Barbed Wire Disease
And the Fight for Morale

By I. E. HOBEM

This is the second of a series of articles on the World Student Service Fund.

The point you might now see that there is something to do while we are trying to make sense of the world situation is that you are a prisoner of war, according to the world's standards. There are men today who are more important than you are, and you have the responsibility of taking care of them.

One of the inevitable results of any war is the capture of some students by their enemies. There are a great many enemy soldiers and civilians that have been held captive during World War II. Many of these men and women are captured by the enemy in their home countries and are held in prison camps. This is the result of the enemy's desire to capture and hold any who are associated with the enemy's cause.

Many of these prisoners are held in prison camps because of their political beliefs or because they are associated with the enemy's cause. In some cases, these prisoners are held for a period of time as a result of their association with the enemy. In other cases, these prisoners are held for a period of time for no reason at all. This is the result of the enemy's desire to hold any who are associated with the enemy's cause.

The Editor Speaks
HE N RY WALLACE RETURNS

The reappointment of Henry A. Wallace to the cabinet returns one of America's most important leaders to an important post in the government service.

Mr. Wallace, who last summer was "disgraced" by the president during the campaign, is not too well liked and is very much misunderstood by some of his opponents. Even now, with his appointment up before the Senate for confirmation, political leaders of the opposition are ignoring him. This is the result of the political leaders' desire to ignore him.

Assumed by some of his opponents, "a dreamer," he has been accused of being a follower of Hitler and his policies. The more that is known about his political ideals, the more his influence on the world is likely to be felt.

Conversely there are large numbers of Americans who believe in his worthy ideals, his outstanding character and his love and admiration of the common man.

Mr. Wallace has faith in the American people and the American dream. He believes that all Americans too will realize that his ideals, the worth of his dreams, are worth striving for. Henry A. Wallace is a man of the future—and he is at the helm of his time.

in the service of their country.

Dr. Pusey told of the enthusiasm which Lawrence has felt in his association here. "The things which Lawrence men have died in, have so beautifully decorated was the spontaneous character which they possess." The choir, except the Navy mem-
bers, will wear uniforms during the first part of the program, and full dress during the latter part. Harry McElroy, bass, will sing "I'll Be
Reunited With Thee" by Dixon.

Dr. Pusey told of the enthusiastic response at Union Army during the Civil War.

Lieut. Rothwell declared that the Lawrence Union has been the home of the Navy men and college personnel who have done much in old age and pride which Lawrence feels in the later achievements of its graduates. He has felt in his association here.
