As the law has not been too many entries in the "What’s Kiwifruit Mean to You?" contest, that perhaps many people are unaware of its existence, the judges will cut the entries to 30 words or less. Therefore, we have discouraged entries and will limit it to 30 words.

Context and the queen will enter this essay in the T. Hunting’s essay contest.

Former Lawrence Joins Spanish Staff

From the University of Minnesota, where he received his Bachelor of Arts degree in 1955, and then transferred to the University of Florida, where he received his B.A. and M.A. since he was a graduating student at Lawrence, he has decided to pursue a career in the field of business and industrial relations.

In 1953 Miss Emmons toured Brazil for two months, under an agreement with the U.S. government, as an advisor to the Brazilian government, and as a member of the NECO concert series and a soloist at the broadcast station for the University of Florida.

Her work has taken her not only throughout the United States, but to Europe and South America as well.

Mr. Winslow attended Lawrence during his M.A. studies, and was the Carnegie Hall soloist for the last season.

Mr. Winslow spent two years in Mexico City where Winslow graduated in Spanish at Northern State College.

Since it states in the Constitution that SEC should be necessary to revise and continue the charter of SEC, in theory, the SEC President should have a say in the appointment of the SEC President.

Rip Up Ripon

Ripon's homecoming laurel Lawrence and Whiting Field tomorrow as they engage the Vikes in our Homecoming game. The powerful Ripon eleven, the only winless team in the conference, is expected to spoil the Lawrence festivity. Times are rated not less than 3-0 touchdowns. But the Lawrence team will definitely be "up" for this one so anything could happen in the way of surprises.

Lawrence has had two weeks to ready themselves for this one as they had an open date last weekend. So far this year the Vikes are winless in two starts, losing to Coe 16-14 and to Grinnell 31-24. Ripon, on the other hand, are希望能够 in conference play. Last week they killed Grinnell 48-0, and also beat the Ons 40-7 and lost to Coe 14-6. Thus both teams have played two common opponents, Grinnell and Coe.

Ripon has 16 returning letterman back from last year's Mid-Continental Conference champions. They played three on the All-Conference first team; they were Dick Catelewski, halfback, Dave Smith, fullback, and Pve Kavan, end. Catelewski led conference scorers last year in extra points with 14. Lawrence should be at full strength for the game. Jim Leatham's shoulder has improved so he should see some action. Tom Gehlmann, Vike halfback, who has scored all of two touchdowns this season, has not played in the last year. Leatham's shoulder has improved so he should see some action. Since St. Olaf won last weekend, Lawrence is the only winless eleven in the conference and hungry for a win over the Redmen. Lawrence has had two weeks to prepare for this one, but Ripon has an open date last weekend. So far this year Lawrence is rated the definite underdog. On paper the Vikes look like 20 to 27 point underdogs, but the Lawrence team will definitely be "up" for this one so anything could happen in the way of surprises.

Attic Players to Present Tennessee Williams' Hit Play

Because of its summer success, the Attic Theater Group will present Tennessee Williams’ “Summer and Smoke” to the Lawrence student body. The play will begin the college theatrical season on October 17, 18 and 19 in the Viking Room of the Union.

Students will receive a special rate of seventy-five cents per ticket and it is advised that reservations be made with the Box Office at Belling’s.

The Attic Theater Group has enjoyed extreme popularity for nine summers in this area. Although its headquarters are in Appleton, it is truly a cross-section of fine talent from the surrounding communities. Mr. F. Theodore Cloak, professor of English at the college, is the director. His wife is the director.

The play has added interest for the students since two alums of the class of ’62, portrays her father. Neal Dohr, ’64, has an important part as a Mexican girl and Tom McGuire, ‘63, portrays her father. “Summer and Smoke” is one of Tennessee William’s most electric and provocative plays and is comparable to his renowned “Glass Menagerie.” It is the story of a somewhat puritanical young Southern girl and an unpuritanical young doctor. They are attracted to one another but because of an antagonistic attitude toward life, each over the course of years is driven away from the other. This production enjoyed ten highly successful performances this summer and a repetition of this success is anticipated at Lawrence.

Seniors of 1958-59 topped the scholarship averages of the classes of ’60 and ’61 for both semesters and the year during the 1957-58 season.

Averages were as follows:

who is right?

What is the deferred rush? In the minds of most of us right now, it is a principle. We may favor or oppose it, just as it's just a principle for the Greeks have talked about it, to be sure, but it has never gotten past that stage. Deferred rush could last one week, two weeks, nine weeks, one month, or a whole school year. The entire process could be deferred, or just the formalized act of pledging. All these ideas have come from the editor's desk.

What about "dirty deferred rush"? Many authoritative sources have stated that dirty deferred rush would not exist under deferred rush. Therefore we could have a "too-hold-barred" type of deferred rush, or we could place any number or combination of limitations on it as to when, where, and where righting would be considered "dirty." Below are listed side by side five basic arguments for and against the PRINCIPLE of deferred rush, as gleaned from the Laurenian freedom fighters and other groups.

To the Editor

From Cornell College comes the news that among its new students there is a young Hungarian, Freedom Fighter, GẢ з G8з з, who is being sponsored in this country by a faculty member. The college is located in Hungary, it is alive and free, but its problems are many and its freedom fighters need protection.

Why do you vote yes or no on such an important issue? Is that "real democracy," or what? It is a matter of principle.

The Exchange...

From the editor's desk

desk's a matter of principle

Who is right? President Bill MacArthur's LEGAL grounds for proposing deferred rush are indisputable—IFC and Pan-Hell would admit to this. I read, What is the issue, though, the A R I S T O T L E S of bringing the deferred rush to the student body at this time?

Politically speaking, it is difficult (if not downright impractical) to vote on a principle. Your idea of rushing may be much more sensible, and that of the IFC-Pan-Hell group's it has in mind—is for a definite plan to be worked out before it is presented to the student body.

CYN

1. Those rascals who are confused shouldn't hold back the rest of the class from pledging. As rushing is new, the undecided ones can wait without incomprehending the rest.

2. Deferred rush would open up a whole new field for dirty rushing. The campus would become a "chaotic mad house" for the freshmen.

3. Deferred rushing would cause the inter-fraternity council to be in the classroom against the first time a group is brought up. The fraternity system have a chance to build up its own people, which in a decided advantage.

4. Deferred rushing would cause the ad frater to become financially hazardous, because pledging would be on first semester dues for freshmen.

5. Deferred rushing would be bad for Greek-group unity, because less would be in the fraternities and sororities, which would be the risk of cliques forming.

This is the position the Greek hierarchies have adopted now that they are faced with the eventual implementation of a referendum vote, but that to feel that THEY and THEY alone are qualified to decide whether or notLawrence will EVER have deferred rushing. It is here that the question of "power struggle" enters into the picture . . .

We suggested to MacArthur that the so-called Co-ordinating Board, consisting of SEC, IFC, Pan-Hell, LWA and the LAURENTIAN might attempt to resolve the conflict, but we were informed that the Co-ordinating Board has ABSOLUTELY NO POWER . . . it can only "discuss." (MacArthur's Wednesday evening edition of the Laurenian on this point is in issue.

The time—and still do—that the ONLY body with even a shade of a claim to power in straightening out the current mess is, and always will be the Co-ordinating Board. When two or more separate citizens are each other's threat it makes a lot more sense than a "higher authority," than let to the stronger of the two emerge with a dubious victory. It is that the question of "power struggle" enters into the picture...

The Lawrentian is published every week during the college year, except university holidays. It is published at the Lawrentian Press, Williamsport, Pennsylvania, by the Williamsport Press Company. The Laurenian carries no paid advertisements. The Editor in Chief is Responsible for all contents.
