Slaving Stage Hands Search For Scenery, Settings, Sound

If you peruse your Lauraunt Daisy you probably would be well aware that try-outs for "You Touched Me" this year's arena show, were held several weeks ago; that casting was decided and that rehearsals have begun.

However from first tryouts to production Monday-Friday, May 3-7, many people besides Mr. Cloak, Mr. Sollers and the cast will be at work. The crews under stage (Hollers and Mr. Cloak with a fine Marv Ruth Holmes, David Knickei c Collins. Phyl Wormwood and make-up. All experimenting on the middle class English house. The library Tickets may be obtained from of- sea captain wear? The committee that rehearsals have begun. L

Navy Band Slated For Lawrence Concert

The United States Navy band will be sponsored by Lauraunt staging in a single concert the evening of Thursday, May 6, in Memorial chapel. The band on a transcontinental tour under the baton of Lt. Commodore Charles Brindley, numbers 50 men.

The meeting was held at Mr. Morgan's home and refreshments were served.

Ripon College Theater Presents "All My Sons" By Arthur Miller

The Ripon College Theater will present "All My Sons," the latest production of Max and Helm, at the Ripon theater this week. The members producing the show are George Larsen, president; Robert Paterson, vice president; Paul Jackson, secretary; William Leitz, treasurer; Robert Wolf, business manager; and Mr. James Ming, stage manager.

The play is a romantic comedy about the final triumph of a humble but self-righteous and mentally sa­ lithis. You Touched Me" this year's arena show, will open Sunday, May 3, and run through Friday, May 7, at Alexander gymnasium, seating capacity will limit nightly audiences to 250. To accommodate everyone there will have to be nearly capacity seating every night. Avoid a crowd! First last night. Reserved seats are at sellings drug store.

The play is a romantic comedy about the final triumph of a humble but self-righteous and mentally sa­ lithis.
Spring Concert Success Sunday

Anderson, Boehm
Featured Soloists

BY WILLYARD BOBB

The Lawrence University college band under the direction of Professor Kerstetter will present the annual spring concert Sunday afternoon at the Lawrence Memorial chapel. The program was one of pleasing variety and consisted of numbers designed to appeal to a broad audience.

Various departments of the band were heard to advantage in successive selections coming from the music of Thomas E. Such that of the contemporary composers Bach, Mozart and Morton Gould. The program was well received by the audience. Especially enthusiastic were the younger listeners, many of whom were members of Professor Kerstetter's classes. Their technical mastery of the instrument will be assisted by James Gloe, a senior music major.

845 Students to Return

Max Dehmsien has announced that 845 students registered to re-register, 300 have checked with the Registrar's office only to have completed their appointment cards. Students must re-register by May 28, or have their allotment of activities canceled.

May 10.
A memory of learning and growth.

1958-1959 - the year of music and study.
Remember the old piano - the one we used to play in the hallway.

Czech Students Receive Help Despite Coup
BY NANCY MORAN

While the students in the Charter WSBF didn't receive the expected funds for the project they had planned, they did receive support from their friends at other WSBFs.

The students at the University of Wisconsin in Prague have been feeling the effects of the recent coup in Czechoslovakia. Despite the difficulties, they have been able to continue their studies and receive some financial assistance from other WSBFs.

The coup, which took place in August 1968, led to the eviction of many students from their homes and the closure of their universities. The students were forced to flee to other countries, including the United States, where they were able to continue their education.

The WSBF at the University of Wisconsin in Madison has been working to support the students in Prague. They have provided financial assistance, including scholarships and grants, to help the students continue their studies.

In addition to financial support, the WSBF in Madison has been providing emotional support to the students in Prague. They have communicated with the students regularly and have offered them a safe space to discuss their experiences.

The students in Prague have faced many challenges, including limited access to information and resources. Despite these challenges, they have continued to pursue their studies and have shown remarkable resilience.

The WSBF in Madison is committed to supporting the students in Prague and helping them to continue their education.

Tickets are still available for the upcoming events, so be sure to purchase yours soon. The events are a great opportunity to support the students and learn more about their experiences.

Diplomatic Delta Phone
Prime Minister Attlee

By BILL DONALD

Churchof England Bishop and prime minister of Great Britain, was absent from his official residence at Number 10 Downing street in London Tuesday when presiding over the opening session of the new chapter Delta Tau Delta made a vain attempt to contact him by telephone.

The effort to reach the English ex-minister was made by an unexpected phone call at 10 p.m. from Bob Bergman, Jerry Gass, Tom Bressler and Jim Gustman. The leader of the group, according to Bob Gustman, was the lawyer and professor from Lawrence, who pinned Alpha Chi Omega member Jo Ann Tiffany, who was initiated Sunday morning.

"I spoke with Attorney General Philip Stern last week. He turned me down when I asked for an interview on the current revolution. It was in regard to this matter that the Delta wished to talk with Attlee."

As the Lawrence went to press, Bergman announced that a call was made a few hours later to Prime Minister Churchill, who, according to the professor, "sent a message through his office to Atlee that he would call back if the request was made by the group, and that an attempt would be made to reach Attlee in Bogota, Colombia."

All members of the Delta group are studying either government or economics, and they were particularly interested in discussing with Atlee current topics that have a connection with those fields. The two student government members telephoned the professor throughout the United States to reach Churchill, but were unable to reach him.

The London call was made as part of the plan to make all these possibilities into a self-initiated educational project on current affairs.

At the Movies
Black Market
By Dun Jones
are told that the film runs at a role of a black marketeer, is chased under­ground, black-market activi­ties and something of a story. All this and intrigue too. Wiscon­sin's own Donna Morgan, in her role as a black marketeer, is chasing a great deal of the French caption, in an interesting scene in a museum, he decides that he is not going to help his way by running a black market. All of the information has come to us sec­ond hand and so it sounds en­couraging to us. Miss Luise Algen from Sweden and from the general trend of comments we have re­ceived, it didn't mean to do wrong. How in­nocent can you get?

The boys live in shabby apartments in the second and now to a new post, dean of Student per­sonnel agencies on the second. The university of Iowa has completely re­organized, with the full amount of floor space with new lighting facilities. No more steps to classes. There is a common room with comfortable armchairs and bookcases for the whole works! The ventilation for the whole build­ing will be improved so that it will seem air-conditioned.

The whole process is a happy one. Students are now working at the Student personnel services. The department is now open for the business.

Shorts Clad Girls Compete
With Stuffy Lab Specimens

By DEE DRAKE
The recent migration of the science students of Lawrence into the lawrence pool has caused quite a furor on the campus. The co-eds complain about the haunting presence of a glassy-eyed bear and the nagging stares of caged birds in the basket nets. The men are find­ing concentration equally difficult because of the continual traffic from coming and going from gym classes. "It's hot in here!" Mr. Brown's geology labs are being slowly sphy­nized by the laboratory smogs.

Stephenson hall itself is undergoing steady bombardment. The few classes that remain are suffering from the heat. Flying bricks and ice cream bars are falling from the sky. The plans outline a dou­ble stairway to replace the old stairway now grooved by the foot­steps of a half-century of students and professors. The dark, allowed third floor will have its chin lifted, be befree it or not. There will be a full amount of floor space with new lighting facilities. No more steps to classes. There is a common room with comfortable armchairs and bookcases for the whole works! The ventilation for the whole build­ing will be improved so that it will seem air-conditioned.

The cost for this reconstruction is estimated at $400,000. $50,000 will be spent on new equipment in the labs and lecture rooms.

To Atom Show
Lawrence students will be given an opportunity tonight of viewing the political aspects of the new source of atomic energy prepared by the editors of LIFE magazine in connection with the U. S. Atomic Energy Commission. The International Re­lations department has arranged for the projection to the attraction which will be at Montana.

A week before the showing, Mr. Watts, will be at the college library at 7 p. m. A fair of 30 cents will be charged to those attending to cover the transportation costs.

The thesis of the exhibition is that science is truly international and that atomic energy is not exclu­sively a scientific problem but is a problem for all nations. The division of atomic energy to use as a weapon of war.

Lawrence Grad Set
Air Force Position
First Lt. Orlando Bellemore of Elyria, Michigan, a graduate of the United States Military Academy at West Point and a veteran of six months in the United States Army, is the new head of the First Air Force of V. M. Y. M. C. A.

The five objectives in the reor­ganization are: 1. To give leadership in the de­velopment of a student personnel agencies on the campus. 2. To review the activities of all student personnel services. 3. To review the activities of all student personnel services. 4. To review the activities of all student personnel services. 5. To review the activities of all student personnel services.

Vikes Meet Beloit
In Crucial Meet

Denney Says Competition is Tough

Lawrence trackmen face one of their most crucial contests of the present spring season Saturday at Beloit. Performance turned out in first place in the annual invitational meet last year, and actually swamped Ripon last Saturday. Both points will determine themselves as a team in the Conference and state meets of this year. If the actual meet were held in the distance run, point balancing, half and quarter mile.

Vike coach says the event will be plenty close, adding that the relay event will be a decided one.

With that in mind, Denney has given his all-out attention to his four-lap four.

Glen Denney; Herb Flicker; Bob Allen; Carl Strutz.

The Vikes enter the dual meet with 18 points, while Beloit will be at 22 points.

Four valued performers have been chosen by the coach to win them the meet: Flicker, Denney, Allen and Strutz. The former has finished first in many meets, while the latter three have won the state meet.

In practice and in the dual invites the possession of five veterans back opposite by Dupont and Co tomorrow. In an all around strength is possessed by Beloit in a dual meet.

Lawrence is quite strong in the half mile, where Allen will be the leading man in the meet. Bob Clark 13.

Drafted into the varsity in the long jump, while Mill will be the Midwest conference with five veterans back opposite by Dupont and Co tomorrow.

Coe Constitution Revamps Political Representation

A new constitution for student government at Coe college went into effect as a result of a near-record vote by the student body. A two-thirds majority was needed to adopt the new constitution.

Under the new constitution, which calls for an entirely different system of representation, a new system of election procedure and an executive cabinet to set up elections for president and vice-president of the Student council and for presidents of sophomore, junior and senior classes will be held during the first and second weeks of May.

The constitution was presented to the student body in a chapel program last Thursday by William D. Hoffman, M. A., assistant professor of political science, who is also a member of the constitution committee which drafted the constitution.

Copies of the new constitution will be placed on files in Otten Memorial library, where they will be available to members of the student body at any time.

To the editor of the Lawrentian:

A phrase used by El Shani's column for April 16 has made me brood a little, and I have decided to impart my thoughts to the public. As an example of attendance at athletic contests either at Whitling field or the Alexander gymnasium.

Now, this remark of Mr. Shani's simply is a mistaken statement. I am sure Mr. Shani does not know the truth. He supposes in all good faith that he knows what he is talking about. Nevertheless, he has been guilty of circulating in print a disquieting and quite false complaint about Lawrence. He ought to be more careful, and other people who circulate ungrounded complaints ought to be more careful, too.

Realize, what I mean to say is not that Mr. Shani is particularly culpable. On the contrary, he is entitled to an open mind. Let us prepare ourselves to start reforming themselves.

My reason for saying Mr. Shani's statement is mistaken is that Mr. Heisslein, who knows crowds both at Lawrence and elsewhere, says that attendance at Lawrence games is an unusual phenomenon. We are remarkable for our high attendance. Visitating coaches ask him how he got the crowds out, and he says he does nothing: the crowds just come. Now, wouldn't it be better if Lawrence students knew this than to have them told they do not get to games? The facts are that Lawrence is good. Why do Lawrenceans circulate damaging fiction?

My answer to my own question is that Lawrenceans know far less about Lawrence than they ought to. Lawrenceans cannot get much experience of how we are rated simply by what we say.

Yet they can do something. They can think about this incident of a false complaint. They can tell the world of how good Lawrence is. I see no way out of this. Lawrenceans cannot get much experience of how we are rated simply by what we say. They can tell the world of how good Lawrence is.

May We Take a Rain Check?

We're moved. We promised to answer all your gripes this issue, but, as so many to-garoons did, we must put it off until next week. Lots of people have written to us this week, and so we only ask that you wait for us until next week. Lots of people have written to us this week, and so we only ask that you wait for us until next week. Lots of people have written to us this week, and so we only ask that you wait for us until next week.

The Lawrentian editorial board.
