Finned Women Protest Move

The newly formed League of Greek Women, on the basis of a bit of sentiment and concern for the women's housing of tomorrow, the Lawrence Campus has registered an official protest with the faculty and the Board of Trustees. Calling the move "futile, useless, and underhanded," the spokeswomen for the group announced their determination to fight what they consider a "grave injustice." They plan to protect theQuad, Main Mall, and the Chapel during congress by burning signs labeled "Down with Wizardry in our Campus! Let's Go Back to the Greeks."

Actually, I find this quite regrettable for the system was springing up since the announcement of the formation of the first group. The League of Girls Pinned to Men on the Square Concept was Not Represented on the Lawrence Campus. Nothing was done to counter-measures. The spokeswoman for the group declined to enumerate the plans, nor did she reveal if the group is small, but we have the qualities.

Much Campus Comment Is Heard; Reporter Finds Different Views

As could be expected, the recent Faculty Board lecture series will now "almost wholly voting." When questioned, Mr. Durig wondered: "Were they still around?"

Mr. McKeen expressed similar views by saying: "What are you going to do about this, Mr. Lawrence?"

Mr. Shetford could only mutter: "Campaign out of state, out of town.

John Roney should not be contacted. The inactive alumni had been activated and had all ready tied him to a certain fraternity house door and were using him for a desired target, and their old pipe and dare say, "Oh, am sure you saw this party?"

Mr. Aller had one suggestion: "Don't you sharpen that point a little, please?"

John Rosebush could not be contacted. The inactive alumni had been activated and had all ready tied him to a certain fraternity house door and were using him for a desired target, and their old pipe and dare say, "Oh, am sure you saw this party?"

"Let's Go Back to the Greeks."" What Can One Do with a Beta Liberty, Equality, No Fraternities

In a joint session held yesterday representatives of the faculty and the Lawrence Board of Trustees voted to abolish the six fraternities and six sororities on the Lawrence campus. The official ruling, which is to take effect within ten days of yesterday's meeting, calls for the cessation of all fraternity and sorority activities. The Greek groups must release all their members from affiliation with the local chapters and inform their national organizations of their decisions to become inactive. The ruling does not apply to departmental or honorary Greek-letter societies, because of "their constructive character."

The financial affairs of the fraternities and sororities will be cleared through the office until such time as the respective groups are able to. Speaking for the joint faculty-trustee committee, a spokesman said that the decision was made after a serious consideration of the "Lawrence Problem."

"He asked the committee to consider the dilemmas of Greek groups and to recommend to the faculty and the Board of Trustees. The committee is in the committee that "our reactions have been largely prompted by the desire to take the decision and to avoid the conflict and the inconvenience and the inconvenience of the decision."

He said that while the decision will blanket the campus with countermeasures, the LWA will still function with no more drinking and thus no more expenses. He said that in examining the ruling rule sek that the national groups and the local groups will observe the regulations and that the LWA will still function. The LWA will still function. The LWA will still function with no more drinking and thus no more expenses. He said that in examining the ruling rule sek that the national groups and the local groups will observe the regulations and that the LWA will still function. The LWA will still function with no more drinking and thus no more expenses. Dr. Knight Finds No Alarm; Enrollment to Increase Soon

"We hit our low point in athletics a few years ago, and from all indications it appears to me that we are on the way up."

President Douglas Knight, thus faced the athletic situation with optimism and encouragement. He did admit, however, that the athletic teams suffered from the increased academic pursuit of the school, but cited several ways this would be rectified.

Most important, he felt was the fact that enrollment at the college would soon be expanded to about 3,000 students, this increase being hampered by a smaller enrollment than many of the conference schools. With an increase in the number of males on campus, he is confident our high schools, may have had on our athletes in the past four years. So while we will not have enough balance, there will be nothing to lose but a few men, as we are just in our own way, the past four years. While we may be one of the athletes in every sport, there will be nothing to lose but a few men, as we are just in our own way, the past four years. While we may be one of the athletes in every sport.

The past several years have been some good ones for Lawrence, and we have had enough balance. There is always a real pressure on every athlete to perform at his best, and we are always trying to get a first place finish. There will be nothing to lose but a few men, as we are just in our own way, the past four years. While we may be one of the athletes in every sport.

The indoor track team traveled to Beloit last Saturday to compete in that meet. The Vikes topped 5-0 in their first meet of the season, and should continue to improve at any conference. The indoor track team traveled to Beloit last Saturday to compete in that meet. The Vikes topped 5-0 in their first meet of the season, and should continue to improve at any conference.

The most important thing is that Lawrence has some good athletes in every sport, and they are always trying to get a first place finish. There will be nothing to lose but a few men, as we are just in our own way, the past four years. While we may be one of the athletes in every sport.

While we may be one of the athletes in every sport.
from the editorial board... 

Frenzied Fragmentation, Conclusion

The Light That Did Not Fail

Now we may finally close the book on Frenzied Fragmentation; the Lawrence Problem has been solved! Only one question remains: why didn't we think of this before? Indeed, as President Knight has told us "Have faith." Would that we had! The Lawrence Problem has been shown to us the way, and we wish to give them thanks from the bottom of our hearts.

We hope to see now the creation of Eating Clubs in the future, such as exist on the Harvard campus. After all, we ARE the Harvard of the Midwest. We feel that this will partially fill the void created by the abolition of Greek groups, filling it in a constructive and Ivy League manner. We also hope to see the creation of more clubs such as the Tuesday Morning Club.

Looking into the future, we also see, as the result of the wiping out of fraternities and sororities, the abolition of the drinking problem which regrettably exists here at Lawrence. As a by-product, the problem of permitting liquor on campus will also become past history. After all, it's a known maxum: no more fraternities, no more drinking.

This new policy will have a definite effect upon the LAWRENTHIAN. We will now try to have more creative material in place of the space left void by the now defunct Greek groups. We are open to suggestions, of course, but we see in the future some of the following; the weekly appearance of a selected Freshman Studies, themes, textbook novel, and movie reviews (we regret the impossibility of film reviews due to Appleton's lack of a Broadway-off Broadway, for that matter); columns by Walter Winchell and Dorothy Kilgallen with comments from Jack Paar; bridge tips by Charles Green and Oswald Jacoby; "Chess Made Easy" by North House residents; andoppining columns: "Nixon for President" by Dean Hubbard, and "Kennedy for President" by Dean Hubert. Perhaps Peanuts and Popeye cartoons could create diversity.

Yes, all in all, we feel this move by the faculty and trustees to have been a wise one. We thank you for turning up the formerly-fading light.
