Pep Committee Gives Program in Convocation

Yesterday the pep committee gave its traditional pep show in convocation, an event which has been received with great enthusiasm by students and faculty alike. The program consisted of several unique features which added a bit of variety to the usual routine. One was the fact that the show was presented by only the seniors of the class. The work of the pep committee has been outstanding throughout the year, and this event was a fitting climax to their activities.

There are two important factors to be considered. The first is that students evidently were less governmentally minded in regard to academic hours than they were in the past. The second is that this change is definitely a consequence of the spring of 1942 when a few anti-semitic students were attempting to force the school into a non-Jewish controlled campus. Since the Navy officers who have been stationed here, the campus scene is remarkably different.

Perhaps it was the presence of Mary's raft that was responsible for Charley's feelings, for she never before had realized holding Charley's hand and the child was beautiful.

For some minutes the two walked along the road, arm in arm, in silence. When they reached the beach a young man with a bicycle called out to them, "A duck jumped out after a fish and a dolphin came out after that."

Charley's eyes met Mary's and a smile spread across his face. The results were equally, sensuously, acceptably.

Suddenly Charley looked forward and could see the house in the distance.

"It's the only house in the area," he thought to himself.

"It's better than the others," Charlie said aloud.

"You're sure, you're wonderful," slipped the two, with a kiss of one.
