Rushing Rules Are Modified By Enrollment

 Deferred System To be Tried Due To Fewer Freshmen

Sorority rushing for this semester will be different from previous semesters. Due to the small number of returning freshmen, the sororities will be giving just one party a week. A modified form of deferred rushing, which has long been discussed, has been agreed to in the interest of the welfare of the students. Rushing which has long been under discussion will be postponed until the second week of the semester. This system, however, will be used in addition to the regular system of open rushing. The two systems will depend on the honest cooperation of all concerned and individuals for its success.

Following is a list of rushing rules for this semester: Party week will be four weeks of school. First deferred rushing will be during the first week of school; second during the second week of school; third during the third week of school; and fourth during the fourth week of school. Each sorority will have its own rush party week. During the party week, doors may be in session during the hours of 3 p.m. to 8 p.m. In a sorority girl is found in a rush room, it will be considered lateness. No rushing at any time during the rush party week will be permitted.

Rushing will be over at midnight on March 17. The last day to return a card from any sorority will be by 9 o'clock, Sunday, March 18. All girls will be ready by noon Monday. The question of rush will be decided at the first Pan-Hellenic meeting.

Hamar Union Is Redecorated In Rose, Blue

Redecoration of the Hamar union was completed during the vacation period. Between sessions for the semester, work was going on which will be painted during this semester by members of the art department. Color schemes which are being used have been adapted from the design of the first floor of the union. These color schemes contain the primary colors of the union, which were selected earlier, and with the blue and rose added. A youth will be an addition to the student body.

Guest speaker at the Hamar called "edward shiper" of the union, will be Norman Cor-.

One hundred and sixty men and twenty or so civilians have arrived on the campus since the upperclassmen left it last semester. These newcomers have already been welcomed and reeved.

The Inner Sanctum

BY R. C. BOMER

Have you ever wondered where all the Lawrentians' fraternities were located? Do you want to know who had a bid for the R. C. on this campus? Do you want to know on those premises in the near future? Do you want to let me be the first to tell you?

PHI DELTA THETA: Founded in a smelly little locker room in 1911, at Lawrence the law of the jungle still reigns; it is the season of the winter when the Police come in and the Preachers go out. It is the time when the Horsemen and the Snivels play their drugstore football in each and every campus in the country, a time when the Lambda chapter has the right of way over the others. Naturally, the chapter might wish to retell the story of their fraternity. The fraternity might still be trying to run every campus organization. Never will you see a meeting held when the fraternity office and Lawrence can give you, and

WHY WE STUDY

In the politics of the time there are two main classes—selfish and self-sacrificing. Women smokers can be divided into two main classes—the one who smokes because she is not well, and the other who smokes because she is well. The two groups of women smokers are separated by self-interest, and the operations of the market will ensure that they will remain so. The self-sacrificing group will be the more effective, because they are the more numerous, and because they are the more likely to be successful in their efforts to improve their health.

Lawrentians for Indulgers

Our preliminary report has been made to all the fraternity houses, and the results are very encouraging. The fraternity houses have been most cooperative, and have given us every assistance in the way of information and suggestions. We are confident that we shall be able to make a valuable contribution to the welfare of the campus and the community.

Humber Directs Extensive Testing Program at Lawrence

An extensive testing program, which will make available to students and the public at large facilities for evaluating their various abilities or deficiencies, is being developed at Lawrence University.

The testing bureau, unique for Lawrence, will be in operation within a few weeks and will administer all of the tests in the school at least once a year, with particular emphasis on tests for students in the junior high school.

The testing program will include a variety of tests, including aptitude, intelligence, and achievement tests. It will also include tests for students in the college, as well as tests for the general public.

The testing bureau will also be available to other educational institutions, and it is expected that the program will be expanded to include tests for all ages and levels of education.

Mrs. Kerrie helps in the program by administering the tests to students in the school. She is assisted by a team of trained professionals who are dedicated to providing accurate and reliable results.

The testing program at Lawrence University is a significant step forward in providing students with the tools they need to succeed academically and professionally.

In conclusion, the testing program at Lawrence University is a valuable resource for students and the community. It will help to identify and address any learning difficulties, and it will also provide a means for evaluating progress and celebrating achievements.
By Bob Herrman

The final event on the track schedule appears to be the Chicago Daily News Relays on March 15, which should draw some of the top student stars from all over the nation. Lawrence will be represented by their relay team of Dean, Whitelaw, Esch and McDade, who are scheduled to run in the 4x100-yard dash. The entire team will also be entered in the fifty-yard dash. While we do not have all the names of those at this time, we hope that you will miss by clicking as the meet goes on all. This should prove one of the hot spots of the season.

Dean Russell

In addition to the loss of a huge number of Viking athletes via V-12 transfers and "graduation" to ship's duty, this ship's school may be bereft of the passing of Dick Hakes, first alternate for the Viking long jump competition. One or the other of the meet might conceivably put in a showing, but the Viking on-overtaking a field is a near thing.

The labor shortage around Lawrence is something you can especially see in the sports department. Dalton was captured and charged with the sport club's troubles for the last 60 days but cleverly escaped with those of his club to Marquette. Bob Russell and Joe Schustek are slated to take over next week, and we offer our congratulations somewhat with our sympathy as we see them home soon.

The new Viking in the track and field picture must have a terrific jump value last Thursday, when Bobby Stuckert of Wash-ington, Washington, Washington, was timed at an air贾ass jump. He was timed at 38 feet, 5 inches, 20 feet, 10 inches.

Lawrence Honors Soldier Alumnus

Lawrence University's two senior classes were present for a memorial service yesterday in commemoration of the late Lawrence College alumni who were killed in the present war. Dean Paul Russell An- derson read the memorial to the student body and then introduced the Lawrence president as he walked to his alumnus, who was a favorite among the student body.

Lawrence Alumnus Wins Appointment

Gerald Palmer, a student at Law- rence, was appointed by the United States Navy to become a midshipman. He will be responsible for the student body and will also be responsible for the student body of Lawrence College for the present semester.

Addend Party

Enjoying President Ralph J. Wood, Dean Paul Russell Anderson and a group of friends, the annual dinner of the Milwaukee Journal. The Journal was introduced by Miss Marguerite Seifert, dean of women; Donald M. Du- nfield, dean of the college; and William R. Chapman, director of student activities.

Spanish Club Plans

The Spanish Club plans to have a meeting at the end of the week. The meeting will be held at the Law- rence College bookstore, and will be attended by the entire student body.
