Betita Pays Tribute
To Modest Costa Rican

By PAT GERALD

In the same vein, the following article was
written last spring, but due to various
student activities and the like, the article
did not appear in the issue of The Lawrentian
which covered the period of its writing.

Practically all the students of the 43rd class
and a large number of the Sophomores, Seniors,
and Juniors of the 42nd class do not know
what a Costa Rican is. The only people who
ought to know are those who have lived in
Costa Rica or have visited there. That being
true, the purpose of this article is to acquaint
the non-Kost-Tai people with the customs of
that country.

In 1862, you clipped and chewed your
way through the dialect of the Spaniards
and perhaps observed the pronunciations of
two of their most common words, "Don Pancho" and
"tomate." These are the names of the two
individuals who occupy most of our time
in the 43rd class. The former, of course, takes
up the bulk of the space in our annals. It is
in keeping with your usual custom to call him
"Anch." He is characterized by the phrase
"those people," in which he always means
you and his friends. The latter is a fruit that
is frequently consumed in school. It is
approximately the size of a tomato and has a
rather dull, dry flavor. It is often used to make
cocktails and is occasionally eaten raw.

PETTIBONE'S
Hobby Workshop Opens To Offer Students Chance for Art Work

The Local Art Workshop will be open to all students interested in the field of art. A demonstration of life drawing and an opportunity to sketch from student models will be the feature of every Tuesday. The workshop is for the enrichment of the materials and for the student interested in art. The workshops are free and will be held in the main building of the college, beginning at 3PM. This workshop is associated with the art students. For information contact the art department.

In the afternoon each trainee is required to report for physical training for one hour, five days a week. This training includes both conditioning exercises as calisthenics, running, and strength-building exercises. Calisthenics fill out the daily schedule. The Navy has not yet determined which body-breaking or strength-building exercises will substitute for calisthenics. Beginning at 0615, this training is alternated with a jog around a test course and the obstacle course will be incorporated. Last week each trainee was required to take the Navy strength tests. The "T" scores have not been interpreted, but the students are not permitted to take the Navy strength tests until they have reached the age limit of five minutes is good. The "T" scores have not been interpreted, but the students are not permitted to take the Navy strength tests until they have reached the age limit of five minutes is considered acceptable.
