Booth, Entertainment Plans for Carnival Set

Dr. Douglas Maitland Knight

Dr. Douglas Maitland Knight, who was named president of Ripon college Thursday, was awarded the doctor of laws degree from Ripon college Thursday. He was the speaker in the 11th presidential address in the history of the college.

In presenting the degree, Dr. Knight, an honor graduate of Ripon, college, was also honored in being presented the presidency of Lawrence president of Lawrence, which has grown to be one of the largest social functions of the year. Last year the Military ball had 700 guests in attendance.

Brilliant Tone, Balanced Voices Characterize College Choir Concert

BY DOROTHY DRAENEM

The Lawrence college choir, under the direction of Leonard Maesch, presented the final concert of the current Arts Series at Memorial chapel last Thursday. A near-capacity audience, the largest of this season in which television came to Appleton, gave Mr. Maesch a warm welcome to the podium and an appreciative reception to a program of unexcelled musicianship.

The brilliance of tone, balance of voices, precision, versatiliy, and warmth that Appleton audiences have come to expect from the college choir made Thursday night's concert a memorable performance and proved that the talent Mr. Maesch accepted from Dr. Carl J. Waterman, at least in a figurative sense, is in capable hands.

Maesch prefers to use the baritone technique he has developed in years of directing from the organ bench, and that it is an effective technique which was highly evident in the assured and disciplined conduct of Thursday evening's program.

The opening group, religious in feeling, began with a prayer that seemed to be an invocation but that became, equally effectively, a benediction at the close of the program, with Randall Thompson's Ave Maria opening "D Lord, Support Us." A splendid array of choral effects carried the audience swiftly through the remainder of the group, choral, with that rare result in mind.

Randall Thompson's "Alleluia," begun with a biting melody that moved into broadly sweeping lines, The "Echo Song" of Lassos was a skillful digression, the kind of thing that might have been designed to give twentieth-century choir boys a rest from more serious chores. "Silent Night" by Palestrina remained the sculpturing of a musical pyramid, with Igor Stravinsky's "Pater Noster" adding dignity and strength, and the Bach "King of Heaven" proving the exciting

INSTRUMENTALISTS AND SOLO SINGERS were in the spotlight at the concert of the Lawrence college choir in Memorial chapel. From the left are flutist Carole Wong, soprano Beverly Doeringfeld, contralto Rosemary Freeman, contralto Carole Gode, soprano Charlotte Peters Stammer, mezzo Shirlee Sayner, baritone Wendell Orr, and drummer John Steinberg.

Duo-pianists James Ming and Clyde Duncan will be guest artists at the twentieth annual MacDowell Male chorus concert to be held Saturday night at Appleton high school. Each gained reputations as soloists and composers before combining to form a piano team. Both have had original works published and have performed on radio networks here and abroad.

Woodrow Wilson Fellowship Awarded to Roger Christian

For the second time in two years, a Woodrow Wilson fellowship has been won by a Lawrence college senior.

Announcement has been made that Roger Christian, was one of four recipients of fellowships given (1) through the national Woodrow Wilson fellowship pro­gram, for young scholars showing "marked promise for the teaching profession and possessing the high­est qualities of intellect, character, and personality." Last year a similar fellowship was won by a member of the Phi Beta Kappa honorary society. The Wilson fellowship program was begun in 1945, and applies to higher education the high bureaucrats that have long been followed by business and ind­ustry. It hopes to attract to the humanities and social sciences young scholars of particular promise.

Other schools in this area which have Wilson fellowship winners are the University of Wisconsin, the University of Minnesota, and one from each of sister Midwest conference schools Grinnell, Knox, Carleton.

Christian has been particularly interested in the theater during his student days. He was a member of the Lawrence College Dramatic League, which is the nucleus of the campus theater group. He is a member of the Phi Beta Kappa honorary society.

Christian was one of 37 students voted by the Phi Beta Kappa society of the University of Wisconsin to represent the school in the national competition. He was also a member of the Lawrence College Dramatic League, which is the nucleus of the campus theater group. He is a member of the Phi Beta Kappa honorary society.

Christian was one of 37 students voted by the Phi Beta Kappa society of the University of Wisconsin to represent the school in the national competition. He was also a member of the Lawrence College Dramatic League, which is the nucleus of the campus theater group. He is a member of the Phi Beta Kappa honorary society.

Thompson, English and Drama scholar; and Charles M. Brooks Jr., architecture.

Honors Papers Occupy Seven Senior Students

Janet Spencer Gets State AChIO Award At Milwaukee Event

Miss Janet Spencer of Lawrence's Beta Theta chapter of AChIO Omega received a special award at the AChIO state play. The event was held last Saturday in Milwaukee.

Special awards were presented by inspector general, in correlating the physical structure of the cell with its "simplest function," to simplify the matter. Both the physiological and the chemical properties of the cell have been studied with a computer which is being built in Wisconsin and to which Mr. M. Brown is being advised by Mr. Darling. The computer is a new instrument, which is being designed by a team of scientists at the Lawrence Choral society.

The theme of the play came from the treatment which Pushkin had once received from an inspector general.

The synthesis of a compound in the paper industry is the innovation of Jim O'Connor. The compound, pinoyllin, is found in nature, and an attempt is being made to synthesize it using cheaper and more easily obtained compounds. He is currently being advised by Mr. Darling. The compound is a new instrument, which is being designed by a team of scientists at the Lawrence Choral society.

The award consisted of a diamond for each girl's pin, which was designed by the Milwaukee Arch of Honor.

The 'Aeneid' of Homer was studied before. Parts of the "Aeneid" were studied by Barbara Zierke, and Robert Brown, and Dr. Craig R. Thompson, classics.

The subjects of the seven students who have maintained a 2.5 average over the first five semesters of their college careers are: the "Aeneid," the "Odyssey," the "Iliad," the "Bible," the "Shakespeare," and the "Machiavelli." The last subject is the "Machiavelli," which is being studied by a team of scientists at the Lawrence Choral society.

The theme of the play came from the treatment which Pushkin had once received from an inspector general.

With spring weather come thoughts of the end of another school year, and for seniors thoughts of graduation, and diplomas, scholarships, prizes, and awards to be awarded that day. Among the seniors who will graduate with honors are seven who have been doing concentrated work in their major fields at the university. They are also given an oral examination which includes not only this work but the work of their whole major field, as well.

All students who have maintained a 2.5 average over the first five semesters of their college careers are invited to do honors work. A student may graduate even without writing a thesis, and, by doing honors work, may graduate in either the graduate or undergraduate program. This is based upon the recommendation of the committee of which Mr. M. Brown is chairman.

The subjects of the seven students range from the "Aeneid" as an estrogen, or hormone, in its structure, to the "Bible," which is being studied by a team of scientists at the Lawrence Choral society.

The 'Aeneid' of Homer was studied before. Parts of the "Aeneid" were studied by Barbara Zierke, and Robert Brown, and Dr. Craig R. Thompson, classics.

**Mystery Important Part**

**Of Tapping Ceremony**

**BY BARBARA EMLEY**

April 22 will be the day for a small group of Pi Kappa Lambda members to enter Appleton by the back door, tune in locked phones, and then at 11:00 a.m. sidle on their strait-laced course to the chapel for convocation.

Who are these people and why are they so afraid of being seen? No, McCarthy won't be in a supporting colony of lepers! These are a select group of parents who will go to any length to keep their Lawrence offspring from knowing of their presence on campus. There are the parents of the junior women who will be tapped for Mortar Board.

The element of secrecy sets the tone for the entire day. Not until they are tapped will the chosen women know that they have been selected to wear the badge of this honor society.

**Who Will Be Tapped?**

There are three basic requirements for junior women to be eligible for candidacy. First, they must maintain a high standard of scholarship which has been qualified in this campus to mean attainment of a scholastic average of three points of a point above the college average, a 1.64 this year. Second, she should have leadership ability. This includes having the discretion to recognize when to direct and when to follow, being able to work in harmony with fellow students and encouraging leadership in others.

Lastly and most important, she must have a "spirit of service" which is unstinted. She must have served her fellow students and the college willingly in various kinds of activities.

Each year Mortar Board elects "whoever and whenever they wish" from the senior women in order to tap them. These girls will be made for me... .

The element of secrecy sets the tone of the Mortar Board; Sigma must not only maintain its privacy, but keep the parents of the junior women in the dark.

Who will be tapped? There are too many to mention in this space. Let us just say that these girls are the property of the junior women, and the Mortar Board.

**REGISTRATION**

Registration will begin April 21 and end about May 15 according to a recent announcement by Registrar Miss Dining Hall. All students in college, except the graduating seniors, should contact Miss Dining Hall for appointments with their advisors before registering.

Those who do not expect to return in Lawrence and graduate may register with the registrar.

---

**Happy Easter**

Final examinations for the second semester, 1953-54, begin on Tuesday, June 1, and end at noon on Wednesday, June 9. For the week before, the schedule given below and for examinations in Music, which are given on Monday and Tuesday, June 7 and 8, respectively. All examinations will be given in the CAMPUS GYMNASIUM. Morning sessions begin at 8:30 and end at 12:00, and afternoon sessions begin at 1:30 and end at 4:30.

**Tuesday, June 1**
- a.m. Biology 36, Biology 32, Chemistry 22, French 42, Government 42, History 32, Mathematics 26, Spanish 42
- p.m. Freshman Studies, all sections; English 11A, 13B (at Science Hall)

**Wednesday, June 2**
- a.m. German 42, Greek 44, Greek 14, Greek 24, Mathematics 12A, Philosophy 34, Physics 32, Religion 32A, 12B, 12C, Religion 24
- p.m. Anthropology 22, Art 30, English 32, Government 12, History 22, Philosophy 34, Psychology 34, Woodwind Trio

**Thursday, June 3**
- a.m. Geology 22, Economics 26, Economics 74, French 22, German 2A, 2B, German 12A, 12B, Latin 22, Religion 22

**Friday, June 4**
- a.m. Chemistry 22, Economics 42, French 2A, 2B, 2D, French 13A, 11B

**Letter Winners, Captains of Winter Sports Teams Named**

Twelve Schools Enter Annual Co Relay Event

Mary Levy, relay director of the Co relay, has announced that there will be twelve schools entering the annual Co relay event at Cedar Rapids. The event is scheduled for May 1.

**CAPTAINS OF WINTER SPORTS events were named at the Athletic banquet Tuesday evening. Bill Robbins, upper left, is wrestling captain, and Ralph "Turk" Tippet is basketball captain. In the lower pictures are the swimming co-captains, Jan Jacobson, a junior and Jim Schlick, a sophomore.**

Alums Chapman, Crowder Get Commissions as Navy Ensigns

Charles F. Crowder and Edwin W. Chapman, Lawrence alums, recently were commissioned in the United States navy. About 700 NROTC students in schools across the nation were received in the United States navy recently were commissioned as ensigns in the United States navy.

**Boya Appointed To Coaching Job At Chicago School**

Don Boya, who has been serving as a substitute head coach for the last year, will become head coach of football, basketball, and baseball coaching next year at Parker school in Chicago.

Boya, who was an assistant in football and baseball a year ago while serving the same post at Appleton high school, was captain of the Appleton high school basketball team last year. He was an assistant coach in football and basketball.

Boya will be a substitute coach in basketball and football at Chicago school in addition to his coaching duties.

Appleton High Jinx Frosh: Take First in Six Events

Appleton high school track team pulled their traditional jinx on the Lawrence freshmen trackers last Saturday afternoon at Alexander gym when they downed the junior Vikings, 38-41. The Vikings started out fast with a 1-2 in the shot put and a first place finish in the 110 yard dash.

Most of the Lawrence spark was provided by Tom Kington, from Appleton high school, in the 110 yard dash. He won in 16.3 seconds. Kington also won the 220 yards in 24.7 seconds. He also placed second in the 440 yard dash.

Kington took first in the high jump with Net Johnson, Lawrence, 5 feet, 6 inches; and in the 50 yard relay; and also in the long jump, 21 feet, 13 inches. He ran on the victorious 1:10.3 relay squad; and he placed second in the 880 yard run, 2:08.5.

Vikings captured first in the following events: three points ahead of Lawrence: 220 dash—Mannebach vs. Kington; 440 dash—Johnson vs. Kington; 110 yard high hurdles—Maurice Locklin; Junior bal Copenhagen; and Disk Gust, the team's top scorer this year, were chosen most valuable.

The following received awards:

VARSITY BASKETBALL
Seniors—Ed Grosse, Leo Boyer, Carleton; Ralph Tippett, a junior, and Maurice Locklin, Jan Jacobson, Lawrence, bursar; Bill Robbins, upper left, is wrestling captain, and Ralph "Turk" Tippet is basketball captain.

VARSITY SWIMMING
Seniors—Howard with two goals.

**April 24 Opens Tennis Track, Golf Clashes**

Lawrence college opens up the spring sports season in grand style Saturday, April 24, by playing host to Ripon in golf and tennis and Stevens Point in track.

The Viking Duques are expected to be a hard, strong side, strong enough to the Viking track. The contest is a non-conference meet and for the following events: 385 yards; and in the 440 yard dash.

Firstly Spees's defending conference champs will open their season against Ripon. Spees's team is built around a nucleus of three greats. Ralph Tippett, Ed Grosse, Dick Hunt, and Elmer Pfeiffer.

Grosse's status is doubtful due to shoulder injury. However, the Lawrence track team may have a split meet.

Coach Bernie Horvitz's group also opens against Ripon. With most of last year's team returning, Horvitz is expected to bring a strong side to the Viking track.

Last February against Ripon.

No doubt won in 19.3.

Broad Jump—Klingbiel (Ft.); Chrismar (Ft.); tied for 2nd with 6' 4".

Freshman Consolation for Boys may have been clinched with the last race.

The dual exhibition between the Vikings and the Lawrence track team was a close one. The Vikings won by 3.5 points.

The course is open to women on Saturday, April 24.

The meet is open to the public and free admission.

For further information contact Dean Schoenberger.

**Outstanding Men of the Week**

Evelyn Schoenberger

Elected Rotary Head

Edwin Schoenberger, dean of students at the Institute of Technology, was elected president of the Appleton Rotary club for 1953-54.

Announcement of Schoenberger's election by the club's board of directors was announced by the outgoing president, L. E. Walter.

安装将会是建筑学、机械工程、土木工程、电子工程、化学工程、航空工程、机械工程、科学和数学。
Radio and television enthusiasts will find two books of interest on the library shelves. New editions in the field are David R. Mackey's "Drama on the Air" and "Television and Radio in American Life" edited by Herbert L. Marx Jr.

An impressive addition of fine arts books has been added to the collection. Included in the group are: "The Musical Workshop" by Dorian Frederick, Suzanne K. Langer's "Feeling and Form: A Theory of Art Developed from Philosophy in a New Key," and Olga Stolow's "The Listener's Music Book."

Math majors will find two books with which to while away the hours: "Advance Calculus" by Wilfred Kaplan and "Fundamental Concepts of Geometry" by Bruce E. Meserve.

The library has been turned into a veritable paradise for English scholars. New volumes to delight the reader are George Santayana's "Poet's Testament: Poems and Two Plays," "Chaucer the Maker" by John Sperry, "Haunted Heroes or Erotes, Orestes" by Edwin A. Roemer, "Shakespeare, His World and His Work" by Max Beer, and "Critical and Historical Essays" edited by W. J. Bultitude.

The social scientist will find stimulating material for outside information and reading in "The Negro in American Life and Thought: The Soviet" edited by Raymond W. Lauren, ad "Correlation of the Worker in the Soviet Union" put out by the International Commission against Forced Labour Camps.

New developments in the scientific field are treated in such new works as "Advance in Virology," "Annual Review of Physiology," and "The Logic of Modern Science" by Jacob R.

Radio Station to Feature Music From ROTC Ball

Tonight from 10:30 until 11:00 the AF ROTC will be on the air. As a feature of the military ball, the Arnold Air Society has arranged to run a live radio show direct from the floor of the Memorial Union. This is the first time in three years that the ball has been given that portion of it was opened to the general public in this manner. This broadcast will serve to acquaint the radio audience in the area with the events sponsored by the AF ROTC.

The show will be broadcast over stations WIBY and Cadet Colonel Ted Hill will act as host. During the course of the program various numbers that are being played to the dancing audience will be on the air. There also will be announcements of interest to the radio listeners concerning the AF ROTC here.

Illinois School Names Library Monitors

Monitors have been elected at Wheaton College, Wheaton, Ill., to keep down noise in the library. They will enforce the school's new, library code which states: "Any continued or recurring talking or whispering and, for that matter, any discourse among students would be considered a violation."

The monitors will issue "violation cards" to offending students, and two violations will mean suspension from the library for a week.

Library Receives Supply Of Non-Fiction Books

from the editorial board

skeleton in the closet

Just one big happy family? Maybe so. But no, at the signing gates there's a skeleton in the family closet. We feel that it's time to deal in open doors, a sense of responsibility, and the open truth.

"College students are children; they don't have the brains to know what's good for them; nor the backbone to do it. They have to be protected and we can provide some knowledge into their skulls."

We realize that some people might abuse the right to cut and cut themselves out of college. Because once people overstep and make themselves sick we do outlaw eating. But in an effort to be objective in the matter, we suggest this pair all sophomores, juniors, and seniors with grade points for the following past semester of 2.25 or more should be allowed to cut classes at their own discretion. All other students should grow wiser under the present cut rule.

This sensible procedure would be simple and the results "would be at least (two-fold): 1) Good students would stop griping about the stupid cut rules, and 2) Poor students would be entitled to more grades on the stupid cut rules.

We think this is a very reasonable solution to this perplexing problem. Why not try it?

motel pot

To the Editor:

I was elected as advisor to the new committee on students' activities. With that position comes the job of faculty advisor to the new campus radio station.

It's like a ridiculous small work for us, but is it a burden? Not at all. We all know today with newspapers

Radio is here to stay and we cannot just do something about it, we can do something about it. That means that the students should have a voice in this discussion. We cannot just turn around and say, "We have no idea what it should be."

The only way we can figure it out is by talking to the students. And we should talk to them about their ideas, their problems, and their dreams.

In the same issue of April 2, I was a Cassandra! The editors have no idea what's going on. They think they've got it all figured out. Not a thing is wrong with it. If it's all right, I agree.

In this case, the editors have the ball in their court. They've already gone far enough on a limb, and now they're being forced to do something because of the pressure to do something right.

I want to see this discussion go on, and I want to see the students get a voice in it.

Finally, I want to talk about the new campus radio station.

It has been announced that the new campus radio station will be ready by September 24.

This is a wonderful opportunity for the students to have a voice in their own affairs. And it's a wonderful opportunity for the faculty to have a voice in their own affairs.

I want to see the students get a voice in the radio station. And I want to see the faculty get a voice in the radio station.

The editors have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The students have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The faculty have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The students have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The faculty have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The students have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The faculty have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The students have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The faculty have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The students have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The faculty have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The students have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The faculty have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The students have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.

The faculty have already shown that they're not afraid to take a risk. They're not afraid to take a chance. And I think that's good.
