Graduate Fellowships To Be Given

Twenty fellowships for graduate study in elementary teacher training are available at Goucher College, Baltimore, Maryland, for 1953-54. The fellowships, varying amounts up to $1725, are open to women graduates of liberal arts colleges who have completed training or experience as teachers.

The new program, which has been made possible by a generous grant from the Ford Fund for the Advancement of Education, will lead to a degree of Master of Education in elementary education.

Goucher-College will work in close cooperation with the Baltimore City public schools in the graduate program. The course of studies will be on practice teaching and seminar discussions of problems met in the classroom. Purpose of the program is to provide elementary teachers equipped with a rich liberal-arts background as well as fine technical training.

Deadline for applications is June 15, 1953. Address Director of Admissions, Goucher College, Towson, Baltimore 4, Md.

Nothing-nothing-beats better taste
and LUCKIES TASTE BETTER!
Cleaner, Fresher, Smoother!

Ask yourself this question: Why do I smoke?

You know, you yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

Luckies taste better—cleaner, fresher, smoother! Why? Luckies are made to taste better. And, what’s more, Luckies are made of fine tobacco.

So, for the thing you want most in a cigarette...for better taste—for the cleaner, fresher, smoother taste of Lucky Strike...

Thomas Dietrich Paints Mural
About Luther for AAL Building

BY SUSAN LAROSE

The imposing figure of Martin Luther dominates the mural designed for the Aid Association for Lutherans’ building by Thomas Dietrich, artist in residence at Lawrence. Successive states in the development of this mural are the “archetypes” of the Lutherian Aid building. Although this conception was not originally intended for a mural, it is well suited for one because of its size and content.

Mural on Sea Bottom
Another of Dietrich’s murals had a very interesting life. This mural was designed for a salon of passenger liner which was commissioned in a navy ship during the war. Since the mural had New York city as a subject, it was left on the ship to “boost morale.” It happened, however, that this was the only major ship sunk in the African invasion. It now rests at the bottom of the Mediterranean Sea. Fortunately, Dietrich’s other works did not have so tempestuous a career.

Science Winners
Are Announced

Dr. Stephen F. Darling, professor of chemistry, was in Madison recently to announce the winners in the Wisconsin Science Talent Search contest, conducted by the Wisconsin Junior Academy of Science, a division of the Wisconsin Academy of Sciences, Arts, and Letters. Dr. Darling is chairman of the Talent search committee of the senior academy. All winners are graduates from Wisconsin high schools who participated in the National Science Talent Search sponsored by the Westinghouse Science Scholarship Committee and conducted by Science clubs America.

As part of the national talent search each student passed the rigid National Science Talent Search examination and completed a scientific report on a research project.

“Luther and the Reformation” is the theme for the mural that Thomas Dietrich, artist in residence at Lawrence, is painting for the Aid Association for Lutherans’ building. Dietrich is pictured standing beside the figure of Martin Luther on the canvas which soon will be hung in the AAL building. One man’s view of Dietrich’s work, now on exhibit at the Art center, features a display on the process of making a mural.

Delegates to AAUW Event Tour Campus

Over 200 delegates of the Wisconsin division of the American Association of University Women were in Appleton last weekend to attend the annual spring convention. Representatives came from 23 AAUW branches throughout the state.

Mrs. R. B. Aispough of Cincinnati, Ohio, vice president of the northeast central region of the AAUW, conducted an administrative workshop at the art center on Friday afternoon and tours of the college and the Institute of Paper Chemistry were included in the afternoon's program.

College Host at Tea
The college was also host at tea for the delegates on Friday afternoon at the art center.

Dean of Administration Marshall R. Hubert gave the greetings at the convention's informal dinner Friday evening. Arthur L. Conrad, president of the Heritage Foundation, Chicago, was the featured speaker.

F. Theodore Cloak, professor of drama, gave a reading for the June program on Saturday noon.

Miss Edna Wiegand, professor emeritus of classics, was general chairman of the conference.

Sermon by Rev. R. Alton Sent to Voice of America
A sermon preached Sunday morning, July 6 by the Rev. Ralph Taylor Alton, pastor of the First Methodist church of Appleton, was rebroadcast to listeners behind the Iron Curtain on January 10 and 11. The sermon was broadcast to the Far East by the Rev. Alton is a member of Appleton's Committee on Human Rights, president of the Appleton Ministerial Association, and chairman of the Appleton Council of Social Agencies. He is on the Board of Trustees of Lawrence college.

Receiving his undergraduate education at Ohio Wesleyan, Rev. Dr. Alton went on to do graduate work at Boston university and Northwestern university. He later received an honorary I'h. D. degree from Ohio Wesleyan.

Don't you want to try a cigarette with a record like this?

1. THE QUALITY CONTRAST between Chesterfield and other leading cigarettes is a revealing story. Recent chemical analyses give an index of good quality for the country's six leading cigarette brands.

The index of good quality table—a ratio of high sugar to low nicotine—shows Chesterfield quality highest . . . 15% higher than its nearest competitor and Chesterfield quality 31% higher than the average of the five other leading brands.

2. First to Give You Premium Quality in Regular and King-size . . . much milder with an extraordinarily good taste—and for your pocketbook, Chesterfield is today's best cigarette buy.

3. A Report Never Before Made About a Cigarette; For well over a year a medical specialist has been giving a group of Chesterfield smokers regular examinations every two months. He reports . . . no adverse effects to nose, throat and sinuses from smoking Chesterfield.

from the editorial board

The following editorial is reprinted from the editorial page of the May 16, 1953 Lawrentian. At the spring conference meeting of the College of Liberal Arts, a proposal for athletic rules was also passed that the Midwest Student conference had no connection with the Midwest athletic or any other type of conference, paying the way for admittance of colleges of similar aims outside of the sports conference.

At that time, this also strengthened the fact that the athletic group had taken the initiative to re-admit Beloit,contrasted since 1908 on criteria of its athletic program. The constitution for the Midwest Student conference was found.

May we be able to say again, welcome back, Beloit!

we repeat:

welcome back, beloit

On May 2 and 3 (902)6, the Midwest Conference of Student Governments convened at Carleton. At this meeting, Beloit college, which had previously been on a probationary status, was voted back into the student government conference as a full-fledged member.

Beloit was suspended from the conference last fall pending the investigation of its athletic policies by the student government. Beloit's student senate voted a great deal of time to this project during the last six months and presented at Carleton a new code that elaborate rules which is a very stringent one — probably more ams and when there is time to deal during the last six months and presented at Carleton a new code that elaborate rules which is a very stringent one — probably more stringent than those of other schools in the conference. Obviously the fraternities of Ralph and Frank is a needed, healthy ingredient in student living.

Group Friendliness

But beyond these individual relationships this spirit also implicates student-group fraternities. For example: we should respond to the Macro-Market Board because it is in the interest of the athletic rules which is a very stringent one — probably more stringent than those of other schools in the conference. This action, discuss in detail the fields we are going along for the ride, must take all precaution to avoid discretion with the cars that are going to be here the next few weeks. strung out the room for improvement, but at Lawrence — an atmosphere which includes more than just smiling "hi" to the passer-by. Room for improvement

Yesterday every Lawrentian was given an opportunity to reverse the direction of the page. "There is always room for improvement;" the purpose of the teacher evaluation scale is to point out to each teacher those significant and ineffective parts of his teaching method. We realize that the results are only student opinion, but we feel that each teacher will take advantage of this constructive criticism. Only with an interested attitude will worthwhile results be obtained.

On the other hand, the results of this survey depend upon a high percentage of participation and serious cooperation by the students and the faculty. The problem we have is that of the no-car regulation being relaxed in the future for special functions. An American history professor asked his class for a list of the students who have ever had a car. The results were college students who the friendly temper. In this light problem in deciding the different policies and was over, Frank did not say, since the redefined problems are "not yet." said the student, "I showing confidence and trust in the student body. This support of campus activities, if not overcome, is part of the extended problem. In the light Lawrence must have seemed "un-lucky" last Sunday night when they could not find \\

The main sentiment of the re-presentatives seemed to be that the present system at Lawrence is entirely separate from any college's policies and therefore all the student in the student government conference and in re-entering the student government conference and in re-entering the student government conference.

an ounce of prevention...

From May 16, the date of the spring games, through the end of the school year, students will be permitted to drive cars on the Lawrence campus as long as the beginning of the school year, an additional reminder is definitely in order. Each driver must be here, and those lucky enough to be going along for the ride, must take all precaution to avoid accidents.

One accident, slight or serious, might compromise any possibility of the no-car regulation being relaxed for the future. It would serve to confirm the objections of those who hold that there is no justification for having cars on campus at any time.

This is making the most of this opportunity by using simple precautions on the extra costs, and the problems and the urgency in which they are to be dealt with the next few weeks.

won't co-operate with investigations

Dean Carl W. Ackerman of the College of Liberal Arts, in his address to the Journalism, announced last week that he would stop cooperating with investigations investigating the students "except on written request and advice of counsel."

Ackerman said Federal Agencies investigating students' political and social activities "interviewed Publicity, students of the law and teachers and references, and follow through on their own initiative, securing all that promotion and security depend upon conformity to the laws under which we operate."

Lawrentians are "tried secretaries" without their knowledge and with an opportunity to bribe, forgery or defending their records because employment by any government agency," he added. He said he "did not know of a single College of Liberal Arts, and the students rate papers in nationwide survey

The preliminary work of the Senate Planning committee is just about over. This week several members will write a formal statement of the purpose of this group, which was formed for such a senate, and the method of setting it up in the form of a petition which we are then to present for approval (two copies) by a faculty member who will be appointed to us by the president. This is the only proper way of effecting such a group in the present system at Lawrence.

Postponed Mass Meeting

Originally we planned to hold a mass student and faculty meeting to discuss the problems of Beloit on Monday afternoon. It was decided to postpone this gathering until next fall when there are more immediate local events and when there is time to discuss in detail the fields we may want to deal in.

It would be utterly improbable to deal immediately in judicial matters, Beloit College, the present system at Lawrence. Which had previously been under a probationary status, was voted back; therefore the student government conference and in re-entering the student government conference.
