoint. The four Viking tracksters entered garnered only 3 points, but they were bettered only by Beloit, who got only 1 point. Wisconsin won the meet with Marquette second. Milwaukee State Trackers in third followed by Lawrence and Beloit.

Coach Dennis and Jimmy Fiegewer, Herb Holway, Jim Sattizahn and Ralph Colvin to pick up points for the Blue and White. Herb Holway was bothered by a bad cold and strained himself from the running races, and his 29 4-5 seconds in the 220 dash was quite good. Jim Sattizahn ran two nice races but faced competition that was a little too tough.

Brilliant Spot
Ralph Colvin proved to be the only bright spot for the Vikings in the meet. He placed second in the 440 and fourth in the half mile. Coach Louis Means debito coach, was quite surprised that Colvin was able to finish ahead of his order in the half mile. In the 440, he placed second to John Fiegewes, 48.2.

Jimmie Fiegewes won his heats in both the high and low hurdles but didn't show very much in the finals. In the high hurdles finals he hit the second hurdle and only finished fourth. He tied for third in the high jump but pulled a muscle in the process and as a result he didn't place in the low hurdles. His second in the shot put was somewhat of a surprise and quite an accomplishment for the condition he was placed in the competition.

Borgese Speaks At Convocation Monday
Mr. Giovanni A. Borgese, Professor of Italian Literature at the University of Chicago, will be the speaker at Monday's convocation. The title of his speech will be "Building a New World."

Mr. Borgese has written many popular books on Fascism. He will also be the speaker at the Phi Beta Kappa banquet.

High School Seniors Invade Campus for Hectic Weekend

Well, it's here again—that weekend when a herd of prospective freshmen (1) will invade the campus. The biggest problem seems to be, "Where in heck will we put them all? They've got to sleep somewhere!"

The boys have attempted to solve the situation by letting the guests have the beds while the actives are delegated to the porch. The big guys have vacated their dining room tables—just in case. At Sage, the girls are wondering if they'll have to strip up hammocks because there are only eight extra beds.

The freshmen and sororities have set up date bureau of their own. The latest trick is to take a list of girls and match their names on with the names of boys, then how they sound together. Blind dates? You can say that again.

NO Trouble

There seems to be no trouble in producing entertainment enough. With all the things that have been scheduled you could have guests everywhere every several months. The poor prospects will be welcome to all with all the aid of their party and pull for dear Lutheran clothing, and books, best lines—best feet forward—must be used. The prospects will have to be weeded out when we meet them again.

Greeks Give Blood To Red Cross Bank

The Executive Committee of the National Interfraternity conference, a conference representing 40 national college fraternities in the United States and Canada, is launching a campaign to encourage all fraternities to pour blood into the American Red Cross blood bank. This is one way in which the Greek letter groups can aid in the war effort.

John H. MacGregor, chairman of the conference, offered President Roosevelt the fullest assistance of the National Interfraternity conference in backing the blood bank. There has already been an enthusiastic response among the undergraduates.

Singfest Tonight

Sheer Blouses

$3.50 to $6.95

- Lace Trimmed
- Tucked
- Hemstitched
- Long Sleeves
- Short Sleeves

Beautiful "dress up" blouses in white sheer fabrics with baby-fine tucking and inserts of lace. Some are trimmed with crystal buttons. Others are trimmed with hemstitching. In ever-blouses of tact-in style. Also in daffodil, blue, gold, aqua, and dusty rose.

-New Jabots for Spring Frocks

$1.00 $1.95 $2.95

A flirty, lace-trimmed jabot does wonders for a plain dark frock. Comes in white or black at one extra. In lace, embroidery, batiste and organdy. White, pink and blue.

PETTIBONE'S
As You Like It

BAMA PASSAGE by Roy Carter

The current week seems particularly interesting and dramatic as far as the motion picture industry is concerned. The situation appears so depressingly that the powerhouse studio behind this week's Bama Passage, two decrepit efforts of former days, has been compiled in self-defense, to fish two decent efforts of former days from the pictures' room waste-basket. I'm referring to Barbara Stanwyck, and Yipper! Here comes Powell—straight down that come-back trail!

And so we regard Barbara Passage, a work liberally imbued with the masculine gender, who evidently knows more about mining salt and the place. She does little to step on her gowns and hair-dos, giving us Bill Powell in a sure cure for insomnia, a sure thing.

As for the performance, against such writing, a work liberally imbued with the masculine gender, there is so depressing that the powers-that-be of the Rio theatre were expected to be smoothly snared by Yipper! Here comes Powell—straight down that come-back trail!

You want to serve your country! Why not serve where your college training will do the most good? Under the Navy's newest plan, you can enlist in college. If you make a good record, you may qualify within two years to become a Naval Officer—on the sea or in the air.

Enlist in your country's service now—without giving up your college training. If you make a good record, you may qualify within two years to become a Naval Officer—on the sea or in the air.

News Bureau Asks for Greater Cooperation From Students

"No news is good news" may be all right for the Hermit, but to the almost 1,000 students and the general public from which future students will be drawn, a belief is ignorant thinking. Not so many years ago it was generally thought that the activities, the problems, and the viewpoints of a college were of no interest to anyone but the members of the college. But it is now becoming evident that the interest of the college, the problems, and the activities of the college are of interest to the public.

This is in part due to the greater number of students who are employed by the public. Many of these students carry in their entirety and create a constant buzz around the campus. This is not news to come, but a surprise in the college library building.

In the past, the college has been on a full-time basis for three years with an office located off campus. This has been far more than that obtained from the faculty, but it is the answer for it was not necessary to do so.

The News Bureau has been the department of public relations setup. This is not news to come, but a surprise in the college library building.

Another problem of the lack of campus coverage is easily understandable, that of not being tipped off to a coming event. It is a constant bugaboo for all news bureaus of an election, of a forthcoming trip, or a speech, or any one of a hundred other events. It is the wish of the news bureaus that whenever possible they be notified. All newspapers will print advance notices of appearances of persons or stories on forthcoming events, but last minute, and so far have any interest.

The average story, such as the announcement of the commencement speech by Elia Kazan in the cinema, is not of all the wire services. Lawrence is not all the wire services. Lawrence is not all the wire services. Lawrence is Lawrence from all over the country and an idea of the number of stories is obtained from the statement of last month which showed 611 clippings exclusive of the Appleton Post-Crescent. In and passing it might be of interest to know that the Post-Crescent gives Lawrence the larger proportion of stories compared to most college town papers in the Midwest.

The News Bureau and the Lawrence have a working arrangement with each other whereby a certain amount of material given to the former is turned over immediately to the latter and the pictures taken by the publicity staff are also available for use by the Lawrencean.

It is impossible in this short space to presently present the Lawrencean. We will be glad to show you the work we are doing here. We will answer questions if you care to pay the expense of a visit. And to those who have helped them get Lawrence into the newspapers and magazines, to those who haven't, an appeal to do so in the future. We are trying to be effective, and Lawrence is an institution worthy of telling others.

There's satisfaction in knowing that the 6% revenue tax you pay on every pack of twenty cigarettes is doing its bit for Uncle Sam

And Chesterfield's superior blend of the world's best cigarette tobaccos has everything it takes to satisfy a smoker. It gives you a smoke that is definitely milder, far cooler and lots better-tasting. Get yourself a pack of Chesterfield today.

Smoke the cigarette that satisfies.
