ON THE QUARTERDECK

From the Editor's Easy Chair

Recently we have heard some comments to the effect that the All-college Judicial Board is not doing anything and that something should be done to make it function more actively. We quite agree with this. The board should become active. The whole campus has not reformed and there is plenty of material for the board to deal with. If many officers have nothing to do, the board will welcome a few cases and has been hoping for something to do in order to make sure that they will be able to function with a judicial branch. The board would be glad to report any cases to the board.

Now that we have heard from the board, we wish to caution the students against sitting around saying that the board cannot do anything. We wish to ask them to come with suggestions of what the board can do.

If student government is not to be a force based upon superficiality, the students will have to show that they are capable of passing judgment on their own behavior. The only way that this can be accomplished is for the students themselves to take some responsibility in reporting cases to the Judicial Board. The machinery for student justice stands ready and waiting for use; it's up to the students to show that they can make use of it.

Scribe Gives Wise Council Before Church

Brokaw Sailor is already ready to give up his religion. But he is not going to change his church. He has been in this church a long time and he is not going to change. He has been in this church for a long time and he is not going to change. He has been in this church for a long time and he is not going to change. He has been in this church for a long time and he is not going to change. He has been in this church for a long time and he is not going to change. He has been in this church for a long time and he is not going to change. He has been in this church for a long time and he is not going to change. He has been in this church for a long time and he is not going to change.
The Inner Sanctum

Last week Homer promised to give you the second half of the signs of the Zodiac this week. The Virgo section will cover the month of February and all its intrigues, passions, facts, figures, passions and wanderings. During February the planets race around in space and don't give a damn for a few mere mortals.

CANCER

The New Moon is today July 25

All you people who have been under the signs of cancer will be converted into Christians. This new moon will make the water in your eyes. Get a hold on yourself. You can be complicated with the help of the moon. The water in your eyes will not get out. If this doesn't work, beat your head against the wall. You can never learn in the same way twice. This new moon will be enough to make you feel like going to a new job. A new job will be yours for the taking. Nothing in your solar system is a new job. This moon will give you the ability to call your roommates by their initials. You will win the lottery this month. You will be the beneficiary of a new job.

LEO

July 24-Aug. 22

This Leo is quite a character. This month he will let you in on a secret method for the mastery of high life. (Just don't drink it too fast. On Feb 8th a sinister figure will approach you. Don't worry about him. The way you want to worry about is the next one you meet. Especially if he is a man who is under the influence of the moon.) This Leo is quite a character. **Great Lakes Cagers Play Vikes Tomorrow**

Tomorrow night Alexander gym will be a beehive for the basketball game of the year for as Vi光学 fans are concerned, as Lieutenant Tony Hinkle brings his deservedly famous Great Lakes' alumni to the arena opposite the current Lawrence basketball team of Coach Ray Homan's cage squad. The Vikes and the Fighting Bluejackets face each other, and it is a major event. Fifty miles away at approximately 4 o'clock and undoubtedly continue at a furious pace for the next two hours of minutes of playing time, will be in the making.

In addition to being one of the most outstanding teams in the country, the Jazz Bluejackets are also one of the most popular. They are sure to give us a fine and exciting game of basketball. The Vics have been working through high school, college and profession.

Vike followers devoutly hope will resemble an immovable object. However, with the experience Lawrence has, they are sure to oust the Vikes from their home port last Saturday. In short, grow up and pull your weight. It must be noted that at the last haltime, Lawrence was about 13 seconds faster than the Vikes in the 600 yard relay.

**Navy Dorms Fight for Lead in Track Meet**

The second lap of the all-college track meet for 440 yard dash. This was a first for the Lawrence team, as it was the first time they met a team from the eastern coast. The Lawrence team was composed of athletes who had just returned from a trip to the eastern coast and were in the middle of a post-leave-labour tryout meet, and no one knew how the Lawrence team would fare. However, the Lawrence team did surprisingly well and upset the Vike followers, who had expected them to lose.
