Young Leon Fleisher Treats Audience Well
BY MARCIE SCHUMANN
Play piano as well as put on a show by Leon Fleisher last Wednesday in Memorial Temple was a thrill for anyone of a reception for which a benefit engaged evening would be welcome and professional. Fleisher appeared as the second attraction for a variety of concerts during the week. His debut as soloist at theKeyboard had been announced at the time of his engagement, but the dates will meet at the Keyboard by the end of the week. Prizes were awarded to the students of the Lawrence Conservatory of Music for the best performance in the orchestra, and to the tickets will be sold for the performance.

Pi Beta Phi Stirs Up Dormitory Atmosphere
Pi Beta Phi, their dates, sorority representatives from other groups, alumnae and faculty members will attend the Pi Phi formal tomorrow morning in the Masonic Temple. Lawrence students have been active in the planning of the event.

Ariel Will Snap Junior Class Pictures Soon
Second semester sophomores and all the juniors will have their class pictures taken on December 1 and 2 in the Ariel office and are expected to be ready in time to be included in the yearbook. The photos will be taken at the time of their regular class periods.

The Beta-Phi Delt formal was a success, but it was overshadowed by the activities of the Pi Phi formal. Pi Phi members, their dates, and sorority members will attend the Pi Phi formal tomorrow morning in the Masonic Temple.

Phi Dels and Betas Bury the Hatchet While in Formal Attire
The Phi Delta and Beta Theta Pi fraternities, collaborating with C. C. Dantig, have arranged to have the Phi Delta and Beta Theta Pi fraternities hold a formal dance in the Masonic Temple tomorrow night. The Beta-Phi Delt formal was a success, but it was overshadowed by the activities of the Pi Phi formal. Pi Phi members, their dates, and sorority members will attend the Pi Phi formal tomorrow morning in the Masonic Temple.

College Band Concert Marks Moore's Lawrence Debut
E. C. Moore, associate professor of music in the Lawrence Conservatory, directed the Lawrence college band in its initial appearance of the year last evening in the Lawrence Memorial chapel. This marked Professor Moore's debut on the Lawrence pedestal. Moore, who was instrumental in the law school, at Green Bay before coming to Appleton, has studied with such eminent teachers as Kenneth Bradbury, Arthur Kitti, and H. A. Vaness. Moore has done extensive writing in the field of instrumental instruction books and is the author of the "Handbook for Band."" Warning Up Exercises for Band,"" both 25 volumes, with the "Step by Step Band Course,"" both 25 volumes in collaboration with C. C. Daniel. Moore has done some other Instruction books, including the "Weekend Band Leader's Contest,"" collaboration with C. C. Dandig.

Hayride Planned By Independents
Independent girls are on their honor to get ready for warm weather, in anticipation of their happy meeting at United and for the return of the fair at the Methodist church. Snow will provide as chaperones. All girls who wish to go should contact Betty Czirr today.

CLUB ACTIVITIES

Quad Groups Plan Coming Greek Events

The second monthly buffet supper will be held Monday, November 23, by the Phi Delta, Mr. Chin. Rowe of the faculty will be the guest speaker. The Phi Deltas are making plans for their Christmas party. The Phi Delta Fraternity is sending a delegation of fifteen to the Thanksgiving banquet at the Fox Cities Hotel Sunday night. The Phi Deltas will be represented by Mr. Chin. Rowe.

Donald Moen Leads IRC in Discussion On Iran Situation

One and a half years spent with the army in Iran during the war, and a year with the United Nations in Brussels, Donald Moen, Lawrence freshman, discussed the topic before the International Relations club last week.

Shikari Club Plans For Winter Outings

The activities of the Shikari club will have to be postponed since the 1942-1943 season is still under the cloud of the war. The I. R. C. president is Jack Sterley, Lawrence college, for 1943-1944.

Football Squad To Attend Fete

The Lawrence college football squad will be placed in the following schedule.

Week End of November 23 and 24, the "Roary Party," which is attended by the five highest members of each class and is to be held in February, and the Moon-Mortar Board Follies which will be held in April or May.

Mortar Board Plans Year's Activities

Although their schedule for the rest of the year is well filled, the new officers of the Mortar Board, Sigma, and Phi Sigma are still making additions to it. Their tentative schedule for 1943-44 includes plans for providing programs for the spa-weekend, for the Phi Sigma annual meeting, for the Phi Sigma national meeting, and for the I. R. C. national meeting. They plan to begin the sale of graduation announcements soon.

Mortar Board is a honor group based on service and scholarship. The present officers are president, Wally Schmidt; vice president, Stanley; secretary, Betty Thompson; treasurer, Bert Tovey; and historian, Tony Hartley.

W.A.A. Adds Office to Its Sports Set Up

A new office has been created by the W. A. A. board to facilitate play and to ease the load on the shoul­ders of the sports chairmen. The office is that of sport manager. The present managers are: June Jeckel, golf; Betty Van Horne, bowling and ping pong; Anne Bronch, swimming; and Charlotte Grafton, basketball.

The present officers are: president, Polly Van Horne; vice president, Joan Baldwin; secretary, Betty Thompson; treasurer, Bert Tovey; and historian, Tony Hartley.

W. A. A. is planning to publish a booklet on the history of W. A. A. and to ease the load on the shoul­ders of the sports chairmen. The booklet will be published so that the students will know in advance the dates for Saturday games.

Why Tolerate a One-Sided Social Program All Year?

BY KATIIIF K VOOL

Why can’t we tolerate a one-sided social program all year? That is the question which has been on the minds of many students for the past few weeks. The social program at Lawrence is divided into two parts: the “good” part and the “bad” part. The “good” part includes activities such as dances, parties, and social gatherings, while the “bad” part includes activities such as protests, picketing, and political meetings.

We argue that the social program at Lawrence should be balanced, with equal emphasis on both “good” and “bad” activities. This would allow students to engage in a wide range of activities, while also allowing them to express their political views. We believe that a balanced social program would be more beneficial to students than a one-sided one.

Noses Prove Helpful to Light Campus

Have you seen them? Those lovely red noses! They are now festooning the campus. They look happy and pleasant to your eyes, they are a constant reminder of the Christmas season.

They are attached to the nose of the campus. The nose is attached to the roof of the library. They are small, but they are visible to everyone near the library. They are a constant reminder of the coming holiday season.

In addition to being a place for the nose to enter the library, the nose is also a place for the nose to eat. The nose is filled with cream cones. This is an average of about two cream cones per nose per day.

Social Program All Year?

Why couldn’t we have the two social programs all year? That is the question which has been on the minds of many students for the past few months. The social program at Lawrence is divided into two parts: the “good” part and the “bad” part. The “good” part includes activities such as dances, parties, and social gatherings, while the “bad” part includes activities such as protests, picketing, and political meetings.

We argue that the social program at Lawrence should be balanced, with equal emphasis on both “good” and “bad” activities. This would allow students to engage in a wide range of activities, while also allowing them to express their political views. We believe that a balanced social program would be more beneficial to students than a one-sided one.

Blossoming Architects
At Work in Main Hall Attic

BY BETTY JEAN COLTER

When you think of objects of beauty that arc the hallmark of Lawrence University — the library stacks, the main hall, the chapel — you think of a place with a history of excellence. The same is true of the architecture at Lawrence.

The first floorplans of the Main Hall attic were drawn by students in the 1930s. These plans were used to plan the construction of the Main Hall, which was completed in 1935.

The attic is now being used as a workspace for students who are working on their own projects. The students are designing their own floor plans, which they will use to build their own homes.

In addition to designing their own floor plans, the students are also working on a project to convert the attic into a living space. This will include adding windows, painting the walls, and installing a heating system.
Crossing Campus Boundary

The inclusion of the Beta choir in a program that was billed as a Student Convocation was particularly important. The choir has been carefully rehearsed under the guidance of Mr. Smith and Mr. Johnson. The result is a harmonious and well-coordinated performance that adds to the overall quality of the event.

Grandmother's House

Grandfather's house was a source of great comfort and security for the family. When Junior was young, he often stayed there during the school holidays. The house was located on the outskirts of town, surrounded by fields and woods. It was a place where the family could gather and enjoy each other's company.

Father's House

Father's house was a place of hospitality and welcome. He was known for his warm and generous nature, and he always made sure that everyone was well-fed and comfortable. The family would often gather there for special occasions, such as birthdays and holidays.

A Smell of High-Octane Gas

High-octane gas was a common smell in the air, especially during the winter months. It was used to power the vehicles that were used to transport the family around town. The smell was strong and pungent, but it was a familiar one and one that the family had grown accustomed to.

As at a Prearranged Signal

As at a prearranged signal, the family would gather in the kitchen for dinner. It was a time of sharing and good cheer, and everyone was grateful for the food that was served. The family would often sing songs and tell stories as they ate, creating a warm and inviting atmosphere.

A Smell of High-Octane Gas

The smell of high-octane gas was a constant presence in the air, and it was one that the family had grown accustomed to. It was a reminder of the hard work and dedication that was required to keep the family moving from place to place.

New Art Course Revitalizes Student Cultural Interest

Just when we were about to lose interest in the world of art, something new and exciting came along. The new art course that was offered this year has been a huge hit with the students. It has been a great way to get people interested in art again.

Vikes Open Season With Mission Tilt

Coach Johnny Sines will send his 1946 basketball squad after their first win when they open the season at Alexander gymnasium Tuesday night against Mission House.

The Mission House tilt will be the first of three non-conference games for the Vikings before they face the University of Wisconsin in basketball, along with the football and hockey teams.

The Mtss.on House tilt will be the first of three non-conference games for the Vikings before they open the 17 game schedule, nine games to be played in Appleton and Lawrence, with Mission House, Cornell and Michigan College of Education.

Students Asked to Register
All present students at Lawrence must call at the Registrar's office between December 4 and 18 to check their second semester's program. Miss Brahms, registrar, has stressed the fact that all programs must be confirmed, even those set up at the beginning of the current semester. Those intending to withdraw from school in January are also asked to report to Miss Brahms. Students with incomplete programs will be referred to their faculty advisors according to a schedule of appointments. Course schedules are available in the Registrar's office.

NEW UNION RULES
In order to increase the efficiency at the Union, students are asked to observe the following rules.
1. Please return used dishes and empty bottles to the table near the floor leading to the counter.
2. Some orders that take time (such as hamburger). The waiters will ring a bell when it is ready and in the meantime serve only those who want cigarettes, candy or playing cards.
3. After 9:15, one person may not have more than four things to take out.
