Lawrence Enrollment Swells
Lawrence for Another Year

An entering group of 396 new students is expected next week to swell enrollment for the coming year to just under 1,060. Freshmen contributed 288 to the total, bringing the number of upperclassmen to high school seniors. Lawrence has definitely started to recapture the peak of veteran enrollment. There were 334 entering freshmen this year, compared to the 412 and 406 who entered Lawrence in the past seven years. Just this season the size of the entering class is expected to swell to as high as 400.

Lawrence, which has traditionally been the most selective of the four Lawrence colleges, has been using in selective new students at a larger rate than ever before. Last year, the number was 394 and 393 in the past two years, while this year the number was 334.

Dr. William E. Hall, dean of administration, commented on the present student body in his report at the recent convocation.

"The college is feeling the benefits of all this," said Dr. Hall, "and the student body is feeling the benefits of all this too. The benefits are going to be felt in the near future, as well as in the distant future."

In a recent survey, Lawrence was found to be the most selective of the four Lawrence colleges, with the highest percentage of upperclassmen.

Larry Gives Joe Some Valuable Rushing Hints!

By BROWN

Agrippa, Wis.
Sept. 20, 1948

Dear Joe,

It's really terrific to know that now you too are a college man—pretty showed! That football scholarship the U. came through with really put you on easy street, eh? I know your college years will really be full of the best college has to offer. With your natural ability on the football field and the fraternity fun you can really have a good four years at the school—but I mean, really terrific!

Of course, the important thing to do first of all is to make a fraternity! You should be glad to get a guy with an athletic etc. Of course, the fellows will be impressed with your natural ability on the football field and the fraternity fun you can really have a good four years at the school—but I mean, really terrific!
