**Cold and windy this weekend.**

By Ben Hansen

**Communism**

"We will let the Japanese pump without a terrible struggle," he said. "We will try to get a temporary cease-fire, but it can't be done in years, but it can be done in months."

In his plan for additional materials from the United States to China, Mr. Hansen pointed out that the United States is China's biggest supplier and can ship 20,000 tons of food aid a month. "We can't even buy 500 tons of food from the United States," he said. "We have to buy it from the Soviet Union and our own government."

**The End of the Road**

"It isn't enough to supply one or two battalions of soldiers," Mr. Hansen said. "We have to supply them with up-to-date equipment and training, and above all, we have to supply them with the moral support of the people."

"The moral support of the people," he continued, "is the only way to end the war."

"We have to show the people that they are not alone in their fight against Communism."

"We have to show them that they are part of a world community, that they are part of a common future, that they have a right to live in freedom and peace."

**Conclusion**

"We are going to win this war," Mr. Hansen said. "We are going to win this war not only for China, but for all that is good and right in the world."

**Brown Wins**

Brown Wins Senior Trophy At Banquet

Tuesday evening brought one more of the Lawrence traditions into the spotlight. The annual W.A. banquet was the feature of the evening. After the dinner, the W.A. was voted one of the most outstanding student organizations on campus. The presentation of awards was one of the high points of the program. The highlight of the awards was the presentation of the Senior of the Year trophy to a senior student. Lawrence's prestigious senior presidency will be presented to four juniors.

**Dewey to Leave**

To Finish Thesis

Mr. Richard Dewey, assistant professor of psychology, has been granted a leave of absence from work on his Doctor's thesis. He will work with minority groups in an area near the campus during his leave. Mr. Dewey's research is in the field of family relations.
Co-Editor's Cognitions

None lest Caesar; France lost her Napoleon; England lost its Churchill; and now Lawrence, who is about to lose her class of 1944 A or B or 4 or 5 or what have you. Among this upheval of events and personalities is you, the editor, who will make their exit along with the others. Although we sometimes feel that this is all too much, we still believe in its merits. Therefore we solemnly bid our readers a farewell and with journalistic sincerity to those who follow us in this—the last issue before the final examination.

The convention which we referred to in the previous paragraph is the final exam. This is not a procedure to be taken lightly. Generally such a procedure can be dull and fruitless, but we feel that many of the events of the semester have caused considerable change and improvement.

Perhaps one of the major developments has been the new complexity of the executive committees of the college. As a result, the administration members now have a much better idea of what the student body is doing. Consequently, we believe they will make the best possible use of this information by informing the representatives of the committee of the problems which they would like to have discussed.

Another matter, which is as merely an ideological expression on paper, is the sketch for the new student Union which will become a reality after the war. We are all agreed that the plans are excellent and should be a drawing-card for the college. Our only regret is that they were not actual in our time.

Undoubtedly the most wonderful of all this semester's events was the arrival of President Pussy. We have no fears about the fate of our Alma Mater, for under his able guidance and sympathetic administration the students will be taken care of. This fact is further proven in the tremendous interest shown in the new student Union, which is one of the basic requirements of a firm and lasting organization.

We have appreciated the cooperation which we have received from our staff, and we eloquently hope that the Lawrentian will continue to be an outstanding student publication. Therefore we want to extend our congratulations to Don Palmer, the new student body president.

This week we recall ourselves sharply from the abstract to concrete. After a brief Ubermuth, we are reminded by a package of black silk glands that there is a story to be told. We put it down in the black book, and supposedly that was that. But, we believe that it is our duty to report that, amidst the rushing about of the Follies and then discover that individual groups have planned events for the same evening. Surely this is something for the social committee and the upperclassmen to consider.

The unification of all the social activities which is so often encouraged in the ad of "the social committee" should be pushed to the front of the agenda. When social activities are so sufficient in advance of its date should be increased. If this is the case, the rule should be made to discourage other groups from holding their own parties at the same time.

Sleep Become Big Factor as Exams Approach

As exams get nearer and nearer, more and more students appear as people who stay up later, the obvious reason being that there is more work to be done. As a result there is less time for the students to spend on social activities. The result is that many of the students who believe in going to bed early prefer to stay up all night in order to get their work done. However, they are beginning to realize that they need more sleep in order to be able to function properly.

There are even more logical reasons than those, in my estimation. As you know, I have had my share of sleepless nights. In the morning I am usually in a semi-dazed state and am unable to concentrate on my studies. I have found physical or mental exercise following sleep to be of great benefit. I have been told by my psychiatrist that the reason for this is the natural inclination of the brain to think during the night. I believe that our society is becoming more of a night-time society. We are becoming less and less interested in the day-time activities of the world. Moreover, we know that people who work night-shifts do not have the same kind of problems as those who work during the day.

At first I was very suspicious of this idea, but I have found it to be true. I have found that I am able to concentrate better during the day if I have a good nights sleep. I have also found that I am able to think more clearly during the day if I have a good nights sleep. I have found that I am able to think more clearly during the day if I have a good nights sleep. I have found that I am able to think more clearly during the day if I have a good nights sleep. I have found that I am able to think more clearly during the day if I have a good nights sleep. I have found that I am able to think more clearly during the day if I have a good nights sleep. I have found that I am able to think more clearly during the day if I have a good nights sleep. I have found that I am able to think more clearly during the day if I have a good nights sleep. I have found that I am able to think more clearly during the day if I have a good nights sleep.
Well, the Vikings certainly did all right for themselves in their game with Camp Ellis last Saturday. The squad enjoyed a good deal more polish than on previous occasions. From the kickoff, their passing game was vastly improved and the defensive play showed without Camp Ellis last Saturday. The squad exhibited a good deal of power and that it was only a matter of how much.

Alternately played exceptional ball on defense. Without a doubt, some of those blocks and tackles were the most vicious of the game. Strohm saved the day on Capelton's runback of the kick-off. The color of those blocks and tackles were the most vicious of the game. . . .

Tackles amazed spectators all afternoon with his frame. . . . Paulson really stopped Nitahara behind on the fifty yard line and that ended the "threat" . . . Strohm . . .

We did fairly well on our guesses for last week, hitting 5 out of 6 correctly. That gives us a .667 percentage so far for the season. Once again there were no penalties— . . . The crowd sent up a chant for DeMasters on a runout.

On Camp Ellis, 20-7

Lawrence Surprises Pre-Game Favorites

In Lost Home Tilt

Lawrence college had too much offensive power for Camp Ellis last Saturday afternoon, as the Vikings downed the soldiers 20-7 before a small crowd which heard the chilling temperatures to watch the game at Wishing Field.

Lawrence piled up a total of 204 yards on the ground and 51 yards in the air, while the soldiers had to 43 yards by missed kicks and 30 yards on their own records for the game.

The Camp Ellis squad, pre-game favorites, outclassed the Vikings and looked a little stronger on paper than the college boys, but on the field Lawrence showed a better team of men and played smoothly and efficiently as a team.

When Camp Ellis returned the kickoff 31 yards after the opening kickoff, the Vikings were out for blood, but Drew and Funker broke through the defense on the first two plays and practically nullified the run-back, and from then on it was all Lawrence.

Lawrence substitutions were of no consequence during the contest, and most of the upsets in the game occurred in the closing moments, when the soldiers were out for revenge.

The Vikings had a 20-yard gain on the first play, which they converted into a first down at the 50 yard line. Bartosic carried the ball for 5 yards and then tackled Nitahara on the 16 yard line, where the ball was stopped.

When Carlton returned the kickoff, Bartosic carried the ball and tried again, this time down the field until the college boys had a first down with 1 yard to go for the touchdown. Bartosic moved the ball back to the 12 but two runs brought the ball down to the 4, from where Bartosic glanced right through the middle of the line to score. Abel's kick was good.

Abell's kick went out of the end zone and the placekicker was moved around, and Bartosic drove through center for 7 yards and Bandy scrambled around end for 14 more, to give the Vikings a first down at the 6 yard line. Bartosic moved the ball back to the 12, but two runs brought the ball down to the 4, from where Bartosic glanced right through the middle of the line to score. Abel's kick was good.
