Coed Attempts To Apply Facts, But to No avail

The delightful flavor of 20th century social life is the club of the gem. Even in its infancy, it has been a success. The coed clubs have been particularly popular, with 200 students attending their meetings. But, to no avail, have they been able to apply the facts they have learned.

The most recent attempt to apply the facts was made by the newly formed Coed Club. They met in the Union last night and discussed the problem of balancing budgets. The club members were enthusiastic, but the attempt to apply the facts failed. They had hoped to use the budget of the Alpha Chi Omega club as a model, but the attempt was unsuccessful.

In the past, the coed clubs have been less successful in applying the facts they have learned. They have tried to apply the facts of democracy, economics, and social life, but have been unsuccessful. They have tried to apply the facts of voting, public speaking, and public relations, but have been unsuccessful. They have tried to apply the facts of public opinion, public policy, and public administration, but have been unsuccessful.
