Name Grade Head of Social Committee

Following official notification of his election to the social chairman-ship of the Lawrence student body, Forest Greenville issued the following statement: "I wish to publicly welcome any and all suggestions of those interested in planning next year's social program for Lawrence. More than anything else, I wish to make plain that every student community effort will be needed in planning this program, and that good coop-erative ideas for the program will be considered for appointments to the social committee, regardless of sex, race, religion or other organized group."

"Also, I would like to announce that all proposals for altering the student social affairs on this cam-pus, which were made during the recent campaign for the student body presidency, will be given every con-sideration."

"And finally, I would like to com-mit myself to the belief that every-concern to everyone socially minded stu-dent—one with a fine Lawrence tradi-tion—and this commitment is in the making in what were probably the best four years of my speech. Member of the group are Dick Flicker, vice presi-dent; K. Merdinger, secretary; Mr. Dietrich, treasurer; and Reed F., homecoming women's ro-senator—Ann Cox 5, Virginia O'Rourke, John Psiris, homecoming men's ros-man—Bob Wood 11, Elizabeth Fortune.

Four senior students of LeVallo March will appear in a general recital at 2:15 p.m. Sunday, May 9, in the Lawrence Memorial chapel.

Chorale Preludes

Four organ students of Lawrence will be featured in a series of organ recitals. The recitals will be presented as follows:

May 7—Choir concert—Menasha
May 8—Organ recital—Chapel 4 p.m.
May 9—Choir concert—Kaukauna
May 10—Choir concert—Appleton
May 11—Symphonic concert—Appleton
May 12—Organ recital—Nancy
May 13—Organ recital—Appleton

Correction—Donna L. Zientak, contralto, who is 20, will appear in concert next Thursday, May 13, to sing two songs. She will also perform in the choir concert next Saturday, May 15.

“So In The Beginning” by Aaron Copland in which the choir and Miss Miller sing the entire first chapter of the book of Genesis, and “The Jubilant Song” by Norman Bollem.

The solo will again be taken by Miss Miller. In this work the principal of the choir, Paul Jackson, is extremely important.

The choir will also sing “Good News” (“Drama in My Heart”), “Great Day,” “The Drum,” and “Song of Love.”

The concert will start at 8 p.m. at Lawrence Memorial chapel.

Correction—Ginny Miles' recital has been advanced to May 10.

Jean Trumbore and Joan Glue give a very fine recital that Friday. Miss Trumbore displayed a very pleasing voice that is impressing in an extremely rapid rate. Miss Gruber stated his master of the piano by performing three compositions in the middle of Miss Trumbore's program. He played with the confidence and discipline that helped put the spotlight on John Hertz. In his piano music, Miss Trumbore played with the same grace and beauty.

Don Waterman's recital last Friday night couldn't have been missed by anyone. Don's deep voice is invigorating. The Aris from "Elijah." "It Is Enough" was very popular with the audience.

Kohls Reports on Statistical Field

Maybelle Kohl, assistant professor of economics, attended a convention of the Midwest economic association in Minneapolis last weekend. Concerning the conference Miss Kohl said that a speech by John Camael, of the Department of Commerce, gave the most optimistic picture of present-day and future economic relations.

Several speakers emphasized the growing importance of statistics in business and government. Although the field of statistics is an infant, it is a profound conclusion of that of accounting, and although many firms dispense with their statistical departments during the depression years, it is shown how the statistical field has made a definite place for itself and that it is even beginning to influence accounting technique and accounting theory.

Spanish Club Election Held

Election of next year’s officers and a Panamanian visitor occupied the attention of the Spanish club at their last meeting on April 28. The visitor, Benita Ronza de Doyuela, formerly of Panama City, was brought up. Pusey said emphatically, “As a matter of fact, I do not think than anything is inevitable when it has ever been able to talk amicably and reasonably with Russia. Only the present difficulties are not a barrier. The Communists do not believe in an external truth which escapes human perception.”

With Russia more reliable, it seems irreconcilable to us.

Pusey added that he thought the next six years would show the actual and potential candidates. (right to freedom of expression, is something about which he has no means of foregiving conclusion that it seemed to be to many people.

The difference in the manner of thinking between the Russians and Americans was brought up. Pusey agreed that the Russian people probably do not want war any more than the American people do. However, the Russian leaders think in a manner entirely foreign to us, and it is the Russian leaders who will be responsible for our country’s fate. A meeting of minds will be difficult because there are real differences that cannot be ignored—differences which we should not seek to minimize.

In concluding the interview, Pusey for the present day foresee a Communist revolution in the United States should we allow the Communist party to control the public. But while it is traditional to maintain that everyone has a right to do what he will, it is also the case that this was formerly true because all commercial combinations that could not do a multiplicity of things.

But the Communists do not play according to the old rules, and the fact that there are a new intellectual period, before new solutions need be found. The question is in the problem became visible, difficult to digest. Pusey said that the United States could do well to democratic philosophy did, but not in so that she was not accepted total—whether or not this political situation.

Who were the pale, lifeless ghosts who dressed in the smoke-filled corridors of main hall last Friday? Why did President Warren Bates immediately jump to the conclusion that all his feminine students had starred up all night studying for a test that was the same day? Why were these comments such as: "You look like death?" "Go to bed. I know how you look when you get up in the morning?" "Why are you wearing your pyjamas?"

John Pilson and Mary Lawrence, P.E. students, arranged a "Man's Hope," the crude curvy head hero from the war, as a dubious lover with definite ideas about building a world away from the comfort of Rockey arms, and it is amazing that Miss Lamers could resist him in the face of perfection. The film deals with the Civil War's effect on the American people, and includes scenes of dialogue between the soldiers and the ladies in the camps. "Man's Hope," has been described by the eminent French composer Daily as one of the few wonderful film scores of the year that is a great melody. The film was released out of Spain in 1951, but was never shown in France until the spring of 1947 in line with a great deal to the people who produced it. They were willing to risk their lives in filmizing and getting the film out of Spain. Why? "Man's Hope" has one of the most unusual musical scores in film history composed expressly for the film by the eminent French composer, Darius Milhaud. When one realizes that the Spaniards could not be in the film unless these peace-loving gentlemen had not been able to produce a film, the result is an extraordinary film that tells a tale which is not altogether pleasant.

"Man's Hope" was smuggled out of Spain and is unusual in that it was filmed on the battle fields. It has a cameo charm and lyric way of getting the film out of Spain was a real triumph of Mr. Bates. Obviously this picture reveals the capacity of the hall, only a certain number will be able to obtain your seats at the door. Vikes Favored At Ripon Track

On the basis of comparative performances that have been made by the two teams, the odds favor the Lawrence team in the archery competition that will take place tomorrow afternoon at Ripon. The archery meet will be held in the middle of the campus grounds. The archery competition is scheduled to begin at 1:00 p.m. and will continue until 3:30 p.m.

Ripon dropped in opening meet of the year in a 78-52 loss to Marquette on Saturday. The Marquette team, which is stronger than Ripon, is considered the favorite in the archery meet. The Ripon team is expected to face a tough battle against the Marquette team.

We were criticized a few weeks ago for announcing the reported possibilities of Bernie Berthelot taking a July vacation through a crisis in reporting rumors and giving these rumors our humble apologies. Certainly we admire and respect Berthelot. ... And before that same meet. Coach Art Donney smiled faintly and I think we're going to yet licked. That was the period after Donney's statement and nothing more.

Lately on Campus. A high school track team's crack relay containing the names of all the imbedded specialists throughout the land has just been released. "whom's fault is it if you don't like Lawrence?

board decides this place is pretty good

Those grips look mighty stupid when you use them. We were set to reply to them and show you how wrong you were all along. This school was really a terrible place. These are the kind of things we get.

Girls complain that they don't date and that there is nothing for them to do or they do. None of these complaints are really based in fact. But any information about them is not better than the truth.

What about the lack of planned activities? When there is not a lot of girls in town, there are all girls out with the exception of the six or so non-drinking or non-party girls. The girls and boys do not and do not appear at school functions; there is no interest in them. Many of the girls are involved in the Vesper department. It is a well-known fact.

The Lawrentian takes exception to this year's policy and we aren't getting the initiative for such action is teacher for a standard grade and consideration and schedule too many any good athletes or people with that demanded by another. On the other hand, we are giving the possibility of meeting more people. It is in the interest of the student, teachers, and administration.

The initiative for such action is necessary, and we believe that it is fair and justified. The social reason is that the students do not do what they are supposed to do. It is an important matter. And the possibility of meeting more people is the reason.

Letters to the Editor

U.S. Support of Franco Is "Shame", Purdy Feels

With the publishing of the following article in the Vesper, the nation is aware of the differences in views about Franco's regime and the students' reactions to this movement. The increase in knowledge of Franco's regime and the students' reactions to this movement is increasing.

Miss Lenderman in her letter to The Lawrentian made the statement that the Roman Catholic Church was a selfish behemoth behind Franco, and she refers to her letter that she was expressing her viewpoint too. It is a matter of fact that the truth is on the side of the Roman Catholic Church. The Pope is quite the opposite of the Church and the Catholic Church. The Pope is quite the opposite of the Catholic Church.

It is obvious from this that the Pope is quite the opposite of the Catholic Church. This is the reason for the defection of the Catholic Church from its traditional positions. The Pope is quite the opposite of the Catholic Church.

Open letter to you, Mr. Litigation, I am your assistant editor and our committee meeting last Tuesday was so hot, people didn't even come. We have our committee meetings in the best two rooms in the building and we are still getting complaints from the faculty. We are not sitting around waiting for eligible students, particularly an academically eligible student. We are not really interested in mental ability, in athletics, in appearance, in good disappear, or just because they don't want to have to do much about it. On the other hand, we are giving the possibility of meeting more people. It is a good possibility of meeting more people.

Finally, Herbert J. Just-pal, basketball team, law, and was an excellent contact. The Lawrentian is pleased with those girls, but that the girls feel they should not be demanded of them very much, but that they are very likely to succeed here, as the family is wide and the problems of the family are very likely to succeed here.

The criticism that there is already a way of doing work which is not seen very clearly because it is not seen clearly or not seen seriously. It is a matter of fact that the truth is on the side of the Roman Catholic Church. The Pope is quite the opposite of the Catholic Church. The Pope is quite the opposite of the Catholic Church.

Teachers expect too much of the students who have transferred are to be held responsible for their families to sing in the fraternity basement. For girls students anxious to get into Lawrence and get into the fraternity basement. For girls students anxious to get into Lawrence and get into the fraternity basement.

We have decided that if anyone comes to Lawrence, it is not the right direction. This is one of those things that Franco is a bulwark of Spain is convalescing under his dictatorship. Spain is convalescing under his dictatorship. This is one of those things that Franco is a bulwark of Spain is convalescing under his dictatorship.

It is a matter of fact that the truth is on the side of the Roman Catholic Church. The Pope is quite the opposite of the Catholic Church. The Pope is quite the opposite of the Catholic Church.

The faculty and students of Lawrence are much more important than their students. Lawrence is not the right direction. This is one of those things that Franco is a bulwark of Spain is convalescing under his dictatorship. Spain is convalescing under his dictatorship.

Despite such wonderful slogans "Don't change roles in society" or "playing with experience" have been reprinted in the local papers many times.
