Naval Program Assumes Active Duty
At Lawrence

Lawrence college is again under way this term, having with "Aces Aweigh" and "All Hands on Deck." The inclusion of 300 of "the best navy in the world's" officers in a staff of Lawrence students has definitely given this campus a war-time atmosphere. Under the command of Lt. A. B. Rothwell, these men are here for special training as possible before being called to the service. With their ships they will make the present campus the receiving station for from 200 to 250 men. Basing a few men in the moon, the total around 300.

With this complement of men, organizations such as A. C. C., football and basketball should be well equipped units.

Participation in all college extra-curricular activities was enthusiastically encouraged by Lt. Rothwell. In his address to the entire unit last Friday evening Lt. Rothwell expressed the belief that Lawrence men and women in training for professional and technical service to their country have been joined now by men in the navy who are not only in the navy, but are fully matriculated into this special training. We are proud of the records they have already achieved and, indeed, that Lawrence men and women in training for professional and technical service to their country have been joined now by men in the navy who are not only in the navy, but are fully matriculated into this special training. We are proud of the records they have already achieved:

The ship's company of this unit immediately began training. The commanding officer, Lt. A. B. Rothwell, Lt. Commander of the Lawrence college naval training unit, arrived on the campus early in June. The Navy office has been set up in Brook hall.

Give Ripon President Commissioner of Laws Degree

Clark J. Kuebler, newly elected president of Ripon college, was installed the honorary doctor of laws degree, honoris causa, by Lawrence college at the matriculation day exercises yesterday. The honorary degree was conferred by President Thomas H. Bumrerv.

preceding the traditional academic procession, the members of the Navy V-13 program marched in formation into the Chapel to take their seats in the middle section of the first floor.

Brilliant Speakers

The present attendance is 300.

L.W.A. isn't losing any time in planning the first meeting last night a lot of interest was expressed. This year's work is to be directed by Miss Zelma Wolters, who is not returning to Lawrence this year.

We are glad to be Here

The administration, the staff, and the civilian students of the college have made the members of the U. S. Naval Training unit station at Lawrence college, feel most welcome. We appreciate genuinely this cordial reception.

It is the intention of the U. S. Navy that the trainees assigned to this college shall consider themselves Lawrence college students just as unhesitatingly as do the other members of the student body. Trainees are encouraged to participate in all normal college activities that do not conflict with the routine necessary to complete their obligations to the naval program.

Comments by officials, members of the ship's company, and trainees have been in complete agreement that we are indeed conscious of our good fortune in being assigned to duty at Lawrence college.

New Members Hired to Fill Staff Vacancies

Sponsorships

A. B. Rothwell, Lieut. USNR, commanding officer of the Navy V-13 unit stationed on the Lawrence campus, and Dr. Thomas N. Barrows, president of the college, are shown discussing plans for the coming year. Lt. Rothwell and Vital. We must continue to grow and maintain freedom.

Some people will get freedom for activities tickets distributed by the social committee expects a very successful year. This time, however, with "Anchors Aweigh" and "All Hands on Deck". The ship's company of this unit immediately began training. The commanding officer, Lt. A. B. Rothwell, Lt. Commander of the Lawrence college naval training unit, arrived on the campus early in June. The Navy office has been set up in Brook hall.

Happy Days Are Coming

According to the Sage statistician, a total of one thousand and one events are scheduled for the Lawrentian community over the next six months. This ratio is the result of a study based on the successes and failures of the past year and is considered a remarkable forecast for the future. The Sage statistician, who has been studying the phenomenon for the past six months, has predicted that the events will be of a higher order than those of the past year.

The Sage statistician further predicted that the number of events scheduled for the coming year will be considerably higher than those of the past year. He stated that the number of events will be increased by thirty per cent, and that the events will be of a higher order of magnitude. The Sage statistician also predicted that the events will be better organized and that the community will be more likely to participate in them.

Social events this week have centered on the presence of visiting parties given by each of the sororities. Rushes will attend to the fact that they have been very entertaining and fun. The parties are nearly always attended by all the students, and the rush candidates are not likely to miss an opportunity to attend.

In other news, the Sage statistician has predicted that the number of events scheduled for the coming year will be considerably higher than those of the past year. He stated that the number of events will be increased by thirty per cent, and that the events will be of a higher order of magnitude. The Sage statistician also predicted that the events will be better organized and that the community will be more likely to participate in them.

Investigators Find Baffled Sage Women

"Oh, how I hate to get up in the morning—" and find the breakfast scale is all wrong. That's why I'm a citizen of the Pan-Hel, of course. It is regularly done, but the company consider the top two, three, four, five times to be a jolly good breakfast. And the other girls—(I know they are a jolly good breakfast)— (I know they are a jolly good breakfast)—but I just can't stand the idea of having to get up in the morning. It is hoped that the deans, Will be made each semester, or ex-

"Year's Most Stationary Store to the Campus"
51 Civilians Try New Setup

Physical Education Program is Planned On Individual Needs

The fifty-one civilian men entering Lawrence will be the first to try the newest innovation in athletics. The new program, which has received the approval of the athletic board, will be in full swing within a week or ten days.

According to Coach Art Dens, head of the physical education department, the students will be allowed to choose their own gym programs. The entire group of civilian gym students will meet to examine all the activities they want to participate in during the coming semester. Whether it be tennis, golf, swimming or any other sport.

At a meeting in the near future, the civilian gym program will choose several from their own group to act as leaders or organizers, whose job it will be to see that pounded-out work and organized games go smoothly without too much confusion.

There are two reasons for the changed program; first, the summer vacation, which is the first in the history of Lawrence necessary to maintain the physical education program which has moved onto the Lawrence campus has taken over the facilities of the men's gym.

Athletic Activities Fee

The budget and allotment of the fee for athletic activities, which was discussed Monday afternoon at the annual conference Tuesday evening will be published for the coming season later. Complete details will be announced next week at Lawrence.

Women's Angle

By Curle McCarthy

Hi all you new Lawrenceans! Here's great news in all to you women who are part of WAA, and that means every one of you. Since the school has been tentaively made for women's sports, here is the news of what they are. The WAA board is waiting for all of you to sign up for what is offered.

It looks as though softball is the first thing on the list. This is not new to you freshmen and transfers, but it is new to girls sports in general. Since school has never been in session in the summer before, there has been no need for the game. Intramural softball will start about the middle of this month through the fall season.

The big news will be open for recreational swimming but not for regular classes this year. It seems that the Navy wants to save its own boys can swim, and we can't blame them. The exact time for this recreational swimming is still a deep dark secret.

Badminton, volleyball, basketball, archery, tennis and ping pong will be coming up season. Intramural games are always announced on bulletin boards in the dormitory. If you want to play, they can check in JWA office for details. Let's see a lot of you girls out for these games.

Yes, those are just a few of the reasons we say with confidence, "You'll Like Appleton!"

Tuberculosis Unit To Visit Campus

The Wisconsin Anti-Tuberculosis League Mackie unit will be on the campus Monday, Tuesday and Wednesday, July 18, 19, and 20. During the unit's stay all students and staff members will be able to come to the nearest clinic at no cost for a X-ray for tuberculosis.

Dr. David Cottrell, college medical director, reports that all civilian students admitted examination at the infirmary where the unit will be located. Dr. Cottrell invites every student of individual appointment.

Welcome Navy Men!

Come in any time for good wholesome food at reasonable prices.

We will be happy to serve you.
Writer Expresses Critical Opinions
On Local Theatrical Entertainers

BY DAI WELCH

We think the persons responsible for the current name that vandals use is "passer" are to say the least, mistaken. Any institution that can provide comedy young vocalists in song with an appropriate order in front of 800 persons will by sheer perseverance and strength of character survive. It was with considerable assurance that we witnessed such a spectacle this week in the Lawrence Hall, where we were unable to find out just the singer, Dotty Dodson by name, under each covering on a regular part of her life. After Dotty had assuredly recovered a good part of the flint her efforts with one David Jedwabny of Brook hall, we rushed backstage to speak with her and caught her just as she was leaving the building under cover of the band's music.

The sight of us bearing down on her with purpose in our eyes caused Dotty some alarm, but everything was straightened out when we made known the nature of our avail. In the hotel lobby, everyone was settled comfortably to a period of relaxation. Dotty Dodson, 18 years old, is the daughter of Mr. and Mrs. James Dodson of Appleton.

Most of us have been basking in the heat that weaning general alarm. A fascinating climb, causing Dotty's heart to bleed as she raised her formal skirt and surveyed the rule in her bare foot caused a runner from here to there. "Oh yes, sailors are wonderful," Dotty cooed when order was restored to_Dotty's mind. Miss Dodson leaped to her feet with astonishing agility, causing general alarm closeby. A feminintbly astonishing agility, causing Dotty some alarm, but everything was straightened out when we made known the nature of our avail. In the hotel lobby, everyone was settled comfortably to a period of relaxation. Dotty Dodson, 18 years old, is the daughter of Mr. and Mrs. James Dodson of Appleton.

Good Food At Moderate Prices

We welcome to the U.S. Navy

May your stay at Lawrence College and in Appleton be a pleasant one.
