Dr. Knight and Assembly Produce Book On Federal Government and Education

President Douglas M. Knight recently attended a four-day meeting of the American Assembly in New York, at which time the volume which he had been editing for the previous year was formally presented.

"The book, The Federal Government and Higher Education," has been in the process for more than a year, and in addition to editing the work, Dr. Knight is the author of two of its chapters. To gather material, he spent some time in Europe this winter, discussing the problems with experts in Britain, France, Italy, and other European nations.

The American Assembly was established in 1940 as a national, non-partisan, non-profit educational organization to promote understanding of the American political system; the promotion of international understanding and cooperation; and the encouragement of activities that would foster a more just, equitable, and democratic society.

Recent reports of the Assembly include:

Meet: Lawrence 79; Beloit 55; and on Wednesday, Joe Lamers and Bill Meyer in the javelin, Saturday were A 1 Bond in the 440.

Kipon meet with a toss of 136 ft caused considerably in both and one first in the shot put took a third in the mile.

Don Emerich helped the Vike squad considerably in both the Triangular and one first in the javelin with a time of 2:04, but Bob Chase, Beloit's, in the discus throw of the Ripon meet, and the 200 yard dash and the 220 yard low hurdles in the triangular.

Other Viking winners on Saturday were Al Bond in the 440, and Bill Meyer in the javelin, and on Wednesday, Joe Lamers and Ripon and Beloit in a triangular meet with a toss of 136 ft caused considerably in both and one first in the shot put took a third in the mile.

In the Triangular, Ron second to Pinkerton in the mile Track record, tie also finished 3rd in the two mile.

Base Ballers Top Ripon Twice; Vikes Drop Two Tilts to Beloit

On May 11, Wally Krenger and Jimmy Schuele combined to produce 9th inning heroics as the Lawrence base-ball team beat Ripon 6-3 for its first win of the season and second victory in Lawrence College intercollegiate base-ball history. The Vikes flew an early run lead but relief pitcher Dave Thompson managed to stem the tide and gain the victory.

In their first win of the season on the Vikes presented a well-balanced attack with many of the first and second nine used by Lawrence at least one hit while Scripps had none Lawrence stranded only five batters compared to Ripo n's 12. Vike pitching was good except for the 4th and 7th innings. Frank had given up only four hits and walked none up to the 7th inning. But in the 7th he gave up two hits and walk in the last two innings he pitched.

Lawrence scored a total of 21 runs against Bond last Saturday but it wasn't enough to win any game. The Vikes lost the first, 15-17; the second, 4-2; Every Vike starter in the first game had at least one hit and all but 1 of the 11 men used by the coach managed at least one hit while Scripps had none three runs two hits and two walks in the last two innings he pitched.

When asked if he had any comments on the double drubbing Lawrence took from Beloit, Coach Boys said any remarks he might make would be "unprintable."

Frosh Tracksters Win Two, Kersemier Dazzles Crowd

In Tuesday's meet the Vike frosh looked even more impressive. Without two of their best trackmen, the Frosh still came through for a re-point margin of victory. A key performance by Mike Pfeilung helped pull the team through to victory. Kersemier's victory also compensated for Mike's absence due to lack of training.

Don Kersemier again turned in a classy performance as he won the 100 yard in 9.85 as well as the 220 and 440 yard events. Pete Switzer scored three times for the Phi Delts, winning the 120 yard low hurdles in 15.1 seconds, the 220 yard low hurdles in 25.1 seconds, and the Big 810 yard run with a time of 3:54.2. The 17' 7" leap by Dave Black and the 120 yard hurdles in 8.3 seconds and clearing 5' 4" eight feet with no misses. Chuck McMillan's 39' 4" put on the shot for the Sig Eps.

The Phi Delts won eight of the 10 events, the Betas won two, and the Vikes won two.

**Quad Squads**

The interfraternity track meet, originally scheduled for May 7 and subsequently postponed because of cancelling rain, was won by the Betas. Pete Switzer scored three times for the Betas. Pete also scored the first place in the broad jump. Pete's 5' 8" jump bested the previous record of 5' 6" established by Ripon's Hendricks coming in fast and Carey remained running and took second by inches.

**Golfers Win 2 Of 5 In State**

The Lawrence golf team collected two victories and three losses during the past week. Last Saturday the sheppers lost to Ripon 10 to 9, but beat Knox 7 to 12 to Lawrence's another victory. The conference meet was scheduled for May 13 with a small crowd in attendance.

On Monday the squad played their first home match of the year against Beloit College. The Vikes placed second in a 12 hole regular meet played on the day before by beating Notre Dame 190 to 115. In order to play the full eighteen holes they had to play the back nine twice as the first nine was under water. Kersemier and Switzer both shot a 79 and Knox won with a total of 72 points in the meet.

**Quad Squads**

Don Kersemier continued his winning ways as he won the 100 yard in 9.85 as well as the 220 yard low hurdles in 15.1 seconds, and the 220 yard low hurdles in 25.1 seconds, and the Big 810 yard run with a time of 3:54.2. The 17' 7" leap by Dave Black and the 120 yard hurdles in 8.3 seconds and clearing 5' 4" eight feet with no misses. Chuck McMillan's 39' 4" put on the shot for the Sig Eps.

The Phi Delts won eight of the 10 events, the Betas won two, and the Vikes won two.
The MELTING POT...

MR. STEENBECK: Be your letter, I am not in a Greek group nor do I sympathize with its discriminatory policies. However, I shall be discussing the problem of racial discrimination in more than the last paragraph. Your challenge is not a very good one of fact value, so I shall take the liberty of wording some possible implications.

If by demanding a "reasonable defense of restrictive clauses and practices" you are requesting a rational defense of unreasoned prejudice, your proposition is entirely unworthy and frustrated. Your intention cannot be this for you will be able to grant the premises which such an irrational or ill informed defendant would present. Truth you do not need to challenge anyone along these lines; it is not necessary.

The course of your letter appears teaching the "mind" of the average educated American belongs to the epitome of such a demented persons.

Before expecting an answer Mr. President chapter and your entire family and improved school spirit. We know that the performance of any other effect from will be improved if it has the additional support of the group. If we have the advantage, we must pressure our schools for action. This is our job to pressure the active support from Lawrenceville.

In the past we have to transport a large number of students through all home Lawrence College and other activities that are away for which we do not have the resources to provide adequate public transportation in an amount to accommodate the number of students who are experiencing enrollment taking place. We hope next year to provide transportation and an attraction for students.

We have noticed how football games are attended by a large number of fans and that many of these fans are of the same groups. Perhaps this may start with the fans of one group, but will grow to be a normal part of our school life. From the above, it appears that the Lawrence team and student organizations should be an added attraction that will be in attendance at home basketball and basketball games.

However, almost any one who attends Lawrenceville will mention a favorite and in our case fans of the student body. We cannot lead one group of you to the hand."

In the recent article published in the Lawrenceville's "What's News" and in the recent letter to the editor, this is our job to pressure the active support from Lawrenceville.

Mr. President, as I have learned to know it, consists of over 15,000 men. It is not the opinion of the majority of men in the club that the spirit of the student body. We cannot lead one group of you to the hand. This must be accepted by the whole student body. We cannot lead one group of you to the hand. This must be accepted by the whole student body. We cannot lead one group of you to the hand. This must be accepted by the whole student body. We cannot lead one group of you to the hand.

LAWRENCE UNIVERSITY

ROBERT BLAND

In answer to the request of the President of Pop Council wish to bring the Lawrence family to realize that we intend to do in our present organization instead of improving our school spirit. We know that the performance of any other effect from will be improved if it has the additional support of the group. If we have the advantage, we must pressure our schools for action. This is our job to pressure the active support from Lawrenceville.
