The hope that we can manipulate the situation is making the correct decisions. I am glad that it was announced that this report was made on the conditions of China, I could not possibly present a solution.

Dr. Raney briefly outlined the life and culture of the Chinese people and pointed out that they live by agriculture in small villages. Of the 25 Chinese provinces, the original 21 still form the heart of the country.

‘Schuie’ Heads College Publicity; Writes for Midwest Newspapers

By Betty Burns

In any well organized college community, university, many departments, both social and business, combine their efforts to present, ultimately contributing to the success of any such institution. Here at Lawrence, one such department is the Publicity department, of which Miss Marguerite Schuie is manager.

Miss Schuie, “Schuie,” as most people call her, is not a very active person on the campus, but sure in the city of Appleton. Besides being Music Review editor and feature writer for the Appleton Post-Crescent, Schuie is contributor to many metropolitan newspapers of the mid-west. She also sends articles to the hometown newspapers of Lawrence station.

Alpha Theta Chapter of Pi Kappa Lambda fraternity, the Phi Beta Kappa for musicians, was officially installed on Saturday at the Lawrence conservatory of music when Henry Kolling, Depauw, Ind., turned over the charter to President Nathan M. Pusey of Lawrence. Kolling is national president of the honorary group. Shown are men who took important parts in the installation of the chapter. From the left are James Ming, associate professor of piano; President Pusey, Mr. Kolling, Dean Marshall B. Hubert, and Clyde Duncan, assistant professor of piano.

The problem of the disillusioned student stands near the horizon for many students. That is the problem, but what about the solution to it? While we don't pretend to have conjured up a magic formula to work our way out of this situation, we do believe that measures can be taken to prepare a student more fully for the life that lies ahead.

The faculty members in other fields than his major.

If a student in this state of disillusionment by the process of scrutinizing his beliefs, aims and ideals. We consider that the net result of a four year education is primarily negative; it mainly destroys false or weak ambitions, our bovine outlook and spineless personality. If we persist, we can only accept what others decree for us and bumble to our creature comforts. Long as we stick to our sordid little lives, we are powerless, therefore let us accept it and worm our way into the safety of sheep.

But we cannot do anything so dishonest as to distract the world from its destruction. If we pretend that we are not affected by the process, we are powerless, therefore let us accept it and worm our way into the safety of sheep.

The response in last week's Lawrentian, both editorially and in letters to the editor, to Glasner's column on final examinations was resounding. We have lost faith, and only we can be the geniuses which the world awaits to see — a little spirit of rebellion, a little honest assertion of our rights. Perhaps, if we dare to think about it, we can be the geniuses which the world awaits to see. But we cannot do anything as dishonest as to distract the world from its destruction. If we pretend that we are not affected by the process, we are powerless, therefore let us accept it and worm our way into the safety of sheep.
