NEW CHEERLEADERS WHO WILL BE CHEERING FOR THE FIRST TIME AT THE LAWRENCE-KNOX GAME TOMORROW ARE, LEFT TO RIGHT, KAREN KRCIGER, BETH POTTS, LYNNE SEMPLE, JODY REGAN AND SUE FABER. THE GIRLS WERE SELECTED BY THE PRESENT CHEERLEADING STAFF.
Music Teachers to Hold 44th Convention Here

One-hundred fifty members of the Wisconsin Music Teachers Association will meet in Milwaukee through 15 for the convention committee meeting at the Elks club. The convention will be held at the University of Wisconsin and will last through Nov. 15. There will be a banquet at the Hotel Milwaukee.

Newly Formed ROTC Chorus Sets Schedule

The newly formed Lawrence College Air Force ROTC chorus will perform at the convention on Nov. 17, in the last concert of the Air Force's annual convention. The concert will be held at 8 p.m. at the Lawrence College auditorium. The group is scheduled to sing on Dec. 15, in the Eastman School of Music's annual还有一个音乐会, at the University of Wisconsin. The group will also perform in the Christmas Musical, which will be held at the University of Wisconsin and in then and then.
German Student Finds Life in U. S. Colleges Continuing

by KATHY RAPER

The lack of freedom of American students surprises and dismays German exchange student Fred Mundelius, Lawrence junior. According to Mundelius, the American college system suppresses individualism. Mundelius first came to the United States on an American Field Service scholarship, which provided for two years of high school study in Green Bay. Later he completed a semester's work at the University of Marburg during the summer.

Fred chose Lawrence because he was acquainted with it through friends in Green Bay. Virtue of his high school examinations he was awarded a scholarship here. He entered as a junior this fall after spending the first two years of college in Germany.

Although Fred sincerely likes Lawrence as any discerning student, he has some valid criticisms to make which he bases on a comparison with European university life. He is surprised at the amount of organization and the almost complete control that college administrations over have the students. In a recent interview he said that in Europe a student is free to decide for himself whether he will attend a lecture or go for a walk. As a student does not benefit by his exams, he is considered to be upholding the end of the scholastic program.

In Europe most of the students do not live in dormitories, but rather have their own rooms somewhere in the city. Fred enjoys the casual friendliness of dorm life, but he finds that it practically eliminates all privacy. Because of this and the strict organization of classes, assignments, and exams, he finds that he misses the times spent in exploration for himself in personal thought.

Then, too, according to Mundelius, the students in the dorm are of a more superficial kind. At a European school a student has one or two very close friends, though he misses the spirit of community living, and the sharing of broad common interests which it develops.

In short, Fred finds that in an American college too much of the students' responsibilities are assumed by the college and the faculty, and that this lends to superficial individualism. He would enjoy having fewer strict assignments, and more time allowed for personal examination. He feels that the American system exists because of our insistence on efficiency and because there are many students who do not come to college for an intellectual education.

Bad Weather Cuts Grid Gate Receipts by Four-Thirds

Cold, wet weather was attributed by college Business Manager Harlan Kick as the cause for the disappointing gate receipts at the homecoming game two weeks ago.

The total income from the sale of individual tickets at the Whiting field was $400, less than one quarter of the total from last year's homecoming game with Ripon. In that year the receipts were $2,134 and those of 1953 Homecoming against Knox were $1,192.

According to Professor A. C. Demeny, physical education department head, Lawrence's football receipts are usually better than that of the other colleges. President Eisenhower when he took over the duties of directing the non-partisan political organization on October 15.

The American Assembly, which was founded in 1908 by President Eisenhow er when he was in the United States on an American field service scholarship, has not been beset by external difficulties. President Wriston has been a trustee of the council for ten years.

In Europe, most of the students do not live in dormitories, but rather have their own rooms somewhere in the city. Fred enjoys the casual friendliness of dorm life, but he finds that it practically eliminates all privacy. Because of this and the strict organization of classes, assignments, and exams, he finds that he misses the times spent in exploration for himself in personal thought.

Then, too, according to Mundelius, the students in the dorm are of a more superficial kind. At a European school a student has one or two very close friends, though he misses the spirit of community living, and the sharing of broad common interests which it develops.

In short, Fred finds that in an American college too much of the students' responsibilities are assumed by the college and the faculty, and that this lends to superficial individualism. He would enjoy having fewer strict assignments, and more time allowed for personal examination. He feels that the American system exists because of our insistence on efficiency and because there are many students who do not come to college for an intellectual education.
Visiting Officers Offer Military Law Course to Cadets

Two reserve officers in the air force are on temporary assignment with the AF ROTC at Lawrence College to offer a three-week course in military justice.

Lieutenant Colonel Edward F. Zappan and Captain Frederick A. Fink, both lawyers from Marshfield, are on duty in Lawrence, headquarters for the AF ROTC offering the course to junior cadets.

Colonel Zappan is a graduate of Marquette University and served four years during World War II as B-17 and B-29 bomber pilot and was trained as an air教导 instructor as well. He has been practicing law in Marshfield, with the firm of Rhorer-Hassak-Zappan since 1946, is a member of the Marshfield, Wood County and Wisconsin Bar associations, past president of the Lions Club, past grand knight of the Knights of Columbus, and former alderman of Marshfield.

Captain Fink attended Wisconsin State College at Stevens Point, the University of Colorado, and was graduated from the University of Wisconsin Law School. He is a veteran and sales manager of an ice cream company in Marshfield. He served as bombardier on a B-24, was with the Fifteenth Air Force in Africa and Italy, flying 15 combat sorties and receiving the air medal with three clusters and the distinguished flying cross. He is a member of Phi Delta Phi law fraternity, Sigma Alpha Epsilon science group and Gamma Tau chapter.

Their variety of American books is not only meager, but only one or two copies of each book is available making it very difficult to study and read these books for class.

Dr. Troyer cited one instance where the class was to study "Huckleberry Finn," but only a few copies could be located which had to be passed from student to student.

The Friends

LUC proposes to send not only a variety of books but also several copies of each to help the college build a library of American literature. These books will be obtained wholesale through a local bookseller. This is an excellent way for American students to spread their way of life through literature to those who are hungry for knowledge of it.

The American Friends Service committee sponsors many other projects for Indians in the Culpeper area of Virginia, and in California, where the organization's Scout camp for American Indians is located. The board hopes to reach more students in the future and to help build the Maricopa and Papago reservations. These reservations need both at home and abroad, need books for their growing libraries, water tanks for drink, and other material necessities. Finishing this work, the LUC board hopes it will bring to mind and heart its meaning — "I shall light a candle of understanding in thine heart, which shall not be put out."

A Three-Week Course in Military justice is being taught to junior cadets in the AF ROTC program by two Marshfield attorneys, on temporary duty as reserve officers in the air force. At the left is Captain Frederick A. Fink, and seated is Colonel Edward F. Zappan. This is Colonel Zappan's second year in the teaching program at Lawrence.
Old Alum ‘Scent’ Back to Betas

As one of the brothers of Beta Theta Pi was returning to campus Sunday evening, he found a friend on the road and being loyal to friends, he offered the old boy a ride.

The Beta and his friend arrived in Appleton late Sunday evening and it was only in good taste to offer the friend a bedtime ride for the night.

Members of the chapter who have the faculty salary budget, sleep on the cold porch aware they were crazy when they entered that morning of $1,800 as contrasted with his original monthly stipend of $100.

The rude awakening came to the university libraries are in this country.

Yale Roisus Faculty Salaries, Tuition, Fees

Yale university will increase faculty salaries from 10 to 12 per cent beginning with this academic year. At the same time Provost Edgar S. Farnam announced that student tuition and other fees for both undergraduate and graduate students would be raised in order to finance the salary increases.

The largest of these averages are found in delicious fruits and other edibles!

U. S. College Libraries Below World Average

The average number of volumes reported in over 1,500 university and college libraries throughout the world is slightly over 126,000. The Lawrence college library has approximately 74,000 volumes.

The largest institutions in Europe with 260,000 vols. are: the Library of Congress, London, and Cambridge. The smallest are found in South America.

The reporting institutions include 80,000 overseas libraries.

Why do more college men and women smoke Viceroy's than any other filter cigarette?

Because only Viceroy gives you 20,000 filter traps in every filter tip, made from pure natural substitutes.

1. You only Viceroy has this filter composed of 20,000 tiny filter traps. You cannot obtain the same filtering action in any other cigarette.

2. The Viceroy filter wasn’t just whipped up and rushed to market to meet the new and skyrocketing demand for filter tipped cigarettes. Viceroy pioneered. Started research more than 20 years ago to create the pure and perfect filter.

3. Numbers on mass report that Sirled Viceroyes have a finer flavor even than cigarettes without filters. Rich satisfying, yet pleasantly mild.

4. Viceroy draws so softly that you wouldn’t know, without looking, that it even had a filter tip... and Viceroy costs only a penny or two more than cigarettes without filters.

That’s why more college men and women smoke Viceroy’s than any other filter cigarette... that’s why Viceroy is the largest selling filter cigarette in the world!

20,000 Tiny Filter Traps... plus that Real Tobacco Taste.
Coach Worries Over Starting Lineup for Dad's Day Game

By Dick Schwartz

After last week's 147 defeat at the hands of Cornell the Vikes will attempt to break into the winning columns again as they engage the Knox eleven tomorrow on Whiting field, in the annual Dad's Day game. Knox will be an easier foe for Vike football squad than was the team from Cornell. Cornell, originally seeded as one of the top teams of the Conference, has maintained its pre-season position despite the unexpected defection of its starting quarterback. Knox is not an outstanding team but when the occasion warrants its full strength, it can play good ball.

Vikes Improve

As Knox has been improving with each conflict, so the Vikes have definitely been doing the same thing. Punting, which previously this season was very weak, came up well at Cornell. The first punt was 8 yards, but the game was completed and the average punt for the Vikings was 40.8 yards.

But the improvements of the Vikes have not just been confined to punting ability. They have definitely improved on offense and in the annihilation of the weaker teams in the Conference, Presence, presently occupies fifth place in the standings.

However, Bernie Heiselton feels that the Vikes squad has greatly improved during the course of the season, and will be no easy victor for the Vikes.

Injuries, Improved Knox Team Pose Threat to Lawrence Gridders

The Lawrence Central High School football squad ended the tournament in the number one position. Pictured left to right above are, in the first row, Jim Sears, Larry Stewart, Randy Koser, Paul Brown and Steve Polley. In the second row, left to right, are John Owen, Mary Iron and Bill Wood. Last row, left to right, are Ed Locke, Joe Quick, Jim Schafer, Tom Butts, Tom Steger, Paul Morton, Kenny Ainsworth, Bert Elliott, Bert Walker and Jim Hall.

Injuries

With One Game Left to Play and a 9-0 record, the Phi Delta Theta inter-fraternity football squad ended the tournament in the number one position. Pictured left to right above are, in the first row, Jim Sears, Larry Stewart, Randy Koser, Paul Brown and Steve Polley. In the second row, left to right, are John Owen, Mary Iron and Bill Wood. Last row, left to right, are Ed Locke, Joe Quick, Jim Schafer, Tom Butts, Tom Steger, Paul Morton, Kenny Ainsworth, Bert Elliott, Bert Walker and Jim Hall.

Injuries

Fridays' game, commented that had breaks and injuries been prevalent factors in the final decision. A fumble on the one-yard line, and a total of 62 yards were recovered by the Vikes, nullifying the 147 defeat handed down by Cornell.

Injured List

Bernie's major worry in tomorrow's game will be the starting lineup. Six of the top Vikes are presently on the injured list, and are doubtful starts. Dick Rine, suffering from a neck injury, will probably be replaced by Carl Wieland. Tom Steger, who was put out for the first two games of the season, suffered a bruised rib, and is also a doubtful starter tomorrow.

Others on the injured list include, Gary Mallory, Mike Willis, and Bob Jones. Bernie's chances of starting are perhaps the poorest of all. His injury has bothered him all season, and has not improved as expected.

While injuries have not plagued the Knox squad, they seem to have had troubles of their own. After a slow start, they gradually gained momentum and are constantly improving. In last Saturday's game Knox succumbed to Grinnell 13-12, in a well-fought game.

Knox's team is not characterized by any exceptional player or group of players. It is a well-balanced squad composed of men who when the occasion warrants it, can throw the ball fairly accurately. This, perhaps characterizes their whole squad.

Phi Delts Clinch First in Football Naucal Football	

Last Friday afternoon the Phi Delt 66 knocked out the Bowdoin 69 in a third place tie.

The Sig Eps are in fifth place with a 3-4 record. They conquered the Phi Taus Thursday, in a very loosely played ball game. They were beat by the Delta Sts 8-2 and the Phi Dels 64. It appears as if they are in fifth place to stay. The Phi Taus were pushed a little deeper into the cellar resulting from their three losses. They have the Sig Eps Sts and the Phi Dels. 46, Monday without the services of Hal Hofstetter, Tom Butts, who was out for the season.

In addition to being first in football, Phi Dels also hold the honor of being the Greek league with the best record in Brown, and has almost as large a list of members as the Phi Dels. They have a few more men who when the occasion warrants it, can throw the ball fairly accurately. This, perhaps characterizes their whole squad.

Injuries

By beating the Delts clinched the championship of the Greek league with an overwhelming victory over the Phi Taus. The Vikes held the Betas 16-0 on September 16th at the coliseum. The Vikes also beat the Betas 60 and the Sig Eps 60 on Thursday, and Monday, respectively.

The Institute is 6-2 in second place. They won on the Bettas' turf from the Phi Taus and the Phi Dels. They beat the Betas 84 and the Vikes Friday. It was a victorious weekend for both the Institute and the Phi Dels.

The Betas, 5-4, are in third place by virtue of their 68 victory over the Betas. Monday. They also tripped the Sig Eps Friday but forfeited to the Institute Thursday when they were forced to field a team.

By beating the Betas the Delts have a good chance of capturing third place with just one game remaining. The Betas, are in fourth place as a result of three setbacks last weekend. They lost to the Phi Dels 68 in the Institute Friday 80 and Monday the Delts suffered.

Lose to Cornell 14-7

Injury-Riddled Vikes

Rine, Goller, Steger Out, Manthey Scores

AAG
BY BORRIE AND MAR

Last Friday dawned cool and clear...a perfectly pheno-

menal day for Lawrence's fast finning females to display their prowess in the inter-class swim meet. With sparkling glasses and bikinis in hand we were all set for the nifty night when LO BEHOLD the news came!

The long awaited swim meet managed to take place. For days past, Mrs. Bateman and three hours prior to the time of the first race, Mr. Hagen and the Officer Candidate were wondering and wishing on the light fingers busily at work in the Pi Phis. Win or lose the spirit was spirited and we will keep on winning right here on our own campus gym. The absence of the students was spunky and the crowd attends a special ten week program. Anyone interested may contact Mrs. Bateman at least two or three hours prior to the time of the first race. She will inform of participation.

Aqua Phi members plus WRA board members plus interested, interested athletes...a starting twelve girls. Who would imagine a thing like that happening right here on our own Lawrence campus? With fast falling spirals we returned to the union (home of all loyal AAGs) to bellow over the space we had wasted publishing this slighted event.

It seems that in the past few weeks there have been many light fingers busily at work in the campus gym. The absence of a loud speaker and the volleyball posts are creating irritation among certain instructors who work in this honorable building. If in your wanderings you encounter these objects, please reduce irritation by reporting your find.

WRA Intramural Manager Jean Timmerson is fast at work now with the advent of inter-class volleyball and the present progression of the badminton and tennis singles. It is hoped that in the future if any individual or team has knowledge of a forfeit, she will inform Mrs. Bateman at least two or three hours prior to the time of play. This will limit waiting, wondering and wishing on the part of timers, scorers and refs.

Hockey News

The Delta Gamma housed to the Pi Phi last week in a close 3-2 loss, cinching the winning title for the Pi Phi. The Pi Phi claim the honor with a record of four wins and one tie. The KDs placed second with two wins, one tie and one loss, while the DGs won three and lost two to stand in the third notch.

The opposing sisterhoods came en masse for the Pi Phi-DG game. Could it be that there exists a standing rivalry among these refined young women? For such has been the thought here in Lawrence. They seemed to be on edge of a forfeit, she will inform of participation.

Aquarius members plus WRA board members plus interested, interested athletes...a starting twelve girls. Who would imagine a thing like that happening right here on our own Lawrence campus? quizzing for day?

Just how much of an honor is it to be Homecoming royalty? As it now stands, the queen and her court are

chosen by a minority and have few responsibilities and duties as compared to the extensive school-wide home-

coming program now in effect.

Royalty makes two appearances, at the game and at the dance, and otherwise goes unnoticed for the majority

of the homecoming activities.

Homecoming at Lawrence is a campus wide activity with friends and alumni returning for the event. The program is innovative and well planned. Why should not the queen and her court take part in these activities?

As royalty for the weekend, the queen and her court should act as representatives of the school and hostesses for the activities. They should assume duties that would make them an integral part of the activities.

Tradition decrees that the queen should be kept a secret until the Homecoming game, but activities for the weekend officially open with the Homecoming convocation on Thursday morning not afternoon. The queen and her court should be a part of all the activities instead of just two of them.

As representatives of the school, we feel the queen and her court should be honored by the whole school. Football is the theme of the weekend and it is only right for the queen and her court to nominate the candidates of their choice but make them an integral part of the activities.

The queen and her court should be school representatives with personal and school spirit as well as personal appearance.

Elections should not be preceded by campaigning but the candidates’ pictures would be displayed in a group of prominent places on campus, as in the lobby of the Union and in the library and perhaps in the entrance to main hall so that the campus may become acquainted with the women.

Elections would take place at the Homecoming convocation on Thursday morning and the queen and her court would then be announced at the conclusion of the pajama parade skits and the queen could present her court.

They should appear in the parade Saturday morning, either on a float or in cars, appear at half-time to be crowned and continue with the duties they already perform now.

As representatives of the school they should act as hostesses of the reception following the game and be present to greet the students, alumni and friends. Her final duties would be the presentation and the cutting of the cake for the Homecoming Dance.

The queen and her court should be school representatives that take a leading part in Homecoming activities, not just incidentals of the weekend.

from the editorial board

the charity drive

Lawrence United Charities, or LUC as it is more commonly known, is an organization that attempts to perform those charitable tasks that the individual student is not equipped to carry out successfully alone. Giving, on an individual basis, should not be minimized in importance, but the values of charity on a group level has obvious merits.

The Lawrence United Charities board is an organized group of students whose purpose is to represent Lawrence college, and to enhance the lives of the world around us.

LUC offers the student body the opportunity to participate in a cause. The board has set up the drive to eliminate every situation to give except the one they feel is most important: that is, the individual’s honest desire to help others to the extent that he is able.

Lawrence United Charities permeates itself not with the idea that charity is a form of social taxation, but with the theory that you DO want to help. The purpose of LUC, that our life here is as important, as our life in the rest of the world will be later. At the same time I wanted to get out the real danger of submerging one’s self completely in the intellectual life.

BY GEORGE REINHARDT

If you were to scan the Lawrence family out of "the blue hunk known as intellectual indifference," you would

disagree with Mr. Hesling’s Melting Pot criticism that our life here is as important, as our life in the rest of the world will be later. At the same time I wanted to get out the real danger of submerging one’s self completely in the intellectual life.

The resultant column had to be cut because of length. This
