Miss Campbell's conclusion was that "the intellectual viewpoints of which Miss Peterson speaks, (are), 'in all probability for more extreme in the society and the intellectual gift of the lower-class students.'"

The plan for this dance is under the direction of a committee consisting of Miss Peterson, Dr. Dinges, and Dr. Shurtleff, who will also be responsible for the entertainment. The play for the evening is to be done by the students. The plot of the play is to be performed in the library, with a few books, and the audience is to be invited to participate in the experience.

The orchestra has not been announced as yet.

F.Green is off to the championship Viking cagers for a nifty season in

Viking material was high class at the start of the season. Take nothing

tough times and they were all the talking points. And we’ve watched
for a job well done. Ray’s fine coaching the idea that the Law-
rence coaching staff is the best in this league and quite a few other

caged his team to the state title and a third in the Midwest
meet. Bernie’s golfers also annexed the midwest gulf and the state golf crown and his wrestling team came away
from the conference meet with a third. Add Elsman’s swimmers took
the conference swimming title and Paul Martin, now of Uncle Sam’s
forces steered his tennis team to a second in the conference meet

Midwest Wrestling

Cornell dominates

Cornell University's wrestling team again dominated
Midwest conference wrestling as
well as at much of the nation-
turn. The Purple has held the con-
ference title ever since league athletic
directorship has been established, and there is no one to dispute
claims this year. No conference meets have as yet been held
and there may be none at all, but in the meantime Cornell is active
forming many a university team around.

Girls: Here's a Safe Way to Let The Boys Down
In their youth, many Lawrentians were avid fans of the Singing Lads, whose favorite take moments—conceived of course—happened to hang out the window in his earnest hero could climb down to the ground to safety, while an angry crowd pounded on the door. Modern girls faced with the same predicament in their cans provided and start to dig around in your copious drawer space to find that last pair of pre-war stockings which you were saving, even and all, as a storehouse of Palmer days. Then burst the ball and put them in the ease provided and start to dream about the handsome squire coming from the field to gently, gracefully, tenderly pluck them for you. My only worry is, what if the lawn things get a run.

This week's schedule will feature battles for second place between the Betas and the Delta, and the independents who have yet to play the ball they are capable of. This game may prove to be one of the best of the season, with the big ego chance for the Betas to prove they are capable of winning a championship versus the independents. Life in the WAAC

Some questions and answers of interest to every patriotic college woman

The drilling sounds so strenuous—!

Surely! The most beautiful women in America today use the girls in khaki! Some activities are vital to general good health, discipline and tuned-up refire. After a few weeks at Fort Des Moines, Daytona Beach or the new Fort Oglethorpe training center you'll feel better than ever in your life.

Maybe I wouldn't like the work?

People are happy doing what they do well. Every effort is made to place you where your service will count most toward final Victory. You may have some latent talent that will fill a particular need for work interesting and new to women—such as repairing the famous secret bombsight, operating the fascinating new electronic devices—or driving an Army jeep over foreign terrain.

Then have a chance to learn something new?

Yes, indeed. And the list of WAAC duties grows constantly, training and experience you get in the WAAC may equip you for many stimulating new careers opening up for women.

What are my chances of promotion?

Excellent. The Corps is expanding rapidly and needs new officers, both commissioned and noncommissioned. Those who join now have the best chances. All new officers now come up through the ranks. If qualified, you may obtain a commission in 12 weeks after beginning basic training.

What is the age range and other requirements?

Very simple. You may join if you are a U. S. citizen, aged 21 to 44, inclusive, at least 5 feet tall and not over 6 feet, good health, regardless of race, color or creed. But the Army needs you now—don't delay. Total War won't wait!

Linguists needed. If you speak and write Spanish, Portuguese, Chinese, Japanese, Russian, French, German or Italian, see your local Army recruiting officer now! You are needed for interpreting, cryptography, communications.
